Non-Stop Corridors Overlay [Non-Stop Corridor Overlay]  
PO 1.1

Resource Extraction Protection Area Overlay [Protection of Strategic Resources]  
PO 1.1

River Murray Flood Plain Protection Area Overlay [Wastewater]  
PO 2.1

River Murray Flood Plain Protection Area Overlay [Built Form and Character]  
PO 5.1, PO 5.3

River Murray Flood Plain Protection Area Overlay [Flood Resilience]  
PO 6.1, PO 6.2

River Murray Flood Plain Protection Area Overlay [Environmental Protection]  
PO 7.1, PO 7.2, PO 7.3

River Murray Flood Plain Protection Area Overlay [Access]  
PO 8.1, PO 8.2, PO 8.3

Scenic Quality Overlay [Land Use and Intensity]  
PO 1.1

Scenic Quality Overlay [Built Form and Character]  
PO 2.1

Scenic Quality Overlay [Landscaping]  
PO 3.1

Scenic Quality Overlay [Earthworks]  
PO 4.1

Significant Interface Management Overlay [Land Use and Intensity]  
PO 1.1

Significant Landscape Protection Overlay [Land Use and Intensity]  
PO 1.1

Significant Landscape Protection Overlay [Built Form and Character]  
PO 2.1, PO 2.2

Significant Landscape Protection Overlay [Landscaping]  
PO 3.1

Significant Landscape Protection Overlay [Earthworks]  
PO 4.1

State Heritage Area Overlay [Built Form]  
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5

State Heritage Area Overlay [Landscape Context and Streetscape Amenity]  
PO 5.1

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Industry Shop	<p>Light industry</p> <p>Any of the following:</p> <ul style="list-style-type: none"> <li>(a) shop with a gross leasable floor area less than or equal to 1000m<sup>2</sup></li> <li>(b) shop within the Urban Corridor Living Retail Subzone</li> <li>(c) shop that is a Restaurant</li> </ul>

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any kind of development where the site of the development is <b>not</b> adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.	Except any of the following: <ol style="list-style-type: none"> <li>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)</li> <li>2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).</li> </ol>
3. Any development involving any of the following (or of any combination of any of the following): <ol style="list-style-type: none"> <li>(a) advertisement</li> <li>(b) child care facility</li> <li>(c) dwelling</li> <li>(d) residential flat building</li> <li>(e) student accommodation</li> <li>(f) supported accommodation.</li> </ol>	Except development that: <ol style="list-style-type: none"> <li>1. exceeds the maximum building height specified in Urban Corridor (Living) DTS/DPF 3.1 or</li> <li>2. does not satisfy Urban Corridor (Living) DTS/DPF 4.1 or</li> <li>3. involves the construction of a building of 4 or more building levels and the site of the development is:                             <ol style="list-style-type: none"> <li>(a) adjacent land to a neighbourhood-type zone and</li> <li>(b) adjoins an allotment containing an existing low-rise building used for residential purposes.</li> </ol> </li> </ol>
4. Any development involving any of the following (or of any combination of any of the following): <ol style="list-style-type: none"> <li>(a) consulting room</li> <li>(b) office</li> <li>(c) shop.</li> </ol>	Except development that: <ol style="list-style-type: none"> <li>1. exceeds the maximum building height specified in Urban Corridor (Living) DTS/DPF 3.1 or</li> <li>2. does not satisfy Urban Corridor (Living) DTS/DPF 1.2 or</li> <li>3. does not satisfy Urban Corridor (Living) DTS/DPF 4.1 or</li> <li>4. involves the construction of a building of 4 or more building levels and the site of the development is:                             <ol style="list-style-type: none"> <li>(a) adjacent land to a neighbourhood-type zone and</li> <li>(b) adjoins an allotment containing an existing low-rise building used for residential purposes.</li> </ol> </li> </ol>
5. Any development involving any of the following (or of any combination of any of the following): <ol style="list-style-type: none"> <li>(a) air handling unit, air conditioning system or exhaust fan</li> <li>(b) carport</li> <li>(c) deck</li> <li>(d) fence</li> <li>(e) internal building works</li> <li>(f) land division</li> <li>(g) outbuilding</li> <li>(h) pergola</li> <li>(i) private bushfire shelter</li> <li>(j) replacement building</li> <li>(k) retaining wall</li> <li>(l) shade sail</li> <li>(m) solar photovoltaic panels (roof mounted)</li> <li>(n) swimming pool or spa pool and associated swimming pool safety features</li> <li>(o) tree damaging activity</li> <li>(p) verandah</li> </ol>	None specified.

(q) water tank.	
6. Demolition.	<p>Except any of the following:</p> <ol style="list-style-type: none"> <li>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)</li> <li>2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).</li> </ol>
7. Railway line.	Except where located outside of a rail corridor or rail reserve.

**Placement of Notices - Exemptions for Performance Assessed Development**

None specified.

**Placement of Notices - Exemptions for Restricted Development**

None specified.

**Urban Corridor Living Retail Subzone**

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO1	Additional neighbourhood-scale shopping, business, entertainment and recreation facilities to provide a focus for business and community life and most daily and weekly shopping needs of the community.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Retail, office, entertainment and recreation related uses supplemented by other businesses providing a range of goods and services to the community as part of a mixed use development.	DTS/DPF 1.1 Shops, offices or consulting room uses exceeding a maximum gross leasable floor area of 500m <sup>2</sup> where integrated with residential development and comprise a range of tenancies.

**Urban Corridor (Main Street) Zone**

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A safe, walkable and vibrant shopping, entertainment and commercial main street precinct with an active day and evening economy supported by medium density residential development.
DO 2	<p>Built form positively contributing to:</p> <ol style="list-style-type: none"> <li>(a) a streetscape that is visually interesting at human-scale comprising articulated buildings with a high level of fenestration and balconies oriented towards the street</li> <li>(b) a fine-grain public realm comprising buildings with active frontages that are designed to reinforce the street rhythm, that consider the facades, articulation and massing of existing buildings and any spaces between them, and provide narrow tenancy footprints at ground level.</li> </ol>

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
<p>PO 1.1</p> <p>A vibrant mix of land uses adding to the vitality of the area and extending activities outside shop hours including restaurants, educational, community and cultural facilities and visitor and residential accommodation.</p>	<p>DTS/DPF 1.1</p> <p>Development comprises one or more of the following:</p> <ul style="list-style-type: none"> <li>(a) Advertisement</li> <li>(b) Child Care Facility</li> <li>(c) Consulting Room</li> <li>(d) Dwelling</li> <li>(e) Hotel</li> <li>(f) Educational Facility</li> <li>(g) Licensed Premises</li> <li>(h) Office</li> <li>(i) Residential Flat Building</li> <li>(j) Retirement Facility</li> <li>(k) Shop</li> <li>(l) Student Accommodation</li> <li>(m) Supported Accommodation</li> <li>(n) Tourist Accommodation</li> </ul>
<p>PO 1.2</p> <p>Retail, office, entertainment and recreation related uses that provide a range of goods and services to the local community and the surrounding district.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
<p>PO 1.3</p> <p>Ground floor uses contribute to a safe, active and vibrant main street.</p>	<p>DTS/DPF 1.3</p> <p>Shop, office, or consulting room uses located on the ground floor level of buildings fronting the primary street frontage.</p>
<p>PO 1.4</p> <p>Dwellings developed in conjunction with non-residential uses to support business, entertainment and recreational activities that contribute to making the main street locality and pedestrian thoroughfares safe, walkable, comfortable, pleasant and vibrant places.</p>	<p>DTS/DPF 1.4</p> <p>Dwellings developed in conjunction with non-residential uses, and sited:</p> <ul style="list-style-type: none"> <li>(a) at upper levels of buildings with non-residential uses located at ground level</li> </ul> <p style="text-align: center;">or</p> <ul style="list-style-type: none"> <li>(b) behind non-residential uses on the same allotment.</li> </ul>
<p>PO 1.5</p> <p>Development of diverse medium density accommodation options either as part of a mixed use development or wholly residential development.</p>	<p>DTS/DPF 1.5</p> <p>None are applicable.</p>
<p>PO 1.6</p> <p>Land uses promote movement and activity during daylight and evening hours, including restaurants, educational, health, community and cultural facilities, and visitor and residential accommodation.</p>	<p>DTS/DPF 1.6</p> <p>None are applicable.</p>
<p>PO 1.7</p> <p>Changes in the use of land encourage the efficient reuse of commercial premises to maintain and enhance vibrancy within activity centres.</p>	<p>DTS/DPF 1.7</p> <p>A change of use to a shop, office, consulting room or any combination of these uses where all of the following are achieved:</p> <ul style="list-style-type: none"> <li>(a) the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses;</li> <li>(b) if the proposed change of use is for a shop that primarily involves the handling and sale of foodstuffs, areas used for the storage and collection of refuse are sited at least 10 metres from the site of a dwelling (other than a dwelling directly associated with the proposed shop)</li> <li>(c) if the proposed change of use is for a shop that primarily involves heating and cooking of foodstuffs in a commercial kitchen and is within 30 metres of any neighbourhood-type zone boundary or a dwelling (other than a dwelling directly associated with the proposed shop), an exhaust duct and stack (chimney) exists or is capable of being installed for discharging exhaust emissions</li> <li>(d) if the change in use involves a gross leasable floor area greater than 250m<sup>2</sup> and has direct frontage to an arterial road, it achieves either (i) or (ii): <ul style="list-style-type: none"> <li>(i) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) is from a road that is not an arterial road</li> <li>(ii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared</li> </ul> </li> <li>(e) off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number, except in any of the following circumstances: <ul style="list-style-type: none"> <li>(i) the building is a local heritage place</li> </ul> </li> </ul>

	<ul style="list-style-type: none"> <li>(ii) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made); or</li> <li>(iii) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.</li> </ul>			
Built Form and Character				
<p>PO 2.1</p> <p>Buildings sensitively frame the main street and public spaces, provide overall visual relief from building height and mass, and maintain a human scale for pedestrians.</p>	<p>DTS/DPF 2.1</p> <p>Buildings:</p> <ul style="list-style-type: none"> <li>(a) include a clearly defined podium or street wall with a maximum building height of 2 building levels or 8m, or higher where it matches the existing street wall of adjoining buildings</li> <li>(b) have levels above the defined podium or street wall setback a minimum of 2m from that wall.</li> </ul>			
<p>PO 2.2</p> <p>Buildings and structures designed to complement and respond to the established fine-grained main street character by:</p> <ul style="list-style-type: none"> <li>(a) ensuring the verandah profile and materials of construction are consistent with and positively respond to adjacent traditional main street buildings</li> <li>(b) complementing the traditional shop-front elements, such as narrow buildings and tenancy footprints, with frequently repeated frontages, and clear-glazed narrow shop front displays above raised display levels [base stall boards] and recessed entries.</li> </ul>	<p>DTS/DPF 2.2</p> <p>None are applicable.</p>			
<p>PO 2.3</p> <p>Buildings designed to create visual connection between the public realm and ground level interior, to ensure an active interface with the main street and maximise passive surveillance.</p>	<p>DTS/DPF 2.3</p> <p>The ground floor primary frontage of buildings provides at least 60% of the street frontage as an entry / foyer or display window to a shop or other community or commercial use that provides pedestrian interest and activation.</p>			
<p>PO 2.4</p> <p>Buildings provide a high amenity pedestrian environment by providing shelter and shade over footpaths.</p>	<p>DTS/DPF 2.4</p> <p>Buildings that provide a continuity of verandahs, canopies, awnings or other pedestrian shelters to contribute to pedestrian comfort.</p>			
<p>PO 2.5</p> <p>Buildings are adaptable and flexible to accommodate a range of residential and non-residential land uses on the ground floor.</p>	<p>DTS/DPF 2.5</p> <p>The ground floor of buildings contains a minimum floor to ceiling height of 3.5m.</p>			
<p>PO 2.6</p> <p>Buildings sited on the primary street boundary to achieve a continuity of built form frontage to the main street, with the occasional section of building set back to create outdoor dining areas, visually interesting building entrances and intimate but vibrant spaces.</p>	<p>DTS/DPF 2.6</p> <p>Buildings with a 0m setback from the primary street boundary, with the exception of minor setbacks to accommodate outdoor dining areas.</p>			
<p>PO 2.7</p> <p>Buildings with no setback from the secondary street boundary to contribute to a consistent established streetscape.</p>	<p>DTS/DPF 2.7</p> <p>Buildings with a 0m setback from the secondary street boundary.</p>			
<p>PO 2.8</p> <p>Buildings with no side boundaries setback to achieve a continuity of street façade to the main street.</p>	<p>DTS/DPF 2.8</p> <p>Buildings with a 0m setback from the side boundary.</p>			
<p>PO 2.9</p> <p>Buildings set back from rear boundaries (other than street boundaries) to minimise negative impacts on neighbouring properties, including access to natural sunlight and ventilation.</p>	<p>DTS/DPF 2.9</p> <p>Buildings setback from rear boundaries as follows:</p> <ul style="list-style-type: none"> <li>(a) 5m or more where the subject land directly abuts an allotment of a different zone or</li> <li>(b) 3m or more in all other cases, except where the development abuts the wall of an existing or simultaneously constructed building on the adjoining land.</li> </ul>			
<p>PO 2.10</p> <p>Buildings set back from street boundaries (in the case of rear access ways) to provide adequate manoeuvrability for vehicles.</p>	<p>DTS/DPF 2.10</p> <p>Buildings setback from the rear access way:</p> <ul style="list-style-type: none"> <li>(a) no requirement where the access way is not less than 6.5m wide or</li> <li>(b) where the access way is less than 6.5m wide, the distance equal to the additional width required to make the access way at least 6.5m wide.</li> </ul>			
Building Height				
<p>PO 3.1</p> <p>Building height is consistent with the form expressed in the <i>Maximum Building Height (Levels) Technical and Numeric Variation layer</i> and the <i>Maximum Building Height (Metres) Technical and Numeric Variation layer</i> or positively responds to the local context including the site's frontage, depth, and adjacent primary road corridor (e.g., a State maintained road or a road with similar attributes) or street width.</p>	<p>DTS/DPF 3.1</p> <p>Except where a Concept Plan specifies otherwise, development does not exceed the following building height(s):</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: center;">Maximum Building Height (Levels)</th> </tr> </thead> <tbody> <tr> <td>Maximum building height is 2 levels</td> </tr> <tr> <td>Maximum building height is 3 levels</td> </tr> </tbody> </table>	Maximum Building Height (Levels)	Maximum building height is 2 levels	Maximum building height is 3 levels
Maximum Building Height (Levels)				
Maximum building height is 2 levels				
Maximum building height is 3 levels				

Maximum Building Height (Levels)
Maximum building height is 4 levels
Maximum building height is 5 levels
Maximum building height is 6 levels
Maximum building height is 7 levels
Maximum Building Height (Metres)
Maximum building height is 8m
Maximum building height is 11.5m
Maximum building height is 12.5m
Maximum building height is 15m
Maximum building height is 16.5m
Maximum building height is 18m
Maximum building height is 18.5m
Maximum building height is 22m
Maximum building height is 24.5m
Maximum building height is 25.5m

In relation to DTS/DPF 3.1, in instances where:

- (a) more than one value is returned in the same field, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation layer* or *Maximum Building Height (Metres) Technical and Numeric Variation layer* in the SA planning database to determine the applicable value relevant to the site of the proposed development
- (b) only one value is returned (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other
- (c) no value is returned (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.

PO 3.2  
Buildings designed to achieve optimal height and floor space yields, and maintain traditional main street form.

DTS/DPF 3.2

New development is not less than the following building height:

Minimum Building Height (Levels)
Minimum building height is 2 levels
Minimum building height is 3 levels

In relation to DTS/DPF 3.2, in instances where:

- (a) more than one value is returned in the same field, refer to the *Minimum Building Height (Levels) Technical and Numeric Variation layer* in the SA planning database to determine the applicable value relevant to the site of the proposed development
- (b) no value is returned (i.e. there is a blank field), then there is no minimum building height and DTS/DPF 3.2 is met.

Interface Height

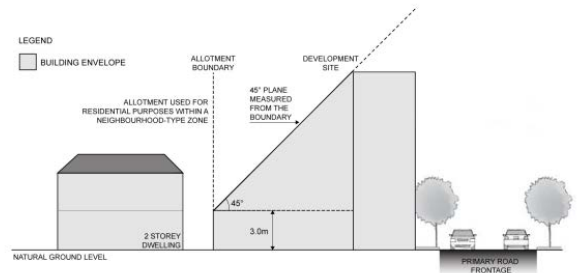

PO 4.1  
Buildings mitigate impacts of building massing on residential development within a neighbourhood-type zone.

DTS/DPF 4.1

**Interface Height**

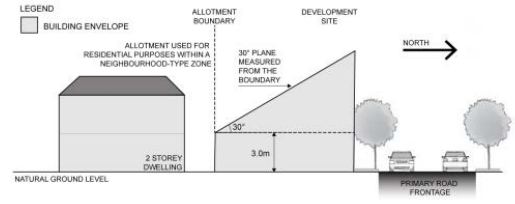

Buildings constructed within a building envelope provided by a:

- (a) 45 degree plane measured from a height of 3 metres above natural ground level at the boundary of the allotment where abutting a residential use, or where the allotment is separated by a road less than 6.5 metres in width measured from the residential allotment boundary, within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary):

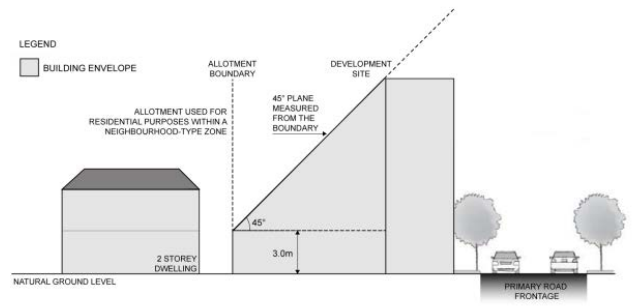

- (b) in relation to a southern boundary, 30 degree plane grading north, measured from a height of 3m above natural ground at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary):

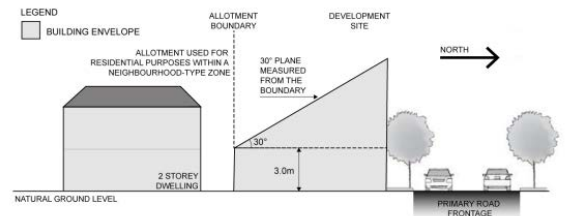

**Interface Height**

Buildings constructed within a building envelope provided by a 45 degree plane measured from a height of 3 metres above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary):

Buildings constructed within a building envelope provided by a 30 degree plane measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary):

PO 4.2  
Buildings on an allotment fronting a road that is not the primary road corridor (e.g., a State maintained road or a road with similar attributes) and where land on the opposite side of the road is within a neighbourhood-type zone, provides an orderly transition to the built form scale envisaged in the adjacent zone to complement the streetscape character.

DTS/DPF 4.2  
None are applicable.

Significant Development Sites

PO 5.1  
Consolidation of significant development sites (a site with a frontage over 25m to a primary

DTS/DPF 5.1  
Development on significant development sites (a site with a frontage over 25m to a primary

<p>road corridor (e.g., a State maintained road or a road with similar attributes) and over 1500m<sup>2</sup> in area, which may include one or more allotments) to achieve increased development yield, provided that off-site impacts can be managed and broader community benefit is achieved in terms of design quality, community services, affordable housing provision, or sustainability features.</p>	<p>road corridor (e.g., a State maintained road or a road with similar attributes) and over 1500m<sup>2</sup> in area, which may include one or more allotments) up to 30% above the maximum building height specified in DTS/DPF 3.1 (rounded to the nearest whole number) where it:</p> <ul style="list-style-type: none"> <li>(a) incorporates the retention, conservation and reuse of a building which is a listed heritage place or an existing built form and context that positively contributes to the character of the local area</li> <li>(b) includes more than 15% of dwellings as affordable housing or</li> <li>(c) includes at least:             <ul style="list-style-type: none"> <li>(i) three of the following:                 <ul style="list-style-type: none"> <li>A. high quality open space that is universally accessible and is directly connected to, and well integrated with, public realm areas of the street</li> <li>B. high quality, safe and secure, universally accessible pedestrian linkages that connect through the development site</li> <li>C. active uses are located on the public street frontages of the building, with any above ground car parking located behind</li> <li>D. a range of dwelling types that includes at least 10% of 3+ bedroom apartments;</li> <li>E. a child care centre.</li> </ul> </li> <li>(ii) three of the following:                 <ul style="list-style-type: none"> <li>A. a communal useable garden integrated with the design of the building that covers the majority of a rooftop area supported by services that ensure ongoing maintenance;</li> <li>B. living landscaped vertical surfaces of at least 50m<sup>2</sup> supported by services that ensure ongoing maintenance</li> <li>C. passive heating and cooling design elements including solar shading integrated into the building</li> <li>D. higher amenity through provision of private open space in excess of minimum requirements by 25% for at least 50% of dwellings.</li> </ul> </li> </ul> </li> </ul>
<p>PO 5.2</p> <p>Development on a significant development site (a site with a frontage over 25m to a primary road corridor (e.g., a State maintained road or a road with similar attributes) and over 1500m<sup>2</sup> in area, which may include one or more allotments) designed to minimise impacts on residential uses in adjacent zones with regard to intensity of use, overshadowing, massing and building proportions.</p>	<p>DTS/DPF 5.2</p> <p>Development on a significant development site (a site with a frontage over 25m to a primary road corridor (e.g., a State maintained road or a road with similar attributes) and over 1500m<sup>2</sup> in area, which may include one or more allotments) that:</p> <ul style="list-style-type: none"> <li>(a) is constructed within the zone's Interface Building Height provision as specified DTS/DPF 4.1</li> <li>(b) locates non-residential activities and higher density elements towards the primary road corridor (e.g., a State maintained road or a road with similar attributes)</li> <li>(c) locates taller building elements towards the primary road corridor (e.g., a State maintained road or a road with similar attributes).</li> </ul>
<p>Movement, parking and access</p>	
<p>PO 6.1</p> <p>Development does not result in additional crossovers on the main street, except where rationalising existing crossovers on consolidated sites and is designed to minimise conflicts with pedestrians and cyclists and minimise disruption to the continuity of built form.</p>	<p>DTS/DPF 6.1</p> <p>Vehicular access to be provided:</p> <ul style="list-style-type: none"> <li>(a) via side streets or rear lanes provided there is no negative impact on residential amenity within the zone and in adjacent zones</li> <li>or</li> <li>(b) where it consolidates or replaces existing crossovers.</li> </ul>
<p>PO 6.2</p> <p>Development is designed to ensure car parking is located to avoid negative impacts on the main street rhythm and activation.</p>	<p>DTS/DPF 6.2</p> <p>Vehicle parking garages located behind buildings away from the primary main street frontage.</p>
<p>Advertisements</p>	
<p>PO 7.1</p> <p>Advertisements are sited and designed to achieve an overall consistency of appearance along individual street frontages.</p>	<p>DTS/DPF 7.1</p> <p>None are applicable.</p>
<p>PO 7.2</p> <p>Freestanding advertisements:</p> <ul style="list-style-type: none"> <li>(a) identify the associated business(es)</li> <li>(b) are of a size that is commensurate with the scale of the centre and the street frontage</li> <li>(c) avoid visual clutter</li> <li>(d) positively respond to the context without dominating the locality</li> <li>(e) are sited and designed to not detract from the main street character.</li> </ul>	<p>DTS/DPF 7.2</p> <p>Freestanding advertisements:</p> <ul style="list-style-type: none"> <li>(a) do not exceed 8m in height, the adjacent building wall height, or the zone's height allowance (whichever is the lesser)</li> <li>(b) do not have a sign face that exceeds 6m<sup>2</sup> per side.</li> </ul>
<p>Concept Plans</p>	
<p>PO 8.1</p> <p>Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.</p>	<p>DTS/DPF 8.1</p> <p>The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:</p> <p>In relation to DTS/DPF 8.1, in instances where:</p>

- (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.
- (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 8.1 is met.

**Table 1 - Accepted Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
<p>Air handling unit, air conditioning system or exhaust fan Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The item will be installed on or within an existing building</li> <li>2. The item being installed does not encroach on a public street or affect the ability of the building to resist the spread of fire.</li> <li>3. If the associated building is in a Historic Area Overlay or State Heritage Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>
<p>Building alterations Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The alteration does not:                             <ul style="list-style-type: none"> <li>(a) increase the floor area of the building</li> <li>(b) exceed the existing wall height</li> <li>(c) exceed the existing overall building height</li> <li>(d) alter the roof profile</li> <li>(e) alter an approved privacy screening arrangement or window treatment</li> </ul> </li> <li>2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.</li> </ol>
<p>Consulting room Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<p>A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved:</p> <ol style="list-style-type: none"> <li>1. the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses</li> <li>2. if the change in use involves a gross leasable floor area greater than 250m<sup>2</sup> and has direct frontage to an arterial road, it achieves:                             <ul style="list-style-type: none"> <li>(a) the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road</li> <li>or</li> <li>(b) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared</li> </ul> </li> <li>3. off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where:                             <ul style="list-style-type: none"> <li>(a) the building is a local heritage place</li> <li>or</li> <li>(b) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made)</li> <li>or</li> <li>(c) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.</li> </ul> </li> </ol>
Excavation	<ol style="list-style-type: none"> <li>1. It does not involve excavation more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.</li> </ol>
Filling of land	<ol style="list-style-type: none"> <li>1. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay.</li> </ol>
Ground intruding activity	<ol style="list-style-type: none"> <li>1. It does not involve ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.</li> <li>2. It does not involve ground intruding activity involving an underground drain, pipe, cable, conduit, tunnel, underground passageway or adit.</li> </ol>
Office Except where any of the following apply:	A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating

<ul style="list-style-type: none"> <li>Local Heritage Place Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<p>and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved:</p> <ol style="list-style-type: none"> <li>the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses</li> <li>if the change in use involves a gross leasable floor area greater than 250m<sup>2</sup> and has direct frontage to an arterial road, it achieves:             <ol style="list-style-type: none"> <li>the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road</li> <li>or</li> <li>the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared</li> </ol> </li> <li>off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where:             <ol style="list-style-type: none"> <li>the building is a local heritage place</li> <li>or</li> <li>the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made)</li> <li>or</li> <li>the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.</li> </ol> </li> </ol>
<p>Partial demolition of a building or structure Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>Historic Area Overlay</li> <li>Local Heritage Place Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<p>None</p>
<p>Shade sail Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>Future Local Road Widening Overlay</li> <li>Future Road Widening Overlay</li> <li>Historic Area Overlay</li> <li>Local Heritage Place Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i></li> <li>The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</li> <li>Shade sail consists of permeable material</li> <li>The total area of the sail does not exceed 40m<sup>2</sup></li> <li>No part of the shade sail will be:             <ol style="list-style-type: none"> <li>3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment</li> <li>5m above ground or floor level (depending on where it is situated) within any other part of the allotment</li> </ol> </li> <li>Primary street setback - at least as far back as the building line of the building to which it is ancillary</li> <li>If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m</li> <li>In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary</li> <li>Does not involve the clearance of native vegetation</li> <li>The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas</li> <li>It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay</li> <li>It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.</li> </ol>
<p>Shop Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>Local Heritage Place Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<p>A change of use to a shop (except where it involves handling and sale of foodstuffs, the heating and cooking of foodstuffs in a commercial kitchen, or a restaurant), office, consulting room or any combination of these uses where all of the following are achieved:</p> <ol style="list-style-type: none"> <li>the area to be occupied by the proposed development is located in an existing building and is currently used as a shop, office, consulting room or any combination of these uses</li> <li>if the change in use involves a gross leasable floor area greater than 250m<sup>2</sup> and has direct frontage to an arterial road, it achieves:             <ol style="list-style-type: none"> <li>the primary vehicle access (being the access where the majority of vehicles access / egress the site of the proposed development) from a road that is not an arterial road</li> <li>or</li> </ol> </li> </ol>

	<p>(b) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared</p> <p>3. off-street vehicular parking exists in accordance with the rate(s) specified in Transport, Access and Parking [Vehicle Parking Rates]: DTS 5.1 to the nearest whole number, except where:</p> <p>(a) the building is a local heritage place</p> <p>or</p> <p>(b) the required contribution will be made into a relevant car parking offset scheme (other than where a relevant contribution has previously been made)</p> <p>or</p> <p>(c) the development is located on a site that operates as an integrated complex containing two or more tenancies (and which may comprise more than one building) where facilities for off-street vehicle parking, vehicle loading and unloading, and the storage and collection of refuse are shared.</p>
<p>Solar photovoltaic panels (roof mounted) Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>Local Heritage Place Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i></li> <li>Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof</li> <li>Panels and associated components do not overhang any part of the roof</li> <li>Does not apply to a system with a generating capacity of more than 5MW that is to be connected to the State's power system</li> <li>If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>
<p>Water tank (underground) Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>Coastal Areas Overlay</li> <li>Hazards (Acid Sulfate Soils) Overlay</li> <li>Ramsar Wetlands Overlay</li> </ul>	<ol style="list-style-type: none"> <li>The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</li> <li>The tank (including any associated pump) is located wholly below the level of the ground</li> <li>Does not involve the clearance of native vegetation</li> <li>It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay</li> <li>It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.</li> </ol>

**Table 2 - Deemed-to-Satisfy Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone <small>(applies only in the area affected by the Subzone)</small>	Overlay <small>(applies only in the area affected by the Overlay)</small>
Advertisement Except where any of the following apply: <ul style="list-style-type: none"> <li>Character Preservation District Overlay</li> <li>Heritage Adjacency Overlay</li> <li>Historic Area Overlay</li> <li>Local Heritage Place Overlay</li> <li>Non-stop Corridor Overlay</li> <li>Significant Landscape Protection Overlay</li> <li>State Heritage Area Overlay</li> <li>State Heritage Place Overlay</li> </ul>	None	Advertisements [Appearance] DTS/DPF 1.1, DTS/DPF 1.2, DTS/DPF 1.3, DTS/DPF 1.4  Advertisements [Proliferation of Advertisements] DTS/DPF 2.3  Advertisements [Advertising Content] DTS/DPF 3.1  Advertisements [Amenity Impacts] DTS/DPF 4.1  Advertisements [Safety] DTS/DPF 5.1, DTS/DPF 5.2, DTS/DPF 5.3, DTS/DPF 5.4, DTS/DPF 5.5, DTS/DPF 5.6  Clearance from Overhead Powerlines DTS/DPF 1.1  Infrastructure and Renewable Energy Facilities [Wastewater Services] DTS/DPF 12.2	None	Advertising Near Signalised Intersections Overlay [Advertisements Near Signalised Intersections] DTS/DPF 1.1  Airport Building Heights (Aircraft Landing Areas) Overlay [Built Form] DTS/DPF 1.1  Airport Building Heights (Regulated) Overlay [Built Form] DTS/DPF 1.1  Building Near Airfields Overlay DTS/DPF 1.3  Defence Aviation Area Overlay [Built Form] DTS/DPF 1.1  Future Road Widening Overlay [Future Road Widening] DTS/DPF 1.1  Gateway Overlay [Advertisements] DTS/DPF 4.1

				Native Vegetation Overlay [Environmental Protection] DTS/DPF 1.1  State Significant Native Vegetation Areas Overlay [Environmental Protection] DTS/DPF 1.1  Tunnel Protection Overlay [Land Use and Intensity] DTS/DPF 1.1  Tunnel Protection Overlay [Excavation and Ground Intruding Activity] DTS/DPF 2.1

**Table 3 - Applicable Policies for Performance Assessed Development**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone <small>(applies only in the area affected by the Subzone)</small>	Overlay <small>(applies only in the area affected by the Overlay)</small>

All other Code Assessed Development	All	All	All	Any relevant Overlay: All

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Industry	Light industry

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any kind of development where the site of the development is <b>not</b> adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.	Except any of the following: <ol style="list-style-type: none"> <li>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)</li> <li>2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).</li> </ol>
3. Any development involving any of the following (or of any combination of any of the following): <ol style="list-style-type: none"> <li>(a) advertisement</li> <li>(b) dwelling</li> <li>(c) office</li> <li>(d) residential flat building</li> <li>(e) shop.</li> </ol>	Except development that: <ol style="list-style-type: none"> <li>1. exceeds the maximum building height specified in Urban Corridor (Main Street) DTS/DPF 3.1 or</li> <li>2. does not satisfy Urban Corridor (Main Street) DTS/DPF 4.1 or</li> <li>3. involves the construction of a building of 4 or more building levels and the site of the development is:                             <ol style="list-style-type: none"> <li>(a) adjacent land to a neighbourhood-type zone and</li> <li>(b) adjoins an allotment containing an existing low-rise building used for residential purposes.</li> </ol> </li> </ol>
4. Any development involving any of the following (or of any combination of any of the following): <ol style="list-style-type: none"> <li>(a) air handling unit, air conditioning system or exhaust fan</li> <li>(b) carport</li> <li>(c) deck</li> <li>(d) fence</li> <li>(e) internal building works</li> <li>(f) land division</li> <li>(g) outbuilding</li> <li>(h) pergola</li> <li>(i) private bushfire shelter</li> <li>(j) replacement building</li> <li>(k) retaining wall</li> <li>(l) shade sail</li> <li>(m) solar photovoltaic panels (roof mounted)</li> <li>(n) swimming pool or spa pool and associated swimming pool safety features</li> <li>(o) tree damaging activity</li> <li>(p) verandah</li> <li>(q) water tank.</li> </ol>	None specified.
5. Demolition.	Except any of the following: <ol style="list-style-type: none"> <li>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)</li> <li>2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).</li> </ol>
6. Railway line.	Except where located outside of a rail corridor or rail reserve.

None specified.

**Placement of Notices - Exemptions for Restricted Development**

None specified.

**Urban Neighbourhood Zone**

**Assessment Provisions (AP)**

Desired Outcome (DO)

**Desired Outcome**

DO 1	<p>A mixed use area that:</p> <ul style="list-style-type: none"> <li>(a) provides a flexible policy framework for the redevelopment of urban areas in close proximity to high frequency public transport corridors or adjacent primary road corridors that have the potential to become activity generators</li> <li>(b) provides for the high-quality design and integration of buildings and public realm in mixed use areas with walkable urban form, excellent provision for walking and cycling and active street frontages that encourage social interaction, positively contribute to public safety and vibrancy and promote active movement and public transport use</li> <li>(c) provides a concentration of mixed use activity close to community focal points, such as a high frequency fixed transit stop, activity centre or high quality open space</li> <li>(d) provides adaptable and flexible buildings that can accommodate changes in land use and respond to changing economic and social conditions and advances in technology</li> <li>(e) transitions to a reduced scale and intensity at the zone boundary to maintain the amenity of residential properties located within adjoining zones.</li> </ul>
------	---

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

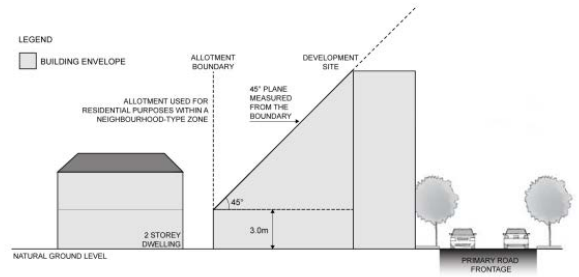

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated Performance Feature</b>
Land Use and Intensity	
<p>PO 1.1</p> <p>Development of medium and high density accommodation types for living, including dwellings, supported accommodation, student accommodation, short term accommodation, either as part of a mixed use development or wholly residential development.</p>	<p>DTS/DPF 1.1</p> <p>Development comprises one or more of the following:</p> <ul style="list-style-type: none"> <li>(a) Advertisement</li> <li>(b) Carport</li> <li>(c) Child Care Facility</li> <li>(d) Consulting Room</li> <li>(e) Dwelling</li> <li>(f) Educational Facility</li> <li>(g) Hotel</li> <li>(h) Licensed Premises</li> <li>(i) Light Industry</li> <li>(j) Office</li> <li>(k) Outbuilding</li> <li>(l) Residential Flat Building</li> <li>(m) Retirement Facility</li> <li>(n) Shop</li> <li>(o) Student Accommodation</li> <li>(p) Supported Accommodation</li> <li>(q) Tourist Accommodation</li> </ul>
<p>PO 1.2</p> <p>Development of diverse medium density accommodation, and high density accommodation in specified locations (locations where 7 or more building levels is envisaged), either as part of a mixed use development or wholly residential development.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
<p>PO 1.3</p> <p>Light industrial and commercial uses (including high technology and research based activity) where compatible with adjoining uses.</p>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>
<p>PO 1.4</p> <p>Co-locate close to public transport land uses that generate high levels of pedestrian activity,</p>	<p>DTS/DPF 1.4</p> <p>None are applicable.</p>

encourage public transport use and provide opportunities for multi-purpose trips.																						
<p>PO 1.5</p> <p>In clusters of non-residential development, provide high-quality, inclusive and integrated public realm, including open spaces, sport and recreation facilities, and places that serve as hubs for communal activity.</p>	<p>DTS/DPF 1.5</p> <p>None are applicable.</p>																					
<p>PO 1.6</p> <p>Shops, offices and consulting rooms services and facilities to meet the needs of the local community.</p>	<p>DTS/DPF 1.6</p> <p>Except where a Main Street Subzone or Urban Neighbourhood Retail Subzone applies, shops, offices or consulting room uses not exceeding a maximum gross leasable floor area of 500m<sup>2</sup> for individual tenancies and 1000m<sup>2</sup> in a single building.</p>																					
<p>PO 1.7</p> <p>Larger scale shops, offices, and consulting rooms primarily clustered together to provide a focus for services and facilities.</p>	<p>DTS/DPF 1.7</p> <p>None are applicable.</p>																					
Built Form and Character																						
<p>PO 2.1</p> <p>Development positively contributes to creating activity nodes around high-frequency public transport stops/stations and multi-modal transport interchanges, encourages public transport use and positively contributes to a fine-grain streetscape that provides a safe, comfortable, vibrant and walkable public realm at ground level.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>																					
<p>PO 2.2</p> <p>Building height is consistent with the form expressed in the <i>Maximum Building Height (Levels) Technical and Numeric Variation layer</i> and the <i>Maximum Building Height (Metres) Technical and Numeric Variation layer</i> or positively responds to the local context including the site's frontage, depth, and adjacent primary street width.</p>	<p>DTS/DPF 2.2</p> <p>Except where a Concept Plan specifies otherwise, development does not exceed the following building height(s):</p> <table border="1" data-bbox="802 857 1552 1552"> <thead> <tr> <th style="text-align: center;">Maximum Building Height (Levels)</th> </tr> </thead> <tbody> <tr><td>Maximum building height is 3 levels</td></tr> <tr><td>Maximum building height is 4 levels</td></tr> <tr><td>Maximum building height is 5 levels</td></tr> <tr><td>Maximum building height is 6 levels</td></tr> <tr><td>Maximum building height is 8 levels</td></tr> <tr><td>Maximum building height is 10 levels</td></tr> <tr><td>Maximum building height is 12 levels</td></tr> <tr> <th style="text-align: center;">Maximum Building Height (Metres)</th> </tr> <tr><td>Maximum building height is 12m</td></tr> <tr><td>Maximum building height is 12.5m</td></tr> <tr><td>Maximum building height is 13.5m</td></tr> <tr><td>Maximum building height is 16.5m</td></tr> <tr><td>Maximum building height is 18.5m</td></tr> <tr><td>Maximum building height is 24.5m</td></tr> <tr><td>Maximum building height is 32.5m</td></tr> <tr><td>Maximum building height is 43m</td></tr> <tr><td>Maximum building height is 20.5m</td></tr> <tr><td>Maximum building height is 28.5m</td></tr> <tr><td>Maximum building height is 40.5m</td></tr> <tr><td>Maximum building height is 48.5m</td></tr> </tbody> </table> <p>In relation to DTS/DPF 2.2, in instances where:</p> <ul style="list-style-type: none"> <li>(a) more than one value is returned in the same field, refer to the <i>Maximum Building Height (Levels) Technical and Numeric Variation layer</i> or <i>Maximum Building Height (Metres) Technical and Numeric Variation layer</i> in the SA planning database to determine the applicable value relevant to the site of the proposed development</li> <li>(b) only one value is returned (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other</li> <li>(c) no value is returned (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy.</li> </ul>	Maximum Building Height (Levels)	Maximum building height is 3 levels	Maximum building height is 4 levels	Maximum building height is 5 levels	Maximum building height is 6 levels	Maximum building height is 8 levels	Maximum building height is 10 levels	Maximum building height is 12 levels	Maximum Building Height (Metres)	Maximum building height is 12m	Maximum building height is 12.5m	Maximum building height is 13.5m	Maximum building height is 16.5m	Maximum building height is 18.5m	Maximum building height is 24.5m	Maximum building height is 32.5m	Maximum building height is 43m	Maximum building height is 20.5m	Maximum building height is 28.5m	Maximum building height is 40.5m	Maximum building height is 48.5m

<p>PO 2.3</p> <p>Buildings are designed to be adaptable and flexible to suit a range of land uses, including retail, office and residential, without the need for significant change to the building.</p>	<p>DTS/DPF 2.3</p> <p>The ground floor of buildings contains a minimum floor to ceiling height of 3.5m.</p>																					
<p>PO 2.4</p> <p>Buildings designed to create visual connection between the public realm and ground level interior, promote an active human-scale interface with the primary road / public transport corridor and open space and maximise passive surveillance.</p>	<p>DTS/DPF 2.4</p> <p>Not less than 50% of the ground floor primary frontage of buildings are visually permeable, transparent or clear glazed.</p>																					
<p>PO 2.5</p> <p>Buildings set back from the primary street boundaries consistent with the existing/emerging streetscape.</p>	<p>DTS/DPF 2.5</p> <p>Buildings setback from the primary street boundary in accordance with the following table:</p>																					

	<b>Development Context</b>	<b>Minimum setback</b>		
	There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building.	The average setback of the existing buildings.		
	There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site.	The setback of the existing building.		
	There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site.	(a) Where the existing building shares the same primary street frontage – the setback of the existing building (b) Where the existing building has a different primary street frontage – 0m		
	There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building.	0m		
	For the purposes of <b>DTS/DPF 2.5</b> : <ul style="list-style-type: none"> <li>(a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback</li> <li>(b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table</li> </ul>			
PO 2.6 Buildings set back from secondary street boundaries in a manner compatible with the emerging streetscape pattern.	DTS/DPF 2.6 Building walls setback from the secondary street frontage in accordance with either of the following: <ul style="list-style-type: none"> <li>(a) no minimum where adjoining allotments are vacant or</li> <li>(b) the average of the setback of the existing building on each adjoining site fronting the same street.</li> </ul>			
PO 2.7 Buildings set back from rear boundaries (other than street boundaries) to: <ul style="list-style-type: none"> <li>(a) minimise impacts on properties in neighbouring zones</li> <li>(b) maximise intensity of development within the zone.</li> </ul>	DTS/DPF 2.7 Building walls setback from the rear boundaries as follows: <ul style="list-style-type: none"> <li>(a) 5m or more where the subject land directly abuts an allotment of a different zone or</li> <li>(b) 0 metres in all other cases.</li> </ul>			
PO 2.8 Buildings set back from side boundaries (other than street boundaries) to: <ul style="list-style-type: none"> <li>(a) reduce impacts of building bulk on adjoining properties</li> <li>(b) provide adequate direct sun and ventilation to the building and open spaces</li> <li>(c) minimise the extent of overlooking and resultant loss of privacy on adjoining properties</li> <li>(d) minimise the extent of overshadowing on adjoining properties.</li> </ul>	DTS/DPF 2.8 Building walls setback from the side boundaries the average of the setback of the existing building on each adjoining site fronting the same street.			
PO 2.9 Buildings set back from street boundaries (in the case of rear access ways) to provide adequate manoeuvrability for vehicles.	DTS/DPF 2.9 Building walls setback from the rear access way: <ul style="list-style-type: none"> <li>(a) no requirement where the access way is not less than 6.5m wide or</li> <li>(b) where the access way is less than 6.5m wide, the distance equal to the additional width required to make the access way at least 6.5m wide.</li> </ul>			
Interface Height				
PO 3.1 Buildings mitigate visual impacts of building massing on residential development within a neighbourhood-type zone.	DTS/DPF 3.1 <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: center;">Interface Height</th> </tr> </thead> <tbody> <tr> <td>Buildings constructed within a building envelope provided by a:                             <ul style="list-style-type: none"> <li>(a) 45 degree plane measured from a height of 3 metres above natural ground level at the boundary of the allotment where abutting a residential use, or where the allotment is separated by a road less than 6.5 metres in width measured from the residential allotment boundary, within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary):</li> </ul> </td> </tr> </tbody> </table>		Interface Height	Buildings constructed within a building envelope provided by a: <ul style="list-style-type: none"> <li>(a) 45 degree plane measured from a height of 3 metres above natural ground level at the boundary of the allotment where abutting a residential use, or where the allotment is separated by a road less than 6.5 metres in width measured from the residential allotment boundary, within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary):</li> </ul>
Interface Height				
Buildings constructed within a building envelope provided by a: <ul style="list-style-type: none"> <li>(a) 45 degree plane measured from a height of 3 metres above natural ground level at the boundary of the allotment where abutting a residential use, or where the allotment is separated by a road less than 6.5 metres in width measured from the residential allotment boundary, within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary):</li> </ul>				

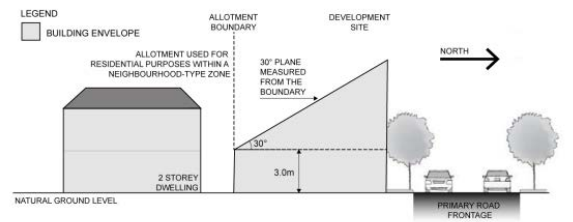

**Interface Height**

(b) in relation to a southern boundary, 30 degree plane grading north, measured from a height of 3m above natural ground at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary):

Buildings constructed within a building envelope provided by a 30 degree plane measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a street boundary):

PO 3.2  
Development that manages the interface with a low-rise neighbourhood-type zone by incorporating less dense, low-rise residential land uses at the interface, and avoiding land uses or intensity of land uses that adversely affect residential amenity.

DTS/DPF 3.2  
None are applicable.

Site Dimensions and Land Division

PO 4.1  
Where appropriate, a street grid pattern is provided in mixed use areas to maintain clear sightlines, improve public safety and legibility within the public realm, and ensure walkability and connectivity are maximised.

DTS/DPF 4.1  
None are applicable.

Movement, parking and access

PO 5.1  
DTS/DPF 5.1

Where practicable, buildings provide vehicle access via a side street or rear lane access way that is designed to:

- (a) provide space between buildings that reduces building mass and creates a more visually diverse public realm
- (b) minimises conflicts with pedestrians and cyclists
- (c) achieve active frontages at a lower intensity than the primary street frontage.

Vehicular access to be provided:

- (a) via side streets or rear lanes provided there is no negative impact on residential amenity within the zone and in adjacent zones  
or
- (b) where it consolidates or replaces existing crossovers.

Concept Plans

PO 6.1  
Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code.

DTS/DPF 6.1  
The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:

Description
Concept Plan 5 - Bowden Urban Village
Concept Plan 34 - Bowden-Brompton
Concept Plan 3 - Mount Barker and Littlehampton
Concept Plan 89 - Tonsley
Concept Plan 86 - Edwardstown
Concept Plan 94 - Old Reynella
Concept Plan 112 - West Lakes
Concept Plan 111 - St Clair
Concept Plan 109 - Seaton
Concept Plan 115 - Morphetteville

In relation to DTS/DPF 6.1, in instances where:

- (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.
- (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 6.1 is met.

**Table 1 - Accepted Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The item will be installed on or within an existing building</li> <li>2. The item being installed does not encroach on a public street or affect the ability of the building to resist the spread of fire</li> <li>3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>
Building alterations Except where any of the following apply: <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The alteration does not:                             <ul style="list-style-type: none"> <li>(a) increase the floor area of the building</li> <li>(b) exceed the existing wall height</li> <li>(c) exceed the existing overall building height</li> <li>(d) alter the roof profile</li> <li>(e) alter an approved privacy screening arrangement or window treatment</li> </ul> </li> <li>2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.</li> </ol>
Excavation	<ol style="list-style-type: none"> <li>1. It does not involve excavation more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.</li> </ol>
Filling of land	<ol style="list-style-type: none"> <li>1. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay.</li> </ol>
Ground intruding activity	<ol style="list-style-type: none"> <li>1. It does not involve ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.</li> <li>2. It does not involve ground intruding activity involving an underground drain, pipe, cable, conduit, tunnel, underground passageway or adit.</li> </ol>
Partial demolition of a building or structure Except where any of the following apply: <ul style="list-style-type: none"> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	None
Shade sail Except where any of the following apply: <ul style="list-style-type: none"> <li>• Future Local Road Widening Overlay</li> <li>• Future Road Widening Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> </ol>

<ul style="list-style-type: none"> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>3. Shade sail consists of permeable material.</li> <li>4. The total area of the sail does not exceed 40m<sup>2</sup>.</li> <li>5. No part of the shade sail will be:             <ol style="list-style-type: none"> <li>(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment</li> <li>(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment.</li> </ol> </li> <li>6. Primary street setback - at least as far back as the building line of the building to which it is ancillary.</li> <li>7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m.</li> <li>8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.</li> <li>9. Does not involve the clearance of native vegetation.</li> <li>10. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas</li> <li>11. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay</li> <li>12. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.</li> </ol>
<p>Solar photovoltaic panels (roof mounted) Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof.</li> <li>3. Panels and associated components do not overhang any part of the roof.</li> <li>4. Does not apply to a system with a generating capacity of more than 5MW that is to be connected to the State's power system.</li> <li>5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>
<p>Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Future Local Road Widening Overlay</li> <li>• Future Road Widening Overlay</li> <li>• Hazards (Flooding) Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted.</li> <li>4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature).</li> <li>5. Primary street setback - at least as far back as the building line of the building to which it is ancillary.</li> <li>6. Location of filtration system from a dwelling on an adjoining allotment:             <ol style="list-style-type: none"> <li>(a) not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise; or</li> <li>(b) not less than 12m in any other case.</li> </ol> </li> <li>7. Does not involve the clearance of native vegetation.</li> <li>8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas</li> <li>9. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay</li> <li>10. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.</li> </ol>
<p>Water tank (underground) Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Coastal Areas Overlay</li> <li>• Hazards (Acid Sulfate Soils) Overlay</li> <li>• Ramsar Wetlands Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</li> <li>2. The tank (including any associated pump) is located wholly below the level of the ground</li> <li>3. Does not involve the clearance of native vegetation</li> <li>4. It does not involve filling of land more than 1m above the regulated surface level where located within the Tunnel Protection Overlay</li> <li>5. It does not involve excavation or ground intruding activity more than 2.5m below the regulated surface level where located within the Tunnel Protection Overlay.</li> </ol>

**Table 2 - Deemed-to-Satisfy Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development	Subzone <small>(applies only in the area affected by</small>	Overlay <small>(applies only in the area affected by</small>

		<b>Policies</b>	<b>the Subzone)</b>	<b>the Overlay)</b>

**Table 3 - Applicable Policies for Performance Assessed Development**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Class of Development	Applicable Policies

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Industry	Light industry
Shop	<p>Any of the following:</p> <ul style="list-style-type: none"> <li>(a) shop located in the Main Street Subzone</li> <li>(b) shop located in the Urban Neighbourhood Retail Subzone</li> <li>(c) shop with a gross leasable floor area less than 2000m<sup>2</sup></li> <li>(d) shop that is a restaurant.</li> </ul>

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any kind of development where the site of the development is <b>not</b> adjacent land to a site (or land) used for residential purposes in a neighbourhood-type zone.	Except any of the following: <ol style="list-style-type: none"> <li>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)</li> <li>2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).</li> </ol>
3. Any development involving any of the following (or of any combination of any of the following): <ol style="list-style-type: none"> <li>(a) advertisement</li> <li>(b) child care facility</li> <li>(c) dwelling</li> <li>(d) dwelling addition</li> <li>(e) residential flat building</li> <li>(f) retirement facility</li> <li>(g) student accommodation</li> <li>(h) supported accommodation</li> <li>(i) tourist accommodation.</li> </ol>	Except development that exceeds the maximum building height specified in Urban Neighbourhood DTS/DPF 2.2 or does not satisfy Urban Neighbourhood DTS/DPF 3.1.
4. Any development involving any of the following (or of any combination of any of the following): <ol style="list-style-type: none"> <li>(a) consulting room</li> <li>(b) office</li> <li>(c) shop.</li> </ol>	Except development that exceeds the maximum building height specified in Urban Neighbourhood DTS/DPF 2.2 or does not satisfy any of the following: <ol style="list-style-type: none"> <li>1. Urban Neighbourhood DTS/DPF 1.6</li> <li>2. Urban Neighbourhood DTS/DPF 3.1.</li> </ol>
5. Any development involving any of the following (or of any combination of any of the following): <ol style="list-style-type: none"> <li>(a) air handling unit, air conditioning system or exhaust fan</li> <li>(b) carport</li> <li>(c) deck</li> <li>(d) fence</li> <li>(e) internal building works</li> <li>(f) land division</li> <li>(g) outbuilding</li> <li>(h) pergola</li> <li>(i) private bushfire shelter</li> <li>(j) replacement building</li> <li>(k) retaining wall</li> <li>(l) shade sail</li> <li>(m) solar photovoltaic panels (roof mounted)</li> <li>(n) swimming pool or spa pool and associated swimming pool safety features</li> <li>(o) temporary accommodation in an area affected by bushfire</li> <li>(p) tree damaging activity</li> <li>(q) verandah</li> <li>(r) water tank.</li> </ol>	None specified.
6. Demolition.	Except any of the following: <ol style="list-style-type: none"> <li>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than a</li> </ol>

	excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
7. Railway line.	Except where located outside of a rail corridor or rail reserve.

