

# Tram Grade Separations Project

## Morphett Road Level Crossing

### Night Work Notification

**The Australian and South Australian governments have committed funding towards a planning study to investigate the removal of the level crossing where the Glenelg tram line crosses Morphett Road, Morphettville. These works form part of the Tram Grade Separation Projects.**

Ground investigation works for the project are continuing and while the majority of these works are being undertaken during the day, some night works are required to ensure the works can be undertaken safely and efficiently.

Night work ground investigations will be undertaken on Morphett Road and Anzac Highway **between the hours of 7pm and 6am, from Monday, 19 June to Friday, 30 June 2023**, weather permitting.

These investigations will inform a further understanding of underground services and their location.

Some noise disturbance can be expected at times while these works are completed, however the work will be managed to minimise disturbance to nearby residents and businesses as much as practically possible.

**The roads will remain open to traffic at all times.** Speed and lane restrictions will be in place in the vicinity of the works, during working hours only. Please take extra care when workers are on site and observe speed limits, lane restrictions and traffic controllers when travelling through the area.

The project team will contact individual property owners and businesses whose access is affected by the works. Every effort will be made to minimise impacts to surrounding properties and road users, as much as practically possible.

Pedestrians and cyclists are advised to take care when travelling through the area. For safety reasons there may be some restricted access. Where required, signage will be in place to direct pedestrians and cyclists to alternative access and/or detours.

The Department appreciates your cooperation whilst these important works are undertaken.

#### Further information

For more information on the project, to register for project updates, please contact the project team via the details below:
