

Gawler Rail Electrification Project

Torrens Road and Hawker Street Level Crossings temporary closure

As part of the Gawler Rail Electrification Project, the Department for Infrastructure and Transport (the Department) advises of temporary closures to the Torrens Road and Hawker Street level crossings to undertake essential overhead wiring works between North Adelaide and Ovingham railway stations.

Location: the works will be undertaken within the rail corridor, with both the **Torrens Road and Hawker Street level crossings closed at the same time.**

When: works will be undertaken at night to minimise impact to traffic during peak times, with both crossings closed at the following times:

- Thursday, 28 January 2021, between midnight and 5am
- Friday, 29 January 2021, between midnight and 5am
- Saturday, 30 January 2021, between midnight and 6am
- Sunday 31, January 2021, between midnight and 6am.

Traffic management and detours:

Both level crossings will be **closed to all traffic** when works are occurring. Detours will be in place to direct motorists to alternative routes via Port Road, South Road and Regency Road. Please observe signage, speed restrictions and traffic controllers. Access to residential properties and businesses will be maintained at all times. Pedestrians will be assisted to cross by staff on site (if safe to do so) or directed to the nearest safe crossing point. Please plan ahead, allow extra time and take care when travelling through the area.

What you can expect:

Construction plant and equipment including wiring trucks, elevated working platforms and other construction vehicles will be used on site. As work crews move along the railway line, some noise can be expected from construction machinery. Every effort will be made to minimise disruption to residents and businesses during these works as much as is practically possible.