**Placement of Notices - Exemptions for Performance Assessed Development**

None specified.

**Placement of Notices - Exemptions for Restricted Development**

None specified.

**Main Street Subzone**

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	A shopping, entertainment and commercial main street supported by medium to high density residential development.
DO 2	A fine-grained public realm with safe, walkable and vibrant streets created by mixed use buildings with non-residential uses at ground level and a visually consistent street rhythm informed by local context and narrow tenancy footprints.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Retail, office, entertainment and recreation related uses supplemented by other businesses providing a range of goods and services to the local community and the surrounding district.	DTS/DPF 1.1 None are applicable
PO 1.2 Land uses promote movement and activity during daytime and evening hours, including shops, restaurants, small scale licensed premises, educational, community and cultural facilities, and visitor and residential accommodation.	DTS/DPF 1.2 None are applicable.
PO 1.3 Dwellings developed in conjunction with non-residential uses to support business, entertainment and recreational activities and positively contribute to making the main street locality and pedestrian thoroughfares safe, walkable, comfortable, pleasant and lively places.	DTS/DPF 1.3 Dwellings developed in conjunction with non-residential uses sited:  (a) at upper levels of buildings with non-residential uses located at ground level or (b) behind non-residential uses on the same allotment.
PO 1.4 Development of well-designed diverse medium to high density accommodation options, including dwellings, supported accommodation, student accommodation, and short term accommodation, either as part of a mixed use development or wholly residential development.	DTS/DPF 1.4 None are applicable.
Built Form and Character	
PO 2.1 Ground level uses contribute to a safe, walkable and vibrant main street.	DTS/DPF 2.1 Shop, office, or consulting room uses located on the ground floor level of buildings.
PO 2.2 Buildings designed to create visual connection between the public realm and ground level interior, positively contribute to passive surveillance of the public realm, have an active interface with the main street and contribute to the fine-grain character and retail function of the street.	DTS/DPF 2.2 The ground floor primary frontage of buildings provides at least 60% of the street frontage as an entry / foyer or display window to a shop or other community or commercial use that provides pedestrian interest and activation.
PO 2.3	DTS/DPF 2.3

Buildings are adaptable and flexible to suit a range of residential and non-residential land uses.	The ground floor of buildings contains a minimum floor to ceiling height of 3.5m.
PO 2.4 Buildings with no set-backs from the main street boundary to achieve a continuity of built form frontage to the main street, with the occasional section of building set back to create outdoor dining areas, visually interesting building entrances and intimate but vibrant spaces.	DTS/DPF 2.4 None are applicable.
PO 2.5 Vehicle parking and ancillary buildings and structures (including garages, carports and outbuildings) located behind buildings away from the primary main street frontage and designed to minimise negative impacts on the main street rhythm and activation.	DTS/DPF 2.5 None are applicable.

**Urban Neighbourhood Retail Subzone**

Assessment Provisions (AP)

Desired Outcomes (DO)

Desired Outcome	
DO 1	Additional neighbourhood-scale shopping, business, entertainment and recreation facilities to provide a focus for business and community life and most daily and weekly shopping needs of the community.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Retail, office, entertainment and recreation related uses supplemented by other businesses providing a range of goods and services to the community.	DTS/DPF 1.1 Shops not exceeding a maximum gross leasable floor area of:  (a) 5500m <sup>2</sup> within the whole subzone area in West Lakes (b) 2000m <sup>2</sup> within the whole subzone area in Bedford Park (Laffer's Triangle).

**Urban Renewal Neighbourhood Zone**

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Housing and other land uses which no longer meet community preferences are replaced with new diverse housing options. Housing density increases, taking advantage of well-located urban land. Employment and community services will improve access to jobs, goods and services without compromising residential amenity.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Predominantly residential development with complementary non-residential uses that support an active, convenient, and walkable urban neighbourhood.	DTS/DPF 1.1 Development comprises one or more of the following:  (a) Ancillary accommodation (b) Child care facility (c) Community facility (d) Consulting room (e) Dwelling (f) Educational facility (g) Office (h) Place of Worship (i) Recreation area

	<ul style="list-style-type: none"> <li>(j) Residential flat building</li> <li>(k) Retirement facility</li> <li>(l) Shop</li> <li>(m) Student accommodation</li> <li>(n) Supported accommodation.</li> </ul>											
<p>PO 1.2</p> <p>Commercial activities improve community access to services are of a scale and type to maintain residential amenity.</p>	<p>DTS/DPF 1.2</p> <p>A shop, consulting room or office (or any combination thereof) satisfies (a) or (b):</p> <ul style="list-style-type: none"> <li>(a) it is located on the same allotment and in conjunction with a dwelling where all the following are satisfied: <ul style="list-style-type: none"> <li>(i) does not exceed 50m<sup>2</sup> gross leasable floor area</li> <li>(ii) does not involve the display of goods in a window or about the dwelling or its curtilage</li> </ul> </li> <li>(b) where located outside of an Activity Centre, does not exceed 250m<sup>2</sup> in gross leasable floor area.</li> </ul>											
<p>PO 1.3</p> <p>Non-residential development located and designed to improve community accessibility to services, primarily in the form of:</p> <ul style="list-style-type: none"> <li>(a) small-scale commercial uses such as offices, shops and consulting rooms</li> <li>(b) community services such as educational facilities, community centres, places of worship, child care facilities and other health and welfare services</li> <li>(c) services and facilities ancillary to the function or operation of supported accommodation or retirement facilities</li> <li>(d) open space and recreation facilities.</li> </ul>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>											
<p>PO 1.4</p> <p>Expansion of existing community services such as educational facilities, community facilities and child care facilities in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.</p>	<p>DTS/DPF 1.4</p> <p>Alteration of or addition to existing educational facilities, community facilities or child care facilities where:</p> <ul style="list-style-type: none"> <li>(a) set back at least 3m from any boundary shared with a residential land use</li> <li>(b) building height not exceeding 1 building level</li> <li>(c) the total floor area of the building does not exceed 150% of the total floor area prior to the addition/alteration</li> <li>(d) development satisfies Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.</li> </ul>											
<p>PO 1.5</p> <p>Non-residential development sited and designed to complement the residential character and amenity of the neighbourhood.</p>	<p>DTS/DPF 1.5</p> <p>None are applicable.</p>											
<p>PO 1.6</p> <p>Expansion of existing community services such as educational facilities, community facilities and child care facilities in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.</p>	<p>DTS/DPF 1.6</p> <p>Alteration of or addition to existing educational facilities, community facilities or child care facilities where:</p> <ul style="list-style-type: none"> <li>(a) set back at least 3m from any boundary shared with a residential land use</li> <li>(b) building height not exceeding 1 building level</li> <li>(c) the total floor area of the building not exceeding 150% of the total floor area prior to the addition/alteration</li> <li>(d) off-street vehicular parking exists or will be provided in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.</li> </ul>											
<p>Building Height</p>												
<p>PO 2.1</p> <p>Buildings generally 2-3 levels with taller buildings located on sites that are a suitable size and dimension to manage massing and impacts on adjoining residential development.</p>	<p>DTS/DPF 2.1</p> <p>Building height (excluding garages, carports and outbuildings) is no greater than:</p> <ul style="list-style-type: none"> <li>(a) the following:</li> </ul> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: center;">Maximum Building Height (Metres)</th> </tr> </thead> <tbody> <tr><td>Maximum building height is 7m</td></tr> <tr><td>Maximum building height is 8m</td></tr> <tr><td>Maximum building height is 8.5m</td></tr> <tr><td>Maximum building height is 9m</td></tr> <tr><td>Maximum building height is 11.5m</td></tr> <tr><td>Maximum building height is 12.5m</td></tr> <tr><td>Maximum building height is 14m</td></tr> <tr><td>Maximum building height is 15m</td></tr> <tr><td>Maximum building height is 16.5m</td></tr> <tr><td>Maximum building height is 18.5m</td></tr> </tbody> </table>	Maximum Building Height (Metres)	Maximum building height is 7m	Maximum building height is 8m	Maximum building height is 8.5m	Maximum building height is 9m	Maximum building height is 11.5m	Maximum building height is 12.5m	Maximum building height is 14m	Maximum building height is 15m	Maximum building height is 16.5m	Maximum building height is 18.5m
Maximum Building Height (Metres)												
Maximum building height is 7m												
Maximum building height is 8m												
Maximum building height is 8.5m												
Maximum building height is 9m												
Maximum building height is 11.5m												
Maximum building height is 12.5m												
Maximum building height is 14m												
Maximum building height is 15m												
Maximum building height is 16.5m												
Maximum building height is 18.5m												

Maximum Building Height (Metres)
Maximum building height is 22m
Maximum building height is 32.5m
Maximum building height is 10.5m
Maximum building height is 20.5m
Maximum Building Height (Levels)
Maximum building height is 2 levels
Maximum building height is 3 levels
Maximum building height is 4 levels
Maximum building height is 5 levels
Maximum building height is 6 levels
Maximum building height is 9 levels
Maximum building height is 10 levels

- (b) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)):
- (i) 4 building levels and 15m where the site:
    - A. is at least 1200m<sup>2</sup> in area and
    - B. has a frontage of 35 metres
  - or
  - (ii) 3 building levels and 12m in all other circumstances.
- In relation to DTS/DPF 2.1, in instances where:
- (c) more than one value is returned in the same field, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation layer and Maximum Building Height (Metres) Technical and Numeric Variation layer* in the SA planning database to determine the applicable value relevant to the site of the proposed development
  - (d) only one value is returned for DTS/DPF 2.1(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.

PO 2.2  
Buildings on an allotment at the interface with a different neighbourhood-type zone are sited and designed to provide an orderly transition to the built form scale envisaged in that zone to mitigate impacts on adjacent residential uses.

DTS/DPF 2.2  
None are applicable.

Primary Street Setback

PO 3.1  
Buildings are set back from primary street boundaries to contribute to the existing/emerging pattern of street setbacks in the streetscape and integrate development with public open space.

DTS/DPF 3.1  
Buildings setback from the primary street boundary in accordance with the following table:

Development Context	Minimum setback
Where the allotment adjoins a public reserve greater than 2000m <sup>2</sup> (including where the allotment would adjoin a reserve if not separated by a public road), the dwelling faces that reserve and access is provided to the rear of the allotment.	1.5m
In all other cases.	3m

For the purposes of **DTS/DPF 3.1**:

- (a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback
- (b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table

Secondary Street Setback

PO 4.1  
Buildings are set back from secondary street boundaries to achieve a pattern of separation between building walls and public streets and reinforce a streetscape character.

DTS/DPF 4.1  
Building walls are set back at least 900mm from the boundary of the allotment with the secondary street frontage.

Boundary Walls

PO 5.1  
Walls on boundaries are limited in height and length to manage visual and overshadowing impacts on adjoining properties.

- DTS/DPF 5.1  
Except where the building is a dwelling and is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur only on one side boundary and satisfy (a) or (b) below:
- (a) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same or lesser length and height
  - (b) side boundary walls do not:
    - (i) exceed 3m in wall height
    - (ii) exceed 11.5 metres in length
    - (iii) when combined with other walls on the boundary of the subject development

	<p>site, exceed a maximum 45% of the length of the boundary</p> <p>(iv) encroach within 3 metres of any other existing or proposed boundary walls on the subject land</p>						
PO 5.2	DTS/DPF 5.2						
Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a suburban streetscape character.	Dwelling walls in a semi-detached, row or terrace arrangement are setback at least 900mm from side boundaries shared with allotments outside the development site.						
Side Boundary Setback							
PO 6.1	DTS/DPF 6.1						
Buildings are set back from side boundaries to provide: <ul style="list-style-type: none"> <li>(a) separation between buildings to minimise visual impact</li> <li>(b) access to natural light and ventilation for neighbours.</li> </ul>	Building walls not sited on side boundaries are set back from side boundaries in accordance with the following: <ul style="list-style-type: none"> <li>(a) where the wall height does not exceed 3m - at least 900mm</li> <li>(b) where the wall height exceeds 3m - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings.</li> </ul>						
Rear Boundary Setback							
PO 7.1	DTS/DPF 7.1						
Buildings are set back from rear boundaries to provide: <ul style="list-style-type: none"> <li>(a) separation between buildings to minimise visual impact</li> <li>(b) access to natural light and ventilation for neighbours</li> <li>(c) open space recreational opportunities</li> <li>(d) space for landscaping and vegetation.</li> </ul>	Building walls are set back from the rear boundary at least: <ul style="list-style-type: none"> <li>(a) 3m for the first building level or 0m where the rear boundary abuts a laneway</li> <li>(b) 5m for any second building level</li> <li>(c) 5m plus any increase in wall height over 7m for buildings of 3 building levels and above.</li> </ul>						
Site Dimensions and Land Division							
PO 8.1	DTS/DPF 8.1						
Allotments/sites created for residential purposes accommodate a diverse range of medium density housing.	Development will not result in more than 1 dwelling on an existing allotment or Allotments/sites for residential purposes achieve a net density of up to 70 dwellings per hectare.						
PO 8.2	DTS/DPF 8.2						
High density residential development located on sites of a suitable size and dimension to achieve a high standard of amenity for occupants and neighbours.	Development with a net residential density over 70 dwellings per hectare on sites with a minimum area of 1200m <sup>2</sup> and minimum frontage width of 35m.						
Concept Plans							
PO 9.1	DTS/DPF 9.1						
Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	<p>The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:</p> <table border="1" style="width: 100%;"> <thead> <tr> <th style="text-align: center;">Description</th> </tr> </thead> <tbody> <tr> <td>Concept Plan 4 - Minda Incorporated Brighton Campus - North Brighton</td> </tr> <tr> <td>Concept Plan 89 - Tonsley</td> </tr> <tr> <td>Concept Plan 97 - Underdale</td> </tr> <tr> <td>Concept Plan 116 - Everard Park</td> </tr> <tr> <td>Concept Plan 127 - Kidman Park</td> </tr> </tbody> </table> <p>In relation to DTS/DPF 9.1, in instances where:</p> <ul style="list-style-type: none"> <li>(a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.</li> <li>(b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 9.1 is met.</li> </ul>	Description	Concept Plan 4 - Minda Incorporated Brighton Campus - North Brighton	Concept Plan 89 - Tonsley	Concept Plan 97 - Underdale	Concept Plan 116 - Everard Park	Concept Plan 127 - Kidman Park
Description							
Concept Plan 4 - Minda Incorporated Brighton Campus - North Brighton							
Concept Plan 89 - Tonsley							
Concept Plan 97 - Underdale							
Concept Plan 116 - Everard Park							
Concept Plan 127 - Kidman Park							
Ancillary buildings and structures							
PO 10.1	DTS/DPF 10.1						
Residential ancillary buildings and structures are sited and designed to not detract from the streetscape or appearance of neighbouring properties.	<p>Ancillary buildings and structures:</p> <ul style="list-style-type: none"> <li>(a) are ancillary to a dwelling erected on the same site</li> <li>(b) have a floor area not exceeding 60m<sup>2</sup></li> <li>(c) are not constructed, added to or altered so that any part is situated                             <ul style="list-style-type: none"> <li>(i) in front of any part of the building line of the dwelling to which it is ancillary or</li> <li>(ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads)</li> </ul> </li> <li>(d) in the case of a garage or carport, the garage or carport:                             <ul style="list-style-type: none"> <li>(i) is set back at least 5.5m from the boundary of the primary street</li> <li>(ii) when facing a primary street or secondary street, has a total door / opening not exceeding:                                     <ul style="list-style-type: none"> <li>A. for dwellings of single building level - 7m in width or 50% of the</li> </ul> </li> </ul> </li> </ul>						

- frontage, whichever is the lesser
- B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width

- (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless:
  - (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and
  - (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
- (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary
- (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure
- (h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end)
- (i) have a roof height where no part of the roof is more than 5m above the natural ground level
- (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour
- (k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less:
- (i) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

- (ii) the amount of existing soft landscaping prior to the development occurring.

PO 10.2  
Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements or result in over-development of the site.

DTS/DPF 10.2  
Ancillary buildings and structures do not result in:

- (a) less private open space than specified in Design in Urban Areas Table 1 - Private Open Space
- (b) less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.

PO 10.3  
Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties.

DTS/DPF 10.3  
Non-residential ancillary buildings and structures:

- (a) are ancillary and subordinate to an existing non-residential use on the same site
- (b) have a floor area not exceeding the following:
 

Allotment size	Floor area
≤500m <sup>2</sup>	60m <sup>2</sup>
>500m <sup>2</sup>	80m <sup>2</sup>
- (c) are not constructed, added to or altered so that any part is situated:
  - (i) in front of any part of the building line of the main building to which it is ancillary
  - or
  - (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads)
- (d) in the case of a garage or carport, the garage or carport:
  - (i) is set back at least 5.5m from the boundary of the primary street
- (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless:
  - (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary
  - (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
- (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary
- (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure
- (h) have a wall height (or post height) not exceeding 3m (and not including a gable end)
- (i) have a roof height where no part of the roof is more than 5m above the natural ground level

level  
(j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.

**Table 1 - Accepted Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
<p>Air handling unit, air conditioning system or exhaust fan Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The item will be installed on or within an existing building</li> <li>2. The item being installed does not encroach on a public street or affect the ability of the building to resist the spread of fire</li> <li>3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>
<p>Brush fence Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Hazards (Flooding) Overlay</li> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• Ramsar Wetlands Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The fence is formed (wholly or partially) from brush</li> <li>2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels)</li> <li>3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved)</li> <li>4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.</li> </ol>
<p>Building alterations Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The alteration does not:                         <ol style="list-style-type: none"> <li>(a) increase the floor area of the building</li> <li>(b) exceed the existing wall height</li> <li>(c) exceed the existing overall building height</li> <li>(d) alter the roof profile</li> <li>(e) alter an approved privacy screening arrangement or window treatment</li> </ol> </li> <li>2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.</li> </ol>
<p>Building work on railway land Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Coastal Areas Overlay</li> <li>• Hazards (Acid Sulfate Soils) Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• Significant Landscape Protection Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. Building work is associated with a railway</li> <li>2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017)</li> <li>3. It is required for the conduct or maintenance of railway activities</li> <li>4. It does not involve the clearance of native vegetation</li> <li>5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.</li> </ol>
<p>Carport Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Future Local Road Widening Overlay</li> <li>• Future Road Widening Overlay</li> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i></li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</li> <li>3. It is ancillary to a dwelling erected on the site</li> <li>4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary</li> <li>5. Total floor area - does not exceed 40m<sup>2</sup></li> <li>6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end)</li> <li>7. Building height - does not exceed 5m</li> <li>8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11.5m unless:                         <ol style="list-style-type: none"> <li>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</li> <li>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</li> </ol> </li> <li>9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street):                         <ol style="list-style-type: none"> <li>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</li> <li>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure</li> </ol> </li> <li>10. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)</li> <li>11. The carport is located so that vehicle access:                         <ol style="list-style-type: none"> <li>(a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or</li> <li>(b) is not obtained from a State Maintained Road, and will use a driveway that:                                 <ol style="list-style-type: none"> <li>(i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing;</li> <li>(ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;</li> </ol> </li> </ol> </li> </ol>

- (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
- (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
- (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site

- 12. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour
- 13. Does not involve the clearance of native vegetation
- 14. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
  - (a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

- (b) the amount of existing soft landscaping prior to the development occurring.

**Outbuilding**  
 Except where any of the following apply:

- Coastal Areas Overlay
- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

- 1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
- 2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
- 3. It is detached from and ancillary to a dwelling erected on the site.
- 4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary
- 5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)
- 6. Total floor area - does not exceed 40m<sup>2</sup>
- 7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)
- 8. Building height - does not exceed 5m
- 9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless:
  - (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
  - (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
- 10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
  - (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
  - (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure
- 11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)
- 12. If the outbuilding is a garage, it is located so that vehicle access:
  - (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
  - (b) is not obtained from a State Maintained Road, and will use a driveway that:
    - (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing;
    - (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
    - (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
    - (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
    - (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary

	<p style="text-align: center;">of the allotment / site</p> <p>13. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour</p> <p>14. Does not involve-</p> <p style="margin-left: 40px;">(a) excavation exceeding a vertical height of 1m; or</p> <p style="margin-left: 40px;">(b) filling exceeding a vertical height of 1m,</p> <p>and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m.</p> <p>15. Does not involve the clearance of native vegetation</p> <p>16. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas</p> <p>17. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:</p> <p>(a) a total area as determined by the following table:</p> <table border="1" data-bbox="868 483 1551 797"> <thead> <tr> <th style="background-color: #0056b3; color: white;">Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m<sup>2</sup>)</th> <th style="background-color: #0056b3; color: white;">Minimum percentage of site</th> </tr> </thead> <tbody> <tr> <td>&lt;150</td> <td>10%</td> </tr> <tr> <td>150-200</td> <td>15%</td> </tr> <tr> <td>201-450</td> <td>20%</td> </tr> <tr> <td>&gt;450</td> <td>25%</td> </tr> </tbody> </table> <p>(b) the amount of existing soft landscaping prior to the development occurring.</p>	Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site	<150	10%	150-200	15%	201-450	20%	>450	25%

150-200	15%										

201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Solar photovoltaic panels (roof mounted)  
Except where any of the following apply:

- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof
3. Panels and associated components do not overhang any part of the roof
4. Does not apply to a system with a generating capacity of more than 5MW that is to be connected to the State's power system
5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.

Swimming pool or spa pool and associated swimming pool safety features  
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted;
4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature).
5. Primary street setback - at least as far back as the building line of the building to which it is ancillary
6. Location of filtration system from a dwelling on an adjoining allotment:
  - (a) not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise
  - (b) not less than 12m in any other case.

7. Does not involve the clearance of native vegetation
8. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
9. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

Verandah  
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. It is ancillary to a dwelling erected on the site
4. Primary street setback - as far back as the building line of the building to which it is ancillary
5. Total floor area - does not exceed 40m<sup>2</sup>
6. Post height - does not exceed 3m measured from natural ground level
7. Building height - does not exceed 5m
8. Length - does not exceed 11.5m if any part of the structure abuts or is situated on a boundary of the allotment
9. Does not involve the clearance of native vegetation
10. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%

<p>Water tank (underground) Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Coastal Areas Overlay</li> <li>• Hazards (Acid Sulfate Soils) Overlay</li> <li>• Ramsar Wetlands Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</li> <li>2. The tank (including any associated pump) is located wholly below the level of the ground</li> <li>3. Does not involve the clearance of native vegetation.</li> </ol>										

**Table 2 - Deemed-to-Satisfy Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone <small>(applies only in the area affected by the Subzone)</small>	Overlay <small>(applies only in the area affected by the Overlay)</small>

**Table 3 - Applicable Policies for Performance Assessed Development**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Class of Development	Applicable Policies			
	Zone	General Development Policies	Subzone <small>(applies only in the area affected by the Subzone)</small>	Overlay <small>(applies only in the area affected by the Overlay)</small>

PO 5.1

Key Outback and Rural Routes Overlay [Access - Mud and Debris]  
PO 6.1

Key Outback and Rural Routes Overlay [Access - Stormwater]  
PO 7.1

Key Outback and Rural Routes Overlay [Building on Road Reserve]  
PO 8.1

Key Outback and Rural Routes Overlay [Public Road Junctions]  
PO 9.1

Key Railway Crossings Overlay [Access, Design and Function]  
PO 1.1

Local Heritage Place Overlay [Built Form]  
PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7

Local Heritage Place Overlay [Ancillary Development]  
PO 3.1, PO 3.2

Local Heritage Place Overlay [Landscape Context and Streetscape Amenity]  
PO 5.1

Local Heritage Place Overlay [Conservation Works]  
PO 7.1

Major Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)]  
PO 1.1

Major Urban Transport Routes Overlay [Access - On-Site Queuing]  
PO 2.1

Major Urban Transport Routes Overlay [Access - Location (Spacing) - Existing Access Points]  
PO 3.1

Major Urban Transport Routes Overlay [Access - Location (Spacing) - New Access Points]  
PO 4.1

Major Urban Transport Routes Overlay [Access - Location (Sight Lines)]  
PO 5.1

Major Urban Transport Routes Overlay [Access - Mud and Debris]  
PO 6.1

Major Urban Transport Routes Overlay [Access - Stormwater]  
PO 7.1

Major Urban Transport Routes Overlay [Building on Road Reserve] PO 8.1

Major Urban Transport Routes Overlay [Public Road Junctions] PO 9.1

Major Urban Transport Routes Overlay [Corner Cut-Offs] PO 10.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Water Quality] PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Stormwater] PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Landscapes and Natural Features] PO 4.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Water Quality] PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Stormwater] PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Landscapes and Natural Features] PO 4.1

Native Vegetation Overlay [Environmental Protection] PO 1.1, PO 1.2, PO 1.4

Non-Stop Corridors Overlay [Non-Stop Corridor Overlay] PO 1.1

River Murray Flood Plain Protection Area Overlay [Wastewater] PO 2.1

River Murray Flood Plain Protection Area Overlay [Built Form and Character] PO 5.1, PO 5.3

River Murray Flood Plain Protection Area Overlay [Flood Resilience] PO 6.1, PO 6.3, PO 6.4

River Murray Flood Plain Protection Area Overlay [Environmental Protection] PO 7.1, PO 7.2, PO 7.3, PO 7.4

River Murray Flood Plain Protection Area Overlay [Access] PO 8.1, PO 8.2, PO 8.3

Scenic Quality Overlay [Land Use and Intensity] PO 1.1

Scenic Quality Overlay [Built Form and Character] PO 2.1

Scenic Quality Overlay [Earthworks] PO 4.1

Significant Landscape Protection Overlay [Built Form and Character] PO 2.1, PO 2.2

Significant Landscape Protection Overlay [Landscaping] PO 3.1

All other Code Assessed Development	All	All	All	Any relevant Overlay: All

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: <ul style="list-style-type: none"> <li>(a) shop with a gross leasable floor area less than 1000m<sup>2</sup></li> <li>(b) shop that is a restaurant.</li> </ul>

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. All development undertaken by: <ul style="list-style-type: none"> <li>(a) the South Australian Housing Trust either individually or jointly with other persons or bodies or</li> <li>(b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.</li> </ul>	Except development involving any of the following: <ul style="list-style-type: none"> <li>1. residential flat building(s) of 3 or more building levels</li> <li>2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)</li> <li>3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).</li> </ul>
3. Any development involving any of the following (or of any combination of any of the following): <ul style="list-style-type: none"> <li>(a) ancillary accommodation</li> <li>(b) dwelling</li> <li>(c) dwelling addition</li> <li>(d) residential flat building</li> <li>(e) retirement facility</li> <li>(f) student accommodation</li> <li>(g) supported accommodation.</li> </ul>	Except development that: <ul style="list-style-type: none"> <li>1. exceeds the maximum building height specified in Urban Renewal Neighbourhood Zone DTS/DPF 2.1 or</li> <li>2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and:                             <ul style="list-style-type: none"> <li>(a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or</li> <li>(b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).</li> </ul> </li> </ul>
4. Alteration of or addition to any of the following (or of any combination of any of the following): <ul style="list-style-type: none"> <li>(a) child care facility</li> <li>(b) community facility</li> <li>(c) educational facility.</li> </ul>	Except development that does not satisfy Urban Renewal Neighbourhood Zone DTS/DPF 1.6.
5. Any development involving any of the following (or of any combination of any of the following): <ul style="list-style-type: none"> <li>(a) consulting room</li> <li>(b) office</li> <li>(c) shop.</li> </ul>	Except development that: <ul style="list-style-type: none"> <li>1. exceeds the maximum building height specified in Urban Renewal Neighbourhood Zone DTS/DPF 2.1 or</li> <li>2. does not satisfy Urban Renewal Neighbourhood Zone DTS/DPF 1.2 or</li> <li>3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and:</li> </ul>

	<ul style="list-style-type: none"> <li>(a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or</li> <li>(b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).</li> </ul>
<p>6. Any development involving any of the following (or of any combination of any of the following):</p> <ul style="list-style-type: none"> <li>(a) air handling unit, air conditioning system or exhaust fan</li> <li>(b) carport</li> <li>(c) deck</li> <li>(d) fence</li> <li>(e) internal building works</li> <li>(f) land division</li> <li>(g) outbuilding</li> <li>(h) pergola</li> <li>(i) private bushfire shelter</li> <li>(j) recreation area</li> <li>(k) replacement building</li> <li>(l) retaining wall</li> <li>(m) shade sail</li> <li>(n) solar photovoltaic panels (roof mounted)</li> <li>(o) swimming pool or spa pool and associated swimming pool safety features</li> <li>(p) temporary accommodation in an area affected by bushfire</li> <li>(q) tree damaging activity</li> <li>(r) verandah</li> <li>(s) water tank.</li> </ul>	None specified.
7. Demolition.	<p>Except any of the following:</p> <ul style="list-style-type: none"> <li>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)</li> <li>2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).</li> </ul>
8. Railway line.	Except where located outside of a rail corridor or rail reserve.

**Placement of Notices - Exemptions for Performance Assessed Development**

None specified.

**Placement of Notices - Exemptions for Restricted Development**

None specified.

**Mixed Use Transition Subzone**

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development accommodating a range of business, commercial, warehousing and light industrial uses enabling the transition of the area to mixed use development, compatible with residential development.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	

<p>PO 1.1</p> <p>Redevelopment and transition of the area towards mixed development including, residential, supported by a mix of compatible uses including light industry, service trade, motor repair and other compatible businesses servicing the local community that do not produce objectionable emissions.</p>	<p>DTS/DPF 1.1</p> <p>Development comprises one or more of the following:</p> <ul style="list-style-type: none"> <li>(a) Dwelling</li> <li>(b) Entertainment venue</li> <li>(c) Licenced premises</li> <li>(d) Hotel</li> <li>(e) Consulting room</li> <li>(f) Indoor recreation facility</li> <li>(g) Light industry</li> <li>(h) Motor repair station</li> <li>(i) Office</li> <li>(j) Place of worship</li> <li>(k) Research facility</li> <li>(l) Retail fuel outlet</li> <li>(m) Service trade premises</li> <li>(n) Shop</li> <li>(o) Store</li> <li>(p) Tourist accommodation</li> <li>(q) Training facility</li> </ul>
<p>PO 1.2</p> <p>Non-residential development involving the expansion, alteration or replacement of an existing industry or activity adjacent to a sensitive receiver or zone, and where current adverse impacts exist, only occur where adverse impacts are minimised in accordance the with <i>Environment Protection Act 1993</i> requirements.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
<p>PO 1.3</p> <p>Residential development and other sensitive development only occur where adverse impacts from nearby industries and activities are minimised in accordance with the <i>Environment Protection Act 1993</i> requirements.</p>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>
<p>PO 1.4</p> <p>Shops, other than bulky goods outlets, provide a local convenience service to meet the day to day needs of the local community and surrounding businesses as well as support the sale of products made on-site as a supplement to a business activity to enhance local job opportunities.</p>	<p>DTS/DPF 1.4</p> <p>Shop comprising any of the following:</p> <ul style="list-style-type: none"> <li>(a) shop with a gross leasable floor area up to 500m<sup>2</sup></li> <li>(b) shop in the form of a bulky goods outlet</li> <li>(c) shop that is ancillary to and located on the same allotment as a light industry.</li> </ul>
<p>Land Division</p>	
<p>PO 2.1</p> <p>Sensitive uses and sensitive receivers are:</p> <ul style="list-style-type: none"> <li>(a) located away from areas which may be subject to unacceptable noise, dust, odour or other emissions</li> </ul> <p>or</p> <ul style="list-style-type: none"> <li>(b) able to adequately mitigate impacts of noise, dust, odour or other emissions through design techniques such as: <ul style="list-style-type: none"> <li>(i) locating residential accommodation, the greatest distance practicable from the industry</li> <li>(ii) locating buildings containing less non-sensitive receivers between the industry and sensitive receivers</li> <li>(iii) placing rooms more sensitive to air, noise and odour impacts (e.g. bedrooms) further away from the industry</li> </ul> </li> </ul> <p>or</p> <ul style="list-style-type: none"> <li>(iv) providing private or common open space adjacent a building facade that shields the space from impacts of the industry.</li> </ul>	<p>DTS/DPF 2.1</p> <p>Development does not incorporate any of the following (including alterations and additions which increase the floor area of buildings accommodating the following by 10% or more):</p> <ul style="list-style-type: none"> <li>(a) land division creating one or more additional allotments for residential purposes</li> <li>(b) dwelling</li> <li>(c) residential flat building</li> <li>(d) tourist accommodation</li> <li>(e) boarding home</li> <li>(f) dormitory style accommodation</li> <li>(g) Workers' accommodation</li> <li>(h) student accommodation</li> <li>(i) child care facility</li> <li>(j) educational facility</li> <li>(k) retirement village</li> <li>(l) supported accommodation</li> <li>(m) residential park</li> <li>(n) hospital.</li> </ul>

**Landscape Transition Subzone**

Assessment Provisions (AP)

Desired Outcome (DO)

<b>Desired Outcome</b>	
<b>DO 1</b>	Development in an open landscaped setting.

Performance Outcomes and Deemed to Satisfy / Designated Performance Outcome Criteria

<b>Performance Outcome</b>	<b>Deemed-to-Satisfy Criteria / Designated</b>
----------------------------	--

Performance Feature	
Built Form and Siting	
PO 1.1 Building footprints consistent with the character and pattern of the prevailing open landscaped character of the neighbourhood.	DTS/DPF 1.1 The development does not result in a site coverage exceeding 50%.
PO 1.2 Development incorporates deep soil zones for the retention or provision of large trees to contribute to a well landscaped setting.	DTS/DPF 1.2 At least 15% of a site incorporates deep soil zone areas.
Site Dimensions and Land Division	
PO 2.1 Allotments/sites created for residential purposes primarily accommodating medium density residential development, with lower density at the interface with a different neighbourhood zone.	DTS/DPF 2.1 Allotments/sites for residential purposes accord with the following:  (a) Site areas (or allotment areas in the case of land division) are not less than: (i) 180m <sup>2</sup> , or 100m <sup>2</sup> on an allotment >2000m <sup>2</sup> , for a dwelling (ii) 120m <sup>2</sup> , or 80m <sup>2</sup> on an allotment >2000m <sup>2</sup> , for each dwelling in a residential flat building (iii) 300m <sup>2</sup> for a dwelling (including in a residential flat building) in areas where the Maximum Building Height (Levels) Technical and Numeric Variation specifies a maximum building height of 2 levels.  (b) Site frontages (or allotment frontage in the case of land division) are not less than: (i) 8m for a dwelling (ii) 20m for a residential flat building

**Waterfront Neighbourhood Zone**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	A diverse range of housing which takes advantage of waterfront locations. Development enhances public access to waterfront areas. Dual aspect allotments incorporate designs to enhance the streetscape.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Residential development and supporting services and facilities make waterfront neighbourhoods a convenient place to live.	DTS/DPF 1.1 Development comprises one or more of the following:  (a) Ancillary accommodation (b) Child care facility (c) Community facility (d) Dwelling (e) Educational facility (f) Jetty, pontoon or boat berth (or any combination thereof) (g) Marina (h) Office (i) Place of Worship (j) Recreation area (k) Residential flat building (l) Retirement facility (m) Shop (n) Supported accommodation (o) Tourist accommodation
PO 1.2 Marinas include constructed waterways, mooring facilities, pontoons and small jetties to accommodate recreational activities and mooring of small boats associated with residential allotments.	DTS/DPF 1.2 None are applicable.
PO 1.3 Non-residential development located and designed to improve community accessibility to services, primarily in the form of:  (a) small-scale commercial uses such as offices, consulting rooms and shops	DTS/DPF 1.3 None are applicable.

<ul style="list-style-type: none"> <li>(b) community services such as educational facilities, community centres, places of worship, child care facilities and other health and welfare services</li> <li>(c) services and facilities ancillary to the function or operation of supported accommodation or retirement facilities</li> <li>(d) open space and recreation facilities.</li> </ul>						
<p>PO 1.4</p> <p>Non-residential development is compatible with the waterfront character and amenity of a neighbourhood.</p>	<p>DTS/DPF 1.4</p> <p>None are applicable.</p>					
<p>PO 1.5</p> <p>Commercial activities improve community access to services and activate waterfront areas are of a scale and type to maintain residential amenity.</p>	<p>DTS/DPF 1.5</p> <p>A shop, consulting room or office (or any combination thereof) satisfies any one of the following:</p> <ul style="list-style-type: none"> <li>(a) it is located on the same allotment and in conjunction with a dwelling, and all the following are satisfied: <ul style="list-style-type: none"> <li>(i) does not exceed 50m<sup>2</sup> gross leasable floor area</li> <li>(ii) does not involve the display of goods in a window or about the dwelling or its curtilage</li> </ul> </li> <li>(b) it reinstates a former shop, consulting room or office in an existing building (or portion of a building) and at least one of the following is satisfied: <ul style="list-style-type: none"> <li>(i) the building is a State or Local Heritage Place</li> <li>(ii) is in conjunction with a dwelling and there is no increase in the gross leasable floor area previously used for non-residential purposes</li> </ul> </li> <li>(c) it is located more than 500m from an Activity Centre and satisfies one of the following: <ul style="list-style-type: none"> <li>(i) does not exceed 100m<sup>2</sup> gross leasable floor area (individually or combined, in a single building) where the site does not have a frontage to a State Maintained Road</li> <li>(ii) does not exceed 200m<sup>2</sup> gross leasable floor area (individually or combined, in a single building) where the site has a frontage to a State Maintained Road</li> </ul> </li> <li>(d) the development site abuts an Activity Centre and all the following are satisfied: <ul style="list-style-type: none"> <li>(i) it does not exceed 200m<sup>2</sup> gross leasable floor area (in a single building)</li> <li>(ii) the proposed development will not result in the combined gross leasable floor area of all buildings used as a shop, office or consulting room (existing and proposed) or an combination thereof abutting the Activity Centre in this zone exceeding the lesser of the following: <ul style="list-style-type: none"> <li>A. 50% of the gross leasable floor area within the Activity Centre</li> <li>B. 1000m<sup>2</sup>.</li> </ul> </li> </ul> </li> <li>(e) the development is located within the ground level of a mixed use building with frontage to a waterfront or coastal reserve and does not exceed 250m<sup>2</sup> gross leasable floor area.</li> </ul>					
<p>PO 1.6</p> <p>Expansion of existing community services such as educational facilities, community facilities and child care facilities in a manner which complements the scale of development envisaged by the desired outcome for the neighbourhood.</p>	<p>DTS/DPF 1.6</p> <p>Alteration of or addition to existing educational facilities, community facilities or child care facilities where:</p> <ul style="list-style-type: none"> <li>(a) set back at least 3m from any boundary shared with a residential land use</li> <li>(b) building height not exceeding 1 building level</li> <li>(c) the total floor area of the building not exceeding 150% of the total floor area prior to the addition/alteration</li> <li>(d) off-street vehicular parking exists or will be provided in accordance with the rate(s) specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.</li> </ul>					
<p>Site Dimensions and Land Division</p>						
<p>PO 2.1</p> <p>Allotments/sites created for residential purposes are of suitable size and dimension to accommodate the anticipated dwelling form and remain compatible with the pattern of development in a waterfront neighbourhood.</p>	<p>DTS/DPF 2.1</p> <p>Development will not result in more than 1 dwelling on an existing allotment</p> <p>or</p> <p>Allotments/sites for residential purposes accord with the following:</p> <ul style="list-style-type: none"> <li>(a) site areas (or allotment areas in the case of land division) are not less than the following (average site area per dwelling, including common areas, applies for group dwellings or dwellings within a residential flat building):</li> </ul> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: center; padding: 2px;">Minimum Site Area</th> </tr> </thead> <tbody> <tr> <td style="padding: 2px;">Minimum site area for a detached dwelling is 250 sqm; semi-detached dwelling is 250 sqm; row dwelling is 200 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm</td> </tr> <tr> <td style="padding: 2px;">Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 200 sqm; row dwelling is 180 sqm; group dwelling is 200 sqm; residential flat building is 150 sqm</td> </tr> <tr> <td style="padding: 2px;">Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 220 sqm; row dwelling is 180 sqm; group dwelling is 275 sqm; residential flat building is 200 sqm</td> </tr> <tr> <td style="padding: 2px;">Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 250 sqm; row dwelling is 200 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm</td> </tr> </tbody> </table>	Minimum Site Area	Minimum site area for a detached dwelling is 250 sqm; semi-detached dwelling is 250 sqm; row dwelling is 200 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm	Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 200 sqm; row dwelling is 180 sqm; group dwelling is 200 sqm; residential flat building is 150 sqm	Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 220 sqm; row dwelling is 180 sqm; group dwelling is 275 sqm; residential flat building is 200 sqm	Minimum site area for a detached dwelling is 300 sqm; semi-detached dwelling is 250 sqm; row dwelling is 200 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm
Minimum Site Area						
Minimum site area for a detached dwelling is 250 sqm; semi-detached dwelling is 250 sqm; row dwelling is 200 sqm; group dwelling is 200 sqm; residential flat building is 200 sqm

<p>PO 2.2</p> <p>Development creating new allotments/sites in conjunction with retention of an existing dwelling ensures the site of the existing dwelling remains fit for purpose.</p>	<p>DTS/DPF 2.2</p> <p>Where the site of a dwelling does not comprise an entire allotment:</p> <p>(a) The balance of the allotment accords with site area and frontage requirements specified in DTS/DPF 2.1</p> <p>(b) If there is an existing dwelling on the allotment that will remain on the allotment after completion of the development, it will not contravene:</p> <p>(i) Private open space requirements specified in Design in Urban Areas Table 1 - Private Open Space</p> <p>(ii) Car parking requirements specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.</p>
Site Coverage	
<p>PO 3.1</p> <p>Building footprints consistent with the character of a waterfront neighbourhood and limited to:</p> <p>(a) allow sufficient space around buildings to limit visual impact</p> <p>(b) provide an attractive outlook</p> <p>(c) provide access to light and ventilation</p> <p>(d) on sites with a dual frontage, to maximise use of available land.</p>	<p>DTS/DPF 3.1</p> <p>The development does not result in site coverage exceeding:</p> <p>(a) on sites 300m<sup>2</sup> or less and with a dual frontage to the waterfront and a public street, 80%.</p> <p>(b) in all other cases, 60%.</p>
Building Height	
<p>PO 4.1</p> <p>Building height is consistent with the form expressed in any relevant Maximum Building Height Levels Technical and Numeric Variation and Maximum Building Height Metres Technical and Numeric Variation, and is otherwise generally low rise, or complements the height of nearby</p>	<p>DTS/DPF 4.1</p> <p>Building height (excluding garages, carports and outbuildings) is no greater than:</p> <p>(a) the following:</p>

buildings.

<b>Maximum Building Height (Metres)</b>
Maximum building height is 8m
Maximum building height is 8.5m
Maximum building height is 9m
Maximum building height is 12m
Maximum building height is 10.5m
<b>Maximum Building Height (Levels)</b>
Maximum building height is 2 levels
Maximum building height is 3 levels

- (b) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels)) - 2 building levels up to a height of 9m.

In relation to DTS/DPF 4.1, in instances where:

- (c) more than one value is returned in the same field, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation layer and Maximum Building Height (Metres) Technical and Numeric Variation layer* in the SA planning database to determine the applicable value relevant to the site of the proposed development
- (d) only one value is returned for DTS/DPF 4.1(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.

Primary Street Setback

PO 5.1

Buildings are setback from primary street boundaries to contribute to the existing/emerging pattern of street setbacks in the streetscape and the waterfront environment.

DTS/DPF 5.1

Buildings setback from the primary street boundary in accordance with the following table:

<b>Development Context</b>	<b>Minimum setback</b>
There is an existing building on both abutting sites sharing the same street frontage as the site of the proposed building.	The average setback of the existing buildings.
There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is not on a corner site.	The setback of the existing building.
There is an existing building on only one abutting site sharing the same street frontage as the site of the proposed building and the existing building is on a corner site.	<p>(a) Where the existing building shares the same primary street frontage - the setback of the existing building</p> <p>(b) Where the existing building has a different primary street frontage - 5m</p>
There is no existing building on either of the abutting sites sharing the same street frontage as the site of the proposed building.	5m

For the purposes of **DTS/DPF 5.1**:

- (a) the setback of an existing building on an abutting site to the street boundary that it shares with the site of the proposed building is to be measured from the closest building wall to that street boundary at its closest point to the building wall and any existing projection from the building such as a verandah, porch, balcony, awning or bay window is not taken to form part of the building for the purposes of determining its setback
- (b) any proposed projections such as a verandah, porch, balcony, awning or bay window may encroach not more than 1.5 metres into the minimum setback prescribed in the table

Secondary Street Setback

PO 6.1

Buildings are set back from secondary street boundaries to achieve separation between building walls and public streets and contribute to a suburban streetscape character.

DTS/DPF 6.1

Building walls are set back from the boundary of the allotment with a secondary street frontage at least:

- (a) at least 900mm
- or
- (b) if a building (except for ancillary buildings and structures) on any adjoining allotment is closer to the secondary street than 900mm, at least the distance of that building from the boundary with the secondary street.'

Boundary Walls

PO 7.1

Walls on boundaries are limited in height and length to manage visual and overshadowing impacts on adjoining properties.

DTS/DPF 7.1

Except where the building is a dwelling and is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur only on one side boundary and satisfy (a) or (b) below:

- (a) side boundary walls adjoin or abut a boundary wall of a building on adjoining land

	<p>the same, or lesser length and height</p> <p>(b) side boundary walls do not:</p> <ul style="list-style-type: none"> <li>(i) exceed 3m in wall height</li> <li>(ii) exceed 11.5m in length</li> <li>(iii) when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary</li> <li>(iv) encroach within 3 metres of any other existing or proposed boundary walls on the subject land.</li> </ul>
<p>PO 7.2</p> <p>Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a suburban streetscape character.</p>	<p>DTS/DPF 7.2</p> <p>Dwelling walls in a semi-detached, row or terrace arrangement are setback at least 900mm from side boundaries shared with allotments outside the development site.</p>
Side boundary setback	
<p>PO 8.1</p> <p>Building walls are set back from side boundaries to provide:</p> <ul style="list-style-type: none"> <li>(a) separation between buildings in a way that contributes to a suburban character and</li> <li>(b) access to natural light and ventilation for neighbours.</li> </ul>	<p>DTS/DPF 8.1</p> <p>Other than walls located on a side boundary, building walls are set back from side boundaries in accordance with the following:</p> <ul style="list-style-type: none"> <li>(a) where the wall height does not exceed 3m - at least 900mm</li> <li>(b) for a wall that is not south facing and the wall height exceeds 3m - at least 900mm from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings</li> <li>(c) for a wall that is south facing and the wall height exceeds 3m - at least 1.9m from the boundary of the site plus a distance of 1/3 of the extent to which the height of the wall exceeds 3m from the top of the footings.</li> </ul>
Rear boundary setback	
<p>PO 9.1</p> <p>Building walls (except for ancillary buildings and structures) are set back from rear boundaries to provide:</p> <ul style="list-style-type: none"> <li>(a) separation between buildings in a way that contributes to a suburban character</li> <li>(b) access to natural light and ventilation for neighbours</li> <li>(c) private open space</li> <li>(d) space for landscaping and vegetation</li> <li>(e) a consistent character when viewed from a waterfront.</li> </ul>	<p>DTS/DPF 9.1</p> <p>Building walls (except for ancillary buildings and structures) are set back from the rear boundary at least:</p> <ul style="list-style-type: none"> <li>(a) where the rear boundary fronts a waterfront, no less than the average rear setback of any existing building (except for ancillary buildings and structures) on adjoining allotments.</li> <li>(b) where the rear boundary adjoins a laneway - 0m</li> <li>(c) In all other cases: <ul style="list-style-type: none"> <li>(i) if the size of the site is less than 301 square metres— <ul style="list-style-type: none"> <li>A. 3m in relation to the ground floor of the building</li> <li>B. 5m in relation to any other building level of the building</li> </ul> </li> <li>(ii) if the size of the site is 301 square metres or more— <ul style="list-style-type: none"> <li>A. 4m in relation to the ground floor of the building</li> <li>B. 6m in relation to any other building level of the building.</li> </ul> </li> </ul> </li> </ul>
Concept Plans	
<p>PO 10.1</p> <p>Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.</p>	<p>DTS/DPF 10.1</p> <p>The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:</p> <p>In relation to DTS/DPF 10.1, in instances where:</p> <ul style="list-style-type: none"> <li>(a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.</li> <li>(b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 10.1 is met.</li> </ul>
Built form and character	
<p>PO 11.1</p> <p>Dwellings on sites with frontages to both a public street and a waterfront designed to address both frontages.</p>	<p>DTS/DPF 11.1</p> <p>Development is not located on a site/allotment with frontage to a waterfront.</p>
<p>PO 11.2</p> <p>Service areas associated with dwellings such as open storage and clothes drying screened from public view.</p>	<p>DTS/DPF 11.2</p> <p>None are applicable.</p>
<p>PO 11.3</p> <p>Development set back from waterfronts to establish a consistent character that includes soft landscaping along coastal/riverine frontages.</p>	<p>DTS/DPF 11.3</p> <p>None are applicable.</p>
Ancillary buildings and structures	
<p>PO 12.1</p> <p>Outbuildings designed and sited to mitigate their visibility from the waterfront.</p>	<p>DTS/DPF 12.1</p> <p>Outbuildings are not located between the main building and waterfront boundary on a site/allotment with frontage to a waterfront.</p>

PO 12.2

Residential ancillary buildings and structures are sited and designed to not detract from the streetscape or appearance of buildings on the site or neighbouring properties.

