Table 2 - Deemed-to-Satisfy Development Classification

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Table 4 -Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop that has a gross leasable floor area less than 1000m ² (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

A class of development listed in Column A is excluded from notification provided that it does not fall within a corresponding exclusion prescribed in Column B. In instances where development falls within multiple classes within Column A, each clause is to be read independently such that if a development is excluded from notification by any clause, it is, for the purposes of notification excluded irrespective of any other clause.

- (c) not less than 8m where no building exists on an adjoining site with the same primary street frontage.

Secondary Street Setback

PO 4.1
Buildings are set back from secondary street boundaries to maintain a pattern of separation between building walls and public thoroughfares and reinforce a streetscape character.

DTS/DPF 4.1
Buildings walls are set back at least 2m from the boundary of the allotment with the secondary street frontage.

Side Boundary Setback

PO 5.1
Buildings are set back from side boundaries to allow maintenance and access around buildings and minimise impacts on adjoining properties.

DTS/DPF 5.1
Building walls are set back from the side boundaries at least 2m.

Rear Boundary Setback

PO 6.1
Buildings are set back from rear boundaries to provide:

- (a) separation between dwellings in a way that complements the established character of the locality
- (b) access to natural light and ventilation for neighbours
- (c) open space recreational opportunities
- (d) space for landscaping and vegetation.

DTS/DPF 6.1

Residential ancillary buildings and structures are sited and designed to not detract from the streetscape or appearance of buildings on the site or neighbouring properties.

DTS/DPF 7.1
Ancillary buildings and structures:

- (a) are ancillary to a dwelling erected on the site
- (b) have a floor area not exceeding
 - (i) 100m² on sites less than 2000m²
 - (ii) 120m² on sites 2000m² or more
- (c) are not constructed, added to or altered so that any part is situated:
 - (i) in front of any part of the building line of the dwelling to which it is ancillary
 - (ii) within 2m of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads)
 - (iii) within 2m of a side boundary
- (d) in the case of a garage or carport, have a primary street setback that is at least as far back as the dwelling
- (e) in the case of a garage or carport, do not exceed 10m or 50% of the site frontage (whichever is the lesser) when facing a primary street or secondary street
- (f) have a wall height or post height not exceeding 4m above natural ground level
- (g) have a roof height where no part of the roof is more than 5m above the natural ground level
- (h) if clad in sheet metal, are pre-colour treated or painted in a non-reflective colour
- (i) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less:
- (i) a total area as determined by the following table:

<150	10%
150-200	15%
201-450	20%
>450	25%

- (ii) the amount of existing soft landscaping prior to the development occurring.

PO 7.2
Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements and do not result in over-development of the site.

DTS/DPF 7.2
Ancillary buildings and structures do not result in:

- (a) less private open space than specified in Design Table 1 - Private Open Space
- (b) less on-site car parking than specified in Transport, Access and Parking Table 1 - 2479

Site Dimensions and Land Division

PO 8.1
 Allotments/sites created for residential purposes are consistent with the density and dimensions expressed in any relevant *Minimum Allotment Size Technical and Numeric Variation* or are of suitable size and dimension to contribute to a pattern of development consistent to the locality and suitable for their intended use.

DTS/DPF 8.1
 Development will not result in more than 1 dwelling on an existing allotment
 or
 Allotments/sites for residential purposes accord with the following:
 (a) where allotments/sites are connected to mains sewer or a Community Wastewater Management System site areas (or allotment areas in the case of land division) are not less than:

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

A class of development listed in Column A is excluded from notification provided that it does not fall within a corresponding exclusion prescribed in Column B. In instances where development falls within multiple classes within Column A, each clause is to be read independently such that if a development is excluded from notification by any clause, it is, for the purposes of notification excluded irrespective of any other clause.

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
None specified	None specified

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

A class of development listed in Column A is excluded from notification provided that it does not fall within a corresponding exclusion prescribed in Column B. In instances where development falls within multiple classes within Column A, each clause is to be read independently such that if a development is excluded from notification by any clause, it is, for the purposes of notification excluded irrespective of any other clause.

 Development is sited and designed to minimise impacts on the natural environment by:

- (a) containing construction and built form within a tightly defined site boundary
- (b) minimising the extent of earthworks.

DTS/DPF 2.2
 None are applicable.

