

Tram Grade Separations Project

Marion Road and Cross Road Level Crossing Removal

Ground investigation activities

The Australian and South Australian governments recently committed \$400 million (50:50) in funding towards removing the level crossings from the Glenelg tram line at Marion Road and Cross Road, Plympton. These works form part of the Tram Grade Separations Project.

As part of the project ground investigation activities are continuing on Glengyle Terrace. These investigations will help further develop an understanding of the underlying soil and groundwater conditions to inform the early planning and design phase, see location map overleaf.

The investigations will be undertaken on Glengyle Terrace, west of Marion Road on **Wednesday, 23 November and Thursday, 24 November 2022, between 7am and 6pm**, weather permitting.

To safely facilitate these works, temporary local detours will be in place along sections of Glengyle Terrace during working hours. Temporary speed restrictions will also apply in the vicinity of the works.

Signage will be in place to alert road users to the changed traffic conditions. Road users, pedestrians and cyclists are advised to take care when travelling through the area.

Access to properties will be maintained at all times throughout the work area, please follow the direction of onsite traffic management.

During works you may notice additional ground and traffic management personnel and equipment within the area. Some noise disturbance can be expected at times while these works are completed, however the work will be managed to minimise disturbance to nearby residents and businesses, as much as practically possible.

We encourage you to register your details with the project team to receive information as it becomes available, see options below.