DTS/DPF 12.2

Ancillary buildings:

- (a) are ancillary to a dwelling erected on the same site
- (b) have a floor area not exceeding 60m<sup>2</sup>
- (c) are not constructed, added to or altered so that any part is situated:
  - (i) in front of any part of the building line of the dwelling to which it is ancillary or
  - (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads)
- (d) in the case of a garage or carport, the garage or carport:
  - (i) is set back at least 5.5m from the boundary of the primary street
  - (ii) when facing a primary street or secondary street, has a total door / opening not exceeding:
    - A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser
    - B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width
- (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless:
  - (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and
  - (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
- (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary
- (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure
- (h) have a wall height or post height not exceeding 3m above natural ground level (and not including a gable end)
- (i) have a roof height where no part of the roof is more than 5m above the natural ground level
- (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour
- (k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less:
- (i) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

- (ii) the amount of existing soft landscaping prior to the development occurring.

PO 12.3

Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements and do not result in over-development of the site.

DTS/DPF 12.3

Ancillary buildings and structures do not result in:

- (a) less private open space than specified in Design Table 1 - Private Open Space
- (b) less car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas to the nearest whole number.

PO 12.4

Buildings and structures that are ancillary to an existing non-residential use do not detract from the streetscape character, appearance of buildings on the site of the development, or the amenity of neighbouring properties.

DTS/DPF 12.4

Non-residential ancillary buildings and structures:

- (a) are ancillary and subordinate to an existing non-residential use on the same site
- (b) have a floor area not exceeding the following:

Allotment size	Floor area
≤500m <sup>2</sup>	60m <sup>2</sup>
>500m <sup>2</sup>	80m <sup>2</sup>

- (c) are not constructed, added to or altered so that any part is situated:
  - (i) in front of any part of the building line of the main building to which it is ancillary or
  - (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads)
- (d) in the case of a garage or carport, the garage or carport:
  - (i) is set back at least 5.5m from the boundary of the primary street

	<ul style="list-style-type: none"> <li>(e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless:                             <ul style="list-style-type: none"> <li>(i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary</li> <li>(ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</li> </ul> </li> <li>(f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary</li> <li>(g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure</li> <li>(h) have a wall height (or post height) not exceeding 3m (and not including a gable end)</li> <li>(i) have a roof height where no part of the roof is more than 5m above the natural ground level</li> <li>(j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour.</li> </ul>
Advertisements	
PO 13.1 Advertisements identify the associated business activity, and do not detract from the residential character of the locality.	DTS/DPF 13.1 Advertisements relating to a lawful business activity associated with a residential use do not exceed 0.3m <sup>2</sup> and mounted flush with a wall or fence.

**Table 1 - Accepted Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
Air handling unit, air conditioning system or exhaust fan Except where any of the following apply: <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The item will be installed on or within an existing dwelling.</li> <li>2. The item being installed does not encroach on a public street.</li> <li>3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>
Brush fence Except where any of the following apply: <ul style="list-style-type: none"> <li>• Hazards (Flooding) Overlay</li> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• Ramsar Wetlands Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The fence is formed (wholly or partially) from brush</li> <li>2. The fence does not exceed 2.1m in height (measured from the lower of the 2 adjoining finished ground levels)</li> <li>3. The fence does not exceed 1m in height within 6m of the intersection of 2 boundaries of land where those boundaries both face a road, other than where a 4 x 4 m corner cut-off has already been provided (and is to be preserved)</li> <li>4. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.</li> </ol>
Building alterations Except where any of the following apply: <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The alteration does not:                             <ul style="list-style-type: none"> <li>(a) increase the floor area of the building</li> <li>(b) exceed the existing wall height</li> <li>(c) exceed the existing overall building height</li> <li>(d) alter the roof profile</li> <li>(e) alter an approved privacy screening arrangement or window treatment</li> </ul> </li> <li>2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.</li> </ol>
Building work on railway land Except where any of the following apply: <ul style="list-style-type: none"> <li>• Coastal Areas Overlay</li> <li>• Hazards (Acid Sulfate Soils) Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• Significant Landscape Protection Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. Building work is associated with a railway</li> <li>2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017)</li> <li>3. It is required for the conduct or maintenance of railway activities</li> <li>4. It does not involve the clearance of native vegetation</li> <li>5. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas.</li> </ol>
Carport Except where any of the following apply: <ul style="list-style-type: none"> <li>• Future Local Road Widening Overlay</li> <li>• Future Road Widening Overlay</li> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i></li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</li> <li>3. It is ancillary to a dwelling erected on the site</li> <li>4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary</li> <li>5. Total floor area - does not exceed 40m<sup>2</sup></li> <li>6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end)</li> <li>7. Building height - does not exceed 5m</li> <li>8. If situated on or abutting a boundary (not being a boundary with a primary street) - a length not exceeding 11.5m unless:                             <ul style="list-style-type: none"> <li>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</li> <li>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent</li> </ul> </li> </ol>

9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street):
  - (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
  - (b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure
10. Site coverage does not exceed:
  - (a) on sites 300m<sup>2</sup> or less and with a dual frontage to the waterfront and a public street, 80%
  - (b) in all other cases, 60%.
11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser)
12. The carport is located so that vehicle access:
  - (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
  - (b) is not obtained from a State Maintained Road, and will use a driveway that:
    - (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing;
    - (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
    - (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
    - (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
    - (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site

13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour
14. Does not involve the clearance of native vegetation
15. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:

(a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

(b) the amount of existing soft landscaping prior to the development occurring.

**Outbuilding**

Except where any of the following apply:

- Coastal Areas Overlay
- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. It is detached from and ancillary to a dwelling erected on the site.
4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary
5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads)
6. Total floor area - does not exceed 40m<sup>2</sup>
7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end)
8. Building height - does not exceed 5m
9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11.5m unless:
  - (a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and
  - (b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):
  - (a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and
  - (b) it will not be located within 3m of any other wall along the same boundary

unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure

11. Site coverage does not exceed:
  - (a) on sites 300m<sup>2</sup> or less and with a dual frontage to the waterfront and a public street, 80%.
  - (b) in all other cases, 60%.
12. Door opening for vehicle access facing a street frontage - does not exceed, in total 7m in width or 50% of the width of the allotment frontage (whichever lesser)
13. If the outbuilding is a garage, it is located so that vehicle access:
  - (a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or
  - (b) is not obtained from a State maintained Road, and will use a driveway that:
    - (i) is not located within 6m of an intersection of 2 or more roads or a pedestrian actuated crossing;
    - (ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;
    - (iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average
    - (iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access
    - (v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right or way is at least 6.2m wide along the boundary of the allotment / site
14. If clad in sheet metal-is pre-colour treated or painted in a non-reflective colour
15. Does not involve-
  - (a) excavation exceeding a vertical height of 1m; or
  - (b) filling exceeding a vertical height of 1m,

and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2m.

16. Does not involve the clearance of native vegetation
17. The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
18. Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
  - (a) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

- (b) the amount of existing soft landscaping prior to the development occurring.

Partial demolition of a building or structure  
Except where any of the following apply:

- Historic Area Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

None

Private bushfire shelter  
Except where any of the following apply:

- Coastal Areas Overlay
- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Acid Sulfate Soils) Overlay
- Hazards (Flooding) Overlay
- Local Heritage Place Overlay
- River Murray Flood Plain Protection Area Overlay
- Significant Landscape Protection Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
3. Primary street setback - at least as far back as the building to which it is ancillary
4. Secondary street setback - at least 900mm from the boundary of the allotment
5. At least 6m from the corner of an allotment which abuts the intersection of two or more roads (other than where a 4m x 4m allotment cut-off is already in place)
6. Does not involve the clearance of native vegetation.

Shade sail  
Except where any of the following apply:

1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Historic Area Overlay
- Local Heritage Place Overlay
- Ramsar Wetlands Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

- The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
- Shade sail consists of permeable material
- The total area of the sail - does not exceed 40m<sup>2</sup>
- No part of the shade sail will be:
  - 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment
  - 5m above ground or floor level (depending on where it is situated) within any other part of the allotment
- Primary street setback - at least as far back as the building line of the building to which it is ancillary
- If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11.5m
- In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary
- Does not involve the clearance of native vegetation
- The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
- Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
  - a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

- the amount of existing soft landscaping prior to the development occurring.

Solar photovoltaic panels (roof mounted)  
Except where any of the following apply:

- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

- The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*
- Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof
- Panels and associated components do not overhang any part of the roof
- Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system
- If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.

Swimming pool or spa pool and associated swimming pool safety features  
Except where any of the following apply:

- Future Local Road Widening Overlay
- Future Road Widening Overlay
- Hazards (Flooding) Overlay
- Local Heritage Place Overlay
- State Heritage Area Overlay
- State Heritage Place Overlay

- The development will not be contrary to the regulations prescribed for the purposes of section 86 of the *Electricity Act 1996*.
- The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system
- It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted
- Allotment boundary setback - not less than 1m (other than a swimming pool safety feature).
- Primary street setback - at least as far back as the building line of the building to which it is ancillary
- Location of filtration system from a dwelling on an adjoining allotment:
  - not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise; or
  - not less than 12m in any other case.
- Does not involve the clearance of native vegetation
- The development will not be located within the extents of the River Murray 1956 Flood Level as delineated by the SA Property and Planning Atlas
- Retains a total area of soft landscaping in accordance with (a) or (b), whichever is less:
  - a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m <sup>2</sup> )	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

	<p>(b) the amount of existing soft landscaping prior to the development occurring.</p>										
<p>Verandah Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Future Local Road Widening Overlay</li> <li>• Future Road Widening Overlay</li> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i></li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system</li> <li>3. **Table 2 - Deemed-to-Satisfy Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including

construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone <small>(applies only in the area affected by the Subzone)</small>	Overlay <small>(applies only in the area affected by the Overlay)</small>

**Table 3 - Applicable Policies for Performance Assessed Development**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Class of Development	Applicable Policies

Road Widening] PO 1.1
Gateway Overlay [Built Form and Character] PO 1.1, PO 1.2
Gateway Overlay [Landscape Amenity] PO 2.1
Gateway Overlay [Landscaping] PO 3.1, PO 3.2, PO 3.3, PO 3.4
Hazards (Acid Sulfate Soils) Overlay [Land Use and Intensity] PO 1.1
Hazards (Bushfire - General Risk) Overlay [Siting] PO 1.1
Hazards (Bushfire - General Risk) Overlay [Built Form] PO 2.1, PO 2.2
Hazards (Bushfire - General Risk) Overlay [Vehicle Access – Roads, Driveways and Fire Tracks] PO 5.2, PO 5.3
Hazards (Bushfire - High Risk) Overlay [Land Use] PO 1.1
Hazards (Bushfire - High Risk) Overlay [Siting] PO 2.1
Hazards (Bushfire - High Risk) Overlay [Built Form] PO 3.1, PO 3.2
Hazards (Bushfire - High Risk) Overlay [Vehicle Access –Roads, Driveways and Fire Tracks] PO 6.2, PO 6.3
Hazards (Bushfire - Medium Risk) Overlay [Siting] PO 1.1
Hazards (Bushfire - Medium Risk) Overlay [Built Form] PO 2.1, PO 2.2
Hazards (Bushfire - Medium Risk) Overlay [Vehicle Access - Roads, Driveways and Fire Tracks] PO 5.2, PO 5.3
Hazards (Bushfire - Outback) Overlay [Vehicle Access - Roads and Driveways] PO 2.2
Hazards (Bushfire - Regional) Overlay [Siting] PO 1.1
Hazards (Bushfire - Regional) Overlay [Built Form] PO 2.1, PO 2.2
Hazards (Bushfire - Regional) Overlay [Vehicle Access -Roads and Driveways] PO 5.2, PO 5.3
Hazards (Flooding) Overlay [Flood Resilience] PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.5
Hazards (Flooding) Overlay [Environmental Protection] PO 4.1, PO 4.2
Hazards (Flooding) Overlay [Site Earthworks] PO 5.1, PO 5.2
Hazards (Flooding) Overlay [Access] PO 6.1, PO 6.2

Heritage Adjacency Overlay [Built Form] PO 1.1
Historic Area Overlay [All Development] PO 1.1
Historic Area Overlay [Built Form] PO 2.1, PO 2.2, PO 2.3, PO 2.4, PO 2.5
Historic Area Overlay [Ancillary development] PO 4.1, PO 4.2
Historic Area Overlay [Context and Streetscape Amenity] PO 6.1, PO 6.2
Historic Area Overlay [Ruins] PO 8.1
Historic Shipwrecks Overlay [General] PO 1.1
Key Outback and Rural Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)] PO 1.1
Key Outback and Rural Routes Overlay [Access - On-Site Queuing] PO 2.1
Key Outback and Rural Routes Overlay [Access - Location (Spacing) - Existing Access Points] PO 3.1
Key Outback and Rural Routes Overlay [Access - Location (Spacing) - New Access Points] PO 4.1
Key Outback and Rural Routes Overlay [Access - Location (Sight Lines)] PO 5.1
Key Outback and Rural Routes Overlay [Access - Mud and Debris] PO 6.1
Key Outback and Rural Routes Overlay [Access - Stormwater] PO 7.1
Key Outback and Rural Routes Overlay [Building on Road Reserve] PO 8.1
Key Outback and Rural Routes Overlay [Public Road Junctions] PO 9.1
Key Railway Crossings Overlay [Access, Design and Function] PO 1.1
Local Heritage Place Overlay [Built Form] PO 1.1, PO 1.2, PO 1.3, PO 1.4, PO 1.5, PO 1.6, PO 1.7
Local Heritage Place Overlay [Ancillary Development] PO 3.1, PO 3.2
Local Heritage Place Overlay [Landscape Context and Streetscape Amenity] PO 5.1
Local Heritage Place Overlay [Conservation Works] PO 7.1
Major Urban Transport Routes Overlay [Access - Safe Entry and Exit (Traffic Flow)] PO 1.1

Major Urban Transport Routes Overlay [Access - On-Site Queuing] PO 2.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) - Existing Access Points] PO 3.1

Major Urban Transport Routes Overlay [Access – Location (Spacing) – New Access Points] PO 4.1

Major Urban Transport Routes Overlay [Access - Location (Sight Lines)] PO 5.1

Major Urban Transport Routes Overlay [Access - Mud and Debris] PO 6.1

Major Urban Transport Routes Overlay [Access - Stormwater] PO 7.1

Major Urban Transport Routes Overlay [Building on Road Reserve] PO 8.1

Major Urban Transport Routes Overlay [Public Road Junctions] PO 9.1

Major Urban Transport Routes Overlay [Corner Cut-Offs] PO 10.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Water Quality] PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Stormwater] PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay [Landscapes and Natural Features] PO 4.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Water Quality] PO 1.1

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Stormwater] PO 3.1, PO 3.2, PO 3.3, PO 3.4, PO 3.9

Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay [Landscapes and Natural Features] PO 4.1

Native Vegetation Overlay [Environmental Protection] PO 1.1, PO 1.2, PO 1.4

Non-Stop Corridors Overlay [Non-Stop Corridor Overlay] PO 1.1

River Murray Flood Plain Protection Area Overlay [Wastewater] PO 2.1

River Murray Flood Plain Protection Area Overlay [Built Form and Character] PO 5.1, PO 5.3

River Murray Flood Plain Protection Area Overlay [Flood Resilience] PO 6.1, PO 6.3, PO 6.4

River Murray Flood Plain Protection Area Overlay [Flood Resilience] PO 6.1, PO 6.3, PO 6.4

River Murray Flood Plain Protection Area Overlay [Flood Resilience] PO 6.1, PO 6.3, PO 6.4

River Murray Flood Plain Protection Area Overlay [Flood Resilience] PO 6.1, PO 6.3, PO 6.4

Area Overlay [Environmental Protection] PO 7.1, PO 7.2, PO 7.3, PO 7.4
River Murray Flood Plain Protection Area Overlay [Access] PO 8.1, PO 8.2, PO 8.3
Scenic Quality Overlay [Land Use and Intensity] PO 1.1
Scenic Quality Overlay [Built Form and Character] PO 2.1
Scenic Quality Overlay [Earthworks] PO 4.1

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
----------------------	------------

Shop	Any of the following: <ul style="list-style-type: none"> <li>(a) shop with a gross leasable floor area less than 1000m<sup>2</sup></li> <li>(b) shop that is a restaurant.</li> </ul>
------	---

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. All development undertaken by: <ul style="list-style-type: none"> <li>(a) the South Australian Housing Trust either individually or jointly with other persons or bodies or</li> <li>(b) a provider registered under the Community Housing National Law participating in a program relating to the renewal of housing endorsed by the South Australian Housing Trust.</li> </ul>	Except development involving any of the following: <ul style="list-style-type: none"> <li>1. residential flat building(s) of 3 or more building levels</li> <li>2. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)</li> <li>3. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).</li> </ul>
3. Any development involving any of the following (or of any combination of any of the following): <ul style="list-style-type: none"> <li>(a) ancillary accommodation</li> <li>(b) dwelling</li> <li>(c) dwelling addition</li> <li>(d) jetty, pontoon or boat berth (or any combination thereof)</li> <li>(e) residential flat building.</li> </ul>	Except development that: <ul style="list-style-type: none"> <li>1. exceeds the maximum building height specified in Waterfront Neighbourhood Zone DTS/DPF 4.1 or</li> <li>2. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and:                             <ul style="list-style-type: none"> <li>(a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or</li> <li>(b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).</li> </ul> </li> </ul>
4. Any development involving any of the following (or of any combination of any of the following): <ul style="list-style-type: none"> <li>(a) consulting room</li> <li>(b) office</li> <li>(c) shop.</li> </ul>	Except development that: <ul style="list-style-type: none"> <li>1. exceeds the maximum building height specified in Waterfront Neighbourhood Zone DTS/DPF 4.1 or</li> <li>2. does not satisfy Waterfront Neighbourhood Zone DTS/DPF 1.5 or</li> <li>3. involves a building wall (or structure) that is proposed to be situated on (or abut) an allotment boundary (not being a boundary with a primary street or secondary street or an excluded boundary) and:                             <ul style="list-style-type: none"> <li>(a) the length of the proposed wall (or structure) exceeds 11.5m (other than where the proposed wall abuts an existing wall or structure of greater length on the adjoining allotment) or</li> <li>(b) the height of the proposed wall (or post height) exceeds 3m measured from the top of footings (other than where the proposed wall (or post) abuts an existing wall or structure of greater height on the adjoining allotment).</li> </ul> </li> </ul>
5. Any development involving any of the following (or of any combination of any of the following): <ul style="list-style-type: none"> <li>(a) air handling unit, air conditioning system or exhaust fan</li> <li>(b) carport</li> <li>(c) deck</li> <li>(d) fence</li> </ul>	None specified.

<ul style="list-style-type: none"> <li>(e) internal building works</li> <li>(f) land division</li> <li>(g) outbuilding</li> <li>(h) pergola</li> <li>(i) private bushfire shelter</li> <li>(j) recreation area</li> <li>(k) replacement building</li> <li>(l) retaining wall</li> <li>(m) shade sail</li> <li>(n) solar photovoltaic panels (roof mounted)</li> <li>(o) swimming pool or spa pool and associated swimming pool safety features</li> <li>(p) temporary accommodation in an area affected by bushfire</li> <li>(q) tree damaging activity</li> <li>(r) verandah</li> <li>(s) water tank.</li> </ul>	
<p>6. Demolition.</p>	<p>Except any of the following:</p> <ol style="list-style-type: none"> <li>1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building)</li> <li>2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).</li> </ol>
<p>7. Railway line.</p>	<p>Except where located outside of a rail corridor or rail reserve.</p>

**Placement of Notices - Exemptions for Performance Assessed Development**

None specified.

**Placement of Notices - Exemptions for Restricted Development**

None specified.

**Workers' Settlement Zone**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Appropriately designed and located accommodation for seasonal and short-term workers in rural areas that minimises environmental and social impacts.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
<p>PO 1.1</p> <p>Development is limited to workers' accommodation and ancillary land uses that support the day to day needs of workers.</p>	<p>DTS/DPF 1.1</p> <p>Development comprises one or more of the following:</p> <ul style="list-style-type: none"> <li>(a) a dwelling (manager's house)</li> <li>(b) amenity block (including shower, toilet and laundry facilities) in association with and ancillary to the workers' accommodation</li> <li>(c) dwelling addition</li> <li>(d) recreational facility in association with and ancillary to the workers' accommodation</li> <li>(e) office in association with and ancillary to the workers' accommodation</li> <li>(f) shop in association with and ancillary to the workers' accommodation</li> <li>(g) workers' accommodation.</li> </ul>
<p>PO 1.2</p> <p>Shops, primarily in the form of a restaurant, associated with and ancillary to Workers'</p>	<p>DTS/DPF 1.2</p> <p>Shops located on the same site as workers' accommodation meets one of the following:</p>

accommodation enhance the amenity of the zone for those workers.	(a) it has a gross leasable floor area not exceeding 100m <sup>2</sup> (b) it is a restaurant.
PO 1.3 Office associated with and ancillary to Workers' accommodation supports the management and administrative aspects of the accommodation.	DTS/DPF 1.3 Office is ancillary to and located on the same site as Workers' accommodation.
PO 1.4 Development provides space adjacent to and around habitable buildings to accommodate areas for parking of vehicles, storage of waste, landscaping, recreation areas, swimming pool/spa and similar facilities to enhance the amenity for resident workers.	DTS/DPF 1.4 The total roofed area of all existing and proposed buildings on the site will not exceed 60%.
PO 1.5 Workers' accommodation is established in association with major industrial, mining, agricultural and business activities to support and facilitate economic activity.	DTS/DPF 1.5 Workers' accommodation is constructed by the principal operator of the relevant business or authorised agent thereof.
PO 1.6 A dwelling in the form of a manager or caretaker residence associated with and ancillary to Workers' accommodation provides for the efficient management, maintenance and support of residents.	DTS/DPF 1.6 A dwelling is: (a) ancillary to and located on the same allotment or within the same lease area as the workers' accommodation (b) has a demonstrated connection with workers' accommodation (c) will not result in more than one dwelling being located on an allotment or lease area used for workers' accommodation.
Land Division	
PO 2.1 Land division is designed to:  (a) minimise fire risk danger to occupants of buildings and firefighting personnel (b) minimise the potential risk of damage to buildings and other property during a bushfire (c) ensure each allotment contains a suitable building envelope that is located away from any vegetation that would pose an unacceptable risk in the event of bushfire.	DTS/DPF 2.1 None are applicable.
Built Form and Character	
PO 3.1 Buildings and recreational facilities are set back from internal roads to accommodate vehicular movements and contribute to the safety of workers and visitors.	DTS/DPF 3.1 Buildings and recreational facilities are set back at least 1 metre from an internal road.
PO 3.2 Buildings are set back from public roads to mitigate impacts on the streetscape.	DTS/DPF 3.2 Buildings are set back at least 2m from a public road.
PO 3.3 Buildings and recreational areas are set back from the boundary of the zone to minimise impacts on neighbouring properties and enhance local amenity.	DTS/DPF 3.3 Buildings are set back at least 2 metres from the zone boundary.
PO 3.4 Buildings use materials and finishes to complement the landscape and mitigate the effects of glare on adjacent land users.	DTS/DPF 3.4 Buildings are clad in, or a combination of: (a) materials other than sheet metal (b) sheet metal pre-colour treated or painted in a non-reflective colour.
Landscaping	
PO 4.1 Landscaping is provided along public roads and thoroughfares, zone boundaries and the perimeter of common vehicle parking areas to enhance the visual appearance of development.	DTS/DPF 4.1 Other than to accommodate a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land, a landscaped area is provided within the development site in accordance with the following:  (a) at least 1.5m wide along any boundary on the perimeter of the zone fronting a public road or thoroughfare (b) at least 1m wide around the perimeter of any shared vehicle parking area.
PO 4.2 Development incorporates areas for landscaping to enhance the overall amenity of the site and locality.	DTS/DPF 4.2 Landscape areas comprise:  (a) not less than 10 percent of the site area (b) a dimension of at least 1m.
Concept Plans	
PO 5.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 5.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:

In relation to DTS/DPF 5.1, in instances where:

- (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.
- (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 5.1 is met.

**Table 1 - Accepted Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Accepted Development subject to meeting the Accepted Development Classification Criteria

Class of Development	Accepted Development Classification Criteria
<p>Air handling unit, air conditioning system or exhaust fan Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The item will be installed on or within an existing dwelling.</li> <li>2. The item being installed does not encroach on a public street.</li> <li>3. If the associated building is in a Historic Area Overlay, no part of the item, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>
<p>Building alterations Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The alteration does not:                             <ol style="list-style-type: none"> <li>(a) increase the floor area of the building</li> <li>(b) exceed the existing wall height</li> <li>(c) exceed the existing overall building height</li> <li>(d) alter the roof profile</li> <li>(e) alter an approved privacy screening arrangement or window treatment</li> </ol> </li> <li>2. Where located within the Historic Area Overlay, there will be no external alterations to the external appearance of the building where visible from the public realm.</li> </ol>
<p>Building work on railway land Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Coastal Areas Overlay</li> <li>• Hazards (Acid Sulfate Soils) Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• Mount Lofty Ranges Water Supply Catchment (Area 1) Overlay</li> <li>• Mount Lofty Ranges Water Supply Catchment (Area 2) Overlay</li> <li>• Significant Landscape Protection Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. Building work is associated with a railway.</li> <li>2. It is situated (or to be situated) on railway land (within the meaning of Schedule 4 clause 14 of the Planning, Development and Infrastructure (General) Regulations 2017).</li> <li>3. It is required for the conduct or maintenance of railway activities.</li> <li>4. It does not involve the clearance of native vegetation.</li> </ol>
<p>Carport Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Future Local Road Widening Overlay</li> <li>• Future Road Widening Overlay</li> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>3. It is ancillary to a dwelling erected on the site.</li> <li>4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.</li> <li>5. Total floor area - does not exceed 40m<sup>2</sup>.</li> <li>6. Post height - does not exceed 3m measured from natural ground level (and not including a gable end).</li> <li>7. Building height - does not exceed 5m.</li> <li>8. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 11m unless:                             <ol style="list-style-type: none"> <li>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</li> <li>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.</li> </ol> </li> <li>9. If the carport abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):                             <ol style="list-style-type: none"> <li>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</li> <li>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.</li> </ol> </li> <li>10. The total roofed area of all existing or proposed buildings on the allotment does not exceed 60% of the area of the allotment.</li> <li>11. Door opening for vehicle access facing a street frontage - does not exceed, in total, 7m in width or 50% of the width of the allotment frontage (whichever lesser).</li> <li>12. The carport is located so that vehicle access:                             <ol style="list-style-type: none"> <li>(a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or</li> <li>(b) is not obtained from a State maintained road, and will use a driveway that:                                     <ol style="list-style-type: none"> <li>(i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;</li> <li>(ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;</li> </ol> </li> </ol> </li> </ol>

	<ul style="list-style-type: none"> <li>(iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average</li> <li>(iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access</li> <li>(v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site.</li> </ul> <p>13. If any part involves cladding in sheet metal-will have cladding which is pre-colour treated or painted in a non-reflective colour.</p> <p>14. Does not involve the clearance of native vegetation.</p>
<p>Outbuilding Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Coastal Areas Overlay</li> <li>• Future Road Widening Overlay</li> <li>• Hazards (Flooding) Overlay</li> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• Significant Landscape Protection Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>3. It is detached from and ancillary to a dwelling erected on the site.</li> <li>4. Primary street setback - at least 5.5m from the primary street boundary and as far back as the building line of the building to which it is ancillary.</li> <li>5. Secondary street setback - at least 900mm from the boundary of the allotment (if the land has boundaries on two or more roads).</li> <li>6. Total floor area - does not exceed 40m<sup>2</sup>.</li> <li>7. Wall height - does not exceed 3m measured from natural ground level (and not including a gable end).</li> <li>8. Building height - does not exceed 5m.</li> <li>9. If situated on or abutting a boundary (not being a boundary with a primary street or secondary street) - a length not exceeding 10m unless:             <ul style="list-style-type: none"> <li>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</li> <li>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.</li> </ul> </li> <li>10. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):             <ul style="list-style-type: none"> <li>(a) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary; and</li> <li>(b) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent.</li> </ul> </li> <li>11. Total roofed area of all existing and proposed buildings on the allotment - does not exceed 60%.</li> <li>12. If the outbuilding abuts or is situated on the boundary of the allotment (not being a boundary with a primary street or secondary street):             <ul style="list-style-type: none"> <li>(a) it will not result in all relevant walls or structures located along the boundary exceeding 45% of the length of the boundary; and</li> <li>(b) it will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or abut the proposed wall or structure.</li> </ul> </li> <li>13. If the outbuilding is a garage, it is located so that vehicle access:             <ul style="list-style-type: none"> <li>(a) is provided via a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land; or</li> <li>(b) is not obtained from a State Maintained Road, and will use a driveway that:                 <ul style="list-style-type: none"> <li>(i) is not located within 6 metres of an intersection of 2 or more roads or a pedestrian actuated crossing;</li> <li>(ii) will not interfere with an item of street furniture (including directional signs, lighting, seating and weather shelters), other infrastructure, or a tree;</li> <li>(iii) is located so that the gradient from the place of access on the boundary of the allotment to the finished floor level at the front of the carport when the work is completed is not steeper than 1:4 on average</li> <li>(iv) is aligned relative to the street so that there is no more than a 20 degree deviation from 90 degrees between the centreline of the driveway at the public road boundary and the centre of the front of the covered car parking space for which it provides vehicle access</li> <li>(v) if located so as to provide access from an alley, lane or right of way - the alley, lane or right of way is at least 6.2m wide along the boundary of the allotment / site</li> </ul> </li> </ul> </li> <li>14. If clad in sheet metal is pre-colour treated or painted in a non-reflective colour.</li> <li>15. Does not involve-             <ul style="list-style-type: none"> <li>(a) excavation exceeding a vertical height of 1 metre; or</li> <li>(b) filling exceeding a vertical height of 1 metre,</li> </ul> <p>and, if the development involves both excavation and filling, the total combined excavation and filling must not exceed a vertical height of 2 metres.</p> </li> <li>16. Does not involve the clearance of native vegetation.</li> </ol>

<p>Partial demolition of a building or structure Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<p>None</p>
<p>Shade sail Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Future Local Road Widening Overlay</li> <li>• Future Road Widening Overlay</li> <li>• Historic Area Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>3. Shade sail consists of permeable material.</li> <li>4. The total area of the sail - does not exceed 40m<sup>2</sup>.</li> <li>5. No part of the shade sail will be:             <ol style="list-style-type: none"> <li>(a) 3m above ground or floor level (depending on where it is situated) at any place within 900mm of a boundary of the allotment</li> <li>(b) 5m above ground or floor level (depending on where it is situated) within any other part of the allotment.</li> </ol> </li> <li>6. Primary street setback - at least as far back as the building line of the building to which it is ancillary.</li> <li>7. If any part of the sail will be situated on a boundary of the allotment, the length of sail along a boundary does not exceed 11m.</li> <li>8. In a case where any part of the sail or a supporting structure will be situated on a side boundary of the allotment - the length of the sail and any such supporting structure together with all relevant walls or structures located along the boundary will not exceed 45% of the length of the boundary.</li> <li>9. Does not involve the clearance of native vegetation.</li> </ol>
<p>Solar photovoltaic panels (roof mounted) Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. Panels are installed parallel to the roof of a building and with the underside surface of the panel not being more than 100mm above the surface of the roof.</li> <li>3. Panels and associated components do not overhang any part of the roof.</li> <li>4. Does not apply to system with a generating capacity of more than 5MW that is to be connected to the State's power system.</li> <li>5. If the building is in a Historic Area Overlay-no part of the system, when installed, will be able to be seen by a person standing at ground level in a public street.</li> </ol>
<p>Swimming pool or spa pool and associated swimming pool safety features Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Future Local Road Widening Overlay</li> <li>• Future Road Widening Overlay</li> <li>• Hazards (Flooding) Overlay</li> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>3. It is ancillary to a dwelling erected on the site or a dwelling to be erected on the site in accordance with a development authorisation which has been granted.</li> <li>4. Allotment boundary setback - not less than 1m (other than a swimming pool safety feature).</li> <li>5. Primary street setback - at least as far back as the building line of the building to which it is ancillary.</li> <li>6. Location of filtration system from a dwelling on an adjoining allotment:             <ol style="list-style-type: none"> <li>(a) not less than 5m where the filtration system is located inside a solid structure that will have material impact on the transmission of noise; or</li> <li>(b) not less than 12m in any other case.</li> </ol> </li> <li>7. Does not involve the clearance of native vegetation.</li> </ol>
<p>Water tank (above ground) Except where any of the following apply:</p> <ul style="list-style-type: none"> <li>• Local Heritage Place Overlay</li> <li>• State Heritage Area Overlay</li> <li>• State Heritage Place Overlay</li> </ul>	<ol style="list-style-type: none"> <li>1. The development will not be contrary to the regulations prescribed for the purposes of section 86 of the <i>Electricity Act 1996</i>.</li> <li>2. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>3. The tank is part of a roof drainage system.</li> <li>4. Total floor area - not exceeding 15m<sup>2</sup>.</li> <li>5. The tank is located wholly above ground.</li> <li>6. Tank height - does not exceed 4m above natural ground level.</li> <li>7. Primary street setback - at least as far back as the building line of the building to which it is ancillary.</li> <li>8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour.</li> <li>9. Does not involve the clearance of native vegetation</li> </ol>
<p>Water tank (underground)</p>	<ol style="list-style-type: none"> <li>1. The development will not be built, or encroach, on an area that is, or will be, required for a sewerage system or waste control system.</li> <li>2. The tank (including any associated pump) is located wholly below the level of the ground.</li> <li>3. Does not involve the clearance of native vegetation.</li> </ol>

**Table 2 - Deemed-to-Satisfy Development Classification**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the

criteria for each Class of Development.

Class of Development	Deemed-to-Satisfy Development Classification Criteria			
	Zone	General Development Policies	Subzone <small>(applies only in the area affected by the Subzone)</small>	Overlay <small>(applies only in the area affected by the Overlay)</small>

**Table 3 - Applicable Policies for Performance Assessed Development**

Unless otherwise specified in another class of development, the reference to a class of development includes a reference to a change in the use of the relevant land or building work (including construction of a new building, or alteration/addition of an existing building).

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

**Table 4 - Restricted Development Classification**

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following:  (a) shop with a gross leasable floor area less than 1000m <sup>2</sup> (b) shop that is a restaurant.

**Table 5 - Procedural Matters (PM) - Notification**

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

**Interpretation**

Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

A relevant authority may determine that a variation to 1 or more corresponding exclusions prescribed in Column B is minor in nature and does not require notification.

Class of Development (Column A)	Exceptions (Column B)
1. Development which, in the opinion of the relevant authority, is of a minor nature only and will not unreasonably impact on the owners or occupiers of land in the locality of the site of the development.	None specified.
2. Any development involving any of the following (or of any combination of any of the following):  (a) air handling unit, air conditioning system or exhaust fan (b) amenities block (c) carport (d) deck (e) dwelling (f) dwelling addition (g) fence (h) internal building works (i) land division (j) office (k) outbuilding (l) pergola (m) private bushfire shelter (n) replacement building (o) retaining wall (p) shade sail (q) shop (r) solar photovoltaic panels (roof mounted) (s) swimming pool or spa pool and associated swimming pool safety features (t) temporary accommodation in an area affected by bushfire (u) tree damaging activity (v) verandah (w) workers accommodation (x) water tank.	None specified.
3. Demolition.	Except any of the following:  1. the demolition (or partial demolition) of a State or Local Heritage Place (other than an excluded building) 2. the demolition (or partial demolition) of a building in a Historic Area Overlay (other than an excluded building).
4. Railway line.	Except where located outside of a rail corridor or rail reserve.

<b>Placement of Notices - Exemptions for Performance Assessed Development</b>
None specified
<b>Placement of Notices - Exemptions for Restricted Development</b>
None specified

## Part 3 - Overlays

### Adelaide Dolphin Sanctuary Overlay

#### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Protection of the Adelaide Dolphin Sanctuary dolphin population and their habitat.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
PO 1.1 Development avoids or minimises harm to habitat, and the functioning of ecosystems that support the dolphin population.	DTS/DPF 1.1 None are applicable.
PO 1.2 Development does not result in the disruption of critical dolphin behaviours such as breeding, feeding, resting and movement.	DTS/DPF 1.2 None are applicable.
PO 1.3 Stormwater runoff is disposed of in a manner that avoids pollution or other detrimental impacts to the Adelaide Dolphin Sanctuary.	DTS/DPF 1.3 None are applicable.

#### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

### Advertising Near Signalised Intersections Overlay

#### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome
-----------------

DO 1	Provision of a safe road environment by reducing driver distraction at key points of conflict on the road.
------	--

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Advertisements Near Signalised Intersections	
PO 1.1 Advertising near signalised intersections does not cause unreasonable distraction to road users through illumination, flashing lights, or moving or changing displays or messages.	DTS/DPF 1.1 Advertising: <ul style="list-style-type: none"> <li>(a) is not illuminated</li> <li>(b) does not incorporate a moving or changing display or message</li> <li>(c) does not incorporate a flashing light(s).</li> </ul>

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Advertisement or advertising hoarding that: <ul style="list-style-type: none"> <li>(a) is within 100m of a:                             <ul style="list-style-type: none"> <li>(i) signalised intersection or</li> <li>(ii) signalised pedestrian crossing and</li> </ul> </li> <li>(b) will:                             <ul style="list-style-type: none"> <li>(i) be internally illuminated or</li> <li>(ii) incorporate a moving or changing display or message or</li> <li>(iii) incorporate a flashing light.</li> </ul> </li> </ul>	Commissioner of Highways.	To provide expert technical assessment on potential risks relating to pedestrian and road safety which may arise from advertisements near intersections.	Development of a class to which Schedule 9 clause 3 item 21 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

**Affordable Housing Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Affordable housing is integrated with residential and mixed use development.
DO 2	Affordable housing caters for a variety of household structures.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Division	
PO 1.1 Development comprising 20 or more dwellings / allotments incorporates affordable housing.	DTS/DPF 1.1 Development results in 0-19 additional allotments / dwellings.
PO 1.2	DTS/DPF 1.2

<p>Development comprising 20 or more dwellings or residential allotments provides housing suited to a range of incomes including households with low to moderate incomes.</p>	<p>Development comprising 20 or more dwellings / or residential allotments includes a minimum of 15% affordable housing except where:</p> <ul style="list-style-type: none"> <li>(a) it can be demonstrated that any shortfall in affordable housing has been provided in a previous stage of development or</li> <li>(b) it can be demonstrated that any shortfall in affordable housing will be accommodated in a subsequent stage or stages of development.</li> </ul>
<p>PO 1.3 Affordable housing is distributed throughout the development to avoid an overconcentration.</p>	<p>DTS/DPF 1.3 None are applicable.</p>
<p>Built Form and Character</p>	
<p>PO 2.1 Affordable housing is designed to complement the design and character of residential development within the locality.</p>	<p>DTS/DPF 2.1 None are applicable.</p>
<p>Affordable Housing Incentives</p>	
<p>PO 3.1 To support the provision of affordable housing, minimum allotment sizes may be reduced below the minimum allotment size specified in a zone while providing allotments of a suitable size and dimension to accommodate dwellings with a high standard of occupant amenity.</p>	<p>DTS/DPF 3.1 The minimum site area specified for a dwelling can be reduced by up to 20%, or the maximum density per hectare increased by up to 20%, where it is to be used to accommodate affordable housing except where the development is located within the Character Area Overlay or Historic Area Overlay.</p>
<p>PO 3.2 To support the provision of affordable housing, building heights may be increased above the maximum specified in a zone.</p>	<p>DTS/DPF 3.2 Where a building incorporates dwellings above ground level and includes at least 15% affordable housing, the maximum building height specified in any relevant zone policy can be increased by 1 building level in the:</p> <ul style="list-style-type: none"> <li>(a) Business Neighbourhood Zone</li> <li>(b) City Living Zone</li> <li>(c) Established Neighbourhood Zone</li> <li>(d) General Neighbourhood Zone</li> <li>(e) Hills Neighbourhood Zone</li> <li>(f) Housing Diversity Neighbourhood Zone</li> <li>(g) Neighbourhood Zone</li> <li>(h) Master Planned Neighbourhood Zone</li> <li>(i) Master Planned Renewal Zone</li> <li>(j) Master Planned Township Zone</li> <li>(k) Rural Neighbourhood Zone</li> <li>(l) Suburban Business Zone</li> <li>(m) Suburban Neighbourhood Zone</li> <li>(n) Township Neighbourhood Zone</li> <li>(o) Township Zone</li> <li>(p) Urban Renewal Neighbourhood Zone</li> <li>(q) Waterfront Neighbourhood Zone</li> </ul> <p>and up to 30% in any other zone, except where:</p> <ul style="list-style-type: none"> <li>(a) the development is located within the Character Area Overlay or Historic Area Overlay or</li> <li>(b) other height incentives already apply to the development.</li> </ul>
<p>Movement and Car Parking</p>	
<p>PO 4.1 Sufficient car parking is provided to meet the needs of occupants of affordable housing.</p>	<p>DTS/DPF 4.1 Dwellings constituting affordable housing are provided with car parking in accordance with the following:</p> <ul style="list-style-type: none"> <li>(a) 0.3 carpark per dwelling within a building which incorporates dwellings located above ground level within either: <ul style="list-style-type: none"> <li>(i) 200 metres of any section of road reserve along which a bus service operates as a high frequency public transit service<sup>(2)</sup></li> <li>(ii) is within 400 metres of a bus interchange<sup>(1)</sup></li> <li>(iii) is within 400 metres of an O-Bahn interchange<sup>(1)</sup></li> <li>(iv) is within 400 metres of a passenger rail station<sup>(1)</sup></li> <li>(v) is within 400 metres of a passenger tram station<sup>(1)</sup></li> <li>(vi) is within 400 metres of the Adelaide Parklands.</li> </ul> </li> <li>or</li> <li>(b) 1 carpark per dwelling for any other dwelling.</li> </ul> <p>[NOTE(S): (1) Measured from an area that contains any platform(s), shelter(s) or stop(s) where people congregate for the purpose waiting to board a bus, tram or train, but does not include areas used for the parking of vehicles. (2) A high frequency public transit service is a route serviced every 15 minutes between 7.30am and 6.30pm Monday to Friday and every 30 minutes at night, Saturday, Sunday and public holidays until 10pm.]</p>

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Except where the applicant for the development is the South Australian Housing Authority (or an agent acting on behalf of the South Australian Housing Authority), residential development or land division (other than an excluded land division):</p> <ul style="list-style-type: none"> <li>(a) that comprises 20 or more dwellings or residential allotments and is described in the application documentation as intending to provide affordable housing</li> <li>or</li> <li>(b) that is described in the application documentation as intending to provide affordable housing and the applicant is seeking to access one or more of the planning concessions outlined in the Affordable Housing Overlay DTS/DPF 3.1, 3.2 or 4.1</li> <li>or</li> <li>(c) that is described in the application documentation as intending to include affordable housing of any number of dwellings or residential allotments</li> </ul>	Minister responsible for administering the <i>South Australian Housing Trust Act 1995</i> .	To provide direction on the conditions required to secure the provision of dwellings or allotments for affordable housing.	Development of a class to which Schedule 9 clause 3 item 20 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

**Aircraft Noise Exposure Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Development sensitive to aircraft noise is designed and located to manage noise intrusion to reduce land use conflict and protect human health.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
<p>PO 1.1</p> <p>Buildings that accommodate activities sensitive to aircraft noise are designed and located to minimise aircraft noise intrusion and provide appropriate interior acoustic amenity.</p>	<p>DTS/DPF 1.1</p> <p>Buildings accommodating sensitive receivers are not located within an area having an ANEF value of 30 or more.</p>
Built Form	
<p>PO 2.1</p> <p>Additions to buildings involving the addition or extension of habitable rooms are designed and located to minimise aircraft noise intrusion and provide appropriate interior acoustic amenity.</p>	<p>DTS/DPF 2.1</p> <p>Dwelling additions involving the addition or extension of habitable rooms:</p> <ul style="list-style-type: none"> <li>(a) do not result in an increase in the total floor area of the existing dwelling by greater than 50 percent</li> <li>(b) do not occur in areas having an ANEF value of 30 or more.</li> </ul>
Land Division	
<p>PO 3.1</p> <p>Land division does not increase the number of allotments used for sensitive receivers in areas adversely affected by aircraft noise to mitigate community exposure to potential adverse environmental and amenity impacts generated by aircraft movements.</p>	<p>DTS/DPF 3.1</p> <p>Land division:</p> <ul style="list-style-type: none"> <li>(a) within an area having an ANEF value of less than 30</li> <li>or</li> <li>(b) within an area having an ANEF value of 30 or more and:                             <ul style="list-style-type: none"> <li>(i) does not result in any additional allotments</li> <li>or</li> <li>(ii) none of the allotments will accommodate a sensitive receiver.</li> </ul> </li> </ul>

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

### Airport Building Heights (Aircraft Landing Areas) Overlay

#### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Management of potential impacts of buildings on the operational and safety requirements of aircraft landing areas.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form	
PO 1.1 Building height does not pose a hazard to the operation of an aircraft landing area.	DTS/DPF 1.1 The distance from any part of a runway centreline to the closest point of the building is greater than 30 times building height.

#### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

### Airport Building Heights (Regulated) Overlay

#### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Management of potential impacts of buildings and generated emissions to maintain operational and safety requirements of registered and certified commercial and military airfields, airports, airstrips and helicopter landing sites.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form	
PO 1.1	DTS/DPF 1.1

Building height does not pose a hazard to the operation of a certified or registered aerodrome.	Buildings are located outside the area identified as 'All structures' (no height limit is prescribed) and do not exceed the height specified in the Airport Building Heights (Regulated) Overlay which applies to the subject site as shown on the SA Property and Planning Atlas.  In instances where more than one value applies to the site, the lowest value relevant to the site of the proposed development is applicable.
PO 1.2 Exhaust stacks are designed and sited to minimise plume impacts on aircraft movements associated with a certified or registered aerodrome.	DTS/DPF 1.2 Development does not include exhaust stacks.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Any of the following classes of development:  (a) building located in an area identified as 'All structures' (no height limit is prescribed) or will exceed the height specified in the <i>Airport Building Heights (Regulated) Overlay</i>  (b) building comprising exhaust stacks that generates plumes, or may cause plumes to be generated, above a height specified in the <i>Airport Building Heights (Regulated) Overlay</i> .	The airport-operator company for the relevant airport within the meaning of the <i>Airports Act 1996</i> of the Commonwealth or, if there is no airport-operator company, the Secretary of the Minister responsible for the administration of the <i>Airports Act 1996</i> of the Commonwealth.	To provide expert assessment and direction to the relevant authority on potential impacts on the safety and operation of aviation activities.	Development of a class to which Schedule 9 clause 3 item 1 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

**Building Near Airfields Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Maintain the operational and safety requirements of certified commercial and military airfields, airports, airstrips and helicopter landing sites through management of non-residential lighting, turbulence and activities that may attract or result in the congregation of wildlife.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
PO 1.1 Outdoor lighting associated with a non-residential use does not pose a hazard to commercial or military aircraft operations.	DTS/DPF 1.1 Development:  (a) primarily or wholly for residential purposes (b) for non-residential purposes that does not incorporate outdoor floodlighting.
PO 1.2 Development likely to attract or result in the congregation of wildlife is adequately separated from airfields to minimise the potential for aircraft wildlife strike.	DTS/DPF 1.2 All development except where it comprises one or more of the following located not less than 3km from the boundaries of an airport used by commercial or military aircraft:  (a) food packing/processing plant (b) horticulture (c) intensive animal husbandry (d) showground (e) waste management facility (f) waste transfer station (g) wetland (h) wildlife sanctuary.
PO 1.3 Buildings are adequately separated from runways and other take-off and landing facilities within certified or registered aerodromes to minimise the potential for building-generated turbulence and windshear that may pose a safety hazard to aircraft flight movement.	DTS/DPF 1.3 The distance from any part of a runway centreline to the closest point of the building is not less than 35 times the building height.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Character Area Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Valued streetscape characteristics and development patterns are reinforced through contextually responsive development, design and adaptive reuse that responds to the attributes expressed in the Character Area Statement.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
All Development	
PO 1.1 All development is undertaken having consideration to the valued attributes expressed in the Character Area Statement.	DTS/DPF 1.1 None are applicable.
Built Form	
PO 2.1 The form of new buildings and structures that are visible from the public realm are consistent with the valued streetscape characteristics of the character area.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development is consistent with the prevailing building and wall heights in the character area.	DTS/DPF 2.2 None are applicable.
PO 2.3 Design and architectural detailing of street-facing buildings (including but not limited to roof pitch and form, openings, chimneys and verandahs) are consistent with the prevailing characteristics in the character area.	DTS/DPF 2.3 None are applicable.
PO 2.4 Development is consistent with the prevailing front and side boundary setback pattern in the character area.	DTS/DPF 2.4 None are applicable.
PO 2.5 Materials are either consistent with or complement those within the character area.	DTS/DPF 2.5 None are applicable.
Alterations and Additions	
PO 3.1 Additions and alterations do not adversely impact on the streetscape character.	DTS/DPF 3.1 Additions and alterations:  (a) are fully contained within the roof space of a building with no external alterations made to the building elevation facing the primary street or (b) meet all of the following: (i) do not include any development forward of the front façade building line (ii) any side or rear extensions are no closer to the side boundary than the existing building (iii) do not involve the construction or alteration of a second or subsequent

	building level.
PO 3.2 Adaptive reuse and revitalisation of buildings to retain local character consistent with the Character Area Statement.	DTS/DPF 3.2 None are applicable.
Ancillary Development	
PO 4.1 Ancillary development, including carports, outbuildings and garages, complements the character of the area and associated building(s).	DTS/DPF 4.1 None are applicable.
PO 4.2 Ancillary development, including carports, outbuildings and garages, is located behind the building line of the principal building(s).	DTS/DPF 4.2 None are applicable.
PO 4.3 Advertising and advertising hoardings are located and designed to complement the building, be unobtrusive, be below the parapet line, not conceal or obstruct significant architectural elements and detailing, or dominate the building or its setting.	DTS/DPF 4.3 None are applicable.
PO 4.4 Fencing and gates closer to a street boundary (other than a laneway) than the elevation of the associated building are consistent with the traditional period, style and form of the of the associated building.	DTS/DPF 4.4 None are applicable.
Land Division	
PO 5.1 Land division creates allotments that are:  (a) compatible with the surrounding pattern of subdivision in the character area (b) of a dimension to accommodate buildings of a bulk and scale that reflect existing buildings and setbacks in the character area.	DTS/DPF 5.1 None are applicable.
Context and Streetscape Amenity	
PO 6.1 The width of driveways and other vehicle access ways are consistent with the prevalent width of existing driveways in the character area.	DTS/DPF 6.1 None are applicable.
PO 6.2 Development maintains the valued landscape pattern and characteristics that contribute to the character area, except where they compromise safety, create nuisance, or impact adversely on existing buildings or infrastructure.	DTS/DPF 6.2 None are applicable.

