

Gawler Rail Electrification Project

Park Terrace level crossing works and temporary closure

As part of the Gawler Rail Electrification Project, the Park Terrace, Salisbury level crossing will be temporarily closed to install a new services trench and upgrade the signalling system.

Location: the works will occur at the Park Terrace level crossing and will be undertaken in two stages:

Stage One: works will be undertaken at night to minimise impact to traffic during peak times, with the Park Terrace level crossing **closed to westbound traffic** during the following times:

- Monday, 29 March 8pm to 6am Tuesday, 30 March 2021
- Tuesday, 30 March 8pm to 6am Wednesday, 31 March 2021

Traffic management and detours: the level crossing will be **closed to all westbound traffic** when works are occurring. A detour will be in place directing westbound motorists to an alternative crossing point via Gawler Street and Salisbury Highway. Traffic will be reduced to a single lane eastbound. Speed restrictions will also apply. Please observe signage, speed restrictions and traffic controllers.

Stage Two: works will require the **continuous closure of Park Terrace level crossing from Saturday, 3 April 6pm to 5am Tuesday, 6 April 2021.**

Traffic management and detours: the level crossing will be **closed to all traffic** when works are occurring. A detour will be in place directing all motorists to an alternative crossing point via Gawler Street and Salisbury Highway. Speed restrictions will also apply. Please observe signage, speed restrictions and traffic controllers.

Pedestrian access will remain open on one side of the crossing at all times. Please plan ahead, allow extra travel time and take care when travelling through the area.

BUILDING OUR FUTURE

Government
of South Australia

**BUILDING
WHAT MATTERS**

What you can expect: Stage 1 works will include trenching and drilling for the new services trench. Some noise, dust and vibrations may be experienced from construction machinery. Every effort will be made to minimise disruption to residents and Adelaide Metro customers during these works. Stage 2 will deliver a signalling upgrade and works will involve the installation of cabling and new signalling controls at the level crossing with site vehicles and temporary lighting operating in the area. The new signalling system will be commissioned prior to project completion in late 2021. Every effort will be made to minimise disruption to residents, local businesses and Adelaide Metro customers during these works as much as practicably possible.
