

Statutes Amendment (Local Government Review) Act 2021

The following reforms are to commence on 31 August 2023:

- Amendments to the *Local Government Act 1999* to remove the ability for councils to declare rates on the basis of site (unimproved) value.
- Given that it will take some time for affected councils to make this change, this commencement date will enable a smooth transition to the new scheme for the 2024-25 financial year.