**Character Area Statements**

Statement#	Statement										
<b>Character Areas affecting Alexandrina Council</b>											
AlexC1	<p><b>Milang Character Area Statement (Alex-C1)</b></p> <p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 40%;">Eras, themes and context</td> <td>Small scale shops. Daranda Terrace comprises tourism and waterfront recreation activities.</td> </tr> <tr> <td>Allotments, subdivision and built form patterns</td> <td>Buildings typically of square or rectangular floor plans. Front and side boundary setbacks are generally consistent.</td> </tr> <tr> <td>Architectural styles, detailing and built form features</td> <td>Gable, hipped or pitches roofs and verandahs. Advertisements comprise small signs under verandahs and bellow parapets.</td> </tr> <tr> <td>Building height</td> <td>Predominantly single storey.</td> </tr> <tr> <td>Materials</td> <td>Stone. Slate. Rendered masonry walling.</td> </tr> </table>	Eras, themes and context	Small scale shops. Daranda Terrace comprises tourism and waterfront recreation activities.	Allotments, subdivision and built form patterns	Buildings typically of square or rectangular floor plans. Front and side boundary setbacks are generally consistent.	Architectural styles, detailing and built form features	Gable, hipped or pitches roofs and verandahs. Advertisements comprise small signs under verandahs and bellow parapets.	Building height	Predominantly single storey.	Materials	Stone. Slate. Rendered masonry walling.
	Eras, themes and context	Small scale shops. Daranda Terrace comprises tourism and waterfront recreation activities.									
	Allotments, subdivision and built form patterns	Buildings typically of square or rectangular floor plans. Front and side boundary setbacks are generally consistent.									
	Architectural styles, detailing and built form features	Gable, hipped or pitches roofs and verandahs. Advertisements comprise small signs under verandahs and bellow parapets.									
	Building height	Predominantly single storey.

Statement#	Statement
	Brick and stone quoins. Corrugated iron. Shingle and slate roofing.
Fencing	[Not stated]
Setting, landscaping, streetscape and public realm features	Car parking and service areas are to the rear of buildings or screened by fencing or landscaping.
Representative Buildings	[Not identified]

**Character Areas affecting The Barossa Council**

<b>Eden Valley Character Area Statement (Baro-C1)</b>	
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
Eras, themes and context	Pre-1950.
Allotments, subdivision and built form patterns	Grid/organic street pattern.
Architectural styles, detailing and built form features	Mixture of housing styles.
Building height	[Not stated]
Materials	[Not stated]
Fencing	[Not stated]
Setting, landscaping, streetscape and public realm features	"Traditional" verge treatments exist in the main street (front boundary, footpath, street trees and gutter).
Representative Buildings	[Not identified]

<b>Springton Character Area Statement (Baro-C2)</b>	
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
Eras, themes and context	Pre-1950.
Allotments, subdivision and built form patterns	Grid pattern.
Architectural styles, detailing and built form features	Mixture of housing styles of relatively modern design.
Building height	Generally single storey detached dwellings.
Materials	[Not stated]
Fencing	[Not stated]
Setting, landscaping, streetscape and public realm features	"Traditional" verge treatments exist in the main street (front boundary, footpath, street trees and gutter).
Representative Buildings	[Not identified]

<b>Angaston Character Area Statement (Baro-C3)</b>	
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	

Statement#	Statement	
BaroC3	Eras, themes and context	Late 1800s. 1920s, second wave of prosperity for Angaston in the 20th Century.
	Allotments, subdivision and built form patterns	[Not stated]
	Architectural styles, detailing and built form features	Residences in 1879-80. Residences of the 1920s.
	Building height	[Not stated]
	Materials	Local stone.
	Fencing	[Not stated]
	Setting, landscaping, streetscape and public realm features	Tree lined streets, attractive gardens, varied topography, coprosma hedges in front of some houses (retaining early post and wire fence structures), mature gums along the creek, and cypress hedges to many 1920s dwellings.
	Representative Buildings	Identified - refer to SA planning database.

**Character Areas affecting City of Campbelltown**

CamC1	<b>Poet's Corner, Tranmere Character Area Statement (Cam-C1)</b>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	Residential.
	Allotments, subdivision and built form patterns	Low site coverage, large front and side building set-backs from property boundaries. Substantial allotment widths, consistent pattern of driveway access from the street to garaging and large landscaped open spaces.  Detached dwellings at low densities.
	Architectural styles, detailing and built form features	Villas and inter-war bungalows on large allotments with wide frontages, set within well-established landscaped gardens and streets.  Consistent roof forms and pitches.  Garages, carports and outbuildings are low in scale and generally located to the rear of dwellings or to the side, well set back from the front facade.
	Building height	Predominantly one storey buildings, with attic or loft spaces contained within the roof form, or two storey additions to the rear of dwellings.
	Materials	Red brick, stone and masonry building materials. Roofs of terracotta tiles or red painted corrugated iron.
	Fencing	Low, open fencing to 1 metre in height, providing views to the built form. Low picket fencing, solid brush fencing, stone or masonry materials, wire and creepers, and hedges.  Some high masonry fences specifically along Magill and Glynburn Roads.
	Setting, landscaping, streetscape and public realm features	Avenues of street tree planting make an important contribution to the landscape character and visual amenity. Generally single width driveways, located to protect mature street trees.  Lawns and vegetated gardens.
	Representative Buildings	Identified - refer to SA planning database.

**Character Areas affecting Clare and Gilbert Valleys Council**

	<b>Auburn Character Area Statement (CGV-C1)</b>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	Buildings constructed in the 19 <sup>th</sup> century.
	Allotments, subdivision and built form patterns	Original land division pattern, street layout and setback patterns.
Architectural styles, detailing and built form features	Verandahs. Original architectural styles.	

Statement#	Statement	
CGVC1	Building height	1-2 storeys, with 2 storey buildings generally for retail and civic uses.
	Materials	[Not stated]
	Fencing	Front fences and gates of timber pickets, pier and plinth masonry, wrought iron, brush or masonry not exceeding 1.2m.
	Setting, landscaping, streetscape and public realm features	Established trees. Residential amenity.
	Representative Buildings	Identified - refer to SA planning database.

**Character Areas affecting City of Holdfast Bay**

HoBC1	<p><b>Seacliff Character Area Statement (HoB-C1)</b></p>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>	
	<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	<p>1880s to 1920s west of the railway line.</p> <p>1930s to 1960s east of the railway line.</p>
	Allotments, subdivision and built form patterns	<p>19<sup>th</sup> century rectilinear road pattern, with small allotment sizes.</p> <p>Large allotments and frontages.</p> <p>Narrow streets, limited street trees.</p> <p>Reduced setbacks.</p> <p>Varied front setbacks.</p> <p>Side setbacks provide visual spacing between dwellings.</p>
	Architectural styles, detailing and built form features	<p>Range of architectural styles.</p> <p>Still some remaining examples of bungalows west of the railway line.</p> <p>Influence of Spanish Mission style architecture.</p> <p>Rectilinear plan forms.</p> <p>High degree of modulation and articulation.</p> <p>Low scale.</p> <p>Steep roof pitches in the order of 25 to 35 degrees.</p> <p>Short roof spans.</p> <p>Hip and gable roof forms.</p> <p>Deep verandahs and porches.</p> <p>Fine-grain detail in elements such as plinths, string courses, projecting sills.</p> <p>High solid to void ratio.</p> <p>Vertical proportions in windows and doors.</p>
Building height	Single storey.	
Materials	<p>Red and cream brick.</p> <p>Stone.</p> <p>Render.</p> <p>Corrugated iron roofing.</p> <p>Terra cotta tile roofing.</p> <p>Varied building materials across the area.</p>	
Fencing	Fencing associated with the era and style of the building, and providing views to the building.	
Setting, landscaping, streetscape and	Railway line is a significant feature, with associated landscape corridor. Sloping landform.	

Statement#	Statement		
	public realm features	Coastal views.	
	Representative Buildings	[Not identified]	
HoBC2	<p><b>Brighton Character Area Statement (HoB-C2)</b></p>		
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>		
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>		
	<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
	Eras, themes and context	1900s to 1930s.	
	Allotments, subdivision and built form patterns	Medium to large sized allotments. Linear and curvilinear street layout adjacent Dunluce Castle. Large allotment sizes and frontages. Large front setbacks. Small side setbacks, including driveway access down one side of the site and a small setback from the non-driveway side boundary.	
	Architectural styles, detailing and built form features	Federation style dwellings. Inter-War style dwellings including: Tudor Revival, Californian bungalow, Art Deco, Some Spanish mission. Some Post-War Austerity and Conventional style dwellings. Rectilinear plan forms. High degree of modulation and articulation. Low scale. Steep roof pitches in the order of 25 to 35 degrees. Short roof spans. Hip and gable roof forms. Deep verandahs and porches. Fine-grain detail in elements such as plinths, string courses, projecting sills. High solid to void ratio. Vertical proportions in windows and doors. Garages, carports and outbuildings are low in scale and generally located unobtrusively to the rear of dwellings or to the side, well set back from the front facade.	
	Building height	Single storey.	
	Materials	Corrugated iron or terracotta tile roofing. Brick, stone, timber and part-rendered finishes. Fenestration, doorways, windows, eaves and roof forms generally dark in colour.	
	Fencing	Fencing associated with the era and style of the building, and providing views to the building. Woven wire. Low masonry with geometric steel. Low masonry (stepped). Brush fencing up to 1.4m in height with either rolled or metal capping.	
Setting, landscaping, streetscape and public realm features	Heavily landscaped settings, mature trees. Mature and uniform street tree settings on Linwood and Athelney Streets. Outlook toward a row of heritage listed Eucalyptus trees on Alfreda Street. Heritage listed Dunluce Castle.

Allotments, subdivision and built form patterns	Grid type pattern of streets, partly angular due to diagonal alignment of railway resulting in some irregular shaped allotments. Large allotments. Detached dwellings.		
<table border="1"> <tr> <td data-bbox="140 2101 328 2199">Architectural styles, detailing and built form features</td> <td data-bbox="328 2101 1560 2199">                     Predominantly single storey detached dwellings.                      Small number of 2 storey dwellings.                 </td> </tr> </table>	Architectural styles, detailing and built form features	Predominantly single storey detached dwellings. Small number of 2 storey dwellings.	
Architectural styles, detailing and built form features	Predominantly single storey detached dwellings. Small number of 2 storey dwellings.		

Statement#	Statement	
MarC2		Original housing stock - mixture of austerity, conventional 1950s. Roof forms (gable, hips).
	Building height	Original housing stock is generally single storey. Recent dwellings are predominantly single storey however there are more examples of 2 storey.
	Materials	External walls predominantly a mixture of brick (variety of colours) and rendered masonry. Roofing - original housing has terracotta tiles. More recent replacement housing has colorbond.
	Fencing	No dominant fencing style or material. Mixed with open front yards.
	Setting, landscaping, streetscape and public realm features	Tree lined streets. Well maintained leafy garden character. Mature vegetation in private properties. Low scale dwellings. Housing well setback from street. Visual separation between houses.
	Representative Buildings	[Not identified]

**Character Areas affecting Mid Murray Council**

MiMuC1	<b>Residential Character Area Statement (MiMu-C1)</b>	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	Buildings of interest reflecting the original development of the town.
	Allotments, subdivision and built form patterns	Early subdivision south of Victoria Street, between the cliff face and east of Walker and Berryman Avenue. Larger allotments reflecting the original subdivision pattern. Wide street frontages and generous setbacks to boundaries.
	Architectural styles, detailing and built form features	Provision of mainly detached dwellings with some semi-detached dwellings.
	Building height	Buildings up to two storeys in height.
	Materials	Original or otherwise complementary materials, colours and finishes.
	Fencing	[Not stated]
Setting, landscaping, streetscape and public realm features	Landscaping to soften development.	
Representative Buildings	[Not identified]	

**Character Areas affecting City of Mitcham**

	<b>Plains Character Area Statement (Mit-C1)</b>	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
Eras, themes and context	Mix of pre-war, inter-war and post-war housing of a low density detached nature comprising symmetrical cottages, villas, bungalows, Tudor, art deco and austerity.	
Allotments, subdivision and built form patterns	Established traditional grid neighbourhoods, with a high presence of pre-1940s housing stock.  Consistent allotment pattern, frontage widths and setbacks of buildings to streets and to each other creating a strong rhythm and pattern of development. Consistent pattern of side setbacks, which are generally larger on one side of allotments.  Low site coverage supporting strong landscaped settings and space that frame and give context to dwelling forms.  Absence of row dwellings and residential flat buildings.	

Statement#	Statement	
MitC1	Architectural styles, detailing and built form features	<p>Single storey detached dwellings at low densities with regular large front and side setbacks.</p> <p>Intact pattern of setbacks and spacings between buildings.</p> <p>Prominence of gables and verandahs which are reflective of the building types in these areas. The use of parapets to front facades are a rarely visible built form element in the area's established streetscape character.</p> <p>Roof forms consist of gabled, hipped and Dutch gable at pitches that reflect the prevailing building size, style and era.</p> <p>High solid to void ratios within building facades.</p> <p>Garaging is a minor built form element and subordinate to the principal dwelling form when viewed from the streetscape.</p> <p>Garaging is in the form of single garages situated to the side of dwellings, setback behind the front building line and comprising wall heights and roof forms that are lower than the associated dwelling.</p>
	Building height	Single storey appearance with second storeys typically not visible from the street and characteristically integrated within the roof form or behind roof ridges.
	Materials	<p>Building materials consist of traditional housing materials such as brick, stone and rendered masonry finishes to walls and tile or corrugated metal roofs.</p> <p>Dwelling facades display a range of materiality and finishes producing a richness of textures and colour schemes.</p>
	Fencing	<p>Low and open fencing styles consisting of timber picket, post and wire, low stone or brick structures or hedges.</p> <p>Limited use of high solid fencing except along railway or arterial road alignments.</p>
	Setting, landscaping, streetscape and public realm features	<p>Important contribution of front yards, landscaping and street trees to overall character of the area.</p> <p>Front yards are generously landscaped spaces with a high proportion of vegetation to paved surfaces.</p> <p>Driveways are aligned to side boundaries and are of single width.</p> <p>Existing street trees and road verges form important streetscape features that contribute to the public realm appearance producing a pattern of plantings protected by isolating driveway entranceway and crossover locations.</p>
	Representative Buildings	<i>[Not identified]</i>
MitC2	<p><b>Springfield Character Area Statement (Mit-C2)</b></p>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>	
	<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	<p>1930s to present.</p> <p>Pre and post war housing stock as well as contemporary housing styles.</p> <p>Sense of grandeur and spaciousness.</p>
	Allotments, subdivision and built form patterns	<p>Intact original subdivision pattern.</p> <p>Winding road network that follows land form and results in irregular shaped allotments.</p> <p>Detached dwellings on very large allotments and very wide frontages which contribute to sense of spaciousness and scale.</p> <p>Absence of row dwellings and residential flat buildings.</p> <p>Buildings are set back very large distances from street frontages and side boundaries. Consistent pattern of side setbacks, which are generally larger on one side of allotments.</p> <p>Low site coverage of buildings across large sites.</p> <p>Strong landscape setting for buildings, particularly in front yards and between buildings, contributes to sense of grandeur.</p>
Architectural styles, detailing and built form features	<p>Eclectic mix of housing stock, styles and architectural features.</p> <p>High quality materials, finishes and detailing associated with grand homes and mansions.</p> <p>Increasing gradient of slopes to the east of the Area promotes split level designs and undercroft garaging formats.</p>	
Building height	Predominantly buildings of up to two storeys, with three storeys where cut into sloping sites (incorporating undercroft garaging).	
Materials	<p>Brick, stone, rendered masonry finishes to walls.</p> <p>Tiles or metal roofing.</p>	

Statement#	Statement	
		<p>High solid to void ratio to facades.</p> <p>Visible retaining walls typically stone or rendered in material.</p>
Fencing		<p>Diversity of fencing treatments and styles.</p> <p>Solid fencing above 1 metre and walls screened with dense landscaping along the street frontage.</p>
Setting, landscaping, streetscape and public realm features		<p>A mixture of mature Eucalypt and exotic street trees provide an overall visual coherence to the public realm.</p> <p>Retaining walls to street frontages on high side of street, with raised front gardens above.</p> <p>Formal garden settings with mature trees are an important element in established character.</p>
Representative Buildings		<i>[Not identified]</i>
<b>Hills Character Area Statement (Mit-C3)</b>		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>		
<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
Eras, themes and context		<p>Low density spacious setting with detached dwellings on large sites within natural vegetated settings with very few other housing types.</p>
Allotments, subdivision and built form patterns		<p>Variations in land forms, including some steeply sloping locations, produce curvilinear road patterns and irregular shaped allotments in terms of size and frontage widths.</p> <p>Land slope leads to a variety of front setbacks and informs dwelling orientation and height relative to the street. Side setbacks are generally larger on one side of allotments.</p> <p>Simple housing forms of a single and two storey nature (including spilt level) that respond to land form.</p> <p>Garaging typically to side of dwelling or as an undercroft structure. Garaging is only forward of dwellings on steeply sloping sites and is in the form of standalone simple open structures.</p> <p>Row dwellings, group dwellings and residential flat buildings are not representative of the predominant built form in the area.</p>
Architectural styles, detailing and built form features		<p>The area's built form exhibits a sense of spaciousness due to limited site coverage and generous front and side setbacks.</p> <p>Development responds to land form and does so in a way that blends with landscape character by minimising cut and fill and vegetation clearance.</p> <p>Where visible to the street, large differences in levels between dwellings and roadways are battered and landscaped.</p> <p>Where parking structures are forward of building lines, they are of an open form and low roof profile.</p>
Building height		<p>Low profile roof forms and pitches reflect the land form are a common feature.</p> <p>One and two storeys typically responding to the land form.</p>
Materials		<p>Building materials, colours and finishes assist in blending and receding buildings into the natural landscape character rather than openly contrasting and drawing attention to buildings.</p> <p>Predominantly darker subdued natural earthy tones for wall and roof materials. Lighter or paler colour complement the surrounding landscape in their tone.</p> <p>Highly reflective and bright, vivid colour finishes to walls and roof materials, such as stark white or similar are rarely found in the area.</p>
Fencing		<p>No presence of front fencing forward of the building line is a characteristic of the area, and in limited cases where front fencing is present, it is low or open in nature.</p> <p>The area features retaining walls that are mostly screened or are natural in form using mainly stone or natural rock, with walls being low in height, terraced and set well back from boundaries and providing landscaped space.</p> <p>High concrete sleeper walls are not a part of the built form streetscape.</p>
Setting, landscaping, streetscape and public realm features		<p>Strong landscape character attributes derive from extensive retention of native vegetation on sites, between buildings and within informal road verges. The presence of vegetation on sites, is a defining feature of the area.</p> <p>Streets retain an open, often spacious setting characterised by spaces between buildings which contain landscaping.</p> <p>Driveways on sloping sites meander within front yards of dwellings, with minimal cut and fill of the land surface, and feature landscaping on their edges.</p>

**Character Areas affecting City of Norwood, Payneham and St Peters**

NPSPC1	<b>Evandale/Maylands/Stepney Character Area Statement (NPSP-C1)</b>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	<p>Pre-1940.</p> <p>Primarily low-scale and low density residential. Detached (including battleaxe in Maylands, Evandale and Payneham), semi-detached and group dwellings.</p>
	Allotments, subdivision and built form patterns	<p>Original, pre-1940s land division patterns.</p> <p>Setbacks from boundaries creating space between dwellings.</p>
	Architectural styles, detailing and built form features	<p>Traditional pre-1940s roof forms, eaves, front verandah treatments, window proportions.</p> <p>Semi-detached dwellings often presenting as single dwellings.</p>
	Building height	<p>Single storey, with some two storey to the rear of buildings (with single storey appearance to primary street frontage).</p>
	Materials	<p>Varied, traditional materials.</p>
	Fencing	<p>Low, open-style fencing that allows connectivity to the street.</p> <p>Front fencing and side fencing (between the front of a dwelling and the street) and landscaping are important components of streetscape character.</p> <p>Some more solid forms of fencing along arterial roads.</p>
Setting, landscaping, streetscape and public realm features	<p>Vehicle garaging, driveways and front fences are not dominant streetscape elements.</p> <p>In most areas mature street tree plantings provide an overall visual coherence to the streets.</p> <p>Soft front landscaping, including trees.</p> <p>Some limited advertising and signage which complements scale and architecture of associated buildings.</p>	
Representative Buildings	<p><i>[Not identified]</i></p>	

NPSPC2	<b>Hackney Character Area Statement (NPSP-C2)</b>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	<p>Pre- 1940.</p> <p>Primarily low-scale and low density residential. Detached, semi-detached, group and row dwellings. Residential flat buildings.</p>
	Allotments, subdivision and built form patterns	<p>Original, pre-1940s land division patterns.</p> <p>Small areas of Hackney located along the southern side of Richmond Street and between Hackney Road and St Peters College. Existing development comprises a mix of compact and large allotments with a number of Local Heritage Places, pre-1940s dwellings and multi-unit sites.</p>
	Architectural styles, detailing and built form features	<p>Traditional pre-1940s roof forms, eaves, front verandah treatments, window proportions.</p> <p>Semi-detached dwellings often presenting as single dwellings.</p>
	Building height	<p>Two storey along Hackney Road.</p> <p>In other locations, single storey, with some two storey to the rear of buildings (with single storey appearance to primary street frontage).</p>
	Materials	<p>Varied, traditional materials.</p>
Fencing	<p>Low, open-style fencing that allows connectivity to the street.</p> <p>Front fencing and side fencing (between the front of a dwelling and the street) and landscaping are important components of streetscape character.</p> <p>Some more solid forms of fencing along arterial roads.</p>	

Statement#	Statement	
	Setting, landscaping, streetscape and public realm features	Vehicle garaging, driveways and front fences are not dominant streetscape elements.  In most areas mature street tree plantings provide an overall visual coherence to the streets.  Soft front landscaping, including trees.  Some limited advertising and signage which complements scale and architecture of associated buildings.
	Representative Buildings	<i>[Not identified]</i>
NPSPC3	<b>Heathpool/Marryatville Character Area Statement (NPSP-C3)</b>	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	Pre-1940.  Primarily low-scale and low density residential. Detached (including battleaxe in Marryatville east and west of Clapton Road), semi-detached and group dwellings. Residential flat buildings in Marryatville east and west of Clapton Road.
	Allotments, subdivision and built form patterns	Original, pre-1940s land division patterns.
	Architectural styles, detailing and built form features	Traditional pre-1940s roof forms, eaves, front verandah treatments, window proportions.  Semi-detached dwellings often presenting as single dwellings.
	Building height	Single storey, with some two storey to the rear of buildings (with single storey appearance to primary street frontage).
Materials	Varied, traditional materials.	
Fencing	Low, open-style fencing that allows connectivity to the street.  Front fencing and side fencing (between the front of a dwelling and the street) and landscaping are important components of streetscape character.  Some more solid forms of fencing along arterial roads.	
Setting, landscaping, streetscape and public realm features	Vehicle garaging, driveways and front fences are not dominant streetscape elements.  In most areas mature street tree plantings provide an overall visual coherence to the streets.  Soft front landscaping, including trees.  Some limited advertising and signage which complements scale and architecture of associated buildings.	
Representative Buildings	<i>[Not identified]</i>	
NPSPC4	<b>St Peters/Joslin/Royston Park Character Area Statement (NPSP-C4)</b>	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	Pre-1940.  Primarily low-scale and low density residential. Detached dwellings. Semi-detached dwellings in St Peters and College Park.
	Allotments, subdivision and built form patterns	Original, pre-1940s land division patterns.
	Architectural styles, detailing and built form features	Traditional pre-1940s roof forms, eaves, front verandah treatments, window proportions.  Semi-detached dwellings often presenting as single dwellings.
Building height	Single storey, with some two storey to the rear of buildings (with single storey appearance to primary street frontage).	
Materials	Varied, traditional materials.	
Fencing	Low, open-style fencing that allows connectivity to the street.  Front fencing and side fencing (between the front of a dwelling and the street) and landscaping are important components of streetscape character.	

Statement#	Statement	
		<p>Some more solid forms of fencing along arterial roads.</p>
	Setting, landscaping, streetscape and public realm features	<p>Vehicle garaging, driveways and front fences are not dominant streetscape elements.</p> <p>In most areas mature street tree plantings provide an overall visual coherence to the streets.</p> <p>Soft front landscaping, including trees.</p> <p>Some limited advertising and signage which complements scale and architecture of associated buildings.</p>

NPSPC5	<p><b>Trinity Gardens/St Morris Character Area Statement (NPSP-C5)</b></p>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>	
	<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	<p>Pre-1940.</p> <p>Primarily low-scale and low density residential. Detached (including battleaxe in some locations), semi-detached dwellings. Group dwellings in St Morris.</p>
	Allotments, subdivision and built form patterns	<p>Original, pre-1940s land division patterns.</p>
	Architectural styles, detailing and built form features	<p>Traditional pre-1940s roof forms, eaves, front verandah treatments, window proportions.</p> <p>Semi-detached dwellings often presenting as single dwellings.</p>
	Building height	<p>Single storey.</p>
Materials	<p>Varied, traditional materials.</p>	
Fencing	<p>Low, open-style fencing that allows connectivity to the street.</p> <p>Front fencing and side fencing (between the front of a dwelling and the street) and landscaping are important components of streetscape character.</p> <p>Some more solid forms of fencing along arterial roads.</p>	
Setting, landscaping, streetscape and public realm features	<p>Vehicle garaging, driveways and front fences are not dominant streetscape elements.</p> <p>In most areas mature street tree plantings provide an overall visual coherence to the streets.</p> <p>Soft front landscaping, including trees.</p> <p>Some limited advertising and signage which complements scale and architecture of associated buildings.</p>	
Representative Buildings	<i>[Not identified]</i>	
NPSPC6	<p><b>Residential Character (Norwood) Area Statement (NPSP-C6)</b></p>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>	
	<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
Eras, themes and context	<p>Residential. Detached (including battleaxe), semi-detached, row and group dwellings. Residential flat buildings.</p> <p>Although the built form character throughout Norwood is relatively varied, there remains a strong theme associated with the original built form, which includes a significant number of Local Heritage Places and buildings constructed before 1940.</p>	
Allotments, subdivision and built form patterns	<p>Rectilinear pattern of wide tree-lined major streets, intersected by narrow minor streets, with various eras of development overlaid. Broad mix of allotment sizes and a diversity of residential accommodation options.</p> <p>The regular street grid pattern and the high level of vegetation, including mature street trees and landscaped gardens, are elements that assist in unifying the various eras of built form development in Norwood.</p>	
Architectural styles, detailing and built form features	<p>Traditional pre-1940s roof forms, eaves, front verandah treatments, window proportions.</p> <p>A mix of housing styles, including workers cottages, bungalows and villas and a variety of post war dwellings, including walk-up flats, townhouses and a range of contemporary detached, attached and group housing styles. This has, over the years, established a broad mix of allotment sizes and provided a diversity of residential accommodation options, including affordable housing.</p> <p>Some undercroft or underground garages along western side of Osmond Terrace.</p>	

Statement#	Statement
	Semi-detached dwellings often presenting as single dwellings.
Building height	Generally single storey streetscape appearance.
Materials	Varied, traditional materials.
Fencing	Low, open-style fencing that allows connectivity to the street.  Front fencing and side fencing (between the front of a dwelling and the street) and landscaping are important components of streetscape character.  Some more solid forms of fencing along arterial roads.
Setting, landscaping, streetscape and public realm features	Distinct rectilinear pattern of wide tree-lined major streets, intersected by narrow minor streets.  Some limited advertising and signage which complements scale and architecture of associated buildings.
Representative Buildings	[Not identified]

**Character Areas affecting City of Playford**

<b>Elizabeth South Character Area Statement (Play-C1)</b>	
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
Eras, themes and context	Late 1950s to early 1960s.
Allotments, subdivision and built form patterns	<p>First stage of the post war planned Garden City north of Adelaide.</p> <p>Layout and land division pattern involving irregular allotment shapes and curvilinear street pattern, typical of the planning and construction of Trust development in the late 1950s and early 1960s.</p> <p>Large proportion of open space as parks and gardens.</p> <p>Parks and mature trees in the landscape road reserve make a significant contribution to the character and amenity of the area.</p> <p>Rectangular allotment shapes in varying sizes. Some allotments have been amalgamated to make way for residential flat buildings and units. Generally large front setbacks. Side setbacks provide visual spacing between dwellings.</p>
Architectural styles, detailing and built form features	<p>Small scale, simplified building forms consistent with South Australian Housing Trust development of the late 1950s early 1960s.</p> <p>Single storey semi-detached and detached buildings. Dwellings being of brick and concrete block construction with varying stylistic treatments. Many dwellings without vehicle garaging.</p> <p>Garages, carports and outbuildings, where they exist, are low in scale and simple in form. Rectilinear plan forms. Low scale. Hipped roof forms.</p>
Building heights	Predominantly single storey.
Materials	Consistent with the materials used in the late 1950s to early 1960s period. Brick or rendered finishes. Corrugated iron roofing. Consistent, original windows dimensions facing the street. Main entrance incorporated into front elevation.
Fencing	Where fencing exists, it is predominantly in the form of low style open fencing along the primary road frontage. Corrugated iron fencing evident to side and rear boundaries.
Setting, landscaping, streetscape and public realm features	<p>Low scale suburban feel, within proximity to the open spaces.</p> <p>Strong sense of uniformity of buildings.</p>
Representative Buildings	[Not identified]

**Character Areas affecting City of Port Adelaide Enfield**

<b>Enfield Character Area Statement (PAde-C1)</b>	
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
Eras, themes and context	1900s - 1950s built development.

Statement#	Statement	
PAdeC1	Allotments, subdivision and built form patterns	"Garden suburb" street pattern and modified grid. Generous allotment sizes with wide frontages and substantial rear gardens. Consistent front set-backs.
	Architectural styles, detailing and built form features	<p>The area is large and features a wide variety of housing styles including bungalows, villas, Tudors, art deco, inter-war, cottages and mansions generally built before the 1940s.</p> <p>There is also a significant stock of quality dwellings built between 1940 and 1950 that augment the pre 1940s dwellings and make an important contribution to the character of the area.</p> <p>There is a notable concentration of bungalows in the western portion of the area and this style is a defining feature in this part of the area.</p>
	Building height	Single storey.
	Materials	Materials consistent with the style of building and era of its original construction.
	Fencing	<p>Low and/or open consistent with the style and era of construction of the building it is associated with.</p> <p>Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms.</p> <p>Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences.</p>
	Setting, landscaping, streetscape and public realm features	<p>The 1920s street pattern in this area is distinctive and reflects the garden suburb approach to town planning and subdivision.</p> <p>It results in wide nature strips and reserves that together with mature, well landscaped gardens create road verges which contribute to an open and high quality residential character.</p>
	Representative Buildings	<i>[Not identified]</i>
PAdeC2	<p><b>Glanville (East of Carlisle) Character Area Statement (PAde-C2)</b></p>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>	
	<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>	
	Eras, themes and context	1860s - 1920s built development.
	Allotments, subdivision and built form patterns	The allotment pattern is shaped to accommodate the alignments of Carlisle Street and Causeway Road. Small allotment sizes with narrow frontages. Dwellings are built close to streets.
	Architectural styles, detailing and built form features	Housing styles include cottages, villas, inter-war and bungalows with cottages being the predominant and key defining feature in the area.
	Building height	Single storey.
Materials	Materials consistent with the style of building and era of its original construction.	
Fencing	<p>Low and/or open consistent with the style and era of construction of the building it is associated with.</p> <p>Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences.</p>	
Setting, landscaping, streetscape and public realm features	<p>The area is nestled in to the north west of the Jervois Street bridge and contains many old workers' cottages. These are particularly prevalent in the area bound by Sutherland Street, Connor Street, Hart Street and Carlisle Street.</p> <p>The area's simple low rise housing is strongly counterpointed by the modern, multi -storey Port Adelaide waterfront development to the east of the Outer Harbour rail line and provides an important representation of the early settlement and historical development of Port Adelaide.</p>	
Representative Buildings	<i>[Not identified]</i>	
	<p><b>Largs / Largs North Character Area Statement (PAde-C3)</b></p>	
	<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p>	
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p>		
<p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
Eras, themes and context	1900s - 1960s built development.	

Statement#	Statement	
PAdEC3	Allotments, subdivision and built form patterns	Grid pattern with predominately east-west running streets with the long axes of allotments running north-south. Allotments fronting Lady Gowrie Drive and Military Road configured with their long axes running east-west so that buildings address these roads. A high degree of consistency in front setbacks.  Regular and generous rectangular allotments with wide frontages.
	Architectural styles, detailing and built form features	Wide range of housing styles including bungalows, villas, inter-war, Tudors, cottages and art deco. There is a strong concentration of pre 1940s built form.
	Building height	Predominately single storey but some two storey along parts of the Lady Gowrie Drive frontage.
	Materials	Materials consistent with the style of building and era of its original construction.
	Fencing	Low and/or open consistent with the style and era of construction of the building it is associated with.  Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences.  Original hedges retained, restored and where appropriate, extended, (utilizing the same species of planting currently in existence) as an alternative to constructed fences.
	Setting, landscaping, streetscape and public realm features	The southern boundary of this area adjoins the Semaphore/Largs Historic Area. It abuts the coast and contains a significant number of dwellings built during the period from 1915-1940.  It has a strong relationship with the coast and features tree lined streets with footpaths on both sides that provide vistas and ready walking access to the foreshore and beach.  Wide allotment frontages with generous spacing between driveways make a significant contribution to the walkability of these footpaths and the character of the area.  An imposing stand of Norfolk Island pines along Lady Gowrie Drive is a key feature of the area.
	Representative Buildings	<i>[Not identified]</i>

PAdEC4	<b>Rosewater Character Area Statement (PAdE-C4)</b>	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	1900s - 1940s built development.
	Allotments, subdivision and built form patterns	Grid pattern distorted by the alignment of Newcastle Street. Small allotments with narrow frontages. Front setbacks are consistent on a street by street basis.
	Architectural styles, detailing and built form features	A variety of housing styles but cottages, villas and bungalows are the principle styles.
	Building height	Single storey.
	Materials	Materials of existing buildings retained where practicable and missing elements reinstated consistent with the style of building and era of its original construction.
Fencing	Low and/or open consistent with the style and era of construction of the building it is associated with. Fences associated with Victorian and Edwardian houses including pickets, paling, masonry and cast iron and other traditional fence forms. Fences associated with houses from the 1920s including capped timber palings, post and wire or woven wire fences.	
Setting, landscaping, streetscape and public realm features	Newcastle Street is a well landscaped road that provides the main access into this area. It features well established avenue tree planting that includes plane trees and jacarandas. Simple, single storey, historic detached dwellings built on allotments with consistent widths laid out in a grid pattern, and the adjacent Mt Carmel school and the reserve to the north west, combine to establish a country town like character.

<b>Character Areas affecting City of Prospect</b>	
<b>Suburban Neighbourhood 1 Character Area Statement (Pr-C1)</b>	
The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	

Statement#	Statement	
PrC1	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	Late 19th and Early 20th centuries residential. Limited post-1950s residential. Very low density and primarily detached dwellings.
	Allotments, subdivision and built form patterns	Original land division patterns following grid type street pattern and displaying rectangular, rectilinear allotments. Spacious allotments. Large allotment frontages. Large front setbacks. Street facing front dwelling facades. Large spaces around and between dwellings including generous and asymmetrical (one side larger than the other) side setbacks between dwellings. Typically two storey dwellings display consistent side boundary setbacks between building levels.
	Architectural styles, detailing and built form features	Majority bungalows and villas of a significant scale.  Pitched roofs with their vertical proportion similar to wall height and typically around 25 to 49 degree pitch.  Prominent front verandahs of bull-nose or concave design.  Moderate front façade detailing and articulation (wall off-sets, verandahs and deep eaves) with walls with a solid to void ratio of greater than 1:1 and fenestrations showing a vertical prominence.
	Building height	Primarily single storey presentation to the street with two storey components sited behind.  1 to 2 storey dwellings with vertical proportions consistent with traditional dwellings (wall height at least 3 metres and no more than 3.6 metres for single storey and up to 7 metres for two storeys.  Large scale buildings in context with large to very large allotments and frontages.
	Materials	Stone, brick and rendered finishes.  Detailing around doors, windows, wall edges and gables.  Limited colour palette for the majority of building façade (sandstone to reds; bluestone and grey tones) with colour highlights in the detailing.
	Fencing	Front fences forward of the building are of an open style and low in height (to 1.2 metres high). Fencing style associated with dwelling style and era of development. Some more solid fencing of standard height along major roads.
	Setting, landscaping, streetscape and public realm features	Leafy public realm that visually dominates or supports the built form.  Extensively landscaped front yards with mature vegetation/tree canopy. Minimal hard and artificial surfaces. Mature vegetation in public realm. Garages and carports are designed and sited to be subordinate to the main dwelling. Access points are narrow and consolidated.
	Representative Buildings	<i>[Not identified]</i>

PrC2	<b>Suburban Neighbourhood 2 Character Area Statement (Pr-C2)</b>	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	Late 19th and Early 20th centuries residential. Limited post-1950s infill residential. Primarily low density and low scale residential, including detached, semi-detached and row dwellings.
	Allotments, subdivision and built form patterns	Original land division patterns following grid type street pattern and displaying rectangular, rectilinear allotments. Large allotments. Large allotment frontages. Large front setbacks along with reasonable side setbacks. Street facing front dwelling facades.  Moderate spaces around dwellings including asymmetrical (one side larger than the other) side setbacks between dwellings. Typically two storey dwellings to display consistent side boundary setbacks between building levels.
	Architectural styles, detailing and built form features	Mainly single storey detached bungalows, cottages and villas.  Pitched roofs with the vertical proportion similar to wall height and typically around 25 to 49 degree pitch.  Front verandahs (with bull-nose or concave design) with façade detailing and moderate articulation. Moderate front façade detailing and articulation (wall off-sets, verandahs and deep eaves) with walls with a solid to void ratio of greater than 1:1 and fenestrations showing a vertical prominence.
	Building height	Primarily single storey presentation to the street with any two storey components sited behind.  Predominantly 1 storey dwellings with vertical proportions consistent with traditional dwellings at least 3 metres and no more than 3.6 metres in wall height for single storey and up to 7 metres for two storeys.  Moderate scale in context with low rise development, allotment size and frontages.
	Materials	Stone, brick and rendered finishes.  Detailing around doors, windows, wall edges and gables  Limited colour palette for the majority of building façade and roof areas (sandstone to reds; bluestone and grey tones) with complementary colour highlights in the detailing.
Fencing	Front fences forward of the building are of an open style and low in height (to 1.2 metres high). Style associated with dwelling style and era of	

Statement#	Statement	
		development. Some more solid fencing of standard height along major roads.
Setting, landscaping, streetscape and public realm features		Leafy public realm that supports the built form. Garages and carports are designed and sited to be subordinate to the main dwelling. Access points are narrow and consolidated.  Well landscaped front yards with mature vegetation/tree canopy. Minimal hard and artificial surfaces. Front and side garden landscaping. Leafy, garden suburb character and visual separation between houses.
Representative Buildings		<i>[Not identified]</i>

<b>Suburban Neighbourhood 3 Character Area Statement (Pr-C3)</b>		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
Éras, themes and context		Early 20th century residential. Some examples of residential infill comprising units, conventional and recent dwellings. Primarily low density and low scale residential including various dwelling types.
Allotments, subdivision and built form patterns		Original land division patterns following grid type street pattern and displaying rectangular, rectilinear allotments. Moderate sized allotments. Moderate to compact allotment frontages. Street facing front dwelling facades.  Moderate to compact asymmetrical spaces between dwellings providing physical and visual separation between dwellings. Typically two storey dwellings to display consistent side boundary setbacks between building levels.
Architectural styles, detailing and built form features		Many bungalows with some cottages, Tudor and art deco housing.  Pitched roofs with the vertical proportion similar to wall height and typically around 25 to 49 degree pitch.  Front verandahs with façade detailing and moderate articulation (wall off-sets, verandahs and deep eaves) walls with a solid to void ratio of greater than 1:1 and fenestrations showing a vertical prominence.
Building height		Primarily single storey presentation to the street with two storey components sited behind.  Predominantly 1 storey dwellings with vertical proportions consistent with traditional dwellings (at least 3 metres and no more than 3.6 metres in wall height).  Moderate to compact scale in context with low rise development, allotment size and frontages.
Materials		Stone, brick and rendered finishes and durable materials.  Detailing around doors, windows, wall edges and gables.  Limited palette for the majority of building façade and roof areas with colour highlights in the detailing (sandstone to reds; bluestone and grey tones) with complementary colour highlights in the detailing.
Fencing		Front fences forward of the building are of an open style and low in height (to 1.2 metres high). Style associated with dwelling style and era of development. Some more solid fencing of standard height along major roads.
Setting, landscaping, streetscape and public realm features		Leafy public realm that supports the built form.  Landscaped front yards with mature vegetation/tree canopy. Minimal hard and artificial surfaces. Leafy garden suburb character and maintaining visual separation between houses. Garages and carports are designed and sited to be subordinate to the main dwelling. Access points are narrow and consolidated.

**Character Area affecting District Council of Tatiara**

<b>Mundulla Character Area Statement (TatC1)</b>		
<p>The Character Area Overlays identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
Éras, themes and context		Pre-1950.
Allotments, subdivision and built form patterns		Original land division, large allotments. Buildings sited regularly and facing towards street frontages.
Architectural styles, detailing and built form features		Consistent roof pitches. Unity of design and scale.

Statement#	Statement	
TatC1	Building height	Consistent, low scale.
	Materials	Earthen colours. Materials consistent with pre-1950s buildings.
	Fencing	Informal fencing.
	Setting, landscaping, streetscape and public realm features	Individual and stands of trees, stone culverts, drainage and footpath system add to character of townscape. Informal street furniture, lighting, footpaths, road surface treatments, kerbing and guttering. Surrounded by well vegetated parklands and grazing land. Uncluttered appearance. Advertisements of traditional styles and scale consistent with the era.
	Representative Buildings	[Not identified]

**Character Areas affecting City of Victor Harbor**

Burke Street Character Area Statement (VIH-C1)		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
Eras, themes and context	Consistent low scale detached dwellings, primarily constructed after World War 1 to the later part of the 19th Century (mid 1800s to 1930s). Early settlement, consolidation and growth of residential development.	
Allotments, subdivision and built form patterns	Original street layout including rear access lanes and local roads. Curvilinear street with relatively large allotments roughly perpendicular to the street, most with rear laneway access.	
Architectural styles, detailing and built form features	Mix of small mid-1800s detached cottages of early Vernacular style, symmetrical and asymmetrical cottages and villas of the mid to late 1800s with Victorian stylistic influences, early 1900s cottages and villas with Federation stylistic influences, Inter-War bungalows. Church and Hall with late Victorian Gothic stylistic influences located at the bend in the road are landmarks. Adjacent to the Church is a Manse built in the Inter-War period with Georgian Revival stylistic influences. Rectilinear plan form. Buildings are typically two or more pavilions rather than a single mass. Steeply-pitched roof forms, typically 35 to 40 degrees on 1800s and early 1900s era buildings and slightly lower on Inter-War buildings, reflecting traditional architectural styles and building methods. Short roof spans, minimising roof bulk. Concave, bullnose and straight-pitched verandahs on front and sometimes side facades reduce the bulk and scale and add visual interest. Lean-to forms are common. Fine-grain detail in elements such as plinths, string courses, projecting sills. High solid to void ratio. Vertical proportions in windows and doors.	
Building height	Single storey, low scale and simple in form.	
Materials	Limestone walls. Red brick or rendered quoin work and details. Timber joinery including window frames, door frames, doors, fascias, bargeboards and verandah posts. Corrugated iron or corrugated steel roofing. Variation in materials assists in breaking down bulk and scale and adds visual interest.	
Fencing	Low, open style construction front fencing (1.2 metres or less) associated with the traditional period and style of building, and providing views to the building. Low timber pickets, post and rails, pier and plinth masonry or wrought iron. Rear and side fencing behind building line up to 1.8 metres, corrugated iron.	
Setting, landscaping, streetscape and public realm features	Established garden settings. Varied, small front and side setbacks. Landscaped verges.  Garages and carports are sited behind dwellings, accessed from rear laneways or well set back from the front of dwellings.	
Representative Buildings	[Not identified]	

**Character Areas affecting Town of Walkerville**

Gilberton Character Area Statement (Walk-C1)		
<p>The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.</p> <p>The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.</p>		
Eras, themes and context	Various eras of development that map out the developmental progress of the Walkerville Township, from the late 1870s to early 1900s.	
Allotments, subdivision and built form patterns	Predominantly low density detached dwellings on allotments that are medium in width and of a range of sizes.  Some semi-detached and group dwellings on larger allotments.	
Architectural styles, detailing and built form features	The historic built form exhibits a mixture of architectural styles from the late 1800s and early 1900s. Edwardian villas alongside Victorian cottages pepper the locality providing a significant narrative that reflects the contemporaneous construction styles.	

WalkC1

Statement#	Statement	
	Building height	Predominantly single storey. Two storey additions to the rear of buildings or within the roof space.
	Materials	Residences within this area vary in material application. Residences mostly constructed in locally sourced sandstone or bluestone, corrugated galvanised iron roofs and verandahs with cast iron lacework.
	Fencing	Original fencing with bluestone plinths and cast iron fence railings above. Low front fencing.
	Setting, landscaping, streetscape and public realm features	There is a reasonably well established pattern of development, with regular spacing between buildings, front setbacks and roof pitches. The landscape setting is an important element of the area, with generally open, well vegetated streetscapes through a combination of public and private plantings and low fencing forward each dwelling.
	Representative Buildings	[Not identified]

**Character Areas affecting City of West Torrens**

WeToC1	<b>Ashford Character Area Statement (WeTo-C1)</b>	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	1920s - 1940s
	Allotments, subdivision and built form patterns	Strong uniformity of allotment pattern. Low to very low density site areas. Wide street frontages. Medium sized detached dwellings on substantial allotments.
	Architectural styles, detailing and built form features	Predominantly Tudor and Bungalow dwellings. Articulated hip and gable roofs. Verandahs / porticos. Verandahs as continuation of main roof structure. Additions are generally located to the rear of the dwelling.
	Building height	Generally single storey. Second storey within the roof space.
	Materials	Brick. Painted brick. Stone. Rendered masonry. Corrugated pre-coloured or galvanised iron sheeting. Tiled roofs. Timber windows.
	Fencing	Low fencing facilitating views of the dwelling. Post and rail with woven wire. Low level stone or masonry. Timber picket.
	Setting, landscaping, streetscape and public realm features	Strong uniformity of layout and buildings. Carports and garages are behind the main face of dwellings. Consistent side and rear setbacks, large private yards. Generous traditional well-maintained gardens. Tree lined streets.
	Representative Buildings	[Not identified]

WeToC2	<b>Cowandilla / Mile End West Character Area Statement (WeTo-C2)</b>	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	1920s - 1940.'s
	Allotments, subdivision and built form patterns	Strong uniformity of allotment pattern. Low to very low density site areas. Narrow and deep allotments. Detached and semi-detached dwellings on substantial allotments.
	Architectural styles, detailing and built form features	Predominantly Californian and State Bank Bungalows with some examples of Spanish Mission; Dutch Colonial dwellings; Detached and semi-detached federation cottages/villas; Victorian era cottages/villas; and Early inter-war dwellings. Gable and Dutch gable roofs with hips. Verandahs / porticos. Additions are generally located to the rear of the dwelling.
	Building height	Generally single storey. Second storey generally within the roof space or otherwise designed to complement single storey character.
	Materials	Brick. Painted brick. Stone. Rendered masonry. Corrugated pre-coloured or galvanised iron sheeting. Timber windows. Brick/red brick chimneys.
	Fencing	Low fencing facilitating views of the dwelling. Post and rail with woven wire. Low level stone or masonry. Timber picket.
	Setting, landscaping, streetscape and public realm features	Strong uniformity of layout and buildings. Consistent side and rear setbacks, large private yards. Carports and garages are behind the main face of dwellings. Generous traditional well-maintained gardens. Tree lined streets.

