

# Heaslip Road and Curtis Road Intersection Upgrade

## Project update

**We are delivering road safety upgrade and improving congestion in Angle Vale**

Enhanced safety and access in Angle Vale

Greater pedestrian access

We are constructing a dual lane roundabout at the intersection of Heaslip Road and Curtis Road, Angle Vale to support population and economic growth in Adelaide, while improving road safety and easing congestion. This upgrade will support population and economic growth in Adelaide, improve road safety, and reduce congestion.

This \$30 million project is jointly funded by the Australian and South Australian governments (50:50), with the Australian contribution funded through the \$1 billion Priority Works Stream and Housing Support Program (HSP).

### What's happening

To accommodate important infrastructure upgrades being carried out by SA Water in the northern suburbs, construction of the roundabout is now expected to commence in the second half of 2026.

We continue to work closely with SA Water to coordinate and prioritise works across the area to minimise impacts to the community as much as possible.

## OFFICIAL

More information about the SA Water program of works in the northern suburbs is available on their website : <https://watertalks.sawater.com.au/growing-our-water-and-wastewater-network>.

A project update will be distributed in advance of roundabout construction works commencing.

Thank you for your patience and understanding as we deliver these important upgrades.
