

Richmond Road and Railway Terrace Intersection Upgrades

Project update – July 2026

We are upgrading the Richmond Road and Railway Terrace intersection to make it easier to travel between the western suburbs and the city

This project is part of the \$850 million package of Broader Network Upgrades, funded by the Australian and South Australian governments as part of the River Torrens to Darlington (T2D) Project.

The \$70 million intersection upgrade will address current congestion and increase future capacity for this important intersection.

About 36,000 vehicles currently travel through this major intersection each day and increasing its capacity is crucial with Richmond Road's positioning along the T2D motorway between the northern and southern tunnels.

Project benefits

- Ease congestion with less time stuck in traffic.
- Make it easier to travel between the T2D motorway, western suburbs, Airport and the City.
- Improve access to major shopping and sporting precincts at Mile End.
- Improve safety for cyclists and pedestrians.

Project features

- Widening the intersection to accommodate new dedicated right and left turn lanes onto Railway Terrace (northbound) and two dedicated through lanes for travel in both directions.
- Widening Railway Terrace, with dedicated left turn (eastbound) and right turn (westbound) lanes onto Richmond Road.
- Extending right turn slip lanes at Ashford and Hampton roads.
- An extra lane on Richmond Road (westbound) between Railway Terrace and Keswick Creek to provide two lanes in each direction along the length of Richmond Road.
- New dedicated bicycle lanes on all approaches to the intersection and on Richmond Road between Railway Terrace and Anzac Highway.

See the design plan overleaf and the [project webpage](#) to view the project animation.

Richmond Road and Railway Terrace Intersection Upgrade – Design

Upcoming activities

Early works

Early works will commence from late July 2026 until early 2027. Activities will be undertaken both during the day and at night.

Works will include:

- Set up of the site compounds and laydown areas (corner of Richmond and Croydon Roads).
- Service locating and stormwater investigations.
- Electrical and telecommunications services works.
- Installation of new stormwater drainage.
- Site clearing and minor vegetation management.

Night works will be undertaken to help minimise impacts to road users. Advance notice will be provided throughout the project.

How this affects you

Richmond Road and Railway Terrace will remain open to traffic during these works.

To keep everyone safe, speed, lane and footpath restrictions will be in place as required. Please follow traffic management and onsite signage.

Access for emergency service vehicles will be maintained at all times during these works.

Access to businesses and properties will be maintained during these works. If there is a need for short-term access impacts, advance notice will be provided.

Some noise disturbances can be expected at times, however we will minimise this wherever possible.

Bus Stop 2 Richmond Road – North side will be closed for the duration of the project. Please observe onsite signage for alternate bus stop locations. For more information on bus services and stops, visit the Adelaide Metro website at www.adelaidemetro.com.au or contact 1300 311 108.

We thank you for your patience during these important works.

Next steps

Major works for the project are scheduled to begin in the second half of 2027 with completion expected by the end of 2028. More information will be provided in advance of main construction starting. This timeline of works has been formed through careful planning to coordinate and sequence the works along Richmond and South roads as part of the T2D Project.

For further information

We encourage you to register to receive project updates and stay up to date as the project progresses using the below details.

- Visit www.dit.sa.gov.au/RRRT
- Email DIT.RRRT@sa.gov.au
- Call 1300 794 880

When

Early works from late July 2026 to early 2027, weather permitting.

Hours of work

Day works: Monday to Friday, 7am to 5pm

Night works: Sunday to Thursday, 7pm to 6am

Where

Richmond Road and Railway Terrace intersection, Keswick