	Building height	Generally single storey. Second storey within the roof space.
	Materials	Brick. Painted brick. Stone. Rendered masonry. Corrugated pre-coloured or galvanised iron sheeting. Timber windows. Brick chimneys.
	Fencing	Low fencing facilitating views of the dwelling. Post and rail with woven wire. Low level stone or masonry. Timber picket.
	Setting, landscaping, streetscape and public realm features	Large front and side setbacks. Consistent rear setbacks, large private yards. Carports and garages are behind the main face of dwellings. Traditional well-maintained gardens. Tree lined streets. Vehicle access has been design and located to preserve existing street trees.
	Representative Buildings	[Not identified]

**Character Areas affecting Whyalla City Council**

WhC1	<b>Whyalla Character Area Statement (Wh-C1)</b>	
	The Character Area Overlay identifies localities that comprise valued character attributes. They can be characterised by a consistent rhythm of allotment patterns, building setting and spacing, landscape or natural features and the scale, proportion and form of buildings and their key elements.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of a Character Area.	
	The preparation of a Contextual Analysis can assist in determining potential additional attributes of a Character Area where these are not identified in the below table.	
	Eras, themes and context	1900 - 1940. Developed in the first 40 years of Whyalla up until the 1940's. Illustrates the increasing prosperity of the city from the small corrugated or rendered masonry cottages to the substantial stone bungalow dwellings constructed by BHP for their senior staff at the steelworks.
	Allotments, subdivision and built form patterns	Pattern of division in predominantly quarter acre lots, generous roads and road reserves with ample provision for on street parking and street planting.
	Architectural styles, detailing and built form features	Colonial Cottages with half-hipped roofs, rendered masonry walls with open verandahs the width of the dwelling, symmetrical fronted dwellings with return verandahs and Bungalow dwellings dominate the architectural style of the dwellings.
	Building height	[Not stated]
	Materials	Corrugated iron, rendered masonry and BHP stone (including stone coins) and BHP brick are the predominant construction materials with corrugated iron roofs.
Fencing	Simple low picket or low rendered masonry, low open fencing or hedging.	
Setting, landscaping, streetscape and public realm features	Pedestrian and cycle connection to the foreshore, Ada Ryan Gardens and Hummock Hill.	
Representative Buildings	[Not identified]	

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Character Preservation District Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

DO 1	Recognise, protect and enhance the special character of Character Preservation Districts.
DO 2	The long term use of land outside of townships for primary production and associated value adding enterprises is assured and promoted.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Land division is undertaken in accordance with Section 8 of the <i>Character Preservation (Barossa Valley) Act 2012</i> and Section 8 of the <i>Character Preservation (McLaren Vale) Act 2012</i> .	DTS/DPF 1.1 None are applicable.
PO 1.2 Residential development located in townships to reinforce settlement patterns within the district and support the continuation of primary production on land outside townships.	DTS/DPF 1.2 Residential development located within designated township areas of the Character Preservation District Overlay.
Built Form and Character	
PO 2.1 Development occurring at the edge of townships is sympathetic to the rural landscape and reinforces a clear transition between townships and rural landscape through measures including:  (a) being of a low scale (b) orientating residential development towards the rural area (c) ensuring visual separation from the rural area through landscaping and road reserves.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development contributes to and maintains the historic identity and character of townships through appropriate:  (a) form (b) scale (c) siting (d) design (e) landscaping.	DTS/DPF 2.2 None are applicable.
PO 2.3 Adaptive re-use of rural structures and historic and/or character buildings supports their preservation and ongoing contribution to the landscape.	DTS/DPF 2.3 None are applicable.
Built Form and Character in the Rural Area	
PO 3.1 Preservation of existing natural features including topography, watercourses and mature trees.	DTS/DPF 3.1 None are applicable.
PO 3.2 Buildings and structures do not interrupt views of the skyline through measures including being sited below ridge lines.	DTS/DPF 3.2 None are applicable.
PO 3.3 Buildings and structures harmonise with the natural features of the landscape and reinforce the rural character through the use of muted, neutral, non-reflective landscape colours on external surfaces.	DTS/DPF 3.3 None are applicable.
PO 3.4 Large buildings and structures are sited and oriented to minimise their visual bulk, particularly if close to roads or in open settings where there are no other buildings or mature trees in close proximity.	DTS/DPF 3.4 None are applicable.
PO 3.5 Buildings and structures are grouped to create compact clusters well set back from public roads.	DTS/DPF 3.5 None are applicable.
PO 3.6 Development mitigates the need for long, steep access roads that require excessive grading or removal of vegetation.	DTS/DPF 3.6 None are applicable.
Earthworks	
PO 4.1 Excavation and filling of land is limited to that associated with:	DTS/DPF 4.1 Excavation and/or filling of land is:

<p>(a) minimising the visual impact of buildings or structures</p> <p>or</p> <p>(a) construction of water storage facilities.</p>	<p>(a) no greater than 1.5 metres from natural ground level</p> <p>(b) only undertaken in order to reduce the visual impact of buildings or structures or to construct water storage facilities.</p>
---	--

**Procedural Matters (PM)**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Coastal Areas Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	The natural coastal environment (including environmentally important features such as mangroves, wetlands, saltmarsh, sand dunes, cliff tops, native vegetation, wildlife habitat, shore and estuarine areas) is conserved and enhanced.
DO 2	Provision is made for natural coastal processes; and recognition is given to current and future coastal hazards including sea level rise, flooding, erosion and dune drift to avoid the need, now and in the future, for public expenditure on protection of the environment and development.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature				
Land Division					
PO 1.1 Land is divided only if it or the subsequent development and use of the land will not adversely affect the environmental values or ability of the land or adjoining land to adapt to changing coastal processes.	DTS/DPF 1.1 Land division for minor adjustment of allotment boundaries removes an anomaly in the current boundaries with respect to the location of buildings or structures.				
PO 1.2 Land is not divided unless a layout is achieved whereby roads, parking areas and development sites for each allotment are at least 0.3m above the standard sea flood risk level, unless the land has, or can be provided with, appropriate and acceptable coastal protection measures.	DTS/DPF 1.2 None are applicable.				
PO 1.3 Other than small-scale infill land division in a predominantly urban zone, land division adjacent to the coast incorporates an existing or proposed public reserve (not including a road or erosion buffer) of a size adequate to provide for natural coastal processes, public access and recreation.	DTS/DPF 1.3 None are applicable.				
Hazard Risk Minimisation					
PO 2.1 Buildings sited over tidal water or that are not capable of being raised or protected by flood protection measures in the future are protected against the standard sea flood risk level and 1m of sea level rise.	DTS/DPF 2.1 Building floor levels are at least 1.25m above the standard sea flood risk level.				
PO 2.2 Development, including associated roads and parking areas, but not minor structures unlikely to be adversely affected by flooding, is protected from the standard sea flood risk level and 1m of sea level rise.	DTS/DPF 2.2 Development incorporates finished ground and floor levels not less than: <table border="1" style="width: 100%; margin-top: 5px;"> <thead> <tr> <th style="background-color: #2c3e50; color: white; text-align: center;">Finished Ground and Floor Levels</th> </tr> </thead> <tbody> <tr> <td>Minimum finished floor level is 2.6m AHD</td> </tr> <tr> <td>Minimum finished floor level is 20.4m AHD</td> </tr> <tr> <td>Minimum finished floor level is 3m AHD</td> </tr> </tbody> </table>	Finished Ground and Floor Levels	Minimum finished floor level is 2.6m AHD	Minimum finished floor level is 20.4m AHD	Minimum finished floor level is 3m AHD

Minimum finished floor level is 7.41m AHD	

<b>Finished Ground and Floor Levels</b>	
	Minimum finished floor level is 7.46m AHD
	Minimum finished floor level is 8.56m AHD
	Minimum finished floor level is 8.59m AHD
	Minimum finished floor level is 8.71m AHD
	Minimum finished floor level is 8.93m AHD
	Minimum finished floor level is 9.02m AHD
	Minimum finished floor level is 9.31m AHD
	Minimum finished floor level is 9.51m AHD
	Minimum finished floor level is 9.55m AHD
	Minimum finished floor level is 9.68m AHD
	Minimum finished floor level is 9.77m AHD
	Minimum finished floor level is 9.85m AHD
	Minimum finished floor level is 4.64m AHD
	In instances where no value is specified (i.e. there is a blank field): (a) finished ground levels allow for sea level rise by being raised 0.3m or more above the standard sea flood risk level (b) finished floor levels are 0.55m or more above the standard sea flood risk level (c) practical measures can be implemented to provide future protection against an additional sea level rise of 0.7m plus an allowance to accommodate 100 years of land subsidence.
PO 2.3 Development will not create or aggravate coastal erosion or require coast protection works that cause or aggravate coastal erosion.	DTS/DPF 2.3 None are applicable.
PO 2.4 Development is set back a sufficient distance from the coast to provide an erosion buffer in addition to a public reserve that will allow for at least 100 years of coastal retreat for single buildings or small-scale developments, or 200 years of coastal retreat for large scale developments unless:  (a) the development incorporates appropriate private coastal protection measures to protect it from anticipated erosion or (b) there are formal commitments to protect the existing or proposed public reserve and development from anticipated coastal erosion.	DTS/DPF 2.4 None are applicable.
PO 2.5 Additions or alterations to, or replacement of, a dwelling do not increase the risk of effects from natural coastal processes such as flooding, sea-level rise, sand drift and erosion.	DTS/DPF 2.5 None are applicable.
Coast Protection Works	
PO 3.1 Development avoids the need for coast protection works through measures such as setbacks to protect development from coastal erosion, sea or stormwater flooding, sand drift or other coastal processes.	DTS/DPF 3.1 None are applicable.
PO 3.2 Development does not compromise the structural integrity of any sea wall or levee bank or the ability to maintain, modify or upgrade any sea wall or levee bank.	DTS/DPF 3.2 None are applicable.
PO 3.3 Unavoidable coast protection works are the subject of binding agreements to cover the cost of future construction, operation, maintenance and management measures and will not:  (a) have an adverse effect on coastal ecology, processes, conservation, public access and amenity (b) require commitment of public resources including land (c) present an unacceptable risk of failure relative to potential hazard resulting from failure.	DTS/DPF 3.3 None are applicable.
Environment Protection	
PO 4.1 Development will not unreasonably affect the marine and onshore coastal environment by pollution, erosion, damage or depletion of physical or biological resources; interference with natural coastal processes; or the introduction of and spread of marine pests and diseases or any other means.	DTS/DPF 4.1 None are applicable.
PO 4.2 Development avoids delicate or environmentally sensitive coastal areas such as sand dunes, cliff tops, estuaries, wetlands or substantially intact strata of native vegetation.	DTS/DPF 4.2 None are applicable.
PO 4.3	DTS/DPF 4.3

Development allows for ecological and natural landform adjustment to changing climatic conditions and sea levels, by allowing landward migration of dunes, coastal wetlands, mangrove and samphire areas.	None are applicable.
PO 4.4 Development avoids, or in built up areas minimises, impacts on important habitat areas that support the nesting, breeding and movement/migration patterns of fauna, including threatened shorebirds.	DTS/DPF 4.4 None are applicable.
PO 4.5 Development is designed so that wastewater is disposed of in a manner that avoids pollution or other detrimental impacts on the marine and on-shore environment of coastal areas.	DTS/DPF 4.5 Development is connected, or will be connected, to an approved common wastewater disposal service with the capacity to meet the requirements of the development or on-site wastewater systems set back a minimum of 100m from the Mean High Water Mark at spring tide.
PO 4.6 Development is designed so that stormwater runoff is disposed of in a manner that avoids pollution or other detrimental impacts on the marine and on-shore environment of coastal areas.	DTS/DPF 4.6 None are applicable.
PO 4.7 Development involving the removal of shell grit, cobbles or sand, other than for coastal protection works purposes, is not undertaken.	DTS/DPF 4.7 Development does not involve the removal of shell grit, cobbles or sand.
Access	
PO 5.1 Development maintains or enhances appropriate public access to and along the foreshore.	DTS/DPF 5.1 None are applicable.
PO 5.2 Public access through sensitive coastal landforms, particularly sand dunes, wetlands and cliffs, is restricted to defined pedestrian paths and constructed to minimise adverse environmental impact.	DTS/DPF 5.2 None are applicable.
PO 5.3 Access roads to the coast, lookouts and places of interest:  (a) do not detract from the amenity or the environment (b) are designed for slow-moving traffic (c) are minimised in number.	DTS/DPF 5.3 None are applicable.
PO 5.4 Development on land adjoining a coastal reserve is sited and designed to be compatible with the purpose, management and amenity of the reserve and to prevent inappropriate access to or use of the reserve.	DTS/DPF 5.4 None are applicable.

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Except where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral, the following:</p> <p>(a) excavation and/or filling where the total volume of material excavated and/or filled exceeds 9m<sup>3</sup></p> <p>(b) dwellings and habitable buildings that:</p> <p>(i) do not meet DTS/DPF 2.2 or</p> <p>(ii) are within 100m of the mean high water mark</p> <p>(c) other than within a Rural Settlement Zone:</p> <p>(i) buildings with a floor area greater than 60m<sup>2</sup> or</p> <p>(ii) tourist accommodation, including a caravan park or</p> <p>(iii) division of land that would create 1 or more additional allotments</p> <p>(d) off-shore structures</p> <p>(e) coast protection works</p> <p>(f) infrastructure within 100m landward of the mean high water mark.</p>	Coast Protection Board.	<p>To provide expert assessment and direction to the relevant authority on:</p> <ul style="list-style-type: none"> <li>the risk to development from current and future coastal hazards (including sea-level rise, coastal flooding, erosion, dune drift and acid sulfate soils);</li> <li>coast protection works;</li> <li>potential impacts from development on public access and the coastal environment (including important coastal features).</li> </ul>	Development of a class to which Schedule 9 clause 3 item 3 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

Coastal Flooding Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Recognition of coastal flood hazards to avoid the need, now and in the future, for public expenditure on protection of the environment and development.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Future Road Widening Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Development which is consistent with and will not compromise efficient delivery of future road widening requirements.

Performance Outcomes (PO) and Deemed to Satisfy (DTS) / Designated Performance Feature (DPF) Criteria

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Future Road Widening	
PO 1.1 Development does not compromise or is located and designed to minimise its impact on future road widening requirements.	DTS/DPF 1.1 Development does not involve building work, or building work is located wholly outside the land subject to the 6m Consent Area, the C Type Requirement or the Strip Requirement of the Metropolitan Adelaide Road Widening Plan.

**Procedural Matters (PM)**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Other than where all deemed-to-satisfy criteria for all policies relevant to this referral are met, development (including the division of land) that is within or may encroach within a Future Road Widening Area.	Commissioner of Highways.	To provide expert technical assessment and direction to the relevant authority on the safe and efficient operation and management of all roads relevant to the Commissioner of Highways as described in the Planning and Design Code.	Development of a class to which Schedule 9 clause 3 item 4 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

**Gas and Liquid Petroleum Pipelines Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Management of risk to public safety, the environment and security of energy supply from the encroachment of development on strategic gas and liquid petroleum pipelines.

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
<p>PO 1.1</p> <p>Community exposure to a potential hazard from the failure of a gas or liquid petroleum pipeline is mitigated by locating development that may accommodate or result in large congregations of people, buildings for housing and / or caring for vulnerable people and community facilities outside areas that pose an unacceptable risk to protect life.</p>	<p>DTS/DPF 1.1</p> <p>Development satisfies one of the following:</p> <p>(a) it does not comprise:</p> <ul style="list-style-type: none"> <li>(i) child care facility</li> <li>(ii) caravan and tourist park</li> <li>(iii) educational facility</li> <li>(iv) buildings comprising 3 or more building levels</li> <li>(v) land division creating allotments under 1ha for residential purposes (except where the existing allotment is less than 1ha)</li> <li>(vi) prison</li> <li>(vii) residential park</li> <li>(viii) retirement facility</li> <li>(ix) student accommodation</li> <li>(x) supported accommodation</li> <li>(xi) shop or shops with a gross leasable floor area of 1000m<sup>2</sup> or greater</li> <li>(xii) tourist accommodation</li> <li>(xiii) stadium</li> </ul> <p>(b) a class of development referred to in part (a), or any combination thereof, which will occur in accordance with an agreement under section 123 of the <i>Planning, Development and Infrastructure Act, 2016</i></p>
<p>PO 1.2</p> <p>Emergency service and major community health related facilities are located outside areas where a gas or liquid petroleum pipeline failure may disrupt ongoing operations to maintain the response capacity in the event of an emergency.</p>	<p>DTS/DPF 1.2</p> <p>Development does not comprise any of the following:</p> <p>(a) emergency services facility</p> <p>(b) hospital.</p>
<p>PO 1.3</p> <p>Development involving the manufacture, collection, handling or bulk storage of flammable, explosive, or otherwise hazardous materials is located and designed to avoid escalating the potential for and effects of a gas or liquid petroleum pipeline failure.</p>	<p>DTS/DPF 1.3</p> <p>Development satisfies one of the following:</p> <p>(a) it does not comprise:</p> <ul style="list-style-type: none"> <li>(i) general industry</li> <li>(ii) special industry</li> <li>(iii) landfill</li> <li>(iv) renewable energy facility</li> <li>(v) electricity substation</li> <li>(vi) fuel depot</li> <li>(vii) retail fuel outlet</li> <li>(viii) store</li> <li>(ix) warehouse</li> <li>(x) waste treatment facility</li> </ul> <p>(b) a class of development referred to in part (a), or any combination thereof, which will occur in accordance with an agreement under section 123 of the <i>Planning, Development and Infrastructure Act, 2016</i></p>

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Except where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral, a class of development that does not satisfy Gas and Liquid Petroleum Pipelines Overlay DTS/DPF 1.1, 1.2 and 1.3.</p>	<p>The Chief Executive of the Department of the Minister responsible for administering the <i>Petroleum and Geothermal Energy Act 2000</i>.</p>	<p>To provide expert assessment and direction to the relevant authority in relation to:</p> <p>(a) potential safety issues relating to development or</p> <p>(b) the potential for development to adversely impact upon the lawful continued operation of strategic infrastructure (gas and liquid petroleum pipelines).</p>	<p>Development of a class to which Schedule 9 clause 3 item 9B of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>

## Gas and Liquid Petroleum Pipelines (Facilities) Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Management of risk to public safety, the environment and security of energy supply from the encroachment of development on gas and liquid petroleum pipeline facilities.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Safety	
PO 1.1 Development (including land division) does not present a risk to public health and safety due to any of the following: <ul style="list-style-type: none"> <li>(a) continuous noise associated with pipeline facilities used for energy transportation that exceeds the Environment Protection (Noise) Policy</li> <li>(b) potential for occasional noise associated with high pressure venting.</li> </ul>	DTS/DPF 1.1 Development (including land division creating additional allotments for such purposes) comprises one or more of the following: <ul style="list-style-type: none"> <li>(a) open space</li> <li>(b) roadways</li> <li>(c) a class of development that will occur in accordance with an agreement under section 123 of the <i>Planning, Development and Infrastructure Act, 2016</i></li> <li>(d) a dwelling or ancillary building/structure on an allotment approved for residential purposes.</li> </ul>

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Except where the development is, in the opinion of the relevant authority, minor in nature and would not warrant a referral when considering the purpose of the referral, a class of development that does not satisfy Overlay DTS/DPF 1.1.	The Chief Executive of the Department of the Minister responsible for administering the Petroleum and Geothermal Energy Act 2000.	To provide expert assessment and direction to the relevant authority in relation to: <ul style="list-style-type: none"> <li>(a) potential safety issues relating to development</li> <li>or</li> <li>(b) the potential for development to adversely impact upon the lawful continued operation of strategic infrastructure (gas and liquid petroleum pipelines).</li> </ul>	Development of a class to which Schedule 9 clause 3 item 9B of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

## Gateway Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	The visual amenity and streetscape appeal along prominent entrances into towns, tourist and historic precincts, activity centres and main streets is maintained and improved through the careful siting of buildings and other activities in a well landscaped setting.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form and Character	
<p>PO 1.1</p> <p>Buildings are set back from main roads to support a consistent high-quality streetscape character where the prominence of larger buildings is appropriately mitigated.</p>	<p>DTS/DPF 1.1</p> <p>Buildings are set back at least the height of the building and no less than 10m from arterial and main roads and highways, whichever is the greater.</p>
<p>PO 1.2</p> <p>Building are set back from side boundaries to moderate the appearance of buildings and enhance the outlook from arterial and main roads and highways.</p>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
<p>PO 1.3</p> <p>The main facade of principal buildings facing arterial and main roads and highways incorporate articulation and various materials to promote a high standard of building design and external appearance.</p>	<p>DTS/DPF 1.3</p> <p>None are applicable.</p>
Landscape Amenity	
<p>PO 2.1</p> <p>Ancillary buildings including carports, outbuildings and garages, other minor structures, waste storage bins and outdoor storage areas are sited to reduce visual clutter and untidiness from arterial and main roads and highways.</p>	<p>DTS/DPF 2.1</p> <p>Ancillary buildings including carports, outbuildings and garages, other minor structures, waste storage bins and outdoor storage areas are located in a manner to satisfy one of the following:</p> <ul style="list-style-type: none"> <li>(a) behind principal building(s) facing arterial and main roads and highways</li> <li>(b) behind the building line of principal building(s) and obscured from public view from arterial and main roads and highways by solid fencing or landscaping.</li> </ul>
Landscaping	
<p>PO 3.1</p> <p>Development incorporates generous landscaping areas along the frontage to arterial roads and highways to enhance visual amenity and complement associated buildings.</p>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>PO 3.2</p> <p>Existing mature on-site vegetation is retained and incorporated into landscape and parking areas to enhance the appearance of land and buildings.</p>	<p>DTS/DPF 3.2</p> <p>None are applicable.</p>
<p>PO 3.3</p> <p>Development incorporates generous landscaping areas along the frontage to arterial roads and landscaped using a combination of high crown evergreen trees, low shrubs and groundcovers to enhance visual amenity and complement the associated buildings.</p>	<p>DTS/DPF 3.3</p> <p>None are applicable.</p>
<p>PO 3.4</p> <p>Vehicle parking areas are located and designed to enhance the streetscape setting by:</p> <ul style="list-style-type: none"> <li>(a) being located to the side or rear of buildings facing arterial and main roads and highways</li> <li>(b) incorporating landscaping, including trees, to break up large parking areas.</li> </ul>	<p>DTS/DPF 3.4</p> <p>None are applicable.</p>
Advertisements	
<p>PO 4.1</p> <p>Advertisements along arterial and main roads, and highways are consistent in height, size and design to support a cohesive and uniform appearance in gateway locations without dominating the streetscape.</p>	<p>DTS/DPF 4.1</p> <p>Advertisements meet all the following:</p> <ul style="list-style-type: none"> <li>(a) will not result in more than 1 advertisement per allotment</li> <li>(b) will not exceed 5m in height</li> <li>(c) do not exceed 3m<sup>2</sup> per advertising face</li> <li>(d) are not internally illuminated</li> <li>(e) are not animated, flash or move in any way.</li> </ul>

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Development is located and undertaken to minimise disturbance of potential or actual acid sulfate soils and / or the release of acid drainage.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use and Intensity	
PO 1.1 Development that involves excavation or a change to a water table where potential or actual acid sulfate soils are present is undertaken to minimise soil disturbance or drainage; prevent or minimise oxidation; and contain and treat any acid drainage to prevent harm or damage to the environment, primary production, buildings, structures and infrastructure or public health.	DTS/DPF 1.1 Development does not involve or cause: <ul style="list-style-type: none"> <li>(a) excavation of land</li> <li>(b) change to a water table.</li> </ul>

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Hazards (Bushfire - General Risk) Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Development, including land division responds to the general level of bushfire risk by siting and designing buildings in a manner that mitigates the threat and impact of bushfires on life and property taking into account the increased frequency and intensity of bushfires as a result of climate change.
DO 2	To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Siting	
PO 1.1 Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain.	DTS/DPF 1.1 None are applicable.
Built Form	
PO 2.1	DTS/DPF 2.1

Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts.	None are applicable.
<p>PO 2.2</p> <p>Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and Workers' accommodation) in the event of bushfire.</p>	<p>DTS/DPF 2.2</p> <p>Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building.</p>
Habitable Buildings	
<p>PO 3.1</p> <p>To minimise the threat, impact and exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes.</p>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>PO 3.2</p> <p>Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk.</p>	<p>DTS/DPF 3.2</p> <p>Residential and tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b):</p> <p>(a) the asset protection zone has a minimum width of at least:</p> <p style="margin-left: 40px;">(i) 50 metres to unmanaged grasslands</p> <p style="margin-left: 40px;">(ii) 100 metres to hazardous bushland vegetation</p> <p>(b) the asset protection zone is contained wholly within the allotment of the development.</p>
<p>PO 3.3</p> <p>Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) has a dedicated area available that is capable of accommodating a bushfire protection system comprising firefighting equipment and water supply in accordance with <i>Ministerial Building Standard MBS 008 - Designated bushfire prone areas - additional requirements</i>.</p>	<p>DTS/DPF 3.3</p> <p>None are applicable.</p>
Land Division	
<p>PO 4.1</p> <p>Land division is designed and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire.</p>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>
<p>PO 4.2</p> <p>Land division is designed to provide a continuous street pattern to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors.</p>	<p>DTS/DPF 4.2</p> <p>None are applicable.</p>
<p>PO 4.3</p> <p>Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire.</p>	<p>DTS/DPF 4.3</p> <p>None are applicable.</p>
<p>PO 4.4</p> <p>Land division incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable bushfire risk and to support safe access for the purposes of fire-fighting.</p>	<p>DTS/DPF 4.4</p> <p>None are applicable.</p>
Vehicle Access – Roads, Driveways and Fire Tracks	
<p>PO 5.1</p> <p>Roads are designed and constructed to facilitate the safe and effective:</p> <p>(a) access, operation and evacuation of fire-fighting vehicles and emergency personnel</p> <p>(b) evacuation of residents, occupants and visitors.</p>	<p>DTS/DPF 5.1</p> <p>Roads:</p> <p>(a) are constructed with a formed, all-weather surface</p> <p>(b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road</p> <p>(c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road</p> <p>(d) have a minimum formed road width of 6m</p> <p>(e) provide overhead clearance of not less than 4m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1)</p> <p>(f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)</p> <p>(g) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either:</p> <p style="margin-left: 40px;">(i) a turning area with a minimum formed surface radius of 12.5m (Figure 3)</p> <p style="margin-left: 40px;">or</p> <p style="margin-left: 40px;">(ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4)</p> <p>(h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</p>

<p>PO 5.2</p> <p>Access to habitable buildings is designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> <li>(a) access, operation and evacuation of fire-fighting vehicles and emergency personnel</li> <li>(b) evacuation of residents, occupants and visitors</li> </ul>	<p>DTS/DPF 5.2</p> <p>Access is in accordance with (a) or (b):</p> <ul style="list-style-type: none"> <li>(a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road</li> <li>(b) driveways:             <ul style="list-style-type: none"> <li>(i) do not exceed 600m in length</li> <li>(ii) are constructed with a formed, all-weather surface</li> <li>(iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8)</li> <li>(iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway</li> <li>(v) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the driveway</li> <li>(vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1)</li> <li>(vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5)</li> <li>(viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1)</li> <li>(ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)</li> <li>(x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either:                 <ul style="list-style-type: none"> <li>A. a loop road around the building</li> <li>B. a turning area with a minimum radius of 12.5m (Figure 3)</li> <li>C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4)</li> </ul> </li> <li>(xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul> </li> </ul>
<p>PO 5.3</p> <p>Development does not rely on fire tracks as means of evacuation or access for fire-fighting purposes unless there are no safe alternatives available.</p>	<p>DTS/DPF 5.3</p> <p>None are applicable.</p>

**Procedural Matters (PM) - Referrals**

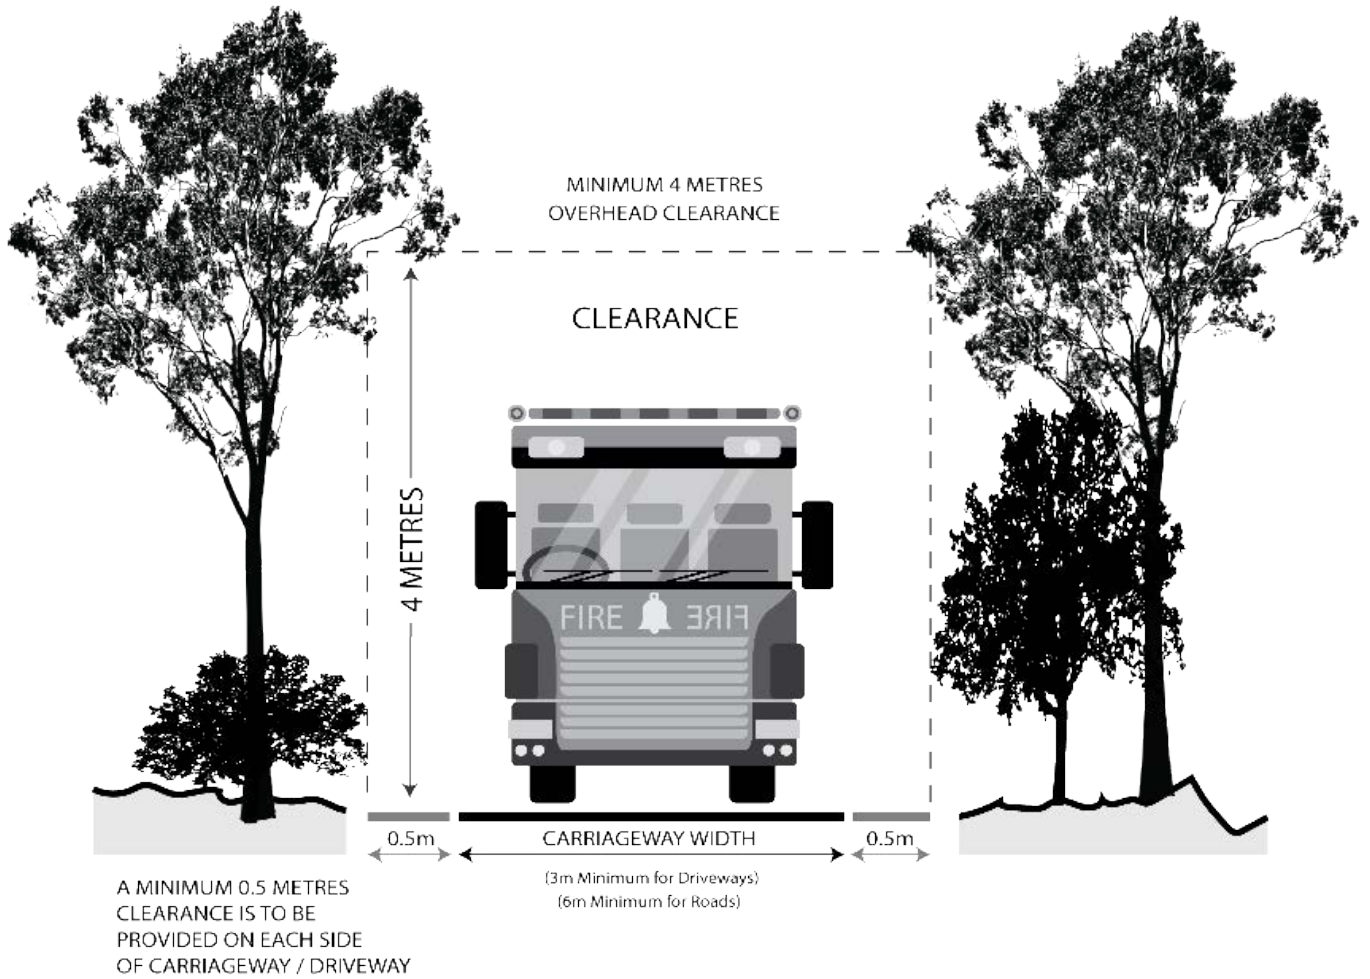

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Passing bay for fire trucks - minimum width 6 metres, minimum length 17 metres.

Hazards (Bushfire - High Risk) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	<p>Development, including land division is sited and designed to minimise the threat and impact of bushfires on life and property with regard to the following risks:</p> <ul style="list-style-type: none"> <li>(a) potential for uncontrolled bushfire events taking into account the increased frequency and intensity of bushfires as a result of climate change</li> <li>(b) high levels and exposure to ember attack</li> <li>(c) impact from burning debris</li> <li>(d) radiant heat</li> <li>(e) likelihood and direct exposure to flames from a fire front.</li> </ul>
DO 2	Activities that increase the number of people living and working in the area or where evacuation would be difficult is sited away from areas of unacceptable bushfire risk.
DO 3	To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Use	
<p>PO 1.1</p> <p>Development that significantly increases the potential for fire outbreak as a result of the spontaneous combustion of materials, spark generation or through the magnification and reflection of light is not located in areas of unacceptable bushfire risk.</p>	<p>DTS/DPF 1.1</p> <p>None are applicable.</p>
<p>PO 1.2</p> <p>Child care facilities, educational facilities, hospitals, retirement and supported accommodation are sited away from areas of unacceptable bushfire risk and locations that:</p> <ul style="list-style-type: none"> <li>(a) are remote from or require extended periods of travel to reach safer locations</li> <li>(b) don't have a safe path of travel to safer locations.</li> </ul>	<p>DTS/DPF 1.2</p> <p>None are applicable.</p>
Siting	
<p>PO 2.1</p> <p>Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain.</p>	<p>DTS/DPF 2.1</p> <p>None are applicable.</p>
Built Form	
<p>PO 3.1</p> <p>Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts.</p>	<p>DTS/DPF 3.1</p> <p>None are applicable.</p>
<p>PO 3.2</p> <p>Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and Workers' accommodation) in the event of bushfire.</p>	<p>DTS/DPF 3.2</p> <p>Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building.</p>
Habitable Buildings	
<p>PO 4.1</p> <p>To minimise the threat, impact and potential exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes.</p>	<p>DTS/DPF 4.1</p> <p>None are applicable.</p>
<p>PO 4.2</p> <p>Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk.</p>	<p>DTS/DPF 4.2</p> <p>Residential and tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b):</p> <ul style="list-style-type: none"> <li>(a) the asset protection zone has a minimum width of at least:                             <ul style="list-style-type: none"> <li>(i) 50 metres to unmanaged grasslands</li> <li>(ii) 100 metres to hazardous bushland vegetation</li> </ul> </li> <li>(b) the asset protection zone is contained wholly within the allotment of the development.</li> </ul>

<p>PO 4.3</p> <p>Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) has a dedicated area available that:</p> <p>(a) is capable of accommodating a bushfire protection system comprising firefighting equipment and water supply in accordance with <i>Ministerial Building Standard MBS 008 - Designated bushfire prone areas - additional requirements</i></p> <p>(b) includes the provision of an all-weather hardstand area in a location that:</p> <p>(i) allows fire-fighting vehicles to safely access the dedicated water supply and exit the site in a forward direction</p> <p>(ii) is no further than 6 metres from the dedicated water supply outlet(s) where required.</p>	<p>DTS/DPF 4.3</p> <p>None are applicable.</p>
<p>Land Division</p>	
<p>PO 5.1</p> <p>Land division for residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is limited to those areas specifically set aside for these uses.</p>	<p>DTS/DPF 5.1</p> <p>None are applicable.</p>
<p>PO 5.2</p> <p>Land division is designed and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire.</p>	<p>DTS/DPF 5.2</p> <p>None are applicable.</p>
<p>PO 5.3</p> <p>Land division is designed to provide a continuous street pattern (avoiding the use of dead end roads/cul-de-sac road design) to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors. Where cul-de-sac / dead end roads are proposed, an alternative emergency evacuation route is provided.</p>	<p>DTS/DPF 5.3</p> <p>None are applicable.</p>
<p>PO 5.4</p> <p>Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire.</p>	<p>DTS/DPF 5.4</p> <p>None are applicable.</p>
<p>PO 5.5</p> <p>Land division provides sufficient space for future asset protection zones and incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable bushfire risk and to support safe access for the purposes of fire-fighting.</p>	<p>DTS/DPF 5.5</p> <p>None are applicable.</p>
<p>Vehicle Access – Roads, Driveways and Fire Tracks</p>	
<p>PO 6.1</p> <p>Roads are designed and constructed to facilitate the safe and effective:</p> <p>(a) access, operation and evacuation of fire-fighting vehicles and emergency personnel</p> <p>(b) evacuation of residents, occupants and visitors.</p>	<p>DTS/DPF 6.1</p> <p>Roads:</p> <p>(a) are constructed with a formed, all-weather surface</p> <p>(b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road</p> <p>(c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road</p> <p>(d) have a minimum formed road width of 6m</p> <p>(e) provide overhead clearance of not less than 4.0m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1)</p> <p>(f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)</p> <p>(g) incorporating cul-de-sac endings or dead end roads are provided within an alternative evacuation route and do not exceed 200m in length and the end of the road has either:</p> <p>(i) a turning area with a minimum formed surface radius of 12.5m (Figure 3)</p> <p>or</p> <p>(ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4)</p> <p>(h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</p>
<p>PO 6.2</p> <p>Access to habitable buildings is designed and constructed to facilitate the safe and effective:</p> <p>(a) use, operation and evacuation of fire-fighting and emergency personnel</p> <p>(b) evacuation of residents, occupants and visitors.</p>	<p>DTS/DPF 6.2</p> <p>Access is in accordance with (a) or (b):</p> <p>(a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road</p> <p>(b) driveways:</p> <p>(i) do not exceed 600m in length</p> <p>(ii) are constructed with a formed, all-weather surface</p> <p>(iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees</p>

	<p>(1-in-8)</p> <ul style="list-style-type: none"> <li>(iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway</li> <li>(v) have a crossfall of not more than 6 degrees (1-in-9.5) at any point along the driveway</li> <li>(vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1)</li> <li>(vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5)</li> <li>(viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1)</li> <li>(ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)</li> <li>(x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either:             <ul style="list-style-type: none"> <li>A. a loop road around the building or</li> <li>B. a turning area with a minimum radius of 12.5m (Figure 3) or</li> <li>C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4)</li> </ul> </li> <li>(xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul>
<p>PO 6.3</p> <p>Development does not rely on fire tracks as means of evacuation or access for fire-fighting purposes unless there are no safe alternatives available.</p>	<p>DTS/DPF 6.3</p> <p>None are applicable.</p>

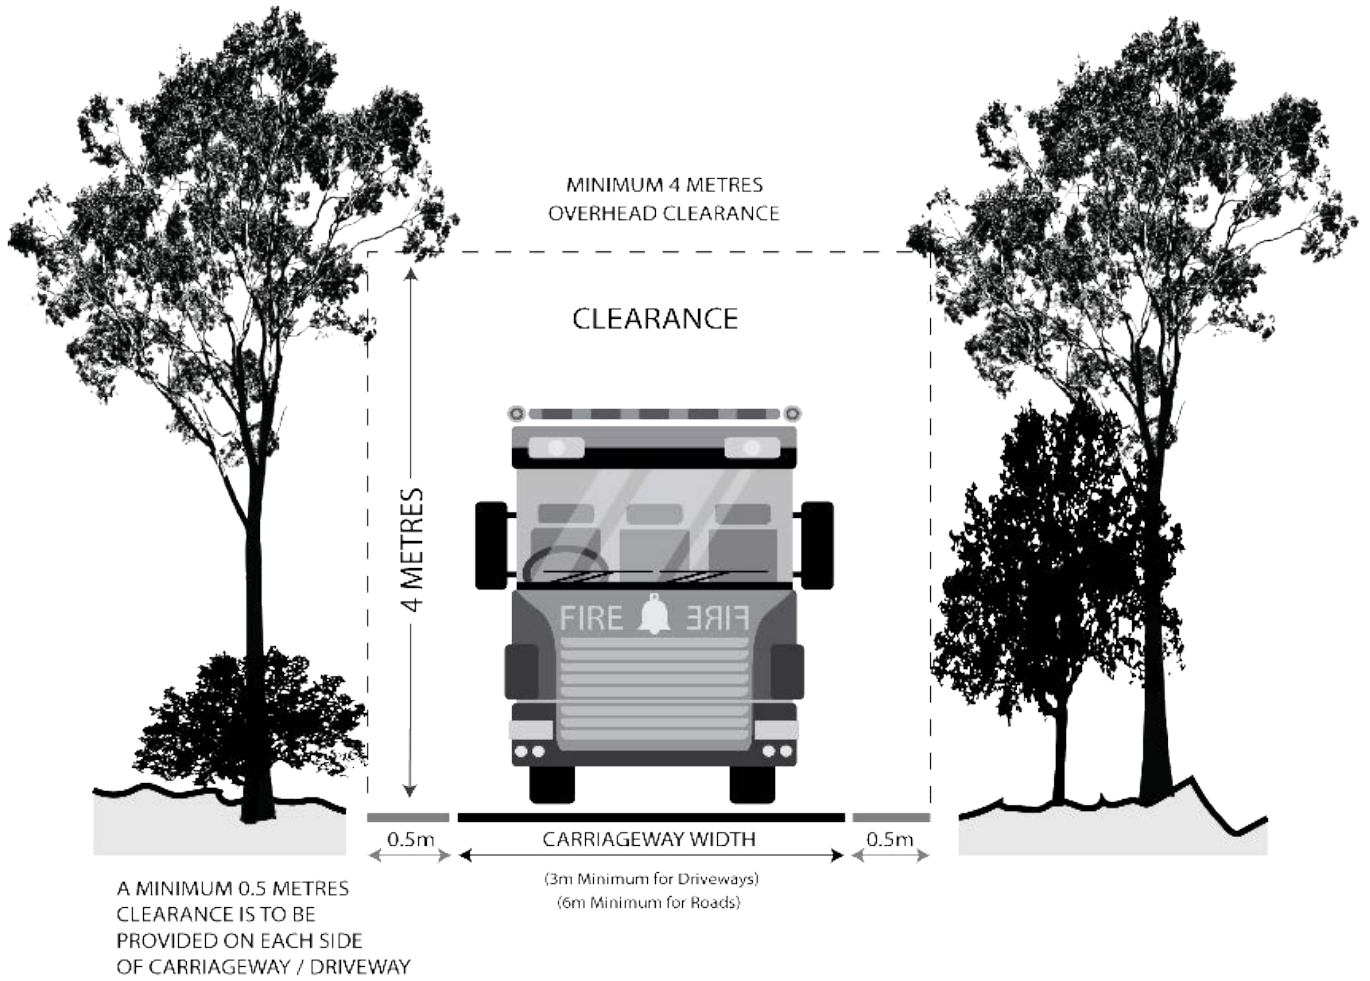

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
<p>Except if a <b>relevant certificate</b> accompanies the application for planning consent in respect of the development, any of the following classes of development (including alterations and additions which increase the floor area of such buildings by 10% or more):</p> <ul style="list-style-type: none"> <li>(a) land division creating one or more additional allotments</li> <li>(b) dwelling</li> <li>(c) ancillary accommodation</li> <li>(d) residential flat building</li> <li>(e) tourist accommodation</li> <li>(f) boarding home</li> <li>(g) dormitory style accommodation</li> <li>(h) workers' accommodation</li> <li>(i) student accommodation</li> <li>(j) child care facility</li> <li>(k) educational facility</li> <li>(l) retirement village</li> <li>(m) supported accommodation</li> <li>(n) residential park</li> <li>(o) hospital</li> <li>(p) camp ground.</li> </ul>	<p>South Australian Country Fire Service.</p>	<p>To provide expert assessment and direction to the relevant authority on the potential impacts of bushfire on the development.</p>	<p>Development of a class to which Schedule 9 clause 3 item 2 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.</p>

Hazards (Bushfire - Medium Risk) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development, including land division responds to the medium level of bushfire risk and potential for ember attack and radiant heat by siting and designing buildings in a manner that mitigates the threat and impact of bushfires on life and property taking into account the increased frequency and intensity of bushfires as a result of climate change.
DO 2	To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Siting	
PO 1.1 Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain.	DTS/DPF 1.1 None are applicable.
Built Form	
PO 2.1 Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts.	DTS/DPF 2.1 None are applicable.
PO 2.2 Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and Workers' accommodation) in the event of bushfire.	DTS/DPF 2.2 Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building.
Habitable Buildings	
PO 3.1 To minimise the threat, impact and potential exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes.	DTS/DPF 3.1 None are applicable.
PO 3.2 Residential, tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk.	DTS/DPF 3.2 Residential, tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b):  (a) the asset protection zone has a minimum width of at least: (i) 50 metres to unmanaged grasslands (ii) 100 metres to hazardous bushland vegetation  (b) the asset protection zone is contained wholly within the allotment of the development.
PO 3.3 Residential, tourist accommodation and habitable buildings for vulnerable communities, (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation), has a dedicated area available that is capable of accommodating a bushfire protection system comprising firefighting equipment and water supply in accordance with <i>Ministerial Building Standard MBS 008 - Designated bushfire prone areas - additional requirements</i> .	DTS/DPF 3.3 None are applicable.
Land Division	
PO 4.1 Land division is designed and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire.	DTS/DPF 4.1 None are applicable.
PO 4.2 Land division is designed to provide a continuous street pattern to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors.	DTS/DPF 4.2 None are applicable.
PO 4.3	DTS/DPF 4.3

<p>Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire.</p>	<p>None are applicable.</p>
<p>PO 4.4 Land division incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable bushfire risk and to support safe access for the purposes of fire-fighting.</p>	<p>DTS/DPF 4.4 None are applicable.</p>
<p>Vehicle Access - Roads, Driveways and Fire Tracks</p>	
<p>PO 5.1 Roads are designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> <li>(a) access, operation and evacuation of fire-fighting vehicles and emergency personnel</li> <li>(b) evacuation of residents, occupants and visitors.</li> </ul>	<p>DTS/DPF 5.1 Roads:</p> <ul style="list-style-type: none"> <li>(a) are constructed with a formed, all-weather surface</li> <li>(b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road</li> <li>(c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road</li> <li>(d) have a minimum formed road width of 6m</li> <li>(e) provide overhead clearance of not less than 4.0m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1)</li> <li>(f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)</li> <li>(g) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either: <ul style="list-style-type: none"> <li>(i) a turning area with a minimum formed surface radius of 12.5m (Figure 3) or</li> <li>(ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4)</li> </ul> </li> <li>(h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul>
<p>PO 5.2 Access to habitable buildings is designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> <li>(a) access, operation and evacuation of fire-fighting vehicles and emergency personnel</li> <li>(b) evacuation of residents, occupants and visitors.</li> </ul>	<p>DTS/DPF 5.2 Access is in accordance with (a) or (b):</p> <ul style="list-style-type: none"> <li>(a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road</li> <li>(b) driveways: <ul style="list-style-type: none"> <li>(i) do not exceed 600m in length</li> <li>(ii) are constructed with a formed, all-weather surface</li> <li>(iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8)</li> <li>(iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway</li> <li>(v) have a crossfall of not more than 6 degrees (1-in-9.5) at any point along the driveway</li> <li>(vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1)</li> <li>(vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5)</li> <li>(viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1)</li> <li>(ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2)</li> <li>(x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either: <ul style="list-style-type: none"> <li>A. a loop road around the building or</li> <li>B. a turning area with a minimum radius of 12.5m (Figure 3) or</li> <li>C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4)</li> </ul> </li> <li>(xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.</li> </ul> </li> </ul>
<p>PO 5.3 Development does not rely on fire tracks as means of evacuation or access for fire-fighting purposes unless there are no safe alternatives available.</p>	<p>DTS/DPF 5.3 None are applicable.</p>

**Procedural Matters (PM) - Referrals**

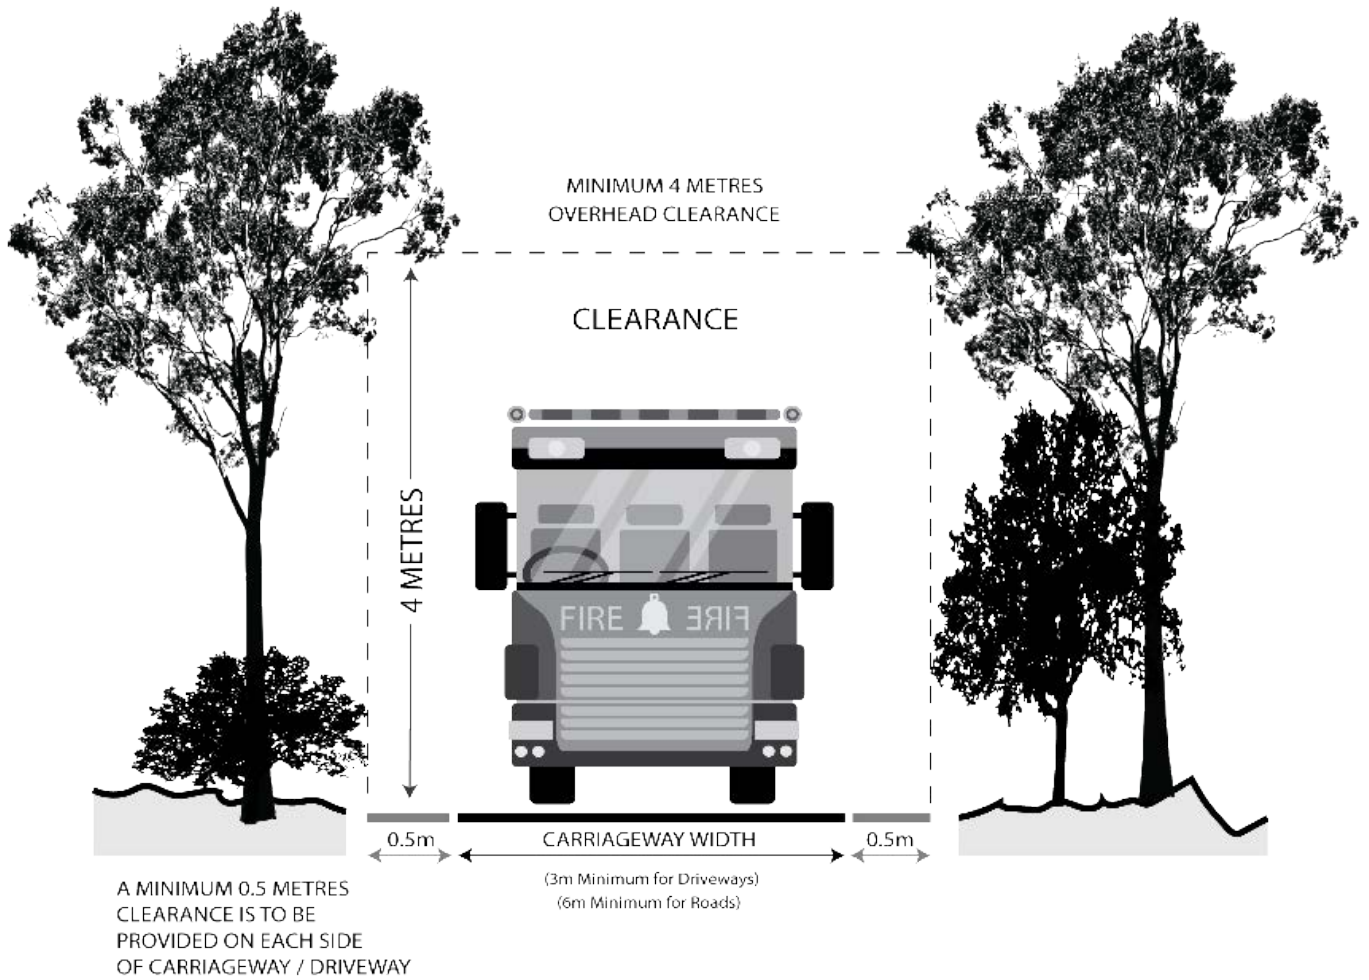

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

## Hazards (Bushfire - Outback) Overlay

### Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development is located to minimise the threat and impact of bushfires on life and property taking into account the increased frequency and intensity of bushfires as a result of climate change.
DO 2	To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Habitable Buildings	
<p>PO 1.1</p> <p>Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain.</p>	<p>DTS/DPF 1.1</p> <p>Residential and tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zones(s) in accordance with (a) and (b):</p> <ul style="list-style-type: none"> <li>(a) the asset protection zone has a minimum width of at least 50 metres</li> <li>(b) the asset protection zone is contained wholly within the allotment of the development.</li> </ul>
Vehicle Access - Roads and Driveways	
<p>PO 2.1</p> <p>Roads are designed and constructed to facilitate the safe and effective:</p> <ul style="list-style-type: none"> <li>(a) access, operation and evacuation of fire-fighting vehicles and emergency personnel</li> <li>(b) evacuation of residents, occupants and visitors</li> </ul>	<p>DTS/DPF 2.1</p> <p>Roads:</p> <ul style="list-style-type: none"> <li>(a) are constructed with a formed, all-weather surface</li> <li>(b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road</li> <li>(c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road</li> <li>(d) have a minimum formed road width of 6m</li> <li>(e) provide overhead clearance of not less than 4m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1)</li> </ul>

Hazards (Bushfire - Regional) Overlay

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome	
DO 1	Development, including land division responds to the relevant level of bushfire risk and is sited and designed to mitigate the threat and impact of bushfires on life and property taking into account the increased frequency and intensity of bushfires as a result of climate change.
DO 2	To facilitate access for emergency service vehicles to aid the protection of lives and assets from bushfire danger.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Siting	
PO 1.1 Buildings and structures are located away from areas that pose an unacceptable bushfire risk as a result of vegetation cover and type, and terrain.	DTS/DPF 1.1 None are applicable.
Built Form	
PO 2.1 Buildings and structures are designed and configured to reduce the impact of bushfire through using designs that reduce the potential for trapping burning debris against or underneath the building or structure, or between the ground and building floor level in the case of transportable buildings and buildings on stilts.	DTS/DPF 2.1 None are applicable.
PO 2.2 Extensions to buildings, outbuildings and other ancillary structures are sited and constructed using materials to minimise the threat of fire spread to residential and tourist accommodation (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) in the event of bushfire.	DTS/DPF 2.2 Outbuildings and other ancillary structures are sited no closer than 6m from the habitable building.
Habitable Buildings	
PO 3.1 To minimise the threat, impact and exposure to bushfires on life and property, residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited on the flatter portion of allotments away from steep slopes.	DTS/DPF 3.1 None are applicable.
PO 3.2 Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) is sited away from vegetated areas that pose an unacceptable bushfire risk.	DTS/DPF 3.2 Residential and tourist accommodation and habitable buildings for vulnerable communities are provided with asset protection zone(s) in accordance with (a) and (b):  (a) the asset protection zone has a minimum width of at least: (i) 50 metres to unmanaged grasslands (ii) 100 metres to hazardous bushland vegetation  (b) the asset protection zone is contained wholly within the allotment of the development.
PO 3.3 Residential and tourist accommodation and habitable buildings for vulnerable communities (including boarding houses, hostels, dormitory style accommodation, student accommodation and workers' accommodation) has a dedicated and accessible water supply available at all times for fire-fighting purposes.	DTS/DPF 3.3 Development has a dedicated water supply available at all times for fire-fighting purposes:  (a) comprising a minimum of 5000 litres (b) positioned in an accessible location and accompanied with necessary equipment to allow occupants to minimise the spread of bushfire to the habitable building(s).
Land Division	
PO 4.1 Land division is designed to and incorporates measures to minimise the danger of fire hazard to residents and occupants of buildings, and to protect buildings and property from physical damage in the event of a bushfire.	DTS/DPF 4.1 None are applicable.
PO 4.2 Land division designed to provide a continuous street pattern to facilitate the safe movement and evacuation of emergency vehicles, residents, occupants and visitors.	DTS/DPF 4.2 None are applicable.
PO 4.3	DTS/DPF 4.3

Where 10 or more new allotments are proposed, land division includes at least two separate and safe exit points to enable multiple avenues of evacuation in the event of a bushfire.	None are applicable.
PO 4.4 Land division incorporates perimeter roads of adequate design in conjunction with bushfire buffer zones to achieve adequate separation between residential allotments and areas of unacceptable bushfire risk and to support safe access for the purposes of fire-fighting.	DTS/DPF 4.4 None are applicable.
Vehicle Access -Roads and Driveways	
PO 5.1 Roads are designed and constructed to facilitate the safe and effective:  (a) access, operation and evacuation of fire-fighting vehicles and emergency personnel (b) evacuation of residents, occupants and visitors.	DTS/DPF 5.1 Roads:  (a) are constructed with a formed, all-weather surface (b) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the road (c) have a cross fall of not more than 6 degrees (1-in-9.5) at any point along the road (d) have a minimum formed road width of 6m (e) provide overhead clearance of not less than 4.0m between the road surface and overhanging branches or other obstructions including buildings and/or structures (Figure 1) (f) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around road curves by constructing the curves with a minimum external radius of 12.5m (Figure 2) (g) incorporating cul-de-sac endings or dead end roads do not exceed 200m in length and the end of the road has either: (i) a turning area with a minimum formed surface radius of 12.5m (Figure 3) or (ii) a 'T' or 'Y' shaped turning area with a minimum formed surface length of 11m and minimum internal radii of 9.5m (Figure 4)  (h) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.
PO 5.2 Access to habitable buildings is designed and constructed to facilitate the safe and effective:  (a) access, operation and evacuation of fire-fighting vehicles and emergency personnel (b) evacuation of residents, occupants and visitors.	DTS/DPF 5.2 Access is in accordance with (a) or (b):  (a) a clear and unobstructed vehicle or pedestrian pathway of not greater than 60 metres in length is available between the most distant part of the habitable building and the nearest part of a formed public access road (b) driveways: (i) do not exceed 600m in length (ii) are constructed with a formed, all-weather surface (iii) are connected to a formed, all-weather public road with the transition area between the road and driveway having a gradient of not more than 7 degrees (1-in-8) (iv) have a gradient of not more than 16 degrees (1-in-3.5) at any point along the driveway (v) have a crossfall of not more than 6 degrees (1-in-9.5) at any point along the driveway (vi) have a minimum formed width of 3m (4m where the gradient of the driveway is steeper than 12 degrees (1-in-4.5)) plus 0.5 metres clearance either side of the driveway from overhanging branches or other obstructions, including buildings and/or structures (Figure 1) (vii) incorporate passing bays with a minimum width of 6m and length of 17m every 200m (Figure 5) (viii) provide overhead clearance of not less than 4.0m between the driveway surface and overhanging branches or other obstructions, including buildings and/or structures (Figure 1) (ix) allow fire-fighting services (personnel and vehicles) to travel in a continuous forward movement around driveway curves by constructing the curves with a minimum external radius of 12.5m (Figure 2) (x) allow fire-fighting vehicles to safely enter and exit an allotment in a forward direction by using a 'U' shaped drive through design or by incorporating at the end of the driveway either: A. a loop road around the building or B. a turning area with a minimum radius of 12.5m (Figure 3) or C. a 'T' or 'Y' shaped turning area with a minimum formed length of 11m and minimum internal radii of 9.5m (Figure 4)  (xi) incorporate solid, all-weather crossings over any watercourse that support fire-fighting vehicles with a gross vehicle mass (GVM) of 21 tonnes.
PO 5.3 Development does not rely on fire tracks as means of evacuation or access for fire-fighting purposes unless there are no safe alternatives available.	DTS/DPF 5.3 None are applicable.