PO 2.3
 Buildings are designed, sited and of a scale to complement the existing built form character and establish a cohesive settlement appearance taking into account:

Building Height

PO 3.1
 Buildings blend with the natural environment and complement the height of nearby buildings, other than where required to be elevated on poles or piers in order to minimise the potential for personal or property damage as a result of inundation.

DTS/DPF 3.1
 Building height (excluding garages, carports and outbuildings) is no greater than:

- (a) the following:

Maximum Building Height (Metres)
Maximum building height is 4.5m
Maximum building height is 8m
Maximum building height is 9m
Maximum building height is 7.5m

Maximum Building Height (Levels)
Maximum building height is 1 level
Maximum building height is 2 levels

- (b) in all other cases (i.e. there are blank fields for both maximum building height (metres) and maximum building height (levels) - 1 building level up to a height of 6m.

In relation to DTS/DPF 3.1, in instances where:

- (c) more than one value is returned in the same field, refer to the *Maximum Building Height (Levels) Technical and Numeric Variation layer* or *Maximum Building Height (Meters) Technical and Numeric Variation layer* in the SA planning database to determine the applicable value relevant to the site of the proposed development
- (d) only one value is returned for DTS/DPF 3.1(a) (i.e. there is one blank field), then the relevant height in metres or building levels applies with no criteria for the other.

Minimum site area is 200 sqm
Minimum site area is 850 sqm

In relation to DTS/DPF 4.1, in instances where:

- (c) more than one value is returned in the same field, refer to the *Minimum Site Area Technical and Numeric Variation* layer in the SA planning database to determine the applicable value relevant to the site of the proposed development
- (d) no value is returned for DTS/DPF 4.1(b) (i.e. there is a blank field), then none are applicable and the relevant development cannot be classified as deemed-to-satisfy unless DTS/DPF 4.1(a) is met.

Concept Plans

PO 5.1

Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.

The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:

Description
Concept Plan 74 - Shelley Beach - Kellidie Bay
Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints

In relation to DTS/DPF 5.1, in instances where:

- (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.
- (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 5.1 is met.

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Land division	Any of the following: <ul style="list-style-type: none"> (a) land division that creates an allotment to accommodate an existing dwelling (b) land division for the purpose of creating a public road or a public reserve (c) land division that is a minor boundary realignment for the purpose of removing an anomaly in the current boundaries with respect to the location of existing buildings or structures and where no additional allotments are created partly or wholly in the zone.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

A class of development listed in Column A is excluded from notification provided that it does not fall within a corresponding exclusion prescribed in Column B. In instances where development falls within multiple classes within Column A, each clause is to be read independently such that if a development is excluded from notification by any clause, it is, for the purposes of notification excluded irrespective of any other clause.

Interface Height	
PO 4.1 Buildings mitigate visual impacts of building massing on residential development within a neighbourhood-type zone.	DTS/DPF 4.1 Buildings are constructed within a building envelope provided by a 45 degree plane measured from a height of 3m above natural ground level at the boundary of an allotment used for residential purposes within a neighbourhood-type zone as shown in the following diagram (except where this boundary is a southern boundary or where this boundary is the primary street boundary):

PO 4.2
 Buildings mitigate overshadowing of residential development within a neighbourhood-type zone.

DTS/DPF 4.2
 Buildings on sites with a southern boundary adjoining an allotment used for residential purposes within a neighbourhood-type zone are constructed within a building envelope provided by a 30 degree plane grading north measured from a height of 3m above natural ground level at the southern boundary, as shown in the following diagram:

 Buildings on an allotment fronting a road that is not a State maintained road, and where land on the opposite side of the road is within a neighbourhood-type zone, provides an orderly transition to the built form scale envisaged in the adjacent zone to complement the streetscape character.

DTS/DPF 4.3
 None are applicable.

Landscaping

PO 5.1
 Landscaping is provided along public roads and thoroughfares and zone boundaries to enhance the visual appearance of development and soften the impact of large buildings when viewed from public spaces and adjacent land outside the zone.

DTS/DPF 5.1
 Other than to accommodate a lawfully existing or authorised driveway or access point or an access point for which consent has been granted as part of an application for the division of land, a landscaped area is provided within the development site (excluding any land required for road widening purposes):

- (a) where a building is set back less than 3m from the street boundary - within the area remaining between a relevant building and the street boundary or
- (b) in accordance with the following:

3m	Along the any boundary on the perimeter of the zone that fronts a public road or thoroughfare.

