Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

A class of development listed in Column A is excluded from notification provided that it does not fall within a corresponding exclusion prescribed in Column B. In instances where development falls within multiple classes within Column A, each clause is to be read independently such that if a development is excluded from notification by any clause, it is, for the purposes of notification excluded irrespective of any other clause.

Assessment Provisions (AP)

Desired Outcome (DO)

Desired Outcome

DO 1	<p>To maintain the western slopes of the South Mount Lofty Ranges as an important natural asset of Greater Adelaide by limiting development to low-intensity agricultural activities and public and private open space. The natural character of the zone will be preserved, enhanced and re-established to:</p> <ul style="list-style-type: none"> (a) provide a natural backdrop to the Adelaide Plain and a contrast to the urban area (b) preserve biodiversity and restore locally indigenous vegetation and fauna habitats close to metropolitan Adelaide (c) provide for passive recreation in an area of natural character close to the metropolitan area (d) provide a part of the buffer area between metropolitan districts and prevent the urban area extending into the western slopes of the Mount Lofty Ranges. <p>'Natural character' refers to the natural topography, native vegetation and colours, such as greens and browns of non-reflective earthen tones, normally associated with a natural landscape. Additionally, natural character refers to the open character of the land in those areas of the zone where open grazing currently predominates.</p>
DO 2	<p>Development ensures that the community is not required to bear the cost of providing services to and within the Zone.</p>

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

A class of development listed in Column A is excluded from notification provided that it does not fall within a corresponding exclusion prescribed in Column B. In instances where development falls within multiple classes within Column A, each clause is to be read independently such that if a development is excluded from notification by any clause, it is, for the purposes of notification excluded irrespective of any other clause.

Class of Development (Column A)	Exceptions (Column B)

Primary Street Setback

PO 5.1
Buildings are set back from primary street boundaries consistent with the existing streetscape.

DTS/DPF 5.1
The building line of a building set back from the primary street boundary:

- (a) at least the average setback to the building line of existing buildings on adjoining sites which face the same primary street (including those buildings that would adjoin the site if not separated by a public road or a vacant allotment)
- (b) where there is only one existing building on adjoining sites which face the same primary street (including those that would adjoin if not separated by a public road or a vacant allotment), not less than the setback to the building line of that building or
- (c) not less than 8m where no building exists on an adjoining site with the same primary street frontage.

Secondary Street Setback

PO 6.1
Buildings are set back from secondary street boundaries to maintain a pattern of separation between buildings and public streets and reinforce streetscape character.

DTS/DPF 6.1
Building walls are set back from the boundary of the allotment with a secondary street frontage:

- (a) no less than:
 - (i) on sites with a site gradient greater than 1-in-8: 1900mm
 - (ii) on sites with a site gradient less than 1-in-8: at least 900mm
- or
- (b) if a dwelling on any adjoining allotment is closer to the secondary street, the distance of that dwelling from the boundary with the secondary street

(being, if relevant, the lesser of the 2 distances).

Boundary Walls

PO 7.1
Boundary walls are limited in height and length to manage impacts on adjoining properties.

DTS/DPF 7.1
Except where the dwelling is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur on only one side boundary and satisfy (a) or (b) below:

- (a) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same or lesser length and height
- (b) side boundary walls do not:
 - (i) exceed 3.2m in height from the lower of the natural or finished ground level
 - (ii) exceed 8m in length
 - (iii) when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary
 - (iv) encroach within 3m of any other existing or proposed boundary walls on the subject land.

PO 7.2
Dwellings in a semi-detached, row or terrace arrangement maintain space between buildings consistent with a low density suburban streetscape character.

DTS/DPF 7.2
Dwelling walls in a semi-detached, row or terrace arrangement are set back from side boundaries shared with allotments outside the development site at least the minimum distance identified in DTS/DPF 8.1.

Side Boundary Setback

 - (i) at least 900mm where the wall is up to 3m measured from the top of the footings
 - (ii) other than for a wall facing a southern side boundary, at least 900mm plus 1/3 of the wall height above 3m measured from the top of the footings
 - (iii) for walls facing a southern side boundary, at least 1900mm plus 1/3 of the wall height above 3m measured from the top of the footings.

Rear Boundary Setback

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

<p>Primary Street Setback</p>														

Buildings are set back from primary street boundaries to contribute to the existing/emerging pattern of street setbacks in the streetscape.

The building line of a building set back from the primary street boundary not less than 3m.

Secondary Street Setback

Buildings are set back from secondary street boundaries to achieve a pattern of separation between building walls and public thoroughfares and to reinforce streetscape character.

Buildings walls are set back at least 900mm from the boundary of the allotment with the secondary street frontage, or if a dwelling on any adjoining allotment is closer to the secondary street than 0.9m, the distance of that dwelling from the boundary with the secondary street (being, if relevant, the lesser of the 2 distances).

Boundary Walls

Dwelling boundary walls are limited in height and length to manage visual and overshadowing impacts on adjoining residential properties.

Except where the dwelling is located on a central site within a row dwelling or terrace arrangement, side boundary walls occur on only one side boundary and satisfy (a) or (b) below:

- (a) side boundary walls adjoin or abut a boundary wall of a building on adjoining land for the same or lesser length and height
- (b) side boundary walls do not:
 - (i) exceed 3m in height from the top of footings
 - (ii) exceed 11.5m in length
 - (iii) when combined with other walls on the boundary of the subject development site, exceed a maximum 45% of the length of the boundary
 - (iv) encroach within 3m of any other existing or proposed boundary walls on the subject land.

Dwellings in a semi-detached, row or terrace arrangements maintain space between buildings consistent with a suburban streetscape character.

Dwelling walls in a semi-detached, row or terrace arrangement are set back at least 900mm from side boundaries shared with allotments outside the development site.

Side Boundary Setback

Buildings walls are set back from side boundaries to provide:

- (a) separation between dwellings in a way that complements the established character of the locality
- (b) access to natural light and ventilation for neighbours.

Other than walls located on a side boundary, building walls are set back from side boundaries:

- (a) at least 900mm for a wall height less than 3m
- (b) at least 900mm plus 1/3 of the wall height above 3m.

Rear Boundary Setback

Dwelling walls are set back from rear boundaries to provide:

- (a) separation between dwellings in a way that complements the established character of the locality
- (b) access to natural light and ventilation for neighbours
- (c) open space recreational opportunities
- (d) space for landscaping and vegetation.

Dwelling walls are set back from the rear boundary at least:

- (a) 3m for the first building level or 0m where the rear boundary abuts a laneway
- (b) 5m for any second building level
- (c) 5m plus any increase in wall height over 7m for buildings of 3 building levels and above..

Concept Plans

Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.

The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant:

Description
Concept Plan 2 - Hurling Drive, Mount Barker
Concept Plan 3 - Mount Barker and Littlehampton
Concept Plan 1 - Hawthorn Road South Mount Barker
Concept Plan 82 - Hackney
Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints
Concept Plan 93 - Noarlunga Centre

In relation to DTS/DPF 9.1, in instances where:

- (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant.
- (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 9.1 is met.

Ancillary buildings and structures

Residential ancillary buildings are sited and designed to not detract from the streetscape or appearance of primary residential buildings on the site or neighbouring properties.

Ancillary buildings:

- (a) are ancillary to a dwelling erected on the same site

- (b) have a floor area not exceeding 60m²
- (c) are not constructed, added to or altered so that any part is situated:
 - (i) in front of any part of the building line of the dwelling to which it is ancillary or
 - (ii) within 900mm of a boundary of the allotment with a secondary street (if the land has boundaries on two or more roads)
- (d) in the case of a garage or carport, the garage or carport:
 - (i) is set back at least 5.5m from the boundary of the primary street
 - (ii) when facing a primary street or secondary street, has a total door / opening not exceeding:
 - A. for dwellings of single building level - 7m in width or 50% of the site frontage, whichever is the lesser
 - B. for dwellings comprising two or more building levels at the building line fronting the same public street - 7m in width
- (e) if situated on a boundary (not being a boundary with a primary street or secondary street), do not exceed a length of 11.5m unless:
 - (i) a longer wall or structure exists on the adjacent site and is situated on the same allotment boundary and
 - (ii) the proposed wall or structure will be built along the same length of boundary as the existing adjacent wall or structure to the same or lesser extent
- (f) if situated on a boundary of the allotment (not being a boundary with a primary street or secondary street), all walls or structures on the boundary will not exceed 45% of the length of that boundary
- (g) will not be located within 3m of any other wall along the same boundary unless on an adjacent site on that boundary there is an existing wall of a building that would be adjacent to or about the proposed wall or structure
- (h) have a wall height (or post height) not exceeding 3m
- (i) have a roof height where no part of the roof is more than 5m above the natural ground level
- (j) if clad in sheet metal, is pre-colour treated or painted in a non-reflective colour
- (k) retains a total area of soft landscaping in accordance with (i) or (ii), whichever is less:
 - (i) a total area as determined by the following table:

Dwelling site area (or in the case of residential flat building or group dwelling(s), average site area) (m ²)	Minimum percentage of site
<150	10%
150-200	15%
201-450	20%
>450	25%

- (ii) the amount of existing soft landscaping prior to the development occurring.

PO 10.2
Ancillary buildings and structures do not impede on-site functional requirements such as private open space provision, car parking requirements or result in over-development of the site.

DTS/DPF 10.2
Ancillary buildings and structures do not result in:

Table 2 - Deemed-to-Satisfy Development Classification

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m ² (b) shop that is a restaurant.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

A class of development listed in Column A is excluded from notification provided that it does not fall within a corresponding exclusion prescribed in Column B. In instances where development falls within multiple classes within Column A, each clause is to be read independently such that if a development is excluded from notification by any clause, it is, for the purposes of notification excluded irrespective of any other clause.

Desired Outcome	
DO 1	The protection, provision, maintenance and expansion of infrastructure services and facilities that support orderly development and vehicular movements.
DO 2	Infrastructure services and facilities manage environmental impacts.

Performance Outcomes (PO) and Deemed-to-Satisfy (DTS) Criteria / Designated Performance Feature (DPF)

Performance Outcome	Deemed-to-Satisfy Criteria / Designated Performance Feature		
Land Use and Intensity			
PO 1.1 Utility and infrastructure facilities and other services support the orderly development of land and assist in managing the impacts on the environment and community.	DTS/DPF 1.1 Development comprises one or more of the following: (a) Electricity substation (b) Landfill, including gas extraction plant and equipment (c) Water treatment and supply (d) Stormwater retention / detention basin (e) Sewerage treatment facility (f) Public service depot (g) Telecommunications facility (h) Waste transfer depot.		
PO 1.2 Development does not hinder the ongoing operation of existing utility and other infrastructure services or jeopardise the expansion of those services to support economic activity and manage impacts on the environment and community.	DTS/DPF 1.2 None are applicable.		
PO 1.3 Development ancillary to utility and other infrastructure services including offices, workshops and the like are undertaken to enhance the operational and maintenance aspects of those services.	DTS/DPF 1.3 None are applicable.		
PO 1.4 Security fencing is located behind landscaping to enhance the appearance of development from adjacent areas, roads and thoroughfares.	DTS/DPF 1.4 None are applicable.		
Fencing			
PO 2.1 Fencing exceeding 2.1m in height is integrated and designed to complement the appearance of land and buildings and does not form a dominant visual feature from adjacent areas, roads and thoroughfares.	DTS/DPF 2.1 Fencing exceeding 2.1m in height: (a) is located behind a façade of an associated building located on the same site or (b) is located behind a landscaped area along relevant street frontages or (c) consists of visually permeable materials with landscaping behind.		
Concept Plans			
PO 3.1 Development is compatible with the outcomes sought by any relevant Concept Plan contained within Part 12 - Concept Plans of the Planning and Design Code to support the orderly development of land through staging of development and provision of infrastructure.	DTS/DPF 3.1 The site of the development is wholly located outside any relevant Concept Plan boundary. The following Concept Plans are relevant: <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: center;">Description</th> </tr> </thead> <tbody> <tr> <td>Concept Plan 81 - Edinburgh Defence Airfield Lighting Constraints</td> </tr> </tbody> </table> In relation to DTS/DPF 3.1, in instances where: (a) one or more Concept Plan is returned, refer to Part 12 - Concept Plans in the Planning and Design Code to determine if a Concept Plan is relevant to the site of the proposed development. Note: multiple concept plans may be relevant. (b) in instances where 'no value' is returned, there is no relevant concept plan and DTS/DPF 3.1 is met. Table 4 -Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

A class of development listed in Column A is excluded from notification provided that it does not fall within a corresponding exclusion prescribed in Column B. In instances where development falls within multiple classes within Column A, each clause is to be read independently such that if a development is excluded from notification by any clause, it is, for the purposes of notification excluded irrespective of any other clause.

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

A class of development listed in Column A is excluded from notification provided that it does not fall within a corresponding exclusion prescribed in Column B. In instances where development falls within multiple classes within Column A, each clause is to be read independently such that if a development is excluded from notification by any clause, it is, for the purposes of notification excluded irrespective of any other clause.

Table 2 - Deemed-to-Satisfy Development Classification

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Table 4 - Restricted Development Classification

The following table identifies Classes of Development that are classified as Restricted subject to any 'Exclusions'.

Class of Development	Exclusions
Shop	Any of the following: (a) shop with a gross leasable floor area less than 1000m ² (b) shop that is a restaurant (c) shop located in an Activity Centre.

Table 5 - Procedural Matters (PM) - Notification

The following table identifies, pursuant to section 107(6) of the *Planning, Development and Infrastructure Act 2016*, classes of performance assessed development that are excluded from notification. The table also identifies any exemptions to the placement of notices when notification is required.

Interpretation

A class of development listed in Column A is excluded from notification provided that it does not fall within a corresponding exclusion prescribed in Column B. In instances where development falls within multiple classes within Column A, each clause is to be read independently such that if a development is excluded from notification by any clause, it is, for the purposes of notification excluded irrespective of any other clause.

Class of Development (Column A)	Exceptions (Column B)

Table 2 - Deemed-to-Satisfy Development Classification

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.

Primary street setback - at least as far back as the building line of the building to which it is ancillary. 8. In the case of a tank made of metal - the tank is pre-colour treated or painted in a non-reflective colour. 9. Does not involve the clearance of native vegetation.

The following table identifies Classes of Development that are classified as Deemed-to-Satisfy Development subject to meeting the 'Deemed-to-Satisfy Development Classification Criteria'. Provisions referred to in the table are Deemed-to-Satisfy Criteria. Where a development comprises more than one Class of Development the relevant criteria will be taken to be the sum of the criteria for each Class of Development.

Table 3 - Applicable Policies for Performance Assessed Development

The following table identifies the policies that are applicable to the assessment of the identified Class of Development. Policies referred to are Performance Outcome policies, and any associated Designated Performance Features. Relevant Desired Outcomes are not listed, but automatically apply in relation to a Performance Assessed Development. Where a development comprises more than one Class of Development the relevant policies will be taken to be the sum of the applicable policies for each Class of Development.