**Procedural Matters (PM) - Referrals**

## Hazards (Flooding) Overlay

### Assessment Provisions (AP)

#### Desired Outcome (DO)

Desired Outcome	
DO 1	Impacts on people, property, infrastructure and the environment from high flood risk are minimised by retaining areas free from development, and minimising intensification where development has occurred.

#### Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Land Division	
PO 1.1 Land division is limited to areas where the consequences to buildings and safety are low and can be readily managed or overcome.	DTS/DPF 1.1 None are applicable.
Land Use	
PO 2.1 Development sited and designed to minimise exposure of people and property to unacceptable flood risk.	DTS/DPF 2.1 None are applicable.
PO 2.2 Buildings housing vulnerable people, community services facilities, key infrastructure and emergency services are sited away from flood prone areas to enable uninterrupted operation of services and reduce likelihood of entrapment.	DTS/DPF 2.2 Child care facilities, educational facilities, retirement and supported accommodation, emergency services facilities, hospitals and prisons are not located within the Overlay area.
Flood Resilience	
PO 3.1 Development avoids the need for flood protection works.	DTS/DPF 3.1 None are applicable.
PO 3.2 Development does not cause unacceptable impacts on any adjoining property by the diversion	DTS/DPF 3.2 None are applicable.

of flood waters or an increase in flood velocity or flood level.	
PO 3.3 Development does not impede the flow of floodwaters through the allotment or the surrounding land, or cause an unacceptable loss of flood storage.	DTS/DPF 3.3 None are applicable.
PO 3.4 Development avoids frequently flooded or high velocity areas, other than where it is part of a flood mitigation scheme to reduce flood impact.	DTS/DPF 3.4 Other than a recreation area, development is located outside of the 5% AEP principal flow path.
PO 3.5 Buildings are sited, designed and constructed to prevent the entry of floodwaters in a 1% AEP flood event where the entry of floodwaters is likely to result in undue damage to, or compromise ongoing activities within, buildings.	DTS/DPF 3.5 Buildings comprise one of the following:  (a) a porch or portico with at least 2 open sides (b) a verandah with at least 3 open sides (c) a carport or outbuilding with at least 2 open sides (whichever elevations face the direction of the flow) (d) any post construction with open sides (e) a building with a finished floor level that is at least 300mm above the height of a 1% AEP flood event.
PO 3.6 Fences do not unreasonably impede floodwaters.	DTS/DPF 3.6 A post and wire fence (other than a chain mesh fence).
Environmental Protection	
PO 4.1 Buildings and structures used either partly or wholly to contain or store hazardous materials are designed to prevent spills or leaks leaving the confines of the building during a 1% AEP flood event to avoid potential environmental harm.	DTS/DPF 4.1 Development involving the storage or disposal of hazardous materials is wholly located outside of the 1% AEP flood plain or flow path.
PO 4.2 Development does not create or aggravate the potential for erosion or siltation or lead to the destruction of vegetation during a flood.	DTS/DPF 4.2 None are applicable.
Site Earthworks	
PO 5.1 The depth and extent of filling required to raise the finished floor level of a building does not cause unacceptable impact on any adjoining property by diversion of flood waters, an increase in flood velocity or flood level, or an unacceptable loss of flood storage.	DTS/DPF 5.1 None are applicable.
PO 5.2 Driveways, access tracks and parking areas are designed and constructed to minimise excavation and filling.	DTS/DPF 5.2 Filling for ancillary purposes:  (a) does not exceed 300mm above existing ground level (b) is no more than 5m wide.
Access	
PO 6.1 Development does not occur on land:  (a) from which evacuation to areas not vulnerable to flood risk is not possible during a 1% AEP flood event (b) which cannot be accessed by emergency services vehicles or essential utility service vehicles during a 1% AEP flood event.	DTS/DPF 6.1 None are applicable.
PO 6.2 Access driveways and tracks to significant development (i.e. dwellings, places of work, etc.) consist of a safe, all-weather trafficable surface that is accessible during a 1% AEP flood event.	DTS/DPF 6.2 None are applicable.

### Procedural Matters (PM) - Referrals

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Impacts on people, property, infrastructure and the environment from general flood risk are minimised through the appropriate siting and design of development.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature																																								
Land Use																																									
<p>PO 1.1</p> <p>Buildings housing vulnerable people, community services facilities, key infrastructure and emergency services are sited away from flood areas enable uninterrupted operation of services and reduce likelihood of entrapment.</p>	<p>DTS/DPF 1.1</p> <p>Child care facilities, educational facilities, retirement and supported accommodation, emergency services facilities, hospitals and prisons located outside the 1% AEP flood event.</p>																																								
Flood Resilience

Minimum finished floor level is 4.64m AHD	
In instances where no finished floor level value is specified, a building incorporates a finished floor level at least 300mm above the height of a 1% AEP flood event.	

Environmental Protection	
PO 3.1 Buildings and structures used either partly or wholly to contain or store hazardous materials are designed to prevent spills or leaks leaving the confines of the building during a 1% AEP flood event to avoid potential environmental harm.	DTS/DPF 3.1 Development involving the storage or disposal of hazardous materials is wholly located outside of the 1% AEP flood plain or flow path.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Hazards (Flooding - Evidence Required) Overlay**

Desired Outcome (DO)

Desired Outcome	
DO 1	Development adopts a precautionary approach to mitigate potential impacts on people, property, infrastructure and the environment from potential flood risk through the appropriate siting and design of development.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Flood Resilience	
PO 1.1 Development is sited, designed and constructed to minimise the risk of entry of potential floodwaters where the entry of flood waters is likely to result in undue damage to or compromise ongoing activities within buildings.	DTS/DPF 1.1 Habitable buildings, commercial and industrial buildings, and buildings used for animal keeping incorporate a finished floor level at least 300mm above:  (a) the highest point of top of kerb of the primary street or (b) the highest point of natural ground level at the primary street boundary where there is no kerb
Environmental Protection	
PO 2.1 Buildings and structures used either partly or wholly to contain or store hazardous materials are designed to prevent spills or leaks leaving the confines of the building.	DTS/DPF 2.1 Development does not involve the storage of hazardous materials.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
None	None	None	None

**Heritage Adjacency Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Development adjacent to State and Local Heritage Places maintains the heritage and cultural values of those Places.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
Built Form	
PO 1.1 Development adjacent to a State or Local Heritage Place does not dominate, encroach on or unduly impact on the setting of the Place.	DTS/DPF 1.1 None are applicable.
Land Division	
PO 2.1 Land division adjacent to a State or Local Heritage Place creates allotments that are of a size and dimension that enables the siting and setbacks of new buildings from allotment boundaries so that they do not dominate, encroach or unduly impact on the setting of the Place.	DTS/DPF 2.1 None are applicable.

**Procedural Matters (PM) - Referrals**

The following table identifies classes of development / activities that require referral in this Overlay and the applicable referral body. It sets out the purpose of the referral as well as the relevant statutory reference from Schedule 9 of the Planning, Development and Infrastructure (General) Regulations 2017.

Class of Development / Activity	Referral Body	Purpose of Referral	Statutory Reference
Development which in the opinion of the relevant authority materially affects the context within which the <b>State Heritage Place</b> is situated.	Minister responsible for the administration of the <i>Heritage Places Act 1993</i> .	To provide expert assessment and direction to the relevant authority on the potential impacts of development adjacent State Heritage Places.	Development of a class to which Schedule 9 clause 3 item 17 of the Planning, Development and Infrastructure (General) Regulations 2017 applies.

**Historic Area Overlay**

**Assessment Provisions (AP)**

Desired Outcome (DO)

Desired Outcome	
DO 1	Historic themes and characteristics are reinforced through conservation and contextually responsive development, design and adaptive reuse that responds to existing coherent patterns of land division, site configuration, streetscapes, building siting and built scale, form and features as exhibited in the Historic Area and expressed in the Historic Area Statement.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature
All Development	
PO 1.1 All development is undertaken having consideration to the historic streetscapes and built form as expressed in the Historic Area Statement.	DTS/DPF 1.1 None are applicable.
Built Form	
PO 2.1 The form and scale of new buildings and structures that are visible from the public realm are consistent with the prevailing historic characteristics of the historic area.	DTS/DPF 2.1 None are applicable.
PO 2.2 Development is consistent with the prevailing building and wall heights in the historic area.	DTS/DPF 2.2 None are applicable.
PO 2.3 Design and architectural detailing of street-facing buildings (including but not limited to roof pitch and form, openings, chimneys and verandahs) complement the prevailing characteristics in the historic area.	DTS/DPF 2.3 None are applicable.
PO 2.4 Development is consistent with the prevailing front and side boundary setback pattern in the historic area.	DTS/DPF 2.4 None are applicable.
PO 2.5 Materials are either consistent with or complement those within the historic area.	DTS/DPF 2.5 None are applicable.
Alterations and additions	

PO 3.1 Alterations and additions complement the subject building, employ a contextual design approach and are sited to ensure they do not dominate the primary façade.	DTS/DPF 3.1 Alterations and additions are fully contained within the roof space of an existing building with no external alterations made to the building elevation facing the primary street.
PO 3.2 Adaptive reuse and revitalisation of buildings to support retention consistent with the Historic Area Statement.	DTS/DPF 3.2 None are applicable.
Ancillary development	
PO 4.1 Ancillary development, including carports, outbuildings and garages, complements the historic character of the area and associated buildings.	DTS/DPF 4.1 None are applicable.
PO 4.2 Ancillary development, including carports, outbuildings and garages, is located behind the building line of the principal building(s) and does not dominate the building or its setting.	DTS/DPF 4.2 None are applicable.
PO 4.3 Advertising and advertising hoardings are located and designed to complement the building, be unobtrusive, be below the parapet line, not conceal or obstruct significant architectural elements and detailing, or dominate the building or its setting.	DTS/DPF 4.3 None are applicable.
PO 4.4 Fencing and gates closer to a street boundary (other than a laneway) than the elevation of the associated building are consistent with the traditional period, style and form of the associated building.	DTS/DPF 4.4 None are applicable.
Land Division	
PO 5.1 Land division creates allotments that are:  (a) compatible with the surrounding pattern of subdivision in the historic area (b) of a dimension to accommodate buildings of a bulk and scale that reflect existing buildings and setbacks in the historic area	DTS/DPF 5.1 None are applicable.
Context and Streetscape Amenity	
PO 6.1 The width of driveways and other vehicle access ways are consistent with the prevailing width of existing driveways of the historic area.	DTS/DPF 6.1 None are applicable.
PO 6.2 Development maintains the valued landscape patterns and characteristics that contribute to the historic area, except where they compromise safety, create nuisance, or impact adversely on buildings or infrastructure.	DTS/DPF 6.2 None are applicable.
Demolition	
PO 7.1 Buildings and structures, or features thereof, that demonstrate the historic characteristics as expressed in the Historic Area Statement are not demolished, unless:  (a) the front elevation of the building has been substantially altered and cannot be reasonably restored in a manner consistent with the building's original style or (b) the structural integrity or safe condition of the original building is beyond reasonable repair.	DTS/DPF 7.1 None are applicable.
PO 7.2 Partial demolition of a building where that portion to be demolished does not contribute to the historic character of the streetscape.	DTS/DPF 7.2 None are applicable.
PO 7.3 Buildings or elements of buildings that do not conform with the values described in the Historic Area Statement may be demolished.	DTS/DPF 7.3 None are applicable.
Ruins	
PO 8.1 Development conserves and complements features and ruins associated with former activities of significance.	DTS/DPF 8.1 None are applicable.

<b>Historic Areas affecting City of Adelaide</b>	
<b>North Adelaide Hill Street Historic Area Statement (Adel1)</b>	
<p>The Historic Area Overlays identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
<p>Eras, themes and context</p>	<p>1837 to 1901 - Victorian period.</p> <p>1901 to 1920s - Edwardian period.</p> <p>1920s to 1942 - Inter-war period.</p> <p>Low and medium density cottages. Villas and terrace houses. Historically intact residential areas. Long established institutions.</p>
<p>Allotments, subdivision and built form patterns</p>	<p>Large allotments together with low and medium density residential. Building set-back and subdivision pattern established by Heritage Places.</p> <p><u>Hill Street</u></p> <p>Regular setbacks from primary street frontage and regular pattern and siting of Heritage Places.</p> <p>Buildings setback from the side and street frontages of the Church of Perpetual Adoration retain the views and vistas of the Church.</p> <p><u>Jeffcott Street</u></p> <p>Buildings on corner site set on or close to the primary street frontage.</p> <p><u>Barton Terrace West</u></p> <p>Buildings reinforce the setback and orientation to the Park Lands established by Heritage Places.</p>
<p>Architectural styles, detailing and built form features</p>	<p>Victorian housing consisting of single fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections; contains vertically proportioned window and door surrounds highlighted with moulded render or brick dressings with roofs that are generally hipped in form, with the asymmetrical style, gable ended or hipped roof to the projecting bay, concave or convex verandah roof and four panelled doors with fanlights and often sidelights.</p> <p>Edwardian housing with prominent strapped gables and detailing, tall brick chimneys, verandahs incorporated under the main pitch of the roof verandahs with a convex (or bullnose) profile.</p> <p>Inter-War Housing consisting of bungalows incorporating a broad spreading roof and verandah with typical masonry columns supporting verandah elements and the expansive two storey version was often known as a Gentlemen's Bungalow; and Tudor Revival style displaying steeply pitched roofs with half-timber gable ends and variations of the verandah porch treatments.</p> <p>Finely detailed mansions; Cottages, villas and terraces; aged care, health care, consulting rooms and educational. Victorian Italianate villas, detached and semi-detached dwellings.</p> <p>Institutions are part of the historic fabric of North Adelaide.</p> <p><u>Mills Terrace and Strangways Terrace (west of Hill Street)</u></p> <p>Victorian, Edwardian and Inter-War Housing.</p> <p>Detached dwellings, group dwellings and residential flat buildings of one or two storeys incorporating articulation, bay windows, hip or hip - gable roof profiles, verandahs, balconies and porches, set within landscaped grounds.</p> <p>Imposing townscape character of Park Lands frontages established by various styles of detached dwellings of identified heritage value.</p> <p><u>Gibbon Lane</u></p> <p>Attached and detached two storey dwellings and single storey detached dwellings of Local Heritage value.</p> <p>Roofs are pitched and the design and composition of facades reflect traditional proportions of Heritage Places. <u>Hill Street</u></p> <p>One and two storey Victorian, Edwardian and Inter-war detached and semi-detached Local and State Heritage Places.</p> <p>Prominent corner sites containing St Lawrence's Church and Calvary Hospital.</p> <p><u>Buxton Street</u></p> <p>Highly cohesive frontages of single storey detached Victorian and Edwardian Local Heritage Places and one and two storey State Heritage Places.</p> <p>Finely detailed Italianate villas.</p> <p>Traditional corner shop to north-west corner of Buxton and Jeffcott Streets.</p> <p><u>Molesworth Street</u></p> <p>Victorian, Edwardian and Inter-war housing.</p> <p>Similar semi-detached dwellings of similar architectural design to southern side and detached Victorian Italianate houses and</p>

**North Adelaide Cathedral Historic Area Statement (Adel9)**

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

Eras, themes and context	1837 to 1901 - Victorian period.  1920's to 1942 - Inter-war period.  Diverse range of nineteenth century predominantly residential architecture with extensive Park Lands frontages.
Allotments, subdivision and built form patterns	Cohesive lines of buildings set behind landscaping.  <u>Brougham Court</u>  Closely sited dwellings with consistent setbacks.  <u>Kermode Street</u>  Traditional subdivision pattern to the east of Bagot Street.  Existing pattern of development characterised by freestanding buildings within landscaped grounds.  <u>Pennington Terrace</u>  Considerable siting, set-back, scale and character variation of State Heritage places.  <u>King William Road</u>  Grand, spacious character of the townscape created by St Peter's Cathedral.  <u>Lakeman Street</u>  Dwellings sited on the street frontage.
Architectural styles, detailing and built form features	Victorian housing that is single fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections; contains vertically proportioned window and door surrounds highlighted with moulded render or brick dressings with roofs that are generally hipped in form, with the asymmetrical style, gable ended or hipped roof to the projecting bay, concave or convex form verandah roof and four panelled doors with fanlights and often sidelights.  Inter-War housing consisting of bungalows incorporating a broad spreading roof and verandah with typical masonry columns supporting verandah elements and the expansive two storey version was often known as a Gentlemen's Bungalow; and Tudor Revival style displaying steeply pitched roofs with half-timber gable ends and variations of the verandah porch treatments.  Diverse range of nineteenth century architecture including mansions, detached and semi-detached dwellings and cottages.  <u>Brougham Place, Palmer Place</u>  Low scale, Victorian and Inter-war detached dwellings.

Statement#	Statement

<b>North Adelaide Stanley Historic Area Statement (Adel11)</b>	
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	<p>Low density residential with a distinctive and cohesive character derived from large nineteenth and early twentieth century dwellings and other low density detached and semi-detached dwellings in a variety of forms and styles.</p> <p>Brougham Place Uniting Church has visual prominence.</p>
Allotments, subdivision and built form patterns	<p>Built form edge to Brougham Gardens and the Park Lands along Brougham Place.</p> <p><u>Stanley Street (southern side) and Brougham Place (where it is a visual continuation of Stanley Street)</u></p> <p>Close subdivision pattern west of New Street.</p> <p><u>Kingston Terrace</u></p> <p>Consistent setbacks established by Heritage Places.</p>
Architectural styles, detailing and built form features	<p>Victorian housing that is single fronted, symmetrically fronted, and asymmetrically fronted houses, some with bay fronted projections; contains vertically proportioned window and door surrounds highlighted with moulded render or brick dressings with roofs that are generally hipped in form, with the asymmetrical style, gable ended or hipped roof to the projecting bay, concave or convex form verandah roof and four panelled doors with fanlights and often sidelights.</p> <p>Edwardian housing with prominent strapped gables and</p>

Statement#	Statement
Adel11	<p>detailing, tall brick chimneys, verandahs incorporated under the main pitch of the roof verandahs with a convex (or bullnose) profile.</p> <p>Georgian Revival housing displays symmetrical elevation with rendered or brick walls, fanlight above central entrance door, hipped roof form and generally classically derived proportions and details. This style had no verandah but often displayed an entrance portico.</p> <p>Large nineteenth and early twentieth century dwellings comprising more substantial Victorian, Edwardian and Georgian Revival villas, and other low density detached and semi-detached dwellings in a variety of forms and styles.</p> <p>Buildings on Stanley Street, Kingston Terrace and Brougham Place are defined by the landfall and escarpment. Development takes advantage of the landfall by providing semi-basement floors.</p> <p><u>Kingston Terrace</u></p> <p>Victorian and Inter-war housing.</p> <p>Large one and two storey detached residences on individual allotments set close to the street with a Park Lands frontage.</p> <p>Towards Lefevre Terrace: Imposing rear elevations of two storey mansions with frontages to Stanley Street.</p> <p>Modelled and articulated, constructed of masonry, with a high proportion of solid to void in the composition of facades and often feature verandahs and balconies.</p> <p><u>Stanley Street (northern side)</u></p> <p>Victorian, Edwardian and Inter-war.</p> <p>Two large mansions set well back from the northern frontage on elevated ground above Stanley Street and large detached and semi-detached residences.</p> <p><u>Stanley Street (southern side) and Brougham Place (where it is a visual continuation of Stanley Street)</u></p> <p>Victorian, Edwardian and Inter-war.</p> <p>Two-storey residences on the southern frontage presenting a single-storey appearance to Stanley Street and Brougham Place due to sloping topography.</p> <p>Consistent set-back of stone Victorian villas typified by rich detailing and cast-iron ornamentation west of New Street.</p> <p>Detached or semi-detached dwellings presenting as single storey to the street frontage.</p> <p><u>Brougham Place (western boundary)</u></p> <p>Imposing and finely detailed Brougham Place Uniting Church with its dominant central tower.</p> <p>Low scaled St Ann's College buildings which step down the Brougham Place frontage reflecting the topography of the locality.</p>
	<p>Building height</p> <p>Low scale dwellings and buildings that enable views of the City from Stanley Street and Brougham Place.</p> <p><u>Stanley Street (southern side) and Brougham Place (where it is a visual continuation of Stanley Street)</u></p> <p>Single storey to the street frontage.</p>
	<p>Materials</p> <p><u>Stanley Street (southern side) and Brougham Place (where it is a visual continuation of Stanley Street)</u></p> <p>Stone with rich detailing and cast iron west of New Street.</p> <p><u>Victorian Houses</u></p> <p>Bluestone, limestone or sandstone, with brick or rubble side and rear walls.</p>

Statement#	Statement	
		<p>Timber framed windows and doors.</p> <p>Cast iron or timber posts to the verandahs elaborated with moulded capitals and trim, and widely used cast iron brackets and frieze decoration.</p> <p>Masonry base and piers with cast iron panels or railings, timber railing, timber picket fencing for smaller houses.</p> <p><u>Edwardian Houses</u></p> <p>Face brick walling with decorative brick detailing, ashlar stone with brick dressings or moulded render or 'rock face' sandstone (or freestone) for wall material.</p> <p>Unglazed terracotta Marseilles roof tiles, corrugated iron roof cladding.</p> <p>Timber framed windows and doors. Windows often grouped and doors often divided into three or four horizontal panels.</p> <p>Masonry fencing with cast or wrought iron palisade, or timber.</p> <p><u>Georgian Revival Houses</u></p> <p>The Georgian Revival style displays symmetrical elevation with rendered or brick walls, fanlight above central entrance door, hipped roof form and generally classically derived proportions and details. This style had no verandah but often displayed an entrance portico.</p> <p>Masonry fencing (brick and /or dressed stone or rendered) and may include cast or wrought iron palisade and gates.</p>
Fencing		<p>Low, open front fencing (including secondary streets to the main façade of the building) associated with the traditional period and style of the building up to 1.2 metres, allowing views to the building. Rear and side boundary fences (behind main building façade) to 2 metres, and 1.8 metres on corner sites.</p> <p><u>Stanley Street (southern side) and Brougham Place (where it is a visual continuation of Stanley Street).</u></p> <p>Stone and cast iron ornamental boundary fencing along street frontage west of New Street.</p>
Setting, landscaping, streetscape and public realm features		<p>Views of the City from Stanley Street and Brougham Place.</p> <p>Landscape qualities of public and private open space.</p> <p>Vistas to the Park Lands, Brougham Place and the eastern end of Stanley Street.</p> <p>Street trees, avenue planting and other landscaping and a high standard of paving to the public realm.</p> <p>Landmark significance of the Brougham Place Uniting Church.</p> <p>The topography is characterised by the North Adelaide scarp, a steep rise from Melbourne Street to Stanley Street, below which the area is relatively flat, towards the River Torrens. The ridge of the scarp along Kingston Terrace/Stanley Street and the frontages to the Park Lands provided for prestigious residential addresses. The higher concentration of small cottages in the lower section below the scarp reflects the early subdivision of these Town Acres into estates providing workers housing following the establishment of local manufacturing industries such as the Lion Brewery. The creation of the road through Brougham Place in the 1860s and the introduction of horse drawn trams along Melbourne Street in 1878 gave this section of North Adelaide closer links with the rest of the City and made the area an attractive location for workers to live.</p> <p>Vehicle access is via minor streets, side and rear lanes. Vehicle access points have been designed and located to maintain historic kerbing and trees.</p>
Representative Buildings		<p>[Not identified] 4495</p>

**Adelaide Historic Area Statement (Adel14)**

The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.

The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.

Eras, themes and context	<p>Cultural and historic evidence of the creation of the colony and the consolidation of early settlement in Adelaide.</p> <p>1837 to 1901 - Victorian period.</p> <p>1901 to 1920s - Edwardian period.</p>
--------------------------	---

Statement#	Statement
	<p>1920's to 1942 - Inter-war period.</p> <p>Broad range of residential stock, from nearby grand villas / mansions on South and East Terraces overlooking the Park Lands (1870-1880) to humble cottages lining the smaller street.</p>
<p>Allotments, subdivision and built form patterns</p>	<p>Subdivision of town acres in the south-east into a network of streets and lanes.</p> <p><u>Ada Street</u></p> <p>Close development pattern of residences.</p> <p><u>Carrington Street (east of Marion Street)</u></p> <p>Consistent setback of Heritage Places.</p> <p><u>Carrington Street (west of Marion Street)</u></p> <p>Close siting.</p> <p><u>Corryton Street (north of Halifax Street)</u></p> <p>-Single-storey semi-detached and detached cottages sited close to the street frontage.</p> <p><u>Castle Street</u></p> <p>Closely sited to the street with narrow frontages.</p> <p><u>Gilles Street</u></p> <p>Close pattern of development.</p> <p>East of St John Street is a more open subdivision pattern.</p> <p><u>Gladstone Street</u></p> <p>Sited close to the street frontage.</p> <p><u>Halifax Street (east of Hutt Street)</u></p> <p>-Single-storey detached and semi-detached cottages of a consistent built form character and the occasional terrace house.</p> <p>St John's Church is a prominent landmark.</p> <p><u>Halifax Street (west of Hutt Street)</u></p> <p>Single-storey attached and detached cottages, a large bay window residence and a two-storey Victorian former corner shop.</p> <p><u>Kate Court</u></p> <p>-Dwellings sited close to the street frontage.</p> <p><u>Marion Street</u>-Close grouping of 19th century small semi-detached and detached cottages and row cottages.</p> <p><u>McLaren Street and Regent Street South</u></p> <p>-Closely sited, single-storey cottages and row houses.</p> <p><u>Royal Avenue</u></p> <p>Close pattern of development.</p> <p><u>St. John Street</u></p> <p>-The north east townscape is dominated by the substantial scale and richly detailed character of St John's Church, Meeting Hall and Rectory. Western frontage - group of consistently sited dwellings. Eastern frontage - small group of narrow fronted cottages.</p> <p><u>Tomsey Street</u></p> <p>Single-storey semi-detached and detached cottages.</p>
<p>Architectural styles, detailing and built form features</p>	<p><u>Ada Street</u></p> <p>A variety of dwellings, including row cottages, small semi-detached cottages and detached bay window cottages make up this historic townscape.</p> <p>A sense of intimacy and enclosure is derived from the narrowness of the street.</p> <p>Consistent pitched roof profiles, verandahs, fenestration and material.</p> <p><u>Carrington Street (east of Marion Street)</u></p> <p>Comprises single-storey detached, semi-detached and row cottages, terrace houses and contemporary attached dwellings.</p> <p>Vertically proportioned openings, pitched roofs and verandahs.</p>

Statement#	Statement
Adel14	<p><u>Carrington Street (west of Marion Street)</u></p> <p>Single-storey cottages, row cottages, and terrace houses with historic window proportions, pitched roof profiles, verandah.</p> <p><u>Castle Street</u></p> <p>Small semi-detached and detached cottages and the single terrace with verandahs along the street and pitched roofs.</p> <p><u>Corryton Street (north of Halifax Street)</u></p> <p>Single-storey semi-detached and detached cottages sited close to the street frontage establishing a rhythm of narrow dwelling facades, fenestration, pitched roof profiles and verandahs.</p> <p><u>Corryton Street (south of Halifax Street)</u></p> <p>Long single-storey row of cottages, with a horizontal emphasis created by the common roof, verandah profiles.</p> <p><u>Gilles Street</u></p> <p>Intimate attached and detached cottages with consistent fenestration, pitched roof profiles and verandah styles.</p> <p>Large detached residences set in landscaped ground east of John Street.</p> <p>Variety of architectural forms.</p> <p><u>Gladstone Street</u></p> <p>Single-storey row and semi-detached cottages sited close to the street frontage. Intimacy and sense of enclosure from horizontal form of dwellings.</p> <p><u>Halifax Street (east of Hutt Street)</u></p> <p>Detached and semi-detached cottages and the occasional terrace house, sited close to the street frontage with minimal side boundary set-backs and having consistency of window proportions, the high proportion of solid to void, pitched roof profiles and verandahs.</p> <p>St John's Church is a prominent landmark.</p> <p><u>Halifax Street (west of Hutt Street)</u></p> <p>Attached and detached cottages, a large bay window residence and a two-storey Victorian former corner shop.</p> <p><u>Kate Court</u></p> <p>Semi-detached cottages, detached gable-fronted cottages and terrace house sited close to the street frontage, with consistent window proportions, roof forms and verandah styles.</p> <p><u>Marion Street</u></p> <p>Close grouping of 19th century small semi-detached and detached cottages and row cottages with low front parapet line and consistent roof and verandah forms.</p> <p><u>McLaren Street and Regent Street South</u></p> <p>Closely sited cottages and row houses with vertically proportioned openings and the consistent form of pitched roofs and verandahs.</p> <p><u>Royal Avenue</u></p> <p>Cottages and villas.</p> <p><u>St. John Street</u></p> <p>Substantial scale and richly detailed character of St John's Church, Meeting Hall and Rectory.</p> <p>Consistently sited, gable-fronted villas to western frontage.</p> <p>Small group of narrow fronted cottages on the eastern frontage.</p> <p><u>Tomsey Street</u></p> <p>Semi-detached and detached cottages.</p>
Building height	Low scale.
Materials	<p><u>Victorian Houses</u></p> <p>Bluestone, limestone or sandstone, with brick or rubble side and rear walls.</p> <p>Timber framed windows and doors.</p> <p>Cast iron or timber posts to the verandahs elaborated with moulded capitals and trim, and widely used cast iron brackets and frieze decoration.</p> <p>Masonry base and piers with cast iron panels or railings, timber railing, timber picket fencing for smaller houses.</p> <p><u>Edwardian Houses</u></p> <p>Face brick walling with decorative brick detailing, ashlar stone with brick dressings or moulded render or 'rock face'</p>

Statement#	Statement	
		sandstone (or freestone) for wall material.  Unglazed terracotta Marseilles roof tiles, corrugated iron roof cladding.  Timber framed windows and doors. Windows often grouped and doors often divided into three or four horizontal panels.  Masonry fencing with cast iron palisade, or timber.  <u>Inter-War Houses</u>  Australian-made Wunderlich roof tiles.  Timber joinery with some use of metal framed windows.  Typically low masonry fencing, built from materials matching the main building.
Fencing		Low, open front fencing (including secondary streets to the main façade of the building) associated with the traditional period and style of the building up to 1.2 metres, allowing views to the building. Rear and side boundary fences (behind main building façade) to 2 metres, and 1.8 metres on corner sites.  Front fences of stone and cast iron, brick, stone or rendered pillars and plinths, timber or well detailed masonry.  Brick, rendered masonry and timber side fences on secondary street frontages.  Rear and side fences (behind main face of building) of corrugated metal sheeting.  <u>Corryton Street (south of Halifax Street)</u>  Continuous picket fencing.
Setting, landscaping, streetscape and public realm features		A sense of intimacy and enclosure to Ada, Gladstone, McLaren, Streets, and Regent Street South.  Landmark qualities of St John’s Church, Meeting Hall and Rectory.  Landscaped open space with significant vegetation. Public and private open spaces incorporating landscaping to street frontages. Vehicle access is via minor streets, side and rear lanes. Vehicle access points have been designed and located to maintain historic kerbing and significant trees.

**Historic Areas Affecting Adelaide Hills Council**

AdHi1	<b>Mylor Historic Area Statement (AdHi1)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1880 to late 1890s. Commercial centre. Workingmen’s Block movement.
	Allotments, subdivision and built form patterns	Uniform rectangular allotments fronting the main street. Large site areas. Large street frontages. Varying front setbacks (residential development has generous setbacks with commercial/retail development located closer to the front boundary to address the main street). Varying side setbacks, with limited boundary development.
	Architectural styles, detailing and built form features	1890s commercial buildings interspersed with a variety of civic and residential buildings.
	Building height	Generally small scale, single storey construction with the exception of the larger public buildings such as the Uniting Church and the former Institute building.
	Materials	Consistent with the materials associated with the architectural styles of the subject building and streetscape. Random coursed and rubble stone. Rendered stone. Brick and rendered quoins. Hipped and gabled roofs. Raked and bullnose verandahs supported with timber posts and masonry pillars. Corrugated iron roofs. External finishes non-reflective incorporating a natural autumnal palate.
Fencing	Front fences of pickets, post and wire and masonry (exposed or rendered brickwork or stonework) often obscured by hedges or other plantings, to a height of 1200 millimetres.	
Setting, landscaping, streetscape and public realm features	Rustic character. The township is enclosed on three sides by highly valued remnant vegetation within the Mylor Parklands. Leslie Creek and Aldgate Creek meander through the township before joining up with the Onkaparinga River to the south. The main entrance to Mylor from the north is marked by bridge crossings over Leslie and Aldgate Creeks, the war memorial and views to an avenue of deciduous trees which define the centre of the township. Views of the historic building within the primary school.  Other important views along Strathalbyn Road include the heritage buildings containing the general store and rural supplies establishment which defines the southern entry to the township. Wide landscaped verge that incorporates an avenue of trees along Strathalbyn road accentuates the historic built form.  Vehicular access at the rear of allotments fronting Strathalbyn Road.

<b>Historic Areas affecting Alexandrina Council</b>																		
	<p><b>Strathalbyn Suburban Neighbourhood Historic Area Statement (Alex1)</b></p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise</p>																	

Statement#	Statement
	<p>land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>
Eras, themes and context	<p><u>Northern (Manse Road, Melville Lane, Taylors Lane, Melville Street, Harriet Street and North Parade)</u></p> <p>1860s-1910s. Symmetrical double-fronted early settler cottages and simple workers accommodation.</p> <p>Centred on North Parade, the area was initially subdivided in 1856 and was developed to contain a mixture of functions ranging from an early butcher’s shop, to a school, a hospital and a Rechabite Hall and residences.</p> <p>The early commercial and institutional functions have declined over time and the area is now mainly residential.</p> <p><u>Western (Sandegrove Road, King Street, Coronation Road)</u></p> <p>1910s. Symmetrical double-fronted cottages and early Bungalow era dwellings.</p> <p>The Western area is important in the overall character of Strathalbyn as it reflects the period at the turn of the century which was one of consolidation and prosperity for the town. The specific residential character of the area derives from the consistent character of the circa 1910 residences, which display typical characteristics of domestic architecture at the time.</p> <p><u>Central (East Terrace, Murray Street, North Parade, Grey Street, Chapel Street, Rowe Street, Commercial Road, West Terrace, Jeff Street, Wallbank Street, Mill Street)</u></p> <p>1860s - 1950.s. Symmetrical double-fronted cottages and early Bungalow era dwellings.</p> <p>The Central area represents the predominantly residential area within the bounds of the original town boundary following, North Parade, East Terrace, South Terrace and West Terrace. The area also includes church landmarks to the east of the town centre on Murray and Chapel Streets.</p>
Allotments, subdivision and built form patterns	<p><u>Northern</u></p> <p>Large allotments and setbacks. Medium- to large front setbacks. Buildings parallel to street. Buildings typically located asymmetrically on allotments, allowing for access to rear of blocks on one side. This subdivision has a less regular layout, in part due to path of Middle Creek which borders the area on the north and east.</p> <p><u>Western</u></p> <p>Large allotments and setbacks. Consistent medium- to large front setbacks. Buildings parallel to street. Buildings typically located symmetrically on allotments with very wide side setbacks.</p> <p><u>Central</u></p> <p>Large allotments and setbacks. Buildings parallel to street. Buildings typically located asymmetrically on allotments, allowing for access to rear of blocks on one side.</p>
Architectural styles, detailing and built form features	<p><u>Western and Northern</u></p> <p>Symmetrical stone double fronted cottages with some early bungalow styles. Predominantly hipped roofs of 27-35 degree pitch with detached verandah (concave, convex and bullnosed) set 300mm below main building gutter. High solid to void (window &amp; door opening) ratio.</p> <p>Carports and sheds generally to the rear of allotments and not attached to dwellings.</p> <p><u>Central</u></p> <p>Stone double fronted cottages with some early bungalow styles. Predominantly hipped roofs of 27-35 degree pitch with verandahs. High solid to void (window &amp; door opening) ratio.</p> <p>Carports and sheds generally to the rear of allotments and not attached to dwellings.</p>
Building height	Single storey with external wall heights generally 3.8-4.1m and ceilings at least 3.
Materials	Sandstone and limestone with red brick quoins predominantly. Corrugated (mostly galvanised) roofing.
Fencing	<p><u>Northern</u></p> <p>Timber post and rail (local variation diamond style), low masonry, timber post and cyclone mesh, rural post and wire fencing to a height of 1.2m at front and 1.8m on side boundaries.</p> <p><u>Western</u></p> <p>Hedges, brush, pickets, low masonry and cyclone mesh, rural post and wire fencing to a height of 1.2m at front and 1.8m on side boundaries.</p> <p><u>Central</u></p> <p>Timber post and rail (local variation diamond style), hedges, low masonry, timber post and cyclone mesh, rural post and wire fencing to a height of 1.2m at front and 1.8m on side boundaries.</p>
Setting, landscaping, streetscape and public realm features	<p>Limited use of signage, where present it incorporates simple fonts consistent with the era with no internal illumination.</p> <p><u>Northern</u></p>

Alex1

Statement#	Statement	
		<p>Heavily vegetated, rural character, especially to Taylors Lane and Melville Street.</p> <p><u>Western</u></p> <p>Newly formed footpaths with planted verges and street trees.</p> <p><u>Central</u></p> <p>Rural character, wide streets and footpaths with regular street trees.</p>

Alex2	<p><b>Strathalbyn Centre - Township Main Street and Community Facilities Historic Area Statement (Alex2)</b></p>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	<p>1860s - 1910s settlement period. Residential, small commercial, institutional and civic buildings.</p> <p><u>Dawson (Commercial Road / Dawson Street, Catherine Street, Rankine Street, South Terrace, Donald Terrace, Albyn Terrace)</u></p> <p>The River Angas and the associated Soldiers Memorial Gardens is a key element within this area, reflecting the rising civic consciousness of the residents of Strathalbyn as the town prospered through the 1870's-90's. Dawson Street and Albyn Terrace contain many notable early examples of commercial buildings which reflect the enterprise and success of these residents.</p> <p><u>High Street (High Street, Grey Street, Swale Street, Sunter Street, Alfred Place)</u></p> <p>An historic predominantly commercial area with buildings ranging from early settlement, through a period of expansion in the late 1860's to about 1910.</p>	
Allotments, subdivision and built form patterns	<p><u>Dawson</u></p> <p>Large, rectangular allotments with large frontage. No front setback to commercial properties. Typically small front setback to residential properties. Buildings parallel to street. Minimal side setbacks often with no driveways or vehicle access.</p> <p><u>High Street</u></p> <p>Large, rectangular allotments with large frontage. No front setback to commercial properties. Typically minimal to no front setback to residential properties. Buildings parallel to street. Minimal side setbacks often with no driveways or vehicle access.</p>	
Architectural styles, detailing and built form features	<p>High solid to void (window &amp; door opening) ratio.</p> <p>Commercial properties typically parapeted or hipped and gabled with verandahs overhanging footpaths.</p> <p>Residential properties simple double fronted early settler residences and homesteads hipped and gabled roofs of 27-35 degrees pitch with separate verandah.</p> <p>Carports and garages generally to the rear of allotments and not attached to dwellings.</p>	
Building height	<p>Commercial and residential single storey with external wall heights 3.8-4.1m and ceilings of at least 3m. Two storey grand, civic or historic commercial activities.</p>	
Materials	<p>Sandstone and limestone with red brick quoins predominantly. Corrugated (mostly galvanised) roofing. Institutional and grand civic buildings rendered quoins and features. Distinct absence of contemporary materials.</p>	
Fencing	<p>Timber post and rail (local variation diamond style), timber post and cyclone mesh up to 1.2m in height at front and 1.8m on side boundaries. Pickets to verandahs at street line.</p>	
Setting, landscaping, streetscape and public realm features	<p>Rural open streetscape character. Some early stone and terracotta kerbing remain. Traditional street tree planting such as Ash trees. Wide streets in original layout connecting to traditional parks/gardens reinforcing rural character and scenic views. Limited use of signage, where present it incorporates simple fonts consistent with the era with no internal illumination.</p>	
Representative Buildings	Identified - refer to SA planning database.	
	<p><b>Middleton Historic Area Statement (Alex3)</b></p>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	<p>1855 - Flour Mill established, Middleton township 1856 - from mid</p> <p>19<sup>th</sup> century era of grain production and local milling for export.</p>	
Allotments, subdivision and built form patterns	Irregular angled large allotments containing former mill and ancillary dwellings and smaller lots.	

Statement#	Statement	
Alex3	Architectural styles, detailing and built form features	Symmetrical structures with a high solid to void (window & door opening) ratio. Gabled and hipped roofs of 27-35 degree pitch.
	Building height	Single storey dwellings.
	Materials	Local stone, brick, corrugated iron, rendered walling or rammed earth walling. Corrugated galvanised roofing.
	Fencing	Fencing reflective of the architectural style of the subject building in terms of building material, including post and wire and open fencing up to 1.2m to the front alignment, side boundary fences up to 1.8m.
	Setting, landscaping, streetscape and public realm features	Existing mature vegetation and boundary structures, such as walls and fences form an important landscape element. Open landscape surrounding the mill complex. Limited use of signage, where present it incorporates simple fonts consistent with the era with no internal illumination.
	Representative Buildings	<i>[Not identified]</i>

Alex4	<b>Goolwa Historic Area Statement (Alex4)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	<p>Between the 1850s and 1880s Goolwa developed as one of Australia’s most important river ports. Dwindling after the Morgan to Port Adelaide railway opened in 1878.</p> <p>Australia’s first railway, a single-track horse powered tramway (1854) extended from Goolwa to Victor Harbor in 1864 and later converted to steam and rail, now forms part of a major tourist attraction, the ‘Cockle Train’ trip.</p> <p>Residential development commenced with the settlement of Goolwa. From the late 19th century to the present day, Goolwa’s main focus has been as a tourist township, but the industrial historic legacy of earlier times which includes former breweries, sawmill, shipyards, the wharf area, the Goolwa Patent Slip and iron works and flour mill.</p> <p>The Goolwa Historic Area is a residential area known as ‘Little Scotland’ adjoining the State Heritage Area to the north and bounded by the railway line to the south.</p>
	Allotments, subdivision and built form patterns	Small narrow allotments, with many dwellings built over two allotments giving appearance of larger frontages. Buildings parallel to street. Minimal side setbacks, often no driveways or vehicle access.
	Architectural styles, detailing and built form features	<p>Small humble workers’ cottages. Gabled, hipped and parapeted roofs at 30-40 degree pitches. Separate verandah roof across frontage typical. High solid to void (window and door opening) ratio.</p> <p>Carpports and garages generally to the rear of allotments and not attached to dwellings.</p>
	Building height	Single storey with external wall heights 3.8 - 4.1m and ceilings of at least 3m.
	Materials	Stone, rendered masonry, weatherboard walls. Corrugated roofing. Distinct absence of contemporary materials.
	Fencing	Low picket fences or timber post and rails often at verandah line, up to 1.2m high.
Setting, landscaping, streetscape and public realm features	Intimate village, narrow streets with minimal or no footpaths. Limited use of signage, where present it incorporates simple fonts consistent with the era with no internal illumination.	
Representative Buildings	<i>[Not identified]</i>	

	<b>Port Elliot Township Main Street and Suburban Neighbourhood Historic Area Statement (Alex5)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	<p>1850s-1920s.</p> <p><u>The Strand</u></p> <p>Residential and Small Commercial.</p> <p>Early commercial, civic and institutional buildings underpin the historic street. A compact commercial and shopping core towards North Terrace, with holiday houses and cottages concentrated towards Freeman’s Lookout to the south. A pedestrian-friendly environment, preserving the backdrop to streetscapes on Charteris Street, Murray Terrace and Horseshoe Bay.</p> <p><u>Horseshoe Bay</u></p> <p>Former Port, Leisure.</p>	

Statement#	Statement	
		<p>The focal point of the township and centre for leisure activities is Horseshoe Bay. It remains largely undeveloped, with landscape and natural elements prioritised.</p> <p><u>Murray Terrace</u></p> <p>Residential.</p> <p>The Murray Terrace section contains both historically significant buildings of the 19th Century and more recent dwellings which give the area a unique character, particularly the bungalow style dwellings located south of the railway line.</p> <p><u>North Terrace</u></p> <p>Commercial and Residential.</p> <p>This area provides the entrance to the historic Port Elliot township.</p>
	<p>Allotments, subdivision and built form patterns</p>	<p><u>The Strand</u></p> <p>Large allotment sizes and frontages. Minimal front setbacks to residential buildings, often no front setback to commercial buildings. Buildings parallel to street. Small to medium side setbacks.</p> <p><u>Murray Terrace</u></p> <p>Large allotment sizes and frontages. Minimal front setbacks south of the train line, significantly large front setbacks north of the train line. Buildings parallel to the street. Small to medium side setbacks.</p> <p><u>North Terrace</u></p> <p>Large allotment sizes and frontages. Medium to large front setbacks to residential buildings, typically no setback to commercial buildings. Buildings parallel to the street. Medium to large side setbacks to residential buildings, minimal setbacks to commercial buildings.</p>
<p>Alex5</p>	<p>Architectural styles, detailing and built form features</p>	<p><u>The Strand</u></p> <p>Square or rectangular ground plans with hipped and gabled roofs and mostly separate verandahs. Symmetrical facades common. High solid to void (door and window openings) ratio.</p> <p>Carports and garages generally to the rear of allotments and not attached to dwellings.</p> <p><u>Horseshoe Bay</u></p> <p>Significant natural landscape with historic shipping remnants (timber jetty, breakwater and quarry). Existing structures are generally unobtrusive.</p> <p><u>Murray Terrace</u></p> <p>Square or rectangular ground plans with hipped and gabled roofs and continuous verandahs in Bungalow styles. High solid to void (door and window openings) ratio.</p> <p>Carports and garages generally to the rear of allotments and not attached to dwellings.</p> <p><u>North Terrace</u></p> <p>Square or rectangular ground plans with hipped and gabled roofs. Separate verandahs, extending over footpaths for commercial buildings. High solid to void (window and door opening) ratio.</p> <p>Carports and garages generally to the rear of allotments and not attached to dwellings.</p>
	<p>Building height</p>	<p><u>The Strand and North Terrace</u></p> <p>Predominantly single storey residential external wall heights 3.8-4.1m and ceilings of at least 3m. Two-storey historic landmark civic, religious and commercial structures.</p> <p><u>Horseshoe Bay</u></p> <p>Predominantly single storey and sited well below the cliff face.</p> <p><u>Murray Terrace</u></p> <p>Single storey external wall heights 3.8-4.1m and ceilings of at least 3m.</p>
	<p>Materials</p>	<p><u>The Strand</u></p> <p>Walls unpainted limestone and bluestone with redbrick quoins. Some rendered masonry. Corrugated roofs. Distinct absence of contemporary materials.</p> <p><u>Horseshoe Bay</u></p> <p>Natural materials dominate. Stone, rendered masonry, unpainted timber, corrugated roofs.</p> <p><u>Murray Terrace</u></p> <p>Walls unpainted limestone redbrick quoins and side walls.</p> <p>Some rendered masonry. Corrugated and terracotta tiled roofs. Distinct absence of contemporary materials.</p> <p><u>North Terrace</u></p>

Statement#	Statement	
		Bluestone, limestone and rendered masonry. Corrugated roofs. Distinct absence of contemporary materials.
	Fencing	<p><u>The Strand</u></p> <p>Low, open fencing including post and wire, post and rail, picket, hedges and vegetation, masonry reflecting the dwelling behind. Front fencing up to 1.2m.</p> <p><u>Horseshoe Bay</u></p> <p>Fencing that enables views.</p> <p><u>Murray Street</u></p> <p>Low fencing including pickets and masonry (reflecting style of dwelling behind), some hedges. Front fencing up to 1.2m.</p> <p><u>North Terrace</u></p> <p>Low masonry fencing most common. Some brush, timber and hedging. Front fencing up to 1.2m.</p>
	Setting, landscaping, streetscape and public realm features	<p>Limited use of signage, where present it incorporates simple fonts consistent with the era with no internal illumination.</p> <p><u>The Strand</u></p> <p>Intimate village character, street trees and verandahs over footpath. Prominent public parks and railway precinct directly connected to street.</p> <p><u>Horseshoe Bay</u></p> <p>Significant natural landscape with historic shipping remnants.</p> <p><u>Murray Street</u></p> <p>Wide footpaths with planted verges including street trees and shrubs.</p> <p><u>North Terrace</u></p> <p>Rural open streetscape character with minimal signage and no illuminated signage. Paved and bituminised footpaths with some street trees. Street lamps and significant pine tree prominent features.</p>

**Historic Areas affecting The Barossa Council**

Baro1	<p><b>Angaston Centre Historic Area Statement (Baro1)</b></p>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Early settlement in 1850s and 1860s. 19th and early 20th Century buildings and streetscapes.
	Allotments, subdivision and built form patterns	Original development and subdivision pattern, especially in the vicinity of Hannay Crescent including the cemetery allotment.
	Architectural styles, detailing and built form features	Banks, churches and hotels along Murray Street. Early post-supported verandas along sections of Murray Street.
	Building height	Two storeys.
	Materials	<i>[Not stated]</i>
	Fencing	<i>[Not stated]</i>
Setting, landscaping, streetscape and public realm features	<p>Significant visual backdrop formed by the hills, cemetery and stone walling when viewed from the Hannay Crescent area and Murray Street.</p> <p>The configuration of Murray Street with a bend at the Sturt Street junction provides interesting vistas east and west along the street.</p> <p>A vista is evident along Washington Street towards the Town Hall. Marble walling in front of the former Station Masters Residence, and former animal pound walls on the railway land.</p> <p>Along Murray Street, the paddock like nature of the land adjoining the creek bank links with the residential surrounds and, in association with the Murray Street park and rural backdrop, creates an attractive setting.</p> <p>Mature landscaping, deciduous street trees, Moreton Bay Fig trees, English Elm and the grouping of deciduous trees adjacent to the Laucke Mill on Murray Street.</p>	
Representative Buildings	Identified - refer to SA planning database.