	3m	Along an arterial or main road frontage within the zone (and not on the perimeter of the zone).													
PO 5.2 Development incorporates areas for landscaping to enhance the overall amenity of the site and locality.	DTS/DPF 5.2 Landscape areas comprise: (a) not less than 10 percent of the site (b) a dimension of at least 1.5m.

Table 2 - Deemed-to-Satisfy Development Classification

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Table 2 - Deemed-to-Satisfy Development Classification

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Table 2 - Deemed-to-Satisfy Development Classification

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

A class of development listed in Column A is excluded from notification provided that it does not fall within a corresponding exclusion prescribed in Column B. In instances where development falls within multiple classes within Column A, each clause is to be read independently such that if a development is excluded from notification by any clause, it is, for the purposes of notification excluded irrespective of any other clause.

PO 3.4
Buildings are set back from primary street boundaries to contribute to a consistent streetscape.

DTS/DPF 3.4
The building line of a building is set back from the primary street frontage:

(a) the average of any existing buildings on either of the adjoining sites having frontage to the same street
or
(b) not less than 6m where no building exists on an adjoining site.

PO 3.5
Buildings are set back from secondary street boundaries (other than rear laneways) to contribute to a consistent streetscape.

DTS/DPF 3.5
Building walls are set back from the secondary street frontage:

(a) the average of any existing buildings on adjoining sites having frontage to the same street
or
(b) not less than 900mm where no building exists on an adjoining site.

PO 3.6
Buildings are set back from side boundaries to maintain adequate separation and ventilation.

DTS/DPF 3.6
Other than walls located on a side boundary, building walls are set back at least 900mm from side boundaries.

PO 3.7
Buildings are set back from rear boundaries to minimise adverse impacts on adjoining land uses.

DTS/DPF 3.7
Building walls are set back from the rear boundary at least 3m.

PO 3.8
Buildings on an allotment fronting a road that is not a State maintained road, and where land on the opposite side of the road is within a neighbourhood-type zone, provides an orderly transition to the built form scale envisaged in the adjacent zone to complement the streetscape character.

DTS/DPF 3.8
None are applicable.

Land Division

PO 4.1
Land division and / or site amalgamation create allotments that vary in size and are suitable for a variety of residential and commercial activities and improve the level of development integration.

DTS/DPF 5.1
Freestanding advertisements:

(a) do not exceed 6m in height
(b) do not have a sign face that exceeds 4m² per side

Concept Plans

PO 6.1

The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:

Description
Concept Plan 3 - Mount Barker and Littlehampton
Concept Plan 92 - Meadows
Concept Plan 91 - Nairne West

In relation to DTS/DPF 6.1, in instances where:

(a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.
(b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 6.1 is met.

Residential ancillary buildings are sited and designed to not detract from the streetscape or appearance of primary residential buildings on the site or neighbouring properties.

Ancillary buildings and structures:

- (a) are ancillary to a dwelling erected on the same site
- (b) have a floor area not exceeding 60m²
- (c) are not constructed, added to or altered so that any part is situated
 - (i) in front of any part of the building line of the dwelling to which it is ancillary or
 - (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads)
- (d) in the case of a garage or carport, the garage or carport:
 - (i) is set back at least 5.5m from the boundary of the primary street
 - (ii) when facing a primary street or secondary street, has a total door / opening not exceeding:
 - A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser
 - B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width
- (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless:
 - (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and
 - (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
- (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary
- (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure
- (h) have a wall height or post height not exceeding 3m above natural ground level
- (i) have a roof height where no part of the roof is more than 5m above the natural ground level
- (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour
- (k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less:
- (i) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

- (ii) the amount of existing soft landscaping prior to the development occurring.

Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements or result in over-development of the site.

Ancillary buildings and structures do not result in:

- (a) less private open space than specified in Design in Urban Areas Table 1 - Private Open Space
- (b) less on-site car parking than specified in Transport, Access and Parking Table 1 - General Off-Street Car Parking Requirements or Table 2 - Off-Street Car Parking Requirements in Designated Areas.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

A class of development listed in Column A is excluded from notification provided that it does not fall within a corresponding exclusion prescribed in Column B. In instances where development falls within multiple classes within Column A, each clause is to be read independently such that if a development is excluded from notification by any clause, it is, for the purposes of notification excluded irrespective of any other clause.

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions':

Class of Development	Exclusions

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.