**Historic Areas affecting City of Burnside**

	<b>Rose Park Historic Area Statement (Bur1)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
Eras, themes and context	1880 - 1917 Victorian and Federation. 1918 - 1940 Post WW1.	
Allotments, subdivision and built form patterns	Traditional rectangular grid pattern. Generally large site areas. Generally large street frontage widths large. Large front of dwelling set-back. Vehicular access from rear lanes of many dwellings.	

Statement#	Statement	
Bur1	Architectural styles, detailing and built form features	Late 19th Century and early 20th Century dwellings with forms, scale and detailing reflective of the era Villas and cottages in bluestone, freestone and/or brick. Many substantial dwellings as well as some more modest, unornamented dwellings . Brick quoinwork common. Hip and gable roof forms with pitches above 25 degrees. Various porch and verandah styles including return verandahs ranging from modest to generous proportions either projecting or as a continuation of the main roof structure. Garages and carports are located behind the main façade of dwellings. Visible chimneys.
	Building height	Predominantly single storey. Upper storey elements are integrated sympathetically into the dwelling design and generally not visible from street.
	Materials	Wall materials consistent with era of original construction including bluestone, freestone, sandstone and brickwork. Pitched roofs in galvanised iron sheet or terracotta tiles. Some original slate tiles. Retention of original materials and finishes and unpainted masonry.
	Fencing	Typical of the era of historic development. Low and/or open fencing forward of the main building façade. Maximum height to 1.2m. Timber picket or dowelling. Masonry and cast iron palisade. Some substantial hedging.
	Setting, landscaping, streetscape and public realm features	Substantial avenues, trees and gardens. Significant front landscaped gardens. Modest verges containing single line of streets trees. Double row of mature trees planted along Alexandra Avenue and Prescott Terrace as a war memorial. Area includes school, churches, mews cottages and other community facilities.
	Representative Buildings	Identified - refer to SA planning database.

Bur2	<b>Eastwood Historic Area Statement (Bur2)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Majority 1870 - 1917 Victorian and Federation. Few 1917 - 1940 Post WW1.
	Allotments, subdivision and built form patterns	Narrow allotments of varying widths. Closely spaced small early dwellings and narrow streets. Minimal front set-backs. Many with front verandah built to front boundary. Minimal side set-backs.
	Architectural styles, detailing and built form features	Late 19th Century single fronted cottages, semi-detached and row dwellings. Modest double fronted detached cottages and villas. Few Interwar dwellings. Forms, scale and detailing reflective of the era. Hip and gable roof forms with pitches above 25 degrees.
Building height	Single storey.	
Materials	Wall materials consistent with era of original construction including bluestone, freestone, sandstone and brickwork. Pitched roofs in galvanised iron sheet. Retention of original materials and finishes and unpainted masonry.	
Fencing	Typical of the era of historic development. Low and/or open fencing forward of the main building façade. Maximum height to 1.2m. Timber picket or dowelling. Simple masonry and cast iron palisade, or simple wrought iron. Corrugated iron or mini orb within timber framing.	

Statement#	Statement
	<p>Setting, landscaping, streetscape and public realm features</p> <p>Narrow streets.</p> <p>Boundaries positioned close to street with narrow footpaths.</p> <p>Street trees penetrating footpath adjacent kerb.</p> <p>Pocket park.</p>
Representative Buildings	Identified - refer to SA planning database.

Bur3	Wootoona Terrace Historic Area Statement (Bur3)
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. **Historic Areas affecting City of Charles Sturt**

ChSt1	<b>Bowden / Brompton Historic Area Statement (ChSt1)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1850s to early 1900s. Victorian era with an intimate and small-scale character.
	Allotments, subdivision and built form patterns	Small, long narrow allotments.
	Architectural styles, detailing and built form features	Single storey, detached and attached, single and double fronted workers' cottages. Some parapet walling to street with visible side return. Shop and dwelling typically on street corners. Early commercial and industrial buildings. Detached and semi-detached bungalow dwellings with wide verandahs, austerity and later townhouses.
	Building height	Single storey with ceiling heights at least 3m. Industrial scale walls of up to 5m.
	Materials	Red brick and bluestone walls and piers. Render to verandah piers, banding and parapets. Corrugated steel roofing in galvanised or paint finish. OG guttering in galvanised or paint finish. Painted timber to window frames, doors and roof trim. Chimneys; brick or painted render. Typically, small span steeply pitched gable and hipped 'M' roofs facing the street with ridge perpendicular or parallel to the street. Separate verandah to higher front wall or parapet.
	Fencing	Low front fencing, typically picket fencing and low masonry walls or combination thereof.
Setting, landscaping, streetscape and public realm features	Small setbacks from the street. Narrow streets with minimal on site car parking. Original shopfronts to street corners. Industrial buildings constructed to street frontages.	
Representative Buildings	Identified - refer to SA planning database.

	Render to verandah piers, banding and parapets. Corrugated steel roofing in galvanised or paint finish. OG guttering in galvanised or paint finish. Painted timber to window frames, doors and roof trim. Chimneys; brick or painted render.
Fencing	Low front fencing, typically picket fencing and low masonry walls or combination thereof.
Setting, landscaping, streetscape and public realm features	Small setbacks from the street. Narrow streets with minimal on-site car parking. Original shopfronts and hotels to street corners. Some industrial buildings constructed to street frontages.
Representative Buildings	Identified - refer to SA planning database.

ChSt4	<p><b>Blight Street, Ridleyton Historic Area Statement (ChSt4)</b></p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>
Eras, themes and context	From 1939. Early SA Housing Trust.
Allotments, subdivision and built form patterns	Regular rectangular allotments with generous frontage and depth, central shared boundary and small side boundary setbacks for driveways.
Architectural styles, detailing and built form features	Single storey, 'early modern' style, typically semi-detached (duplex). Symmetrical frontage to duplex. Variable pattern of duplexes in street. Vertical proportions to windows. Hipped and gabled roofs, with porch a continuation of main roof or separate and awnings over front door and windows. Some projecting hipped roofs. Shallow roof pitch of 20 degrees maximum.
Building height	Single storey with ceiling heights around 2.7m - 3m.
Materials	Red brick, protruding courses, painted and rendered sections, generally ay high level to walls. Corrugated steel and tiled roofing. Porches either corrugated steel or curved flat concrete canopies. Timber framed sunshade awnings with corrugated iron sheet roof. Red brick chimneys. Painted timber framed window frames, doors and roof trim.
Fencing	Low open cyclone wire fencing or low tubular steel fencing.
Setting, landscaping, streetscape and public realm features	Medium to large front setbacks. Generous setting to each side of duplex.
Representative Buildings	Identified - refer to SA planning database.

	<p><b>Bell Street, Pennington Historic Area Statement (ChSt5)</b></p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>

Statement#	Statement	
ChSt5	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	From 1938.  Early SA Housing Trust.
	Allotments, subdivision and built form patterns	Layout reflects 'Garden Suburb' design concept, generally with shared central boundary and side boundary setbacks for driveways.  Strong urban focal points in Sinclair Square and Tulloch Avenue.  Regular rectangular allotments with generous frontage and depth central shared boundary and side boundary setbacks for driveways.
	Architectural styles, detailing and built form features	Austere, with late modern style, typically semi-detached (duplex).  Symmetrical frontage to duplex.  Variable pattern of duplexes in street.  Vertical proportions to windows.  Hipped and gable roof forms with porches continuous to main roof and separate awnings over windows.  Some projecting hipped roofs.  Shallow roof pitch of 20 degrees maximum.
	Building height	Single storey with ceiling heights around 2.7m - 3m.
	Materials	Red brick walls with protruding courses, painted and rendered sections, generally at high level to walls.  Corrugated steel roofing and terracotta tile roofing (Bell Street).  Porches either corrugated steel or curved flat concrete canopies.  Timber framed sunshade awnings with corrugated iron sheet roof.  Red brick chimneys.  Painted timber framed window frames, doors and roof trim.
	Fencing	Low open cyclone wire fencing or low tubular steel fencing.
	Setting, landscaping, streetscape and public realm features	Medium to large front setbacks.  Generous setting to each side of duplex.
	Representative Buildings	Identified - refer to SA planning database.

<b>Croydon / West Croydon (North east of the railway line) Historic Area Statement (ChSt6)</b>		
The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.		
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.		
The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
Eras, themes and context	1890s - 1910s.  1910s - 1940s (west of Brown Street, north of Herbert Road).	
Allotments, subdivision and built form patterns	Very regular, consistent and long, rectangular allotments, with generous widths.  Some combined shops and dwelling buildings to Rosetta and Elizabeth Street.  Generous allotments facing Railway line.	
Architectural styles, detailing and built form features	Detached dwellings on generous allotments.  Edwardian to early Federation.  Post-Edwardian villas along Day Terrace.  Early bungalow styles, including some Queen Anne, Tudor and Art Deco styles in latter period areas.  A number of more substantial buildings, particularly fronting the railway line.  Combined shop/dwellings and rows of shops (Elizabeth Street, Rosetta Street).  Hipped, gable and Dutch-gable (gambrel) roofs, 'M' roofs with ridge parallel to street and separate verandahs.  Some verandahs continuous with main roof line.	

Statement#	Statement	
ChSt6		Typical bungalow verandahs as low height gable frontage.  Generous roof planes and eaves overhangs to bungalows.
	Building height	Single storey with generous ceiling and external wall heights of at least 3m.
	Materials	Bluestone, sandstone and redbrick, quoins and window surrounds.  Red brick and rendered chimneys.  Bungalows have rendered or brick piers and low walling to verandahs with some tapered piers.  Corrugated steel and terracotta (latter period) roofing.  Painted timber window frames, doors and roof trim.  Vertical proportioned timber windows with double sliding sashes.  Some elaborate decorative elements including painted timber fretwork, cast iron lacework to verandahs, finials, cover battens to gables and decorative barges.
	Fencing	Woven wire fences with painted timber posts.  Painted timber picket fencing reflecting era of associated dwelling.  Low masonry fencing with simple masonry piers, sometimes with simple iron and steel infill panels (from hume iron to tubular steel variations).
	Setting, landscaping, streetscape and public realm features	Medium to large front setbacks, typically set in mature gardens  Typically tree lined streets particularly Day Terrace with railway line in treed setting.  Generous side setbacks.
	Representative Buildings	Identified - refer to SA planning database.

ChSt7	<b>Croydon / West Croydon (South west of the railway line) Historic Area Statement (ChSt7)</b>		
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.		
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.		
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
	Eras, themes and context	1890s - 1910s.  1940's bungalow style.	
	Allotments, subdivision and built form patterns	Very regular and consistent rectangular allotments, with large widths.	
	Architectural styles, detailing and built form features	Villas and symmetrical cottages, with some later, intrusive infill.  Some worker's cottages of earlier periods.  Some bungalow style.  Hipped and gable roofs, and separate verandahs.	
Building height	Single storey with ceiling heights at least 3m.		
Materials	Bluestone, sandstone and redbrick.  Corrugated steel roofing.  Ornate render surrounds to window.  Red brick and rendered chimneys.  Bungalows have rendered or brick piers and low walling to verandahs with some tapered piers.  Corrugated steel and terracotta (latter period) roofing.  Painted timber window frames, doors and roof trim.  Vertical proportioned timber windows with double sliding sashes.  Some ornate decorative elements including painted timber fretwork, cast iron lacework to verandahs, finials, cover battens to gables and decorative barges.		
Fencing	Low masonry and original cast-iron and hume metal fencing.  Woven wire fences with painted timber posts.		

Statement#	Statement	
		Painted timber picket fencing reflecting era of associated dwelling.
	Setting, landscaping, streetscape and public realm features	Medium front setbacks. Plane Trees to Euston Terrace.
	Representative Buildings	Identified - refer to SA planning database.

ChSt8	<b>Allenby Gardens Historic Area Statement (ChSt8)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1920s - 1930s.
	Allotments, subdivision and built form patterns	Very regular and consistent rectangular allotments, with large widths.  Some angular allotments due to street pattern and subdivision layout between main roads abounding area.
	Architectural styles, detailing and built form features	Late Edwardian, Federation and bungalow styles.  Smaller number of Queen Anne and Tudor style houses.  Mainly detached housing.  Hipped, gable and Dutch gable roofs with decorative gable panelling and timber trim.  Ridge lines that are mainly perpendicular or parallel to street frontage.  Federation verandahs continuous with main roof.  Some projecting gable forms to street.  Low height bungalow style gables.
	Building height	Single storey with ceiling heights at least 3m.
	Materials	Terracotta tiles and corrugated steel roofing.  Red brick and sandstone walls; some render.  Red brick and render chimney.
	Fencing	Typically, low masonry fencing, sometimes with steel inserts.  Woven wire fences with painted timber posts.  Painted timber picket fencing reflecting era of associated dwelling.
	Setting, landscaping, streetscape and public realm features	Cohesive pattern of established detached dwellings with garden settings  Medium front setbacks. Tree lined streets.  Coombe Road is the natural focus of the area, and includes a school complex of a similar period to surrounding housing.
	Representative Buildings	Identified - refer to SA planning database.

	<b>Pre-World War One Pennington West Historic Area Statement (ChSt9)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1900s to 1920s, some 1940s/50s eastern side.  Edwardian/Federation/early Bungalow.
	Allotments, subdivision and built form patterns	Uniform allotment size and street layout.  Typically large frontages with deep allotments.
	Architectural styles, detailing and built form features	Edwardian, Federation and early bungalows. Predominantly detached.  Typical symmetrical frontage with return verandahs on corner allotments.

Statement#	Statement	
ChSt9		Vertical proportion windows to earlier housing with typical wider and lower bungalow proportion windows. Steeply pitched Hipped, gable and Dutch gable (gambrel). Some 'M' Roof with ridge parallel to street. Some verandahs continuous with main roof. Some detached verandahs with typically bullnose profile. Generous simple roof planes to bungalow style with less steep roof. Low height wide bungalow verandahs.
	Building height	Single storey with ceiling heights and external walls to at least 3.5m.
	Materials	Red brick, sandstone and render walling. Render or brick chimneys. Some pressed metal wall cladding on the fronts. Some corrugated iron or small fluted iron cladding on the side walls. Terracotta tile and corrugated iron roofing and verandahs. Painted timber window frames, doors and roof trim. Ornate cast iron to verandahs. Turned painted timber verandah posts.
	Fencing	Typically, low masonry, timber picket or wire mesh with timber post fencing. Woven wire fences with painted timber posts. Painted timber picket fencing reflecting era of associated dwelling. Low small fluted metal fencing with painted timber trim.
	Setting, landscaping, streetscape and public realm features	Medium to large front setbacks. Helen Street with Mt Carmel School as strong focal point.
	Representative Buildings	Identified - refer to SA planning database.

<p><b>Pre-World War One West Hindmarsh Historic Area Statement (ChSt10)</b></p>		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>		
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context	1890s to 1910s. 1930 to 1940.	
Allotments, subdivision and built form patterns	Uniform allotment size and street layout. Typically large frontages. Some narrow allotments (Albermarle Street).	
Architectural styles, detailing and built form features	Symmetrical cottages and villas. Some single front cottages. Edwardian, Federation and early bungalow periods. Predominantly detached. Hipped, gable, 'M' and louvre (gambrel) roofs. Separate verandah of monopitch, concave and bullnose form. Bungalow style verandah with generous width and low pitching height, with masonry piers and low wall. Some original central verandah gable at entrance to symmetrical frontage. Roof pitches vary from bungalow pitch of 20-25 degrees to steeper Edwardian pitch of up to 35 degrees.	
Building height	Single storey with ceiling and external wall heights at least 3m - 3.5m.	
Materials	Bluestone, sandstone and red brick walls with chimneys typical of era. Rendered quoins and ornate surrounds to openings.	

Statement#	Statement	
		Corrugated iron roofs with verandahs. Ornate painted timber to verandahs including fretwork and turned posts Ornate cast iron lacework to verandahs. Vertically proportioned windows with painted timber double-sash windows. Square bungalow proportioned three vertical windows in painted timber.
	Fencing	Typically, low masonry sometimes with steel inserts, timber picket or wire mesh with timber post fencing.
	Setting, landscaping, streetscape and public realm features	Broad and some narrow tree-lined streets. Medium to large front setbacks. Historic setting of Glanton Street defined by former church Local Heritage Place as focal point.
	Representative Buildings	Identified - refer to SA planning database.

ChSt11	<b>Welland Historic Area Statement (ChSt11)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1910s to 1940s.
	Allotments, subdivision and built form patterns	Very regular and consistent rectangular allotments, typically very wide. Narrow deep allotments to Frederick Street.
	Architectural styles, detailing and built form features	Late-Edwardian and Federation housing styles. Predominantly detached with some early semi-detached housing, some designed to look like one dwelling (Frederick Street). Early bungalows and 1940s Austerity houses. Some bungalow makeovers to earlier symmetrical dwellings. Hipped, gable and louvre roofs. Separate bull nose verandah typically to earlier dwellings. 'M' roof forms with ridge parallel to street frontage. Generous simple bungalow roof planes at shallower pitch to earlier housing with lower height generous width verandah. Some verandahs continuous with main roof.
	Building height	Single storey with ceiling and external wall heights at least 3m - 3.5m.
	Materials	Red brick, bluestone and sandstone walls. Terracotta tiles, corrugated iron and decorative timber trim roofs. Painted metal gutters. Wall vents at high level between top of verandah and underside of gutter Red brick or render finish chimneys. Flat Cantilever concrete canopy sunshades with steel suspension. Ornate cast iron to some verandahs. Ornate decorative painted timber to some verandahs. Painted timber to window and door frames and timber roof trim.
	Fencing	Typically, low masonry sometimes with steel inserts, timber picket or wire mesh with timber post fencing.
	Setting, landscaping, streetscape and public realm features	Tree-lined streets. Large front setbacks.
	Representative Buildings	Identified - refer to SA planning database.

	<b>Woodville South Historic Area Statement (ChSt12)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.

<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>		
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Eras, themes and context		<p>1900s to 1950s.</p>
Allotments, subdivision and built form patterns		<p>Very regular and consistent rectangular, deep allotments, to both sides of the railway line typically very wide with some narrow allotments to Belmore and Russell Terraces.</p>
Architectural styles, detailing and built form features	<p>Generally detached, later symmetrical cottages, Villas, Federation, Queen Anne, occasional Austerity and bungalow styles with some attached housing to suit narrow allotments.</p> <p>Hipped, gable and louvre roofs with verandahs.</p> <p>Separate verandahs, typically bullnose, across frontages of symmetrical cottages, with many return verandahs not always on corner allotments.</p> <p>Separate verandahs to suit Villa style.</p> <p>Steeper roof pitches to earlier styles and Tudor with shallower pitched bungalow roofing.</p> <p>Wide low height verandah frontages to bungalows with gable and half gable styles with masonry piers and low plinth walls.</p> <p>Simple generous roof planes and eaves overhangs to bungalows with main ridge generally parallel to the street.</p> <p>Steeply pitched Tudor gables and verandah gables facing the street.</p>	
Building height	<p>Single storey with ceiling heights at least 3m.</p>	
Materials	<p>Red brick and freestone walls.</p> <p>Galvanised corrugated iron and terracotta roofs.</p> <p>Painted timber window frames, doors, roof trim and cover battens to gable panels.</p>	

Statement#	Statement		
		Some ornate painted timber fretwork and posts to verandahs.  Brick or rendered masonry chimneys.	
	Fencing	Typically, low masonry sometimes with steel inserts, timber picket or wire mesh with timber post fencing.	
	Setting, landscaping, streetscape and public realm features	Fences and front gardens are strong elements.  Medium to large front setbacks.	
	Representative Buildings	Identified - refer to SA planning database.	
ChSt15	<b>Woodville Historic Area Statement (ChSt15)</b>		
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.		
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.		
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
	Eras, themes and context	1880s to 1940s.	
	Allotments, subdivision and built form patterns	Large, deep allotments typically very wide with slightly smaller scale housing south of the railway line.  The Stanley Street change in direction results in allotments of lesser depth.  Large corner allotments to Woodville Road.  Some narrow allotments to Hughes Street North.	
	Architectural styles, detailing and built form features	Generally large single-storey detached houses, bluestone Victorian villas, large Federation, Queen Anne and elaborate, large bungalow dwellings.  Significantly larger mansions to Woodville Road.  Smaller symmetrical cottages with some return verandah and smaller, simple bungalows to Russell Terrace.  Semi-detached houses designed to look like one dwelling on Hughes Street North.  Hipped, gable and louvre roofs.  Relatively more complex hipped, gable and louvre roofs with verandahs.  Separate verandahs, typically bullnose, across frontages of symmetrical cottages, with many return verandahs not always on corner allotments.  Separate verandahs to suit Villa style.  Federation style verandahs continuous with main roof.  Steeper roof pitches to earlier styles with shallower pitched bungalow roofing.  Wide low height verandah frontages to bungalows with gable and half gable styles with masonry piers and low plinth walls.  Simple, multiple generous roof planes and eaves overhangs to bungalows with main ridge generally parallel to the street.	
	Building height	Single storey with ceiling heights at least 3m - 3.5m.	
	Materials	Bluestone, red brick and freestone walls.  Galvanised corrugated iron and tiled roofs.  Painted timber window frames, doors, roof trim and cover battens to gable panels.  Some ornate painted timber fretwork and posts to verandahs.  Brick or rendered masonry chimneys.	
	Fencing	Typically, low masonry sometimes with steel inserts, timber picket or wire mesh with timber post fencing.	
Setting, landscaping, streetscape and public realm features	Wide, tree-lined streets and large established gardens.  Large front setbacks.		
Representative Buildings	Identified - refer to SA planning database.

Low height street facing bungalow verandahs with tapered masonry piers and low plinth walls.		

Statement#	Statement	
	Building height	Single storey with ceiling heights at least 3m - 3.5m.
	Materials	Pressed metal, 'stone' front, metal or weatherboard clad, red brick, freestone and sandstone walls.  Corrugated iron and terracotta tiled roofs.  Red brick and rendered finish to chimneys.  Painted timber window frames, doors, roof trim and cover battens to gable panels. Generally, less ornate painted timber fretwork and posts to verandahs. Some cast iron lacework to verandahs.
	Fencing	Typically, low masonry sometimes with steel inserts, timber picket or wire mesh with timber post fencing.
	Setting, landscaping, streetscape and public realm features	Residual shops attached to dwellings and community facilities centred around 'main streets' in Buller Terrace, Stroud Street (north and south) and Railway Terrace. Medium to large front setbacks.
	Representative Buildings	Identified - refer to SA planning database.

ChSt18	<b>Henley Beach Historic Area Statement (ChSt18)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1880s to 1940s.  Transitional styles adopting cross era characteristics.
	Allotments, subdivision and built form patterns	Regular and consistent rectangular allotments, typically very wide with a high proportion of narrow and medium width allotments.  Angled allotments to North Street west of Military Road.
	Architectural styles, detailing and built form features	Marlborough Street and Crewe Street, south to Clarence Street/Durham Street generally feature smaller but elaborate villas, early Spanish Mission, Federation and bungalows.  Larger, grand villas, cottages and bungalows predominantly along Marlborough Street and East Terrace.  South of Atkin Street, bungalows and Tudors.  Hipped, gable and louvre roof forms and verandas.  Bungalow roof forms with simple generous roof planes and eaves overhangs.  Steeply pitched Tudor roof forms with two main symmetrical gables and central smaller gable porch to street.  Some verandahs continuous with main roof.  Low height street facing bungalow verandahs with tapered masonry piers and low plinth walls.
	Building height	Single storey with ceiling heights at least 3m - 3.5m.
	Materials	Red brick walls and freestone facades.  Corrugated and terracotta tile roofs.  Painted timber window frames, doors, roof trim and cover battens to gable panels especially Tudor and Bungalow.  Generally less ornate painted timber fretwork and posts to verandahs.  Red brick and rendered finish to chimneys.
	Fencing	Typically, low masonry sometimes with steel inserts, timber picket or wire mesh with timber post fencing.
Setting, landscaping, streetscape and public realm features	South of the Bowling Club to Atkin Street, small setbacks.  South of Atkin Street larger allotments and medium setbacks.  Tree lined streets with a large presence of Norfolk Island pines along North Street and East Terrace.  Vehicle access has been designed and located to preserve existing street trees.  Some rear lane access.	
Representative Buildings	Identified - refer to SA planning database.

ChSt20	<p><b>Hindmarsh Place Historic Area Statement (ChSt20)</b></p>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1860s - 1930s.
	Allotments, subdivision and built form patterns	Uniform small allotments interspersed with larger allotments.
	Architectural styles, detailing and built form features	<p>Single storey attached and detached cottages, row dwellings, former fire station, former Christian Chapel, former municipal hall, former brewery, Victorian churches.</p> <p>Steeply pitched gable and hipped roofs facing the street, with various separate verandah form and saw-tooth design (former brewery).</p> <p>Steeple and bell tower.</p> <p>Some parapet walling.</p>
	Building height	<p>Typically, single storey with ceiling heights at least 3m.</p> <p>Industrial and former church buildings with substantial ceiling and wall heights.</p>
	Materials	<p>Rendered masonry, red brick, bluestone, limestone and sandstone walls.</p> <p>Decorative brickwork detailing to windows and doors.</p> <p>Corrugated galvanised steel roofing.</p> <p>Painted decorative timber posts and fascia elements.</p>
	Fencing	Substantial rendered masonry with brick capping, and cast iron infill fences and gates.
Setting, landscaping, streetscape and public realm features	Small setbacks from the street.	
Representative Buildings	Identified - refer to SA planning database.	

<p><b>Hindmarsh District Centre Historic Area Statement (ChSt21)</b></p>	
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	1840s to 1930s.

Statement#	Statement	
ChSt21	Allotments, subdivision and built form patterns	<p>Narrow fronted with deep allotments facing Port Road.</p> <p>Wider allotments to Manton and Milner Street.</p>
	Architectural styles, detailing and built form features	<p>Narrow fronted two-storey built form interspersed with some narrow fronted single storey of intimate scale.</p> <p>Generous verandahs over footpaths, balconies and parapets with some decorative elements including pediments.</p> <p>Some detached single and two storey residential buildings to Orsmond Street.</p> <p>Occasional upper level balconies.</p> <p>Vertically proportioned elements with high solid to void ratio, particularly at upper levels.</p> <p>Substantial church buildings.</p> <p>Decorative parapets to street frontages and returns.</p> <p>Steeply pitched hipped roofs visible behind parapets, with separate, wide verandahs across frontage.</p> <p>Some gable forms including simple cottage form to Milner Street.</p>
	Building height	Single and two-storey built form with ceiling heights that vary from 3m through to substantial church buildings.
	Materials	<p>Limestone, bluestone, sandstone, face red brick walls and rendered walls.</p> <p>Use of brick and rendered quoins.</p> <p>Corrugated galvanised steel roofing.</p> <p>Decorative cast iron posts and balustrades.</p> <p>Painted timber posts and fascia elements.</p>
	Fencing	<p>Built form typically to the street with verandahs over public realm.</p> <p>Some rendered masonry fencing with cast iron infill.</p>
	Setting, landscaping, streetscape and public realm features	Historic heart of the Hindmarsh Village and the principal area for a range of retail, business, ecclesiastic and office uses.
	Representative Buildings	Identified - refer to SA planning database.

ChSt22	<p><b>Henley Square Historic Area Statement (ChSt22)</b></p>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1840s to 1920s.
	Allotments, subdivision and built form patterns	Traditional patterns of development incorporating verandahs, balconies and parapets clustered around Henley Square.
	Architectural styles, detailing and built form features	<p>Substantial two-storey buildings with wide balconies and verandahs, some over footpaths.</p> <p>Traditional single storey buildings with verandahs over footpaths.</p> <p>Modern development including large expansive verandahs on the square.</p> <p>Decorative parapets to the street and Henley Square facades.</p> <p>Steeply pitched hipped and gable roof forms, with attached balconies and verandahs across frontage.</p> <p>Skillion and curved (bull nose) verandah roof forms.</p>
Building height	Single and double storey buildings with ceiling heights at least 4.5m per floor giving an imposing character.	
Materials	<p>Bluestone, sandstone, red brick walls and rendered walls.</p> <p>Some corrugated iron walling.</p> <p>Use of brick and rendered quoins, brick banding and other traditional decoration.</p> <p>Imposing masonry pediments and gables with brick banding.</p> <p>Corrugated steel roofing.</p>	

Statement#	Statement	
		Decorative cast iron and painted timber verandahs and balconies.
	Fencing	Some low masonry walling. Typically, open shop fronts with verandahs over public realm.
	Setting, landscaping, streetscape and public realm features	Historic heart of Henley Beach and the principal area for a range of retail, business and entertainment uses.
	Representative Buildings	Identified - refer to SA planning database.

ChSt23	<b>Eighth Street, Bowden Historic Area Statement (ChSt23)</b> The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1860s - 1890s.
	Allotments, subdivision and built form patterns	Intimate scaled narrow fronted and regular rectangular allotment containing three pairs of semi-detached dwellings and one detached dwelling.
	Architectural styles, detailing and built form features	Single storey semi-detached dwellings and detached dwelling. Gable facing the street defining each semi-detached dwelling. Steeply pitched gable roofs facing the street. Skillion verandah roof forms or variable pitch.
	Building height	Single storey with ceiling heights around 3m. High solid to void ratio and vertically proportioned openings.
	Materials	Rendered masonry walls with attached front verandahs. Brick capping to parapets with some decoration. Corrugated steel roofing.
	Fencing	Traditional and some non-original low rendered masonry and timber picket fencing with occasional tubular-steel.
	Setting, landscaping, streetscape and public realm features	Small front wall setbacks with verandah forward of front wall.
	Representative Buildings	Identified - refer to SA planning database.

**Historic Areas affecting Clare and Gilbert Valleys**

CGV1	<b>Auburn Historic Area Statement (CGV1)</b> The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Town centre as the original village of Auburn. Buildings constructed in the 19 <sup>th</sup> century.
	Allotments, subdivision and built form patterns	Original land division pattern, street layout and setback patterns.
	Architectural styles, detailing and built form features	Verandahs.
	Building height	1-2 storeys, with 2 storey buildings generally for retail and civic uses.

Statement#	Statement	
	Materials	[Not stated]
	Fencing	Front fences and gates of timber pickets, pier and plinth masonry, wrought iron, brush or masonry not exceeding 1.2m.
	Setting, landscaping, streetscape and public realm features	Wide streets and established trees contribute to a village setting.
	Representative Buildings	Identified – refer to SA planning database.

**Historic Areas affecting Coorong**

COOD1	<b>Raukkan Historic Area Statement (CooD1)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	A significant meeting place for the Ngarrindjeri people. Community buildings (including the Raukkan Church, community hall and school) are of particular value.
	Allotments, subdivision and built form patterns	Allotments of 700 to 800m <sup>2</sup> .
	Building height	Single storey.
	Materials	Stone and corrugated iron roofing.
	Setting, landscaping, streetscape and public realm features	Settlement arranged around the green open space defined by Lealinyeri, Seymour and Taplin streets. Wide streets, large grassed verges and buildings constructed to street frontages.
Representative Buildings	[Not identified]	

**Historic Areas affecting Copper Coast**

Statement#	Statement
	Wide streets, a prominent central public square framed by significant public buildings and limited landscaping. Buildings square to and on street alignments. Minimal breaks between buildings except where access to the rear of a site is provided. Dwellings are consistently set back further from the street.
Setting, landscaping, streetscape and public realm features	
Representative Buildings	[Not identified]

**Historic Areas affecting The Flinders Ranges Council**

FLRA1	<b>Quorn Historic Area Statement (FIRa1)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Turn of the 19 <sup>th</sup> century. Civic, commercial and retail. Railway.
	Allotments, subdivision and built form patterns	Traditional grid.
	Architectural styles, detailing and built form features	Villas and double fronted cottages. Railway buildings and railway architecture. Verandahs provided over footpaths. Heritage-style signage.
	Building height	Single storey. Two storeys associated with grand, civic or commercial activities.
	Materials	Local stone, masonry and corrugated iron.
Fencing	Open fencing no more than 1.2m.	
Setting, landscaping, streetscape and public realm features	Buildings square to and on the street alignment. Buildings not on street alignment surrounded by gardens/landscaping. Minimal breaks between buildings other than where there has been an existing access to the rear of the site. Wide streets and verges, grassed median strips and tree lined streets.	
Representative Buildings	[Not identified]	

**Historic Areas affecting Town of Gawler**

Ga1	<b>Gawler East Historic Area Statement (Ga1)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1850-1940; residential and local scale retail.
	Allotments, subdivision and built form patterns	The Area is divided into two sections by Lyndoch Road. Large allotments with large dwellings and gardens exist along High Street and Duffield Street. Smaller allotments exist along Lyndoch Road. Traditional grid north of Lyndoch Road. Allotments typically are of consistent width and depth, rectangular in shape orthogonal to the street layout apart from some dwellings facing Lyndoch Road on the north side, which have an angled front boundary. The pattern of streets stem from orthogonal junctions with Lyndoch Road and rising ground.
	Architectural styles, detailing and built form features	Victorian and Turn-of-the-Century Villas/Mansions. Nineteenth century double fronted symmetrical cottages; parapet end gables a feature. Bungalows with some Inter War. Roof pitches in the order of 27 degrees and 35 degrees. Stone walls and stone outbuildings.  Steeply pitched hipped and simple gable roofs of small and large scale. Large roofs typically gambrel in form with additional central gables and villa style projecting gable. Smaller early roof forms with ridge parallel to the street. Separate, generous verandahs to the street of bullnose, straight and concave form. Some return verandahs and some central entrance gable. Some verandahs continuous with main roof. Shallower pitched bungalow roof forms with simple generous roof planes and overhangs. Wide bungalow style verandahs with masonry supports and low plinth walls.
Materials	Sandstone/Limestone with red brick quoins. Ornate render. Corrugated profile roofing. Vertically proportioned painted timber window frames and doors. Painted timber cover battens. Decorative brick, stone or rendered chimneys. Cast iron decoration and painted timber detailing to verandahs.	
Building height	Single storey forms generally influenced by site topography.  Buildings on low side of streets appear as single storey with double level to rear, particularly in north west of area.  Buildings on high side of street appear as double storey or elevated single storey with verandahs occurring on high plinth and central access steps.	
Fencing	Low open style fencing which includes masonry pier and plinth fence with decorative open infill. Low masonry walls up to 1.2 metres. Timber picket fences. Hedges. Stone walls on front boundaries are important features.	

Statement#	Statement	
	Setting, landscaping, streetscape and public realm features	Important entrance to Gawler from east with significant north to south connecting streets such as Duffield and East. Unique angled street layout north of Lyndoch Road with Edith and Blanch Street connected by Short Street. North western edge defined by Railway Line. A portion of the west side faces Pioneer Park; some small scale mixed use to Union Street. North to south streets generally run with contours of land with high and low side. Generous front and side setbacks. Landscaped setting derived from generous gardens with substantial trees and wide tree-lined streets. Surfaces consistent with the footpaths and streets. Views to and from the area.
	Representative Buildings	Identified - refer to SA planning database.
Ga2	<p><b>Gawler South Historic Area Statement (Ga2)</b></p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1860 to 1950 including bungalows and Austerity.
	Allotments, subdivision and built form patterns	Generous allotments typically on flat land with some variations in topography towards Dead Man's Pass and river. Grid pattern intersected by Twelfth Street that shifts direction at Adelaide Road. Oblique street intersections and prominent irregular corner allotments as follows: Unique and variable Street pattern defined by Railway line, Adelaide Road, Racecourse, Gawler River and Town Centre. Eighteenth to twenty second street run east to west. First, Second and Fourth Streets run parallel with the northern Adelaide Road and join with Adelaide Road at an angle. Fifth, Seventh, Third and Sixth Streets connect to each side of Adelaide Road. Thirteenth, Fourteenth and Fifteenth Street and Eighth Streets angled to River. Smaller allotments to Ninth and Tenth Streets. Gawler Terrace defined by Dead Man's Pass.
	Architectural styles, detailing and built form features	<p>Detached double-fronted villas. Semi-detached and row cottages. Some Federation and Bungalow style dwellings. Some Inter War and Austerity. Verandahs and parapets. Substantial stone or masonry villas surrounded by generous gardens and landscaping.</p> <p>Traditional railway structures associated with the Gawler Railway Station including workshops, stores and industrial buildings and small.</p> <p>Roof pitches in the order of 27 degrees and 35 degrees. 'M' Roof form and gambrel roof found in 13th and 14th street vicinity. Gambrel roof forms to villas. Simple, small span cottage style roofs generally evident. Parapets to cottages.</p> <p>Separate verandahs including but not limited to generous sweeping concave style. Some verandahs continuous with main roof.</p>
	Building Height	Single storey with some elevated housing in Eighth Street and Gawler Terrace, featuring substantial setbacks and elevated verandahs. Wall heights in the order of 3.6 metres above floor level.
	Materials	Stone and limestone walling with red brick quoins. Some bluestone. Corrugated iron roof sheeting to verandahs and roofs. Red brick or render chimneys. Ornate brick detailing to gables and gable vents. Cast iron lacework to verandahs; typically simple timber details. Painted timber window frames, doors, roof trim and modest decorative treatments such as finials.
	Fencing	Low masonry walling. Low open style fencing which includes masonry pier and plinth fence with decorative open sections of up to 1.2 metres in total height. Painted timber picket fencing. Some woven wire fencing with painted timber posts.
	Setting, landscaping, streetscape and public realm features	Detached dwellings on generous wide and deep allotments. Generous front and side setbacks. Some early cottages with very substantial setbacks. The strong visual axis to the Railway Station buildings provided by Nineteenth Street. Boulevard style and character of Nineteenth Street derived from buildings positioned close to and square to the road frontage and designed to directly address the street. Corner sites where the grid is interrupted accommodating prominent buildings whose built form and side elevations are of equal importance to the façade. Established gardens with substantial front and side setbacks. Wide tree lined streets particularly Eighteenth Street, which incorporates gravel verges and remnant bluestone/slate kerbing to define bitumen. Night Cart lanes alignment and widths.
	Representative Buildings	Identified - refer to SA planning database.
	<p><b>Light Historic Area Statement (Ga3)</b></p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Residential, commercial, public and ecclesiastical buildings developed predominantly between 1850 to 1940, with some later Federation and Bungalows (Jerningham Street).
	Allotments, subdivision and built form patterns	Allotments, streets, squares and other elements which comprise the original 1839 grid layout of Light, Finniss and Co. Large allotments of original plan, with some limited subdivision generally on the perimeter of the State Heritage Area.
	Architectural styles, detailing and built form features	<p>Simple symmetrical double fronted cottages and villas surrounding the Church Hill State Heritage Area. Early small cottages and more substantial dwellings that retain simple symmetrical features, with vertically proportioned window openings and doors. Some parapet walling to early cottages.</p> <p>Roof pitches in the order of 27 degrees to 35 degrees. Variety of roof forms including simple small span gable and hipped to early cottages; 'M' roof</p>

Statement#	Statement	
Ga3		forms; villa with typical projecting gable; larger span and higher Gambrel roof.  Separate verandah forms with bullnose, straight pitch and concave verandahs of generous width. Some verandahs continuous with main roof.
	Building Height	Single storey facing street with double storey to rear due to escarpment.  External wall heights to frontage and sides in the order of 3.6 metres.
	Materials	Bluestone, sandstone and limestone external walling with typically red brick trim and features including quoins and plinth. Some external front and side walling entirely in red brick. Corrugated iron roofing generally with roof tiling rarely found on older buildings and only on more recent buildings. Prominent chimneys in brick, stone or render finish. Some elaborate brick detailing to gable vents and parapets.
	Fencing	Low masonry front walls. Significant stone retaining walls to edge of Church Hill escarpment. Low open style fencing which includes masonry pier and plinth fence with decorative open sections, painted timber picket and woven wire. Stone walls and retaining walls are important features.
	Setting, landscaping, streetscape and public realm features	Subdivision retains planning undertaken by Light, Finniss and Co in 1839. Low lying areas that rise from surrounding rivers to Church Hill State Heritage Area. King Street is located on a ridge so dwellings on both sides appear as single story to the street with double storey to rear. Wide streets with slate kerbs and substantial trees. Gardens in scale with the buildings and large allotments. Front setbacks to streets such as King, Queen, Howard and Cameron Streets outside of Church Hill State Heritage Area have lesser front setbacks and generous side setbacks; notable exception is Jerningham Street that exhibits generous setbacks.
	Representative Buildings	Identified - refer to SA planning database.
Ga4	<b>Mixed Use Historic Area Statement (Ga4)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1848 to 1940. Early Victorian through to Bungalow style. Intimate frontage commercial and retail with early to more recent residential in prominent locations. Substantial rear stone outbuildings and stone walling sometimes sharing a central dividing wall. Changing land use from early residential buildings to commercial uses, with minimal alteration to remnant residential character. Some prominent dwellings that retain a substantial land holding and visual prominence in the overall historic streetscape and main street appearance.
	Allotments, subdivision and built form patterns	Variable allotment sizes in a main street setting ranging from long and relatively narrow through to large. Area includes the important forked junction of Main North Road and Redbanks Road and the angled allotments that result from the road pattern. Rising ground from the Willaston Bridge northwards. The topography and physical limits of river, bridge and major road junction to the north retain the Willaston Township as a distinct and identifiable size.
	Architectural styles, detailing and built form features	Several wide shop and row shop frontages with front verandahs over footpath. Small scale shops with parapet walling above shopfront and separate verandahs, either over footpath or close to street frontage. Large dwellings with small to generous setbacks from street frontage, with separate concave, simple monopitch and bull nose verandahs. Early symmetrical cottages, generally elevated from the street frontage with minimal to generous setbacks, parapet end walls and small span simple gable roof forms with parapet ends. Traditional stone outbuildings and remnant walling at the rear or side of sites. Variety of roof forms ranging from simple small span gable through to longer span hipped gambrel and 'M' Roofs with some villa styles. Separate verandah forms with bull nose, simple pitch and concave.
	Building height	Single storey typically apart from the Willaston Hotel. Wall heights generally up to 3.5 to 4m on elevated sites.
Materials	Stone external walls with brick quoins and some ornate render detail. Painted timber supports to verandahs with modest decorated timber treatments. Stone, brick and render chimneys.	
Fencing	Low to medium height masonry walling some of which are retaining walls. Some open timber picket or rural style fencing.	
Setting, landscaping, streetscape and public realm features	Definition of the main street achieved through stone walling to front boundaries, verandahs close to and over front boundaries, and shop fronts. Buildings and allotments typically orthogonal to main street. Strong sense of arrival in defined separate village from Gawler achieved through rising land, road junctions, river and bridge.	
Representative Buildings	Identified - refer to SA planning database.	
	<b>Redbanks Road, Willaston Historic Area Statement (Ga5)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
Eras, themes and context	1850 to 1940. Residential.	
Allotments, subdivision and built form patterns	Redbanks Road is on rising ground to the north west. Large allotments with greater width mainly to the lower side and narrower allotments to the high side. Allotment shapes and dwelling placement suit rising ground. Allotments are generally orthogonal to Redbanks Road resulting in a unique north west orientation for allotments.	

Statement#	Statement	
Ga5	Architectural styles, detailing and built form features	<p>Victorian and turn-of-the-century villas and double fronted cottages with some small and substantial bungalow style.</p> <p>Typically larger span (front 4 rooms) hipped roof with gambrel.</p> <p>Some simple gable roof forms and 'M' roofs with ridge parallel to the street. Variety of separate verandahs including bullnose, double curve, concave and straight mono pitch. Roof pitch typically steep (27 to 35 degrees) with some shallower bungalow style roofs.</p>
	Building height	Single storey with wall heights in the order of 3.6m. Roof pitches in the order of 27 degrees to 35 degrees.
	Materials	Sandstone and limestone external walls of modest detail Corrugated iron roof sheeting. Painted timber window frames and doors, verandah posts and roof trim with modest embellishment. Red brick or rendered masonry chimneys.
	Fencing	Low stone walls and other open style fencing which includes woven wire with timber posts, picket and masonry pier and plinth fence with decorative open sections of up to 1.2 metres in total height. Stone walls and retaining walls due to rising ground.
	Setting, landscaping, streetscape and public realm features	Redbanks Road defined by walling and fending to street boundary with substantial gardens and street trees on the low (southern) side. Dwellings typically set back substantially from street frontage with generous spaces between Princess Park provides angled open space at angled junction of Redbanks Road with Princess Street. Slate kerbs.
	Representative Buildings	Identified - refer to SA planning database.
Ga6	<b>Special Uses Historic Area Statement (Ga6)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1850 to 1910.
	Allotments, subdivision and built form patterns	Open space surrounded by grid layout adapted to the topography of the rising ground and confluence of rivers and railway line.
	Architectural styles, detailing and built form features	<p>Some historic structures such as Gasworks, monuments, railway, showgrounds and bridges. Some more recent structures including recreation centre and smaller clubroom buildings associated with courts and pool.</p> <p>Gasworks has distinctive curved roof.</p>
	Building height	Approximately 6 metres for larger structures.
Materials	Sandstone and limestone external walls of modest detail. Corrugated iron roof sheeting. Bridge of steel and cast iron.	
Fencing	Typically no fencing or open fencing. Some solid metal fencing to Railway line at Showgrounds.	
Setting, landscaping, streetscape and public realm features	The topography and natural features of the locality including the path of the North and South Para Rivers. Public squares around the churches; terraces and parklands bordering the rivers.	
Representative Buildings	Identified - refer to SA planning database.	
Ga7	<b>Town Centre Gawler South Historic Area Statement (Ga7)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	1860 to 1910. Important residential area at change in direction of Adelaide Road from north to north east, interspersed with smaller shops that herald the southern entrance to Gawler with historic monument, park and church and former hall to each sides and former Council offices at Twelfth Street. Recent developments include the change of use for commercial or consulting purpose typically without alteration to the residential character.	
Allotments, subdivision and built form patterns	Wide and deep allotments orthogonal to Adelaide Road. Rear lane to south east side parallel to Adelaide Road typically used to access rear car parking areas.	
Architectural styles, detailing and built form features	<p>Victorian and turn-of-the-century detached and semi-detached villas and double fronted cottages. Some semi-detached dwellings and detached villas incorporate distinctive ornate render and brick detailing to gables and verandahs. Other semi-detached dwellings, cottages and detached vials incorporate modest detailing. Few intrusive modern infill buildings. Semi-detached residential buildings with short span hipped or gable roof forms and rear lean-to roofs; ridge typically parallel to Adelaide Road with many projecting gables as paired bookends to each building. Larger span (front 4 rooms) hipped roof with gambrel or 'M' roof with ridge parallel to the street. Variety of separate verandahs including bullnose, double curve, concave and straight mono pitch. Roof pitch typically steep (27 to 35 degrees).</p>	

Statement#	Statement	
	Building height	Single storey with wall heights in the order of 3.5-4.0 metres.
	Materials	Sandstone and bluestone external walls. Red brick quoins, parapets, vents and parapets. Some decorative render. Painted timber window frames and doors. Chimneys in brick or render.
	Fencing	Low stone or rendered masonry walling. Open style fencing with masonry pier and plinth fence with decorative open sections of up to 1.2 metres in total height.
	Setting, landscaping, streetscape and public realm features	Generous front garden settings set behind low masonry walling with substantial trees and wide tree-lined streets. Slate kerbs. Car parking is generally to the rear.
	Representative Buildings	Identified - refer to SA planning database.

Ga8	<b>Town Centre Light Historic Area Statement (Ga8)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Planning undertaken by Light, Finniss and Co in 1839. Historic civic and commercial heart of Gawler.
	Allotments, subdivision and built form patterns	Long relatively narrow allotments that span between Murray Street and High Street to the east and Julian Terrace to the west (south of Walker Place). Intersection with streets, squares and other elements which comprise the original 1839 grid layout of Light, Finniss and Co. Linear form that is positioned on a strong north/south axis with rising ground from south to the north. Area defined by the angled Adelaide Road entrance and junction with Murray Street, Gawler Mill and bridge on the south and angled road junctions with Lyndoch Road and Cowan Street to the north, the eastern escarpment and the river (Julian Terrace and avenue of Moreton Bay Figs). Area includes Gawler Central Railway Station precinct on the north side and Murray Street south of Bridge Street towards Dead Man's Pass. Pioneer Park and McKinlay's Monument mark the Cowan Street junction.
	Architectural styles, detailing and built form features	Substantial and ornate single and double storey buildings that demonstrate the importance of Gawler in the development of South Australia including civic and bank buildings, former church, hotels, former industrial buildings, terraces of shops, ground floor shop fronts and residential use above. Buildings constructed to the Murray Street frontage, some with generous verandahs and/or balconies to first floor over the footpath. Mostly narrow shopfronts contrasted by Essex House that demonstrates a rare consolidated wider shopfront to a single storey parapeted shop front.  Hipped and gable roof forms, some with gambrel typically set behind parapet with some exceptions which feature eaves with ornate corbel supports. Ridges generally run perpendicular to main street with some exceptions.
	Building Height	Two storey up to 8-10 metres.
	Materials	External walls of bluestone, sandstone or render with brick or rendered parapets. Painted timber or cast iron verandah supports. Painted timber shopfronts and window frames. Brick and render or stone chimneys. Corrugated iron roofing and some terracotta tile.
	Fencing	Some low front walling to former Baptist Church. Masonry walls with cast iron to bank buildings and Rudall and Rudall. Cast iron to ANZ bank building.
	Setting, landscaping, streetscape and public realm features	Buildings generally constructed to street frontage with verandahs over footpath. Some exceptions include former Baptist Church and bank buildings set behind front walling. The topography and natural features of the locality including the rising ground at Church Hill and Gawler East (which flank either side of the Town Centre) and the form of the North and South Para Rivers and their confluence.  The public squares around the churches and the terraces and parklands bordering the rivers.  Views of the Gawler East escarpment from Bridge Street South.
	Representative Buildings	Identified - refer to SA planning database.

	<b>Willaston Historic Area Statement (Ga9)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1848 to 1900. Residential with some former ecclesiastical use and form.
	Allotments, subdivision and built form patterns	Generous allotments typically orthogonal to the street with distinctive variation due to the number of angled intersecting streets. Recent residential infill development.
	Architectural styles,	Detached villas and double fronted cottages with rare semi-detached. Roof pitches in the order of 27 degrees to 35 degrees. Simple gable roof with

Statement#	Statement	
Ga9	detailing and built form features	parapet ends to semi-detached; 'M' Roof and hipped roof with gambrel.
	Building Height	Single storey with wall heights in the order of 3 to 3.6 metres.
	Fencing	Low open style painted timber picket and wire fencing. Stone walls to lower land.
	Materials	Typically sandstone, limestone with brick trim and modest decoration. Painted timber window frames and doors verandah posts and roof trim. Brick, render or stone chimneys.
	Setting, landscaping, streetscape and public realm features	Landscaped setting derived from wide streets at a variety of angled intersections, substantial trees and expansive allotments. Slate kerbs.
	Representative Buildings	Identified - refer to SA planning database.

**Historic Areas affecting City of Holdfast Bay**

HoB1	<b>Glenelg Village Historic Area Statement (HoB1)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	<p>1840s-1860s.</p> <p>1870s - 1900s.</p> <p>1910s - 1930s.</p> <p>Subdivision in 1839.</p> <p>Growth period in 1920s associated with increase in holidaymaking and leisure pursuits.</p>
	Allotments, subdivision and built form patterns	<p>Orderly street layout, centred around the St Peters Anglican Church in Torrens Square.</p> <p>Grid pattern of large allotments.</p> <p>Subject to further land division over time but legibility of original pattern remains.</p> <p>Consistent small front setbacks.</p> <p>Small side setbacks.</p>
Architectural styles, detailing and built form features	<p>Early symmetrical and asymmetrical cottages of low scale and simple form with restrained detailing.</p> <p>Mid-Victorian Period cottages and villas (symmetrical and asymmetrical), semi-detached cottages and row dwellings with detailing typical of the era including verandahs, cast iron lacework, hipped and gable roof forms, plaster and render mouldings.</p> <p>Inter-War buildings, mostly Bungalows.</p> <p>Low scale to medium, relatively small dimensions and basic building details.</p> <p>Many dwellings without vehicle garaging.</p> <p>Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade.</p> <p>Rectilinear plan forms.</p> <p>High degree of modulation and articulation.</p> <p>Low scale.</p> <p>Steep roof pitches in the order of 30 to 40 degrees (slightly lower on Inter-War buildings).</p> <p>Short roof spans.</p> <p>Hip and gable roof forms.</p> <p>Concave, bullnose and straight-pitched verandahs.</p> <p>Fine-grain detail in elements such as plinths, string courses, projecting sills.</p> <p>High solid to void ratio.</p> <p>Vertical proportions in windows and doors.</p>	
Building height	Predominantly single storey but some two storey.	
Materials	Consistent with the materials used in the 1840s to 1930s period.	

Statement#	Statement
	Bluestone, sandstone, walls (unpainted). Some brick. Brick or rendered quoin work and plinths. Corrugated iron roofing. Timber joinery including verandah posts and framing, fascia, barges, window frames, door frames and doors.
Fencing	Fencing associated with the era and style of the building, and providing views to the building. Timber picket, timber dowel, timber paling. Hedging. Low masonry plinth with cast iron or wrought iron in a traditional arrangement. Woven wire or low masonry with or without geometric steel for Inter-war buildings.
Setting, landscaping, streetscape and public realm features	Well established streetscape character, with clearly defined setbacks and uniform front landscaping. Substantial Norfolk Island Pines along Augusta Street and Fig trees at Torrens Square. Vistas toward St Peters Anglican Church from Augusta and Nile Streets.
Representative Buildings	Identified - refer to SA planning database.

HoB2	<b>Maturin Road Historic Area Statement (HoB2)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1920s or 30s.
	Allotments, subdivision and built form patterns	Original subdivision of The Olives and Bromley. Allotments on southwest end were subdivided in 1886 and 1912. Mixed allotment sizes with large frontages. Substantial building setbacks. Large front setbacks. Side setbacks provide visual spacing between dwellings.
	Architectural styles, detailing and built form features	Typical 1890s to early 20th Century dwellings. Victorian dwellings. Inter-War dwelling styles including Bungalow, Tudor, Art Deco and Mediterranean. Rectilinear plan forms. High degree of modulation and articulation. Low scale. Steep roof pitches in the order of 30 to 40 degrees (slightly lower on Inter-War buildings). Short roof spans. Hip and gable roof forms. Deep verandahs and porches. Fine-grain detail in elements such as plinths, string courses, projecting sills. High solid to void ratio. Vertical proportions in windows and doors. Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade.
	Building height	Single storey and two storey (some in-roof or partly in-roof).
	Materials	Consistent with the materials used in the 1880s to 1930s period.

Statement#	Statement	
		Sandstone, red brick, rendered facades. Corrugated iron and terracotta tiled roofing. Timber joinery including verandah posts and framing, fascia, barges, window frames, door frames and doors. Timber strapping on Inter-War dwelling gables.
Fencing		Fencing associated with the era and style of the building, and providing views to the building. Timber picket, timber dowel, timber paling. Hedging. Low masonry plinth with cast iron or wrought iron in a traditional arrangement. Woven wire or low masonry with or without geometric steel for Inter-war buildings.
Setting, landscaping, streetscape and public realm features		Narrow street. Well-established garden settings. Lack of street planting due to the narrow width of Maturin Road. The Olives is a significant State Heritage Place on Olive Street.
Representative Buildings		Identified - refer to SA planning database.

<b>Da Costa Park Historic Area Statement (HoB3)</b>		
The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.		
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.		
The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
Eras, themes and context		1923 subdivision. 1920s - 1930s dwellings.
Allotments, subdivision and built form patterns		Subdivision is indicative of 1920s town planning with angled, diagonal streets centred radially around a central park or reserve. Garden city theory in practice. The pattern of the subdivision and the arrangement and size of individual allotments remains largely unaltered. Large allotments with large frontages. Consistent, large front setbacks. Side setbacks provide visual spacing between dwellings.
Architectural styles, detailing and built form features		Inter-War style dwellings including Tudor Revival, Californian bungalow, Art Deco, and some Spanish mission. Rectilinear plan forms. High degree of modulation and articulation. Low scale. Steep roof pitches in the order of 25 to 35 degrees. Short roof spans. Hip and gable roof forms. Deep verandahs and porches. Fine-grain detail in elements such as plinths, string courses, projecting sills. High solid to void ratio. Vertical proportions in windows and doors. Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade.
Building height		Single storey.
Materials		Consistent with the materials used in the 1920s to 1930s period. Terracotta tiled and corrugated iron roofing. Brick, sandstone, and stucco and part-rendered finishes.

HoB3

Statement#	Statement	
		Roofing, facades and fenestration in natural red brick and terracotta colouration. Timber joinery including fascia, barges, window frames, door frames and doors. Timber strapping on Inter-War dwelling gables.
Fencing		Fencing associated with the era and style of the building, and providing views to the building. Woven wire. Low masonry with geometric steel. Low masonry (stepped). Low masonry fencing (often stepped). Low Rock face sandstone. Hedging.
Setting, landscaping, streetscape and public realm features		Centred around Da Costa Park, with its triangular landscaped area and mature trees. Relatively wide streets.
Representative Buildings		Identified - refer to SA planning database.

<b>New Glenelg Historic Area Statement (HoB4)</b>		
The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.		
These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.		
The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
Eras, themes and context		Subdivided in 1850. Buildings 1860s - 1900s and 1920s - 1930s. Most intense development occurred in 1870s and 1880s. Further development in 1920s - 1930s (Interwar period).
Allotments, subdivision and built form patterns		Varying allotment sizes and street width. Larger allotment sizes in some areas to the west along Broadway, Robert Street and South Esplanade. Smaller allotment sizes are predominant throughout the Bath Street area, and between Hastings and Moseley Streets. Uniform, large allotment sizes and large frontages along Penzance and Partridge Streets. Front setbacks vary from street to street across the area. Front setbacks are however consistent along individual streetscapes. Side setbacks provide visual spacing between dwellings.
Architectural styles, detailing and built form features		All domestic architectural types from the 1870s to 1880s, from the largest of seaside mansions (e.g. South Esplanade) to the humblest of workers cottages (e.g. John Street). Late Victorian to early 20 <sup>th</sup> Century Period architecture. Early symmetrical and asymmetrical cottages of low scale and simple form with restrained detailing. Mid-Victorian Period cottages and villas (symmetrical and asymmetrical), semi-detached cottages and row dwellings with detailing typical of the era including verandahs, cast iron lacework, hipped and gable roof forms, plaster and render mouldings. Inter-War buildings, mostly Bungalows. Many dwellings without vehicle garaging. Garages, carports and outbuildings, where they exist, are low in scale and simple in form. They are located unobtrusively, to the rear of dwellings or the principal building on the site or, alternatively to the side and well-setback from the front façade. Rectilinear plan forms. High degree of modulation and articulation. Low scale. Steep roof pitches in the order of 30 to 40 degrees (slightly lower on Inter-War buildings). Short roof spans. Hip and gable roof forms. Concave, bullnose and straight-pitched verandahs. Fine-grain detail in elements such as plinths, string courses, projecting sills. High solid to void ratio. Vertical proportions in windows and doors.

HoB4

Statement#	Statement	
	Building height	Predominantly single storey.
	Materials	Consistent with the materials used in the 1840s to 1920s period. Sandstone, bluestone and brick. Corrugated iron and tiled roofing. Timber joinery including verandah posts and framing, fascia, barges, window frames, door frames and doors. Timber strapping on Inter-War dwelling gables.
	Fencing	Fencing associated with the era and style of the building, and providing views to the building. Timber picket, timber dowel, timber paling. Hedging. Low masonry plinth with cast iron or wrought iron in a traditional arrangement. Woven wire or low masonry with or without geometric steel for Inter-war buildings.
	Setting, landscaping, streetscape and public realm features	Norfolk Island pines throughout. Mature oak street trees along Moseley Street. Vistas over the ocean to the west of the Historic Area.
	Representative Buildings	Identified - refer to SA planning database.

**Historic Areas affecting Kangaroo Island**

K11	<b>Penneshaw Historic Area Statement (K11)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Coastal village.
	Allotments, subdivision and built form patterns	[Not stated]
	Architectural styles, detailing and built form features	[Not stated]
	Building height	[Not stated]
	Materials	[Not stated]
	Fencing	[Not stated]
	Setting, landscaping, streetscape and public realm features	[Not stated]
	Representative Buildings	[Not identified]

**Historic Areas affecting Light Regional Council**

Lig1	<b>Daveyston Historic Area Statement (Lig1)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality. These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area. The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Early development C1850's in support of mining and trade and later development (C1870's) in support of agricultural pursuits.
	Allotments, subdivision and built form patterns	Large allotments characteristic of their rural setting and focused along the Old Sturt Highway.
	Architectural styles, detailing and built form features	A mix of both large and smaller homes of typical construction representing a range of periods.

Statement#	Statement	
	Building height	Single storey built scale to the streetscape.
	Materials	Consistent with the materials associated with the architectural styles of the subject building and streetscape.
	Fencing	Low, open fencing reflective of the architectural style of the subject building.
	Setting, landscaping, streetscape and public realm features	Rural setting with the presence of large mature trees and minimal front boundary setback commensurate to the undulating nature of the township.
	Representative Buildings	Identified - refer to SA planning database.

Statement#	Statement	
Lig2	<b>Freeling Historic Area Statement (Lig2)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Mixed era and style of development comprising early buildings dating from 1880's - 1920's aligned with early farming settlement and the townships reliance on the railway and later grand villas (C1910).
	Allotments, subdivision and built form patterns	Conventional land division pattern with a mix of allotment sizes.
	Architectural styles, detailing and built form features	A mix of building types including stately and modest villas, single and double fronted cottages, interwar bungalows, galvanised iron homes, and symmetrical cottages representing a range of periods.  Numerous prominent church buildings used for a range of worship and residential purposes.
	Building height	Single storey built scale to the streetscape.
	Materials	Consistent with the materials associated with the architectural styles of the subject building and streetscape.
	Fencing	Low, open fencing reflective of the architectural style of the subject building.
Setting, landscaping, streetscape and public realm features	Wide streets and expansive allotments, generous siting characteristics and substantial gardens and trees.  Areas of narrow streets and laneways and compact allotment layout.	
Representative Buildings	Identified - refer to SA planning database.	

Statement#	Statement	
Lig3	<b>Greenock Historic Area Statement (Lig3)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Early development dating from C1847 onwards and predominance of masonry residential structures.
	Allotments, subdivision and built form patterns	Mixed allotment sizes with a dominance of deep allotments.
	Architectural styles, detailing and built form features	A mix of building types with a predominance of stone residential structures however presence of other types including corrugated iron.
	Building height	Single storey built scale to the streetscape.
	Materials	Consistent with the materials associated with the architectural styles of the subject building and streetscape.
	Fencing	Low, open fencing reflective of the architectural style of the subject building.
Setting, landscaping, streetscape and public realm features	Areas of wide streets and narrow laneways adding to the village feel and focused around the Greenock Creek.	
Representative Buildings	Identified - refer to SA planning database.

Allotments, subdivision and built form patterns	Large conventional land division pattern with a mix of allotment sizes.	Architectural styles, detailing and built form features	A mix of building types including small villas and cottages representing a range of periods.	Building height	Single storey built scale to the streetscape.	Materials	Consistent with the materials associated with the architectural styles of the subject building and streetscape.						
Eras, themes and context	1870's to 1880's dwellings with later development dating from the 1920's and 1930's and the dominance of the railway.																	
Allotments, subdivision and built form patterns	Large conventional land division pattern with a mix of allotment sizes.																	
Architectural styles, detailing and built form features	A mix of building types including small villas and cottages representing a range of periods.																	
Building height	Single storey built scale to the streetscape.																	
Materials	Consistent with the materials associated with the architectural styles of the subject building and streetscape.																	

Statement#	Statement	
	Fencing	Low, open fencing reflective of the architectural style of the subject building.
	Setting, landscaping, streetscape and public realm features	Areas of wide streets and expansive allotments with established street trees.
	Representative Buildings	Identified - refer to SA planning database.

**Historic Areas affecting City of Marion**

Worthing Mine Historic Area Statement (Mar1)		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
Mar1	Eras, themes and context	1850/51. Structures and workings associated with Worthing Mine site.
	Allotments, subdivision and built form patterns	Sited in the steep valley of the Field River.
	Architectural styles, detailing and built form features	Mine, Chimney and Pump House/Engine House associated with copper mining (oldest surviving Cornish Engine House in Australia).
	Building height	[Not stated]
	Materials	Random rubble with timber lintels.
	Fencing	[Not stated]
	Setting, landscaping, streetscape and public realm features	Sited in the steep valley of the Field River amongst undulating grassland. Recent housing development is located to the north, west and east of the site (200m plus in distance). Views to the Worthing Mine are available from parts of the adjacent residential areas.
	Representative Buildings	[Not identified]

**Historic Areas affecting City of Mitcham**

Residential (Central Plains) Historic Area Statement (Mit1)		
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>		
	Eras, themes and context	Early 20th century dwellings.
	Allotments, subdivision and built form patterns	Substantial rectangular blocks. Substantial consistently wide and deep rectangular blocks that retains the historic pattern of land division. Consistent generous spacing between dwellings.
	Architectural styles, detailing and built form features	Predominance of Queen Anne style villas and bungalow style dwellings. A number of early villas. Steeply pitched hipped and gable roof forms including smaller scale corner gable to return verandah villas. Separate typically bull nose verandah with some a continuation of the main roof form. Return verandahs particularly at corner allotments. Bungalows with slightly shallower roof pitch, simple generous roof plane facing the street with main ridge typically parallel to street. Wide Bungalow verandahs with tapered or upright masonry support piers and low infill walling. Timber framed and iron clad awnings to windows. Tudor roof forms generally steeper with two main projecting gables and smaller gable porch over main entrance.

Statement#	Statement	
Mit1	Building height	Predominately single storey with external wall height of 3-3.5 metres. Second storey development located within the roof space or to rear of dwellings.
	Materials	Original materials, finishes and profiles of building elements. External walls of sandstone, rendered masonry, face brick Decorative wall treatments such as rendered, or brick quoins and low plinths defined by cant brick set out. Painted timber cover battens to gables and roof trim. Painted decorative timber to verandahs and finials to gables. Verandahs supported on timber posts with some on painted masonry pillars. Roofs of corrugated galvanised iron cladding or terracotta tiles. Original unpainted plaster, brickwork, stonework or other masonry preserved unpainted. Decorated face brick or rendered masonry chimneys. Painted metal gutters to D or OG profile and round painted metal downpipes. Painted timber window frames and doors.
	Fencing	Typically fences reflect the era of the dwelling. Low masonry plinth and post, wrought iron, brush, timber woven with wire, painted timber picket. Height of 1.2m. Rear and side boundary fences located behind the front dwelling alignment 1.8m in height in corrugated profile metal.
	Setting, landscaping, streetscape and public realm features	Regularly planted tree lined verges. Established front gardens. Consistent setback of buildings.
	Representative Buildings	Identified - refer to SA planning database.

Mit2	<b>Adey Road Historic Area Statement (Mit2)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1879 subdivision with predominance of buildings built between 1881-1920.
Allotments, subdivision and built form patterns	Traditional pattern and scale of low density, rectangular allotments associated with the original subdivision for the purpose of detached dwellings. Variable width to allotments. East side is orthogonal to Adey Road. West side has angled side boundaries to Adey Road.	
Architectural styles, detailing and built form features	Detached dwellings of simple, modest, small scale with symmetrical early stone and brick villas. Victorian Regency and Edwardian to smaller and later bungalows. Gambrel roof typically with short ridge parallel to street, with projecting gable. Simple 'M' Roof with ridge parallel to street. Federation style verandahs continuous with main roof. Separate verandahs attached to main wall of varying profiles. Some bungalow influence roof forms and verandahs with masonry support piers and low plinth wall.	
Building height	Predominantly single storey with external wall height of 3 - 3.5 metres. Second storey development located within the roof space or to rear of dwellings behind ridgeline of roof. Second storey windows with total length less than 30 percent of total roof length along each elevation.	
Materials	Original materials, finishes and profiles of building elements. External walls incorporating sandstone, red brick, render. Roof in corrugated metal cladding. Render with some ornate detail to window surrounds. Simple painted timber detail and roof trim.	

Statement#	Statement
	<p>Painted timber window frames and doors.</p> <p>Simple and modestly detailed timber posts to verandah.</p> <p>Red brick or render chimneys, some tapered in height with some ornate detailing.</p> <p>Some ornate painted timber barge boards and finials.</p> <p>Most original unpainted plaster, brickwork, stonework or other masonry is preserved unpainted.</p>
Fencing	<p>Low and/or open fencing, typically in the form of hedges, woven wire, timber picket or low stone walls reflecting and the traditional period, style and form of the associated building.</p> <p>Generally, no more than 1.2m in height.</p> <p>Rear and side boundary fences located behind the front dwelling alignment no more than 1.8 metres in height.</p>
Setting, landscaping, streetscape and public realm features	<p>Minimal driveway widths with established front gardens dominant, including mature vegetation.</p> <p>Sense of space between buildings.</p> <p>Sloping land with minimal alteration to the land form.</p> <p>Bowling Club provides focal point and sense of Place.</p> <p>Traditional dwelling pattern located parallel to front boundaries.</p>
Representative Buildings	<p><i>[Not identified]</i></p>

<p><b>Hack - Mill Streets, Mount Barker Historic Area Statement (MtB7)</b></p>	
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
<p>Eras, themes and context</p>	<p>From 1850's-early to 1910.</p> <p>Buildings and character that represent residential land uses, and streetscapes of the town's early settlement continuing into the middle of the 20<sup>th</sup></p>

Statement#	Statement	
MtB7		Century. Small scale, single storey detached built form of early European settlements.
	Allotments, subdivision and built form patterns	Part of the original subdivision of the town. Predominantly consistent setbacks. Varying allotment sizes. Garden settings and generous spaces between buildings.
	Architectural styles, detailing and built form features	Worker's cottages and villas. Early stone cottages and interwar dwellings. Varying size and style. Symmetrical early dwellings. Asymmetrical early and interwar dwellings. Typically gabled, hipped or half gabled roofs (with the exception of one half hipped roof). Verandahs generally as a continuation of the main roof. Some verandahs separate to the main roof. Bullnose, concave and monopitch verandahs.
	Building height	Single storey. External wall height varies from 3 to 4 metres.
	Materials	Dressed stone. Course rubble. Rendered external walls. Brick quoins. Painted timber window frames and doors. Painted timber verandah posts with some ornate decoration. Brick or rendered chimneys. Corrugated profile sheet roofing.
	Fencing	Timber picket, timber post and rail or no fencing.
	Setting, landscaping, streetscape and public realm features	Footpaths and verges unmade.
	Representative Buildings	Identified - refer to SA planning database.

MtB8	<b>Kanmantoo Historic Area Statement (MtB8)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	From 1849. Structures reflecting early local production and value adding industries. Buildings and structures predominantly dating from the 19 <sup>th</sup> century reflecting mining history and early settlement.
	Allotments, subdivision and built form patterns	Diamond grid layout. Small cottages on large allotments.
	Architectural styles, detailing and built form features	Early stone dwellings, outbuildings, ecclesiastical, civic and shops. Small scale, single storeyed, detached and semi-detached buildings and structures dating predominantly from the 19 <sup>th</sup> century. Parapet walls to shop fronts. Symmetrical frontages. Separate verandahs or verandahs as continuations of the main roof. Pioneer building techniques and materials typical of a former mining settlement. Some adaptation of early industrial or rural structures to dwellings. Hipped and gable roof forms. Parapet ends to shop fronts. Separate verandahs or verandahs as continuations of the main roof. Concave, bullnose or monopitch profile verandahs.
	Building height	Single storey, 3 - 4 metres high.
Materials	Stone external walls. Some rendered walling. Corrugated profile roof sheeting. Painted timber window frames and doors. Painted timber verandah posts. Brick, render or stone chimneys.	
Fencing	No fencing.	

Statement#	Statement		
	Setting, landscaping, streetscape and public realm features	Vegetated landscape setting including mature and significant trees. Views provided by significant gum tree and creek to the east, and former Black Dog Inn on Old Princes Highway, create a sense of arrival to the township. Open landscape / rural setting character. Footpaths and verges unmade.	
	Representative Buildings	Identified - refer to SA planning database.	
MtB9	<b>Littlehampton Historic Area Statement (MtB9)</b>		
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.		
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.		
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.		
	Eras, themes and context	From 1857. Buildings and structures predominantly dating from the 19 <sup>th</sup> century and early 20 <sup>th</sup> century. Major service centre for rural hinterland. Buildings, structures and sites reflecting early local production and service provisions.	
	Allotments, subdivision and built form patterns	Long narrow allotments typically orthogonal to the street. Varying setbacks from street frontage. Elevated allotments to south side of Princes Highway.	
	Architectural styles, detailing and built form features	Early stone dwellings, outbuildings, shops, civic buildings and churches. Symmetrical or asymmetrical frontages. Single storeyed, detached built form. Early European settlements. Interwar bungalows. Hipped and gable roof forms. Separate verandahs with concave, bullnose or monopitch form. Verandahs as a continuation of the main roof Some parapets to shop fronts.	
	Building height	Dwelling external wall varies from 3 to 4 metres. Shops, civic and churches wall height varies.	
Materials	Stone external walls. Brick external walls. Some rendered walling. Brick quoins. Corrugated profile sheet roofing. Painted timber window frames and doors. Painted timber verandah posts. Masonry and masonry half columns to verandahs. Brick, render or stone chimneys.		
Fencing	Hedging to street fronts. Some timber picket fencing. Rendered masonry retaining walls.		
Setting, landscaping, streetscape and public realm features	Mature indigenous and significant trees. Vegetated landscape. Shop verandahs providing amenity to pedestrians.

	Eras, themes and context	<p>From 1840's and 19th Century. Buildings, sites and structures represent the town's service provision to the local farming district.</p> <p>19<sup>th</sup> century buildings associated with commercial and community services.</p>
	Allotments, subdivision and built form patterns	Laid out around a village green, Davenport Square by the Angas River. Regular and repeated pattern of allotments becoming denser to the northern end of Strathalbyn road.
	Architectural styles, detailing and built form features	<p>Early stone dwellings and outbuildings, shops and hotels.</p> <p>Small scale, single storeyed, detached buildings and structures dating predominantly from the 19<sup>th</sup> century.</p> <p>Parapet walls to shop fronts.</p> <p>Symmetrical frontages.</p> <p>Separate verandahs of a concave, monopitch or bullnose profile.</p> <p>Verandahs as a continuation of the main roof.</p>
	Building height	Dwelling external wall height 3 - 4 metres.
	Materials	<p>Stone external walls.</p> <p>Brick external walls.</p> <p>Brick quoins.</p> <p>Some rendered walling.</p> <p>Corrugated profile sheet roofing.</p> <p>Painted timber window frames and doors.</p> <p>Painted timber verandah posts with some ornate decoration.</p> <p>Brick, render or stone chimneys.</p>
	Fencing	<p>Timber picket fencing.</p> <p>Low stone wall.</p>
	Setting, landscaping, streetscape and public realm features	<p>Mature street trees.</p> <p>Davenport square and Anglican Church provide sense of place.</p> <p>Views of significant buildings along Venables Street.</p> <p>Wide main street.</p> <p>Shop verandahs provide shelter amenity to pedestrians.</p> <p>Footpath and verge unmade to eastern side of Strathalbyn Road.</p>
	Representative Buildings	Identified - refer to SA planning database.

	<b>Meadows Historic Area Statement (MtB11)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	<p>Unofficial subdivision in 1856. Official subdivision 1884.</p> <p>Buildings, structures and sites that represent the town's governmental, local production, community and commercial service provision role to the district.</p>

Statement#	Statement
MtB11	Buildings predominantly from the 19 <sup>th</sup> century and early 20 <sup>th</sup> century.
	Allotments, subdivision and built form patterns Linear subdivision layout orthogonal to the street. Deep allotments.
	Architectural styles, detailing and built form features Stone dwellings and shops. Brick or stone civic buildings and churches. Small scale, single storeyed, detached dwellings dating predominantly from the 19 <sup>th</sup> century and early 20 <sup>th</sup> century. Symmetrical 19 <sup>th</sup> and early 20 <sup>th</sup> century dwellings. Asymmetrical interwar dwellings and shops. Parapet ends to shop fronts. Hipped and gable roof forms. Separate verandahs with concave, bullnose or monopitch profile. Verandahs as a continuation of the main roof.
	Building height Dwelling external wall height varies from 3 to 4 metres.
	Materials Stone external walls. Brick external walls. Some rendered walling. Corrugated profile sheet roofing. Painted timber window frames and doors. Painted timber verandah posts. Masonry columns or half columns. Brick, render or stone chimneys.
	Fencing Low masonry wall. Timber post and rail. Timber picket fence. No fence.
	Setting, landscaping, streetscape and public realm features Memorial garden and council reserve along the creek provide sense of place. Mature deciduous street trees to both sides of road. Vegetated landscape.
	Representative Buildings Identified - refer to SA planning database.

<b>Nairne Historic Area Statement (MtB12)</b>	
<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
Eras, themes and context	From 1839. Buildings and structures predominantly dating from the late 19 <sup>th</sup> century reflecting surrounding agricultural activity, mining, smelting and civic services. Predominately small scale, single storeyed detached dwellings. Buildings from the 1920s to 1960s include greater economic development and clustering's of interwar dwellings and World War Two Housing Trust dwellings.
Allotments, subdivision and built form patterns	Subdivision pattern responsive to town's topography and contours of the creek. Original alignment of roads, streets and allotment layouts remain. Deep, narrow allotments.
Architectural styles,	Early stone dwellings, outbuildings, shops, hotels and churches.

Statement#	Statement	
MtB12	detailing and built form features	<p>Compact, intact and rustic collection of small scale, single storeyed, detached and semi-detached buildings and structures dating predominantly from the 19<sup>th</sup> century.</p> <p>Pioneer building techniques and materials typical of an early settlement.</p> <p>Symmetrical frontages to early buildings.</p> <p>Asymmetrical frontages to interwar buildings.</p> <p>Hipped and gable roof forms.</p> <p>Parapet ends to shop fronts.</p> <p>Separate verandahs with concave, bullnose or monopitch profile.</p> <p>Some verandahs as continuations of the main roof.</p>
	Building height	Single storey dwelling external wall height varies from 3 to 4 metres.
	Materials	<p>Stone external walls.</p> <p>Brick external walls.</p> <p>Some rendered walls.</p> <p>Brick quoins.</p> <p>Corrugated profile sheeting roofing.</p> <p>Painted timber window frames and doors.</p> <p>Painted timber verandah posts with some ornate decoration.</p> <p>Brick, render or stone chimneys.</p>
	Fencing	<p>Timber picket fencing.</p> <p>Some timber post and rail.</p> <p>Hedging to street front.</p> <p>Low masonry walls.</p>
	Setting, landscaping, streetscape and public realm features	<p>Verandahs, canopies and balconies provide shelter to pedestrians on Old Princes Highway.</p> <p>Some gravel paths to Edinburgh Street.</p> <p>Mature street trees to Old Princes Highway.</p>
	Representative Buildings	Identified - refer to SA planning database.

MtB13	<b>Paddys Hill, Mount Barker Historic Area Statement (MtB13)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	<p>1848.</p> <p>Detached dwellings of early European settlements.</p> <p>A visual landmark of the eastern landscaped boundary of the town.</p> <p>Area represents religious beliefs including places of study, worship and burial in a landscaped setting.</p>
Allotments, subdivision and built form patterns	<p>Open landscape.</p> <p>Varying allotment sizes.</p>	
Architectural styles, detailing and built form features	<p>Early stone dwellings.</p> <p>Single and double storeyed detached villas dating predominantly from the late 19<sup>th</sup> and early 20<sup>th</sup> century.</p> <p>Symmetrical frontages.</p> <p>Separate verandahs or as continuation of main roof.</p> <p>Hipped and gable roof forms with ridge typically parallel to the street.</p> <p>Verandahs with bullnose, concave or monopitch form.</p>	
Building height	Single storeyed dwellings external wall height varies from 3 to 4 metres.	

Statement#	Statement	
		Double storeyed dwellings external wall height varies from 6 to 8 metres.
	Materials	Stone external walls. Brick quoins. Corrugated profile sheet roofing. Painted timber window frames and doors. Painted timber verandah posts with some ornate decoration. Brick, render or stone chimneys.
	Fencing	Timber post and rail. Timber posts and woven wire mesh.
	Setting, landscaping, streetscape and public realm features	Vegetated landscape setting. Mature eucalypts along Paddys Hill Road, Springs Road, Dutton Road, Railway Place and Daddow Road.
	Representative Buildings	Identified - refer to SA planning database.

MtB14	<b>Hahndorf, North Approaches Historic Area Statement (MtB14)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Mid to late 19th and early 20th Century. Dwellings associated with pioneer families and development of the district. Indicative of boom period from late 1880's to early 1900's. Adjacent to the Hahndorf State Heritage Area.
	Allotments, subdivision and built form patterns	Large detached dwellings. Substantial gardens with interspersed view to the rural hinterland Generous setbacks of building from the main road. Linear residential development along the main arterial road to Adelaide.
	Architectural styles, detailing and built form features	Late 19 <sup>th</sup> and early 20 <sup>th</sup> century stone villas, cottages and bungalows. Some early Germanic influence buildings. Predominantly single storeyed, detached and semidetached buildings and structures. Some double storeyed buildings. Symmetrical frontages to villas and cottages. Asymmetrical frontages to bungalows and some villas. Pioneer building techniques and materials. Parapet walls to end gables.
Building height	External wall heights varies from 3 to 8 metres.	
Materials	Stone external walls. Some brick external walls. Some rendered walling. Corrugated profile sheet roofing. Painted timber window frames and doors. Painted timber verandah posts with some ornate decoration. Brick, render or stone chimneys.	
Fencing	Timber picket fence.	

Statement#	Statement	
		Hedging to street front. Low masonry.
Setting, landscaping, streetscape and public realm features		Open landscaping indicative of traditional rural entrance to township. Mature deciduous street trees. Predominantly unmade verges and footpaths. Street furniture unadorned.
Representative Buildings		<i>[Not identified]</i>

Statement#	Statement	
MtB15	<b>Pine Avenue, Hahndorf Historic Area Statement (MtB15)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Interwar. Single storeyed, detached built form of Interwar developments. Structures reflect continuing prosperity of the town well into the mid-20 <sup>th</sup> century. Adjacent to the Hahndorf State Heritage Area.
	Allotments, subdivision and built form patterns	Long allotments typically orthogonal to the street. Substantial curtilage around existing dwellings. Generous setbacks between dwellings and to the street.
	Architectural styles, detailing and built form features	Late 19 <sup>th</sup> century and late 20 <sup>th</sup> century stone villas and bungalows. Intact collection of single storeyed, detached and semidetached buildings. Symmetrical and asymmetric frontages. Some sun-rooms within verandah roof. Masonry columns or half columns. Hipped and gable roof forms. Projected front gables. Separate verandahs or as a continuation of the main roof.
	Building height	External wall height varies from 3 to 4 metres.
	Materials	Dressed stone / ashlar. Brick quoins. Corrugated profile sheet roofing. Painted timber window frames and doors. Brick, render or stone chimneys.
	Fencing	Low masonry. Timber picket.
Setting, landscaping, streetscape and public realm features	Mature deciduous street trees. Generous setbacks and street trees provide sense of second entrance into rural township.	
Representative Buildings	<i>[Not identified]</i>

MtB19	<b>Kia-Ora Street, Mount Barker Historic Area Statement (MtB19)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	From early 20th Century to 1950's. Interwar architecture. Small compact dwellings which reflect the continuing prosperity of the town well into the mid-20 <sup>th</sup> century. Represents a period of housing and streetscaping largely intact. Stone and brick reflective of prominence of masonry and brickworks within the area.
	Allotments, subdivision and built form patterns	Varying allotment sizes orthogonal to the street, becoming deeper towards the creek. Small front setbacks. Reasonably consistent widths to street frontage. Unique no through road.
	Architectural styles, detailing and built form features	Dressed stone and red brick construction. Single storeyed, detached dwellings. Asymmetric frontages.
	Building height	External wall height varies from 3 to 4 metres.
	Materials	Dressed stone and red brick external walls. Brick quoins. Some rendered walling. Corrugated profile roof sheeting. Tiled roofs. Painted timber window frames and doors. Some painted timber verandah posts with ornate decoration. Painted masonry columns and half columns. Brick or render chimneys.
	Fencing	Low masonry. Timber post and woven wire. No fencing.
	Setting, landscaping, streetscape and public realm features	Verges and footpath unmade. Compact, residential setting character.

**Historic Areas affecting City of Mount Gambier**

	<b>Bay Road Historic Area Statement (MtG1)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	

Statement#	Statement	
MtG1	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Development from period of settlement up to and including the 1920s.
	Allotments, subdivision and built form patterns	Generous allotment sizes. Extensive street and side boundary set-backs.
	Architectural styles, detailing and built form features	Large single storey houses with hipped and gabled galvanised iron roofs; and generous verandahs.
	Building height	Predominantly single storey, with two storey additions within roof space to rear of buildings.
	Materials	Varied building construction but generally comprising dolomite or limestone walling with quoins.
	Fencing	Original fences constructed of Mount Gambier stone, dolomite, scoria, basalt or flint, limestone retaining walls.  Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building.
	Setting, landscaping, streetscape and public realm features	Well maintained, mature gardens that contribute to a pleasant, open streetscape. Streetscape improvements within the area have particular emphasis on Bay Road as the entry to the Volcanic Complex State Heritage Area.
	Representative Buildings	Identified - refer to SA planning database.
MtG2	<p><b>Doughty Street and Wehl Street North Historic Area Statement (MtG2)</b></p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Development from period of settlement up to and including the 1920s.
	Allotments, subdivision and built form patterns	Generous allotments dominating the higher slopes, with substantial street and side boundary setbacks.  Smaller allotments on the lower slopes.
	Architectural styles, detailing and built form features	Varied building styles from one street to another.  Grand houses dominating the higher slopes.  On the lower slopes, workman's cottages.  Contemporary housing.
	Building height	Predominantly single storey, with two storey additions within roof space to rear of buildings.
	Materials	Varied building construction and materials reflecting traditional period and style.  Timber workman's cottages.
	Fencing	Original fences constructed of Mount Gambier stone, dolomite, scoria, basalt or flint, limestone retaining walls.  Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building.
	Setting, landscaping, streetscape and public realm features	Characterised by steep topography with generous allotments sizes and well-maintained mature gardens.
	Representative Buildings	Identified - refer to SA planning database.
		<p><b>Railway Historic Area Statement (MtG3)</b></p> <p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>
Eras, themes and context		Transport and associated commercial history of the railyards, industrial.  Development from period of settlement up to and including the 1920s.
Allotments, subdivision and built form patterns		The railway corridor forms one linear allotment, sited between Bay Road to the east and Wehl Street South to the west. Allotments along Margaret Street vary in size, however are predominantly regular in shape. Street frontages vary, however, are generally one of two large sizes. Allotment depth is consistent across Margaret Street. Large allotments range in size.
Architectural styles, detailing and built form	Commercial/industrial in nature. Several buildings have frontage to Margaret Street and the Railway Lands. Railway station with	

Statement#	Statement	
MtG3	features	associated platforms still exists.
	Building height	Varying heights - single up to 3 to 4 storey high buildings dependant on their historical use.
	Materials	Buildings are predominantly constructed from corrugated iron, timber or stone.
	Fencing	Open styles of fencing - for example, timber post and rail; post and wire.
	Setting, landscaping, streetscape and public realm features	<p>Expansive, open nature of the railyards and the remnant buildings and structures associated with its use as a passenger and goods terminal. The commercial and industrial buildings along Margaret Street form a strong industrial streetscape fronting the railway yards.</p> <p>Railway track and other elements including ballast, railway iron fences, telegraph poles, platforms and structures.</p> <p>Use of old railway carriages. Temporary, demountable or movable structures and plantings.</p>
	Representative Buildings	Identified - refer to SA planning database.

MtG4	<b>St Andrews Historic Area Statement (MtG4)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	<p>Institutional and residential.</p> <p>Development from period of settlement up to and including the 1920s.</p>
	Allotments, subdivision and built form patterns	<p>Generally narrow roads with residential buildings exhibiting minimal street set-backs.</p> <p>Large allotments along Elizabeth Street and Penola Road.</p> <p>Allotment sizes ranging from large to small.</p>
	Architectural styles, detailing and built form features	<p>Significant institutional buildings include the Wesley Church and Hall, both of which are State heritage places, and the St Andrews Church and spire, which is a dominant element of the area.</p>
	Building height	<p>Predominantly single storey, with two storey additions within roof space to rear of buildings.</p>
	Materials	<p>Construction and materials reflecting traditional period and style.</p>
Fencing	<p>Original fences constructed of Mount Gambier stone, dolomite, scoria, basalt or flint, limestone retaining walls.</p> <p>Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building.</p>	
Setting, landscaping, streetscape and public realm features	<p>Significant Institutional buildings. Many residences are located at the top of the hill, taking advantage of fine views over the city to the south.</p>	
Representative Buildings	<p>Identified - refer to SA planning database.</p>	

MtG5	<b>Vansittart Park Historic Area Statement (MtG5)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	<p>1880s-1920s.</p>
	Allotments, subdivision and built form patterns	<p>Adjoining the St Andrews Historic Area, the Vansittart Park area contains uniform residential allotments on a grid pattern. There has been a small number of infill type developments in the area to date. However, the area remains predominantly dwellings on large regular shaped allotments. Generally large, consistent frontages. Predominantly large, consistent allotments. The Vansittart Park provides a sporting ground (with associated amenities) and large open garden areas.</p>
	Architectural styles, detailing and built form features	<p>Villa, federation and bungalow style dwellings.</p>
Building height	<p>Predominantly single storey, with two storey additions within roof space to rear of buildings.</p>	
Materials	<p>Construction and materials reflecting traditional period and style.</p>	
Fencing	<p>Original fences constructed of Mount Gambier stone, dolomite, scoria, basalt or flint, limestone retaining walls.</p>	

Statement#	Statement	
		Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building.
	Setting, landscaping, streetscape and public realm features	Well landscaped Vansittart Park and the topography of the area adds interest. Streets are not excessively wide by comparison to other areas of Mount Gambier.
	Representative Buildings	Identified - refer to SA planning database.

MtG6	<b>Wehl Street South Historic Area Statement (MtG6)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	1860s- mid 1920s.
	Allotments, subdivision and built form patterns	<p>Wide roads with large, deep allotments, although east-west roads are generally narrow with buildings set close to the street.</p> <p>Side setbacks are in some cases small.</p>
	Architectural styles, detailing and built form features	<p>Diverse dwelling styles.</p> <p>Larger residences predominantly along Wehl Street South.</p> <p>Smaller stone or timber-clad workman’s cottages close to the railway line.</p> <p>Wehl Street Public School.</p>
	Building height	Predominantly single storey, with two storey additions within roof space to rear of buildings.
	Materials	<p>Stone and timber clad.</p> <p>Construction and materials reflecting traditional period and style.</p>
	Fencing	<p>Original fences constructed of Mount Gambier stone, dolomite, scoria, basalt or flint, limestone retaining walls.</p> <p>Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building.</p>
	Setting, landscaping, streetscape and public realm features	<p>Street set-backs in this area vary considerably, and combined with clusters of historical housing, produce an interesting streetscape.</p> <p>Residential streetscape character, including within commercial areas. Unobtrusive advertising. Front fences and garden landscaping. Car parking located to the rear of buildings.</p>
	Representative Buildings	Identified - refer to SA planning database.

**Historic Areas affecting Rural City of Murray Bridge**

MuBr1	<b>Adelaide Road Pontoon Historic Area Statement (MuBr1)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p> <p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p> <p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Late 19th and early 20th Century.
	Allotments, subdivision and built form patterns	Linear road pattern. Buildings square to the street. Moderate to large allotment sizes.
	Architectural styles, detailing and built form features	Varied built form including stone and brick dwellings with verandahs, Victorian dwellings, larger stone and brick cottages with verandahs.
	Building height	Low scale, single storey built form.
	Materials	Random limestone rubble. Stone and brick. Local limestone. Iron roofs.
	Fencing	Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building.
	Setting, landscaping,	Entrance to the centre of Murray Bridge. Frontages of developments adequately landscaped. Swimming pool complex.

Statement#	Statement	
	streetscape and public realm features	
	Representative Buildings	Identified - refer to SA planning database.

MuBr2	<b>Mannum Road Historic Area Statement (MuBr2)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Late 19th and early 20th Century.
	Allotments, subdivision and built form patterns	Linear road pattern. Buildings square to the street. Moderate to large allotment sizes.
	Architectural styles, detailing and built form features	Varied built form including stone and brick dwellings with verandahs, Victorian dwellings, larger stone and brick cottages with verandahs.
	Building height	Low scale, single storey built form.
	Materials	Random limestone rubble. Stone and brick. Local limestone. Iron roofs.
	Fencing	Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building.
	Setting, landscaping, streetscape and public realm features	Entrance to the centre of Murray Bridge.
	Representative Buildings	Identified - refer to SA planning database.

MuBr3	<b>Swanport Road Historic Area Statement (MuBr3)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	
	<p>The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.</p>	
	Eras, themes and context	Includes land between Mary Terrace and Rachel Street where some of the first subdivisions in Murray Bridge occurred in 1873.
	Allotments, subdivision and built form patterns	Grid like pattern involving a number of narrow lanes and varying street widths. Consistent setback distances to both the front and side of dwellings.
	Architectural styles, detailing and built form features	Dwellings in this locality display a strong repetitive architectural style.
	Building height	Low scale, single storey built form.
	Materials	Random limestone rubble. Stone and brick. Local limestone. Iron roofs.
	Fencing	Front fences forward of the dwelling reflecting the traditional period, style and form of the associated building.
	Setting, landscaping, streetscape and public realm features	Entrance to the centre of Murray Bridge. Larger, well established front gardens.
	Representative Buildings	Identified - refer to SA planning database.

**Historic Areas affecting Naracoorte Lucindale**

	<b>Livingston Street, Naracoorte Historic Area Statement (NaLu1)</b>	
	<p>The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.</p>	
	<p>These attributes have been identified in the below table. In some cases, State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.</p>	

Statement#	Statement	
NALU1	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	1870s to 1890s and turn of the 20 <sup>th</sup> century.
	Allotments, subdivision and built form patterns	Small allotments.
	Architectural styles, detailing and built form features	Single- and double- fronted detached cottages (typically involving two rooms).
	Building height	Single storey.
	Materials	Local stone, fibro-sheet and weatherboard, corrugated iron and patterned sheet metal.
	Fencing	Open fencing predominantly wire and picket style no more than 1.2 metres.
	Setting, landscaping, streetscape and public realm features	Buildings positioned close to street frontages, landscaped front gardens and wide grassed verges.
Representative Buildings	[Not identified]	

**Historic Areas affecting City of Norwood, Payneham and St Peters**

NPSP1	<b>College Park Historic Area Statement (NPSP1)</b>	
	The Historic Area Overlay identifies localities that comprise characteristics of an identifiable historic, economic and / or social theme of recognised importance. They can comprise land divisions, development patterns, built form characteristics and natural features that provide a legible connection to the historic development of a locality.	
	These attributes have been identified in the below table. In some cases State and / or Local Heritage Places within the locality contribute to the attributes of an Historic Area.	
	The preparation of an Historic Impact Statement can assist in determining potential additional attributes of an Historic Area where these are not stated in the below table.	
	Eras, themes and context	Subdivision during the 1870s with dwellings built between 1870s and 1920s. Detached dwellings.
	Allotments, subdivision and built form patterns	Consistent pattern of prestigious single-storey detached dwellings on very large, spacious allotments fronting wide, tree-lined streets. Very low density. Side and rear setbacks providing large separation distances between dwellings.
	Architectural styles, detailing and built form features	Double fronted, symmetrical and asymmetrical dwellings; East Adelaide Investment Company dwellings; Larger villas and mansions; Victorian villas; Edwardian Queen Anne and Art Nouveau.  The double fronted, symmetrical and asymmetrical dwellings in the College Park Policy Area are an elegant larger version of the simple colonial cottage with the addition of a projecting wing (in the case of the asymmetrical dwelling), a more elaborate verandah and increased detailing in plaster and render work around openings. The pitch and size of the roof makes this an important design element. The external walls are generally constructed of bluestone or dressed and coursed sandstone. Verandahs along the front elevation are another important element of both the double fronted symmetrical and asymmetrical dwelling.
	Building height	Single storey, two storey in some locations.
	Materials	External walls made of bluestone or dressed and coursed sandstone. Stone, brick and rendered masonry.  Traditional colours and materials.
	Fencing	Low, open front fencing (including secondary streets to the main façade of building) associated with the traditional period and style of the building up to 1.2m (masonry), 1.5m (wrought iron, timber and wire) and 2m (masonry pillars) in height, allowing views to dwelling.  Timber picket, timber dowelling, masonry and cast iron palisade, or  corrugated iron or mini orb within timber framing for cottages, villas and other dwellings built during the Victorian period; or timber picket, timber paling or woven crimped wire; or corrugated iron or mini orb within timber framing for Edwardian dwellings.  Side and rear fences are in traditional materials, such as timber, corrugated iron or well detailed masonry. Side fences along street corners continue the detailing of the front fence to the house alignment, solid fencing beyond this point in traditional materials.
Setting, landscaping, streetscape and public realm features	Dwellings have sizeable setbacks from all boundaries and are typically set in large landscaped grounds with front boundaries defined by fencing of various styles.  Open landscape character to front garden, which enhances dwelling and streetscape quality.  Wide streets lined with mature trees.	
Representative Buildings	Identified - refer to SA planning database.	

	<b>Hackney North Historic Area Statement (NPSP2)</b>
